Independent Auditor's Report

To the Benefits Committee of Duke Energy Corporation and Participants in the Duke Energy Retirement Savings Plan

Report on the Financial Statements

We have audited the accompanying financial statements of the Duke Energy Retirement Savings Plan (the Plan), which comprise the Statements of Net Assets Available for Benefits as of December 31, 2019 and 2018 and the related Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2019, and the related Notes to Financial Statements.

Plan Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America (US GAAP); this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by Plan management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2019 and 2018, and the changes in net assets available for benefits for the year ended December 31, 2019, in accordance with US GAAP.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary information listed in the table of contents is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of Plan management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or the financial statements themselves, and other additional procedures in accordance with US GAAS. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

DUKE ENERGY RETIREMENT SAVINGS PLAN

Notes to Financial Statements

December 31, 2019 and 2018

1. Description of the Plan

The following description of the Duke Energy Retirement Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Participation and Purpose

The Plan is a defined contribution plan sponsored by Duke Energy Corporation (Duke Energy). Duke Energy and each of its affiliated companies that is at least 80 percent owned and that participate in the Plan are collectively referred to as Participating Companies. The Plan is administered by the Duke Energy Benefits Committee (Benefits Committee or Plan Administrator) and trusted by the Fidelity Management Trust Company (Fidelity).

The purpose of the Plan is to provide an opportunity for eligible employees to enhance their long-range financial security through employee contributions, matching contributions and non-elective employer retirement or transition credit contributions, as applicable, from Participating Companies, and investment among certain investment funds, one of which provides indirect ownership in Duke Energy common stock. The Plan is, in part, an employee stock ownership plan and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Generally, employees of a Participating Company are eligible to enter and participate in the Plan if they are paid on the Participating Company's U. S. payroll system and are non-union (unless agreed to in a collective bargaining agreement).

Contributions

Duke Energy automatically enrolls new full or part-time employees eligible for the Plan. The contributions made to the Plan on the employee's behalf will be invested in one or more funds selected in accordance with procedures established by the Plan Administrator. The Company match is invested in the same manner as the employee contributions. If an employee chooses not to participate, Fidelity, the recordkeeper must be contacted by the employee to change the deferral rate to 0 percent.

Participants may elect to contribute (subject to certain limitations) in the form of pretax, Roth 401(k), and/or after-tax contributions up to 75 percent of eligible earnings per pay period without regard to years of service. Various provisions of the Internal Revenue Code of 1986, as amended (IRC) may limit the deferrals of some highly compensated employees. All pretax deferrals are exempt, up to the allowed maximum, from federal and most state income tax withholding in the year they are deferred, but are subject to payroll taxes. Participant deferrals are intended to satisfy the requirements of Section 401(k) of the IRC.

Duke Energy generally matches 100 percent of the first 6 percent of pretax and/or Roth 401(k) contributions from the employee's eligible compensation. A different matching contribution formula may apply to certain groups of employees covered by a collective bargaining agreement. Participant after-tax contributions and matching contributions are intended to satisfy the requirements of Section 401(m) of the IRC. Participating companies also provide a non-elective employer retirement contribution of 4 percent of eligible compensation for employees who are not eligible to participate in a defined benefit plan. These contributions are invested in the same manner as the employee elected contributions. Starting on January 1, 2018, participating companies also make non-elective employer transition credit contributions of 3 percent to 5 percent (based on service as of December 31, 2017) of eligible compensation for certain legacy Piedmont Natural Gas Company, Inc. employees.

Participants age 50 or older by the end of the year may contribute an additional pretax and/or Roth 401(k) contribution amount over and above the IRC limits each year. For 2019, the IRC allowed participants age 50 or older to contribute up to \$6,000 over and above the \$19,000 pretax and/or Roth 401(k) contribution limit. Participating companies do not provide a base company match on these additional contributions.

Rollover Contributions to the Plan

Rollover contributions represent amounts recorded when participants elect to contribute amounts to their Plan accounts from other eligible, tax-qualified retirement plans or qualified individual retirement accounts. Rollover contributions of approximately \$29.7 million were made to the Plan in 2019. An in-plan Roth rollover feature was added to the Plan, effective November 1, 2019.

