1. DESCRIPTION OF THE PLAN

The following description of the SBL Auto, Inc. 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. General

The Plan, a defined contribution savings plan sponsored by SBL Auto, Inc. (the "Company") pursuant to Section 401(a) and related provisions of the Internal Revenue Code, was established effective January 1, 2000.

The Plan is designed to provide participants with a means to defer a portion of their compensation for retirement and to provide benefits in the event of disability, death, termination, or financial hardship. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), and subsequent laws.

B. Plan administration

The Company is the administrator of the Plan and, as such, carries out the duties imposed by ERISA. The Company has delegated certain responsibilities for the operation and administration of the Plan. Trustee, custodial, and recordkeeping services are provided by Sentry Life Insurance Company. Effective May 1, 2019, the Company changed Trustees to Reliance Trust Company and recordkeeping services to ADP Retirement Services. Certain administrative expenses of the Plan are paid by the Company for the year ended December 31, 2019. Investment fees, which may vary according to the individual funds selected, are paid out of the assets of the Plan. Participants should refer to the prospectus of the individual investment funds for further details on individual investment fees.

C. Eligibility

The Company's employees who are not leased employees, reclassified employees, or non-resident aliens with no U.S. source income become eligible to participate in the Plan on the first day of the month after reaching the age of 21 and completing six months of service as defined by the Plan.

1. DESCRIPTION OF THE PLAN (CONTINUED)

D. Contributions

Participants may elect to contribute through payroll deductions amounts up to 90% of their annual compensation, as defined by the Plan on a tax-deferred basis, up to a maximum amount allowed by the Internal Revenue Code ("IRC"). The maximum allowed deferral amount was $18,500 for 2018 and $19,000 for 2019. Participants age 50 and older could also contribute an additional $6,000 to the Plan for 2018 and 2019. Participants are also allowed to roll over contributions from other qualified employer-sponsored retirement plans. The Company does not allow for employer matching contributions.

Participants direct the investment of all their contributions into various investment options offered by the Plan.

E. Participant accounts

Each participant's account is credited with the participant's contribution, rollovers, and allocation of Plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

F. Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. The Plan interprets a year of service as a period of continuous employment in which a participant reaches 1,000 hours of service.

A participant's interest attributable to any Company contributions plus forfeitures shall vest as follows:

1 Year	20%
2 Years	40%
3 Years	60%
4 Years	80%
5 Years or more	100%

1. DESCRIPTION OF THE PLAN (CONTINUED)

G. Notes receivable from participants

Under the terms of the Plan, participants may borrow from their accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loans are secured by the balance in the participant's account and bear interest at local prevailing rates. The repayment of principal plus interest is generally required by the Plan to be made through payroll deductions over 5 years unless the loan is used for the purchase of a primary residence, for which the loan term may be no more than 30 years. A participant may only have one loan outstanding at any given time. The outstanding notes receivable from participants as of December 31, 2019 and 2018 was $24,761 and $31,526, respectively.

H. Payment of benefits

Distributions and withdrawals are payable upon retirement, termination, financial hardship, disability, or death. If a participant's account balance is equal to or less than $1,000, the balance is distributed immediately in a lump-sum cash payment unless a direct rollover into another qualified benefit plan is requested. Balances between $1,000 and $5,000 will be rolled over to an individual retirement plan designated by the administrator if the participant has not requested a lump-sum cash payment or a direct rollover into another qualified benefit plan. If the account balance is over $5,000, the participant can consent to either a distribution paid in the form of a lump-sum cash payment or a direct rollover into another qualified plan. The participant may also postpone payment to a later date and remain in the Plan as described in the Plan documents.

I. Forfeited accounts

Forfeited accounts are used, at the Company's discretion, for the payment of the Plan's administrative expenses, for the restoration of any participant's forfeited account balance upon reemployment, or to supplement the employer contribution. At December 31, 2019, there were no non-vested forfeitures.

2. SUMMARY OF ACCOUNTING POLICIES

A. Basis of accounting

The financial statements of the Plan are prepared under the modified cash basis method of accounting. This accounting method differs from the accrual method of accounting in that it excludes recognition of dividend and interest income until the cash is actually received. Employer and employee contributions are recorded when received.

2. SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

B. Use of estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

C. Investment valuation and income recognition

The Plan's investments are reported at fair value, with the exception of investment contracts. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

The Plan invests in variable investment offerings through pooled separate accounts, which are unregistered. These pooled separate accounts are divided into investment divisions or sub-accounts, which in turn invest in shares of an underlying mutual fund. Sub-account values are measured in terms of accumulation units ("AU"). The AU of a sub-account are assigned a daily unit value based on that sub-account's net investment factor ("NIF"). The NIF of each sub-account equals the net asset value ("NAV") per share of the underlying fund held in the sub-account at the end of the current valuation day, divided by the NAV per share of the underlying fund held in the sub-account at the end of the prior valuation day, minus any applicable daily mortality and expense risk and administration charges. Purchases and sales of investments are recorded on a trade date basis. Net appreciation includes the Plan's gains on investments bought and sold as well as held during the year.

