Note 1—Description of the Plan

The following description of the Pantropic Power Products, Inc. Savings & Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General – The Plan was established by Pantropic Power Products, Inc. (the "Company" or "Employer") as a profit sharing and 401(k) plan on January 1, 1987. The Plan is subject to the provisions of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA), as amended.

Administration of Plan Assets – The Plan's assets are maintained and administered by the custodian. The Company management has the overall responsibility for the operation and management of the Plan. The Company management determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Eligibility – Full-time employees of the Company who have completed one year of service and are not excluded by certain provisions of the Plan document are eligible to participate in the Plan. The Plan provides for entry dates on January 1st and July 1st following the satisfaction of the eligibility requirements.

Contributions – Under Internal Revenue Code ("IRC") Section 401(k), participants may contribute up to 100% of their compensation, subject to 2019 annual limits of $19,000, and an additional $6,000 for catch-up contribution for participants that are age 50 or older. Participants may also rollover amounts representing distributions from other qualified defined benefit or defined contribution plans. Employer and participant contributions are invested at the direction of the participant in various pooled separate accounts or a guaranteed interest option account. The Employer can make a discretionary matching contribution based on the employee elective contributions and compensation. During 2019 the Employer elected to match 100% of the first 1% of employee eligible compensation and 50% of the next 2% of employee eligible compensation. During 2019, matching contributions were approximately $126,000. Additionally, the Employer may, at its discretion, make profit sharing contributions. During the year ended December 31, 2019, the Company made profit sharing contributions of approximately $58,000.

Participant Accounts – Each participant account is credited with the participant's contributions and allocations of (a) the Company's contribution, (b) Plan earnings, and (c) charged with an allocation of administrative expenses. Plan earnings or losses are allocated based on the participant's elected investments. Allocations are based on either participant compensation or account balances as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeitures – Forfeitures are used to pay administrative expenses or to allocate among participants based on their respective compensation. The Plan had approximately $7,600 and $6,400 of forfeitures available at December 31, 2019 and 2018, respectively. Forfeitures of approximately $6,400 were allocated among participants, as additional employer contributions, during the year ended December 31, 2019.

Note 1—Description of the Plan (continued)

Vesting – If a participant leaves the Company for reasons other than normal retirement, total permanent disability, or death, the participant will be eligible to receive the vested percentage of the balance credited to the participant's account. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service as follows:

Years of Service	Vesting %
1	5%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Participants may have only one loan outstanding at any time. The notes are secured by the balance in the participant's account, and bear interest at prime rates plus 1%. The maximum note repayment period is five years unless the note is for the purchase of a primary residence in which case the repayment schedule may be for a term in excess of five years. Principal and interest are paid ratably through payroll deductions.

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant notes are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits – Upon separation of service due to termination, death, disability, or when the participant attains normal retirement age, a participant or beneficiary may elect to receive a cash distribution equal to their vested account balance, as defined, as a 1) lump-sum payment, 2) monthly annuity payments, or 3) a combination of both.

Related Employers – Two entities that are affiliated to the Company, have profit sharing plans for the benefit of their employees. Eligibility for participation and vesting for each of the plans includes service with the Company, and/or the two affiliates. If a participant terminates his or her employment with the Company, or either of the two affiliates, and is immediately employed by another affiliate, his or her account balance will be transferred to the related plan upon employment. During the year ended December 31, 2019, approximately $71,000 were transferred out to one of the affiliates' plans.

Plan Termination – Although it has not expressed any intent to do so, the Company reserves the right at any time to amend, modify, or terminate the Plan without the consent of any participant or beneficiary subject to the provisions of ERISA. In the event of such termination, the Plan provides that the participants shall become 100% vested in their accounts.

Note 2—Summary of significant accounting policies

Basis of Accounting – The financial statements of the Plan are prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment Valuation and Income Recognition – Investments held by a defined-contribution plan are required to be recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value determinations are made based upon a hierarchy that prioritizes the inputs to valuation techniques. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Three levels of inputs may be used to measure fair value:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for Plan instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy, if applicable. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Pooled Separate Accounts – These investments are public investment vehicles valued using the net asset value ("NAV") provided by the administrator of the fund. The NAV is used as a practical expedient to estimate fair value and is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. These investments measured using the NAV practical expedient are exempt from classification under the fair value hierarchy.

Guaranteed Investment Option – The value at any time will equal contributions and transfers to that option, plus interest, minus withdrawals and transfers out of the option and charges deducted as specified on the contract. The guaranteed investment accounts are not considered fully benefit-responsive and are valued at estimated fair value as determined by AXA Equitable Life Insurance Company, the "custodian" of the Plan. The guaranteed investment option is classified within Level 2 of the valuation hierarchy because its value can be estimated using comparable market data.

The methods described above produce a fair value determination that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 2—Summary of significant accounting policies (continued)

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Benefits Paid to Participants – Benefits are recorded when processed and paid by the Plan.

Administrative Expenses – Certain expenses of the Plan are paid by the Company and are not included in the statement of changes in net assets available for benefits. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Use of Estimates – The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements as well as the reported amounts of changes in net assets during the reporting period. Such estimates include those regarding fair value of investments. Actual results could differ from those estimates.

Note 3—Information certified by the Plan custodian (unaudited)

The following information included in the accompanying financial statements as of December 31, 2019 and 2018, and for the year ended December 31, 2019, and the supplemental schedule as of December 31, 2019, was obtained from data that has been prepared and certified to as complete and accurate by the Plan custodian, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

	December 31,

Note 4—Fair value of investments

The following summarizes the Plan's investments based upon the fair value hierarchy as discussed in Note 2:

	$ -	$ 302,777	$ -	$ 7,342,742	$ 7,645,519

*Amounts are unaudited. See Note 3.

** Certain investments that are measured using the NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

The fair value of the investments in the pooled separate accounts has been estimated using the NAV of the investments. The pooled separate accounts listed in the above charts are redeemed on a daily basis and do not have any redemption restrictions. Additionally, there are no unfunded commitments.

Note 5—Income tax status

The underlying non-standardized profit sharing plan has received a determination letter from the Internal Revenue Service dated March 31, 2014, stating that the written form of the underlying document is qualified under Section 401(a) of the IRC, and that any employer adopting this form of the plan will be considered to have a plan qualified under Section 401(a) of the IRC. Therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The underlying non-standardized profit sharing plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Note 6—Party-in-interest transactions

Plan investments and the related transactions as of December 31, 2019 and 2018, and for the year ended December 31, 2019, were in investment funds managed by the Plan custodian; therefore, these investments and transactions qualify as party-in-interest transactions. Fees paid during the year for accounting and other services rendered by parties-in-interest totaling $6,122 for the year ended December 31, 2019, were based on customary and reasonable rates for such services. Notes receivable from participants are also considered to be party-in-interest transactions because they are transacted with Plan participants.

Note 7—Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8—Subsequent events

Coronavirus Outbreak – During March 2020, an outbreak of a novel strain of coronavirus ("COVID-19") was declared a global pandemic by the World Health Organization. Global financial markets have experienced significant volatility resulting from the spread of COVID-19 which caused a significant depreciation in the Plan's investments. The extent and the impact of COVID-19 on the Plan's net assets available for benefits, contributions, and benefit payments will depend on future developments, including the duration and continued spread of the outbreak.

The Plan's management evaluated subsequent events through October 13, 2020, in connection with the preparation of these financial statements, which is the date that the financial statements were available to be issued. Except for what is described in the preceding paragraph, the Plan's management is not aware of any events that have occurred subsequent to the statements of net assets available for benefits date that would require adjustment to, or disclosure in, the financial statements.