Investments

Participants may invest their Plan accounts in any or all of the core investment funds offered in the Plan, which include stock, bond, specialty, short-term and target retirement date funds, as well as the Duke Energy Common Stock Fund. The value of an account is updated each business day. As of December 31, 2019, 20 funds were offered for investment.

DUKE ENERGY RETIREMENT SAVINGS PLAN

Notes to Financial Statements

December 31, 2019 and 2018

The Plan offers a brokerage option, BrokerageLink, whereby participants can elect to invest up to 90 percent of their Plan accounts in numerous publicly traded securities (excluding Duke Energy securities) and mutual funds not offered directly by the Plan.

The Plan also offers an investment advisory service (Professional Management) program through the independent investment advice and management services provider, Financial Engines Advisors, LLC. For 2019, participants in the Professional Management program are charged an annual fee of 0.33 percent on their average account balance. Participants may cancel their participation in the Professional Management program at any time without penalty. Online advice is also available at no additional cost to the participant.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions, the Participating Company's contributions, and allocations of Plan earnings and charged with benefit payments, allocations of Plan losses, and administrative expenses. Allocations are based on participant elections and earnings and/or account balances, as defined in the Plan document.

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. The selection from available investment funds is the sole responsibility of each participant, and the Plan is intended to satisfy the requirements of Section 404(c) of ERISA. A participant may elect or change investment funds and/or the contribution allocation percentage among funds at any time.

Vesting and Distribution

A participant is 100 percent vested in their Plan account balance attributable to employee, employer transition credit contributions, and company matching contributions (and earnings on those contributions). Employer retirement contributions and associated investment earnings are subject to a three-year vesting requirement and also vest, if while employed the employee dies, becomes disabled or attains age 65. The Plan provides for several different types of in-service withdrawals for certain contributions, including hardship and age 59 1/2 withdrawals, and withdrawals of rollover and after-tax accounts at any time. Special COVID-19 in-service distribution, loan limits and loan repayment provisions have been adopted by the Plan in 2020, as permitted by the Coronavirus Aid, Relief, and Economic Security (CARES) Act. A hardship distribution must comply with Section 401(k) of the IRC.

Forfeitures

Generally, upon distribution of vested balances following termination of employment, participants' nonvested balances are forfeited. Such forfeitures can be applied to reduce employer contributions or Plan administrative expenses. Forfeitures of \$0.6 million and \$0.4 million were included in the Plan assets at December 31, 2019 and 2018, respectively. In 2019, forfeited nonvested participant balances of \$1.0 million were applied to reduce employer contributions and approximately \$13,000 were used to reduce Plan administrative expenses.

Payment of Benefits

Upon termination of employment, including retirement, death or disability, a participant or, if the participant is deceased, his or her beneficiary, may request the distribution of all or a portion of the balance of the participant's Plan account. Distributions may be made as soon as practicable after the occasion for the distribution, or generally may be delayed until no later than April 1 of the calendar year following the calendar year in which the participant attains age 70 1/2. A beneficiary of a deceased participant may elect that a distribution be delayed for up to five years following the date of death. Through October 31, 2019, distributions were paid as soon as practicable in a lump sum for vested benefits of \$1,000 or less. Effective November 1, 2019, if the balance of a participant's vested account is at least \$1, but \$5,000 or less, it is distributed as soon as practicable. For a participant who has not attained age 69 or a beneficiary, the account balance is transferred to an individual retirement account (IRA) maintained by Millennium Trust Company, unless an election is made.