Investment contracts held by a defined-contribution plan are reported at contract value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. See Note 8 for additional information.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the modified cash basis. Dividends are recorded on the dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

D. Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

2. SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

E. Risk and uncertainties

The Plan invests in various investment options that are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

F. Payment of benefits

Benefits are recorded when paid.

G. Recent accounting pronouncements

FASB issued ASU 2018-13, Fair Value Measurement (Topic 820) which modifies and removes components of the fair value measurement disclosure requirements to improve disclosure effectiveness. ASU 2018-13 is effective for fiscal years beginning after December 15, 2019; early adoption is permitted. Management has elected to early adopt ASU 2018-13 as reflected in Note 7.

3. INCOME TAX STATUS

The Plan has adopted the ADP Automatic Data Processing Prototype 401(k) and Profit Sharing Plan and Reliance Trust Company Trust Agreement. The Internal Revenue Service (IRS) has informed ADP by a letter dated July 8, 2014, that its prototype plan is designed in accordance with applicable sections of the IRC, and that any employer adopting this form of the prototype Plan will be considered to have a plan qualified under applicable sections of the IRC. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and is tax exempt.

4. UNAUDITED INFORMATION CERTIFIED BY THE PLAN CUSTODIAN

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2019 and 2018, and net appreciation in fair value or contract value of investments, interest, and dividends for the year ended December 31, 2019, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Reliance Trust Company (the trustee of the Plan).

5. PARTY-IN-INTEREST TRANSACTIONS

The Plan has included in its investment fund options certain funds managed by Reliance Trust Company, the trustee, or one of its affiliates. As the Plan trustee, these transactions qualify as exempt party-in-interest transactions.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

7. FAIR VALUE MEASUREMENTS

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1). Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available. There are no Plan assets requiring the use of Level 3 inputs for the periods presented.

The Plan management has adopted the provision of ASU 2015-07 which removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value ("NAV") as a practical expedient.

Level 1 Fair Value Measurements
As of December 31, 2019, registered investment companies are stated at fair value. The fair value of mutual funds is based on quoted net asset values of the shares as reported by the fund. The mutual funds held by the Plan are open-end mutual funds registered with the U.S. Securities and Exchange Commission. The funds must publish their daily net asset value and transact at that price. The mutual funds held by the Plan are considered to be actively traded. The fair values of common stocks are based on the closing price reported on the active market where the individual securities are traded.

7. FAIR VALUE MEASUREMENTS (CONTINUED)

As of December 31, 2018, investments in pooled separate accounts are valued at the NAV of shares, as described in Note 2C, held by the Plan at year end. Those pooled separate accounts investing in mutual funds or domestic equity securities are measured using quoted prices in active markets for identical assets. Those pooled separate accounts directly investing in fixed maturity securities are measured based on the pricing data provided by outside valuation service providers who in turn generally use the mean of bid and ask prices but may also use alternative observable pricing inputs for certain securities..

The preceding method described above may produce a fair value calculation that might not be indicative of current or future net realizable value. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

Investments as of December 31, 2019

	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)
Registered Investment Companies	$ 1,652,008	$ 1,652,008

Investments as of December 31, 2018

Pooled separate accounts measured at net asset value	$ 1,238,194

Gains and losses included in changes in net assets available for benefits for the year ended December 31, 2019, are reported in net appreciation in fair value of investments.

The Plan's policy is to recognize transfers between Levels 1 and 2 and into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2019, all investments in pooled separate accounts were transferred to investments in registered investment companies and are now classified as Level 1 due to a change in Plan trustee and underlying investment options.

8. INVESTMENT CONTRACT

The Plan offers the Putnam Stable Value Fund, a fully benefit-responsive investment contract, as an investment option to Plan participants. As of December 31, 2019, the Plan's participants had $414,277 invested in this insurance company contract. The Plan offered the Sentry Life Insurance Company Guaranteed Fund, a fully benefit-responsive investment contract and as of December 31, 2018, the Plan's participants had $631,807 invested in this insurance contract.

The Trustee maintains the contributions in a general account. The account is credited with earnings on the underlying investments charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than zero percent. The crediting rate is reviewed on a monthly basis for resetting. The guaranteed investment contract does not permit the Trustee insurance company to terminate the agreement prior to the schedule maturity date.

This contract meets the fully benefit responsive investment criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by the Trustee, represents contributions made under the contract plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Certain events might limit the ability of the Plan to transact at contract value with the issuer. The Plan Sponsor does not believe that any events that may limit the ability of the Plan to transact at contract value or terminate the contract with the issuer are probable as of December 31, 2019, or the date these financial statements are available to be issued.

9. NON-DISCRIMINATION TESTING

The Plan passed the ACP/ADP test for the year ended December 31, 2019.

10. SUBSEQUENT EVENTS

Subsequent events have been evaluated through October 13, 2020, which is the date the financial statements were available to be issued.

During 2020, the COVID-19 outbreak in the United States has caused business and economic disruption through mandated and voluntary closings of multiple businesses. While the disruption is currently expected to be temporary, there is considerable uncertainty around the duration of the closings and their economic impact. The Plan sponsor is uncertain at this time if this matter will impact the value of the Plan's investments in the coming year.

No other events have been identified that would require adjustment to or disclosure in the attached financial statements.