Notes Receivable from Participants

Participants may borrow, with some limitations, from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of (i) \$50,000 minus the highest outstanding loan balance during the 12-month period prior to the new loan, or (ii) 50 percent of their vested account balances. Loans are to be repaid within 58 months, or up to 15 years for the purchase of a primary residence, through regular payroll deductions (and, following termination of employment, as prescribed by the Benefits Committee). The loan is secured by 50 percent of the balance in the participant's Plan account at the issuance of the loan and bears interest at a rate of 1 percent more than the prime interest rate in effect at the issuance of the loan, as determined by the Benefits Committee. Principal and interest are paid ratably through payroll deductions (and, following termination of employment, as prescribed by the Benefits Committee). Loan receipts will be reinvested based on the participant's investment election for employee contributions at the time of repayment. Special COVID-19 in-service loan limits and loan repayment provisions have been adopted by the Plan in 2020, as permitted by the CARES Act.

Plan Termination

Duke Energy expects and intends to continue the Plan indefinitely but has the right under the Plan to amend, suspend or terminate the Plan subject to the provisions set forth in ERISA. In the event of termination of the Plan, the net assets of the Plan would be distributed to participants based on their Plan accounts.

2. Summary of Significant Accounting Policies**Basis of Accounting**

The accompanying financial statements have been prepared on an accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (US GAAP).

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates. The Plan invests in various securities which are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition

Investments are reported at fair value except for the fully benefit-responsive synthetic guaranteed investment contracts (GICs), which are stated at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements. Contract value represents contributions and reinvested income, less any withdrawals plus accrued interest, because these investments have fully benefit-responsive features. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. See Note 6 for further discussion of fully benefit-responsive investment contracts.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Management fees and operating expenses charged to the Plan for investments were deducted from income earned on a daily basis and were not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits paid to participants are recorded when paid.

Administrative Expenses

A portion of administrative expenses of the Plan are paid by Duke Energy.

Plan Management's Review of Subsequent Events

In preparing the accompanying financial statements, Plan management has reviewed all known events that have occurred after December 31, 2019, and through June 24, 2020, which is the date the financial statements were available to be issued, for inclusion in the financial statements and footnotes and has determined that, except for the matter noted below, no significant events occurred that would have a material impact on the financial statements and footnotes.

The COVID-19 pandemic is having a significant impact on global health and economic environments. In March 2020, the World Health Organization (WHO) declared COVID-19 a global pandemic, and President Trump proclaimed that the COVID-19 outbreak in the United States constitutes a national emergency. The COVID-19 pandemic has not had a material financial impact on the financial statements and footnotes; however, the extent to which the COVID-19 pandemic will impact the Plan during 2020 and beyond is unclear at this time.

3. Exempt Party-in-Interest Transactions (PII)

Fidelity is the Trustee for all Plan investments, as defined by the Plan. Fidelity invests a significant portion of the Duke Energy Common Stock Fund in shares of Duke Energy Common Stock, which qualifies these transactions as PII. BrokerageLink is managed by Fidelity which qualifies them as a PII. These PII transactions are exempt under ERISA.

4. Federal Income Tax Status

The Internal Revenue Service (IRS) has determined and informed Duke Energy by a letter dated March 16, 2015, that the Plan is qualified and the related trust is exempt from federal income tax under the provisions of Section 501(a) of the Internal Revenue Code (IRC) of 1986. The Plan is intended to be tax-qualified under Section 401(a) of the IRC of 1986, as amended. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's legal counsel believe the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and the Plan and the related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. There are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is not currently under audit by any taxing jurisdictions.

5. Investment Risk

Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Further, due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the accompanying Statements of Net Assets Available for Benefits.

The Plan has invested a significant portion of its assets in the Duke Energy Common Stock Fund. This investment in the Duke Energy Common Stock Fund approximates 15 percent and 19 percent of the Plan's net assets available for benefits as of December 31, 2019 and 2018, respectively. As a result of this concentration, any significant fluctuation in the market value of the Duke Energy Common Stock Fund could affect individual participant accounts and the net assets of the Plan.

6. Benefit-Responsive Investments

The Plan has an interest in a Stable Value Fund that has investments in fixed income securities and bond funds and may include derivative instruments, such as futures contracts and swap agreements. The Stable Value Fund also enters into a wrapper contract issued by a third-party.

As described in Note 2, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to these contracts. For indirect investments in fully benefit-responsive investment contracts within collective investment trusts, net asset value per share should be calculated in a manner consistent with the measurement principles of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 946, *Financial Services - Investment Companies* (ASC 946). As required by ASC 946, the net asset value calculated by the fund is based on the net assets, which includes fully benefit-responsive contracts at contract value. This net asset value represents the plan's fair value. As a result, investments are reported on the Statement of Net Assets Available for Benefits at fair value except for the fully benefit-responsive synthetic GICs, which are stated at contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Stable Value Fund's 2019 contract value of \$595.3 million approximates its fair value of \$606.6 million while the Stable Value Fund's 2018 contract value of \$639.5 million approximates its fair value of \$634.0 million.

Occurrence of certain events may limit the ability of the Plan to transact at contract value with the issuer. The Plan administrator does not believe that the occurrence of such an event is probable.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. Such interest rates are reviewed on a quarterly basis for resetting.

As of December 31, 2019, the contract value of the Plan's fully benefit-responsive synthetic GICs within the Stable Value Fund was approximately \$558.9 million. As of December 31, 2018, the contract value of the Plan's fully benefit-responsive synthetic guaranteed contracts within the Stable Value Fund was approximately \$541.8 million.

7. Fair Value Measurements

The FASB ASC 820, *Fair Value Measurements and Disclosures* (ASC 820), defines fair value, establishes a framework for measuring fair value in US GAAP and expands disclosure requirements about fair value measurements. Under ASC 820, fair value is considered to be the exchange price in an orderly transaction between market participants to sell an asset or transfer a liability at the measurement date. The fair value definition under ASC 820 focuses on an exit price, which is the price that would be received by the Plan to sell an asset or paid to transfer a liability versus an entry price, which would be the price paid to acquire an asset or received to assume a liability. Although ASC 820 does not require additional fair value measurements, it applies to other accounting pronouncements that require or permit fair value measurements.

The Plan determines fair value of financial assets and liabilities based on the following fair value hierarchy, as prescribed by ASC 820, which prioritizes the inputs to valuation techniques used to measure fair value into three levels:

Level 1 inputs: Unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access. An active market for the asset or liability is one in which transactions for the asset or liability occurs with sufficient frequency and volume to provide ongoing pricing information.

Level 2 inputs: Inputs other than quoted market prices included in Level 1 that are observable, either directly or indirectly, for the asset or liability. Level 2 inputs include, but are not limited to, quoted prices for similar assets or liabilities in an active market, quoted prices for identical or similar assets or liabilities in markets that are not active and inputs other than quoted market prices that are observable for the asset or liability, such as interest rate curves and yield curves observable at commonly quoted intervals, volatilities, credit risk and default rates.

Level 3 inputs: Unobservable inputs for the asset or liability. Unobservable inputs reflect the Plan's own assumptions about the factors that other market participants would use in pricing an investment that would be based on the best information available in the circumstances.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of the Plan's investments within the fair value hierarchy. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. Transfers between levels are evaluated for their significance based upon the nature of the investments and size of the transfer relative to the net assets available for benefits.

We evaluated the classification of the Stable Value Fund collective investments trusts in consideration of FASB Accounting Standards Update (ASU) 2018-09 *Codification Improvement*. The amendment removes the stable value common collective trust fund from the illustrative example in FASB ASC 962-325-55-17 to avoid the interpretation that such an investment would never have a readily determinable fair value. As a result of our evaluation, the Stable Value Fund collective investments trusts has been reclassified to Level 1 from investments measured at net asset value because the fair value of the Stable Value Fund collective investments trusts is readily determinable.

Notes to Financial Statements

December 31, 2019 and 2018

The following table provides by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019 (in thousands):

Description	2019	
	Total Level 1	Total
BrokerageLink	\$ 671,799	\$ 671,799
Stable Value Fund - collective investment trusts	36,437	36,437
Investments measured at net asset value:		
Duke Energy Common Stock Fund		1,412,099
Institutional funds		6,360,645
Total investments at fair value	\$	8,480,980

The following table provides by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018 (in thousands):

Description	2018	
	Total Level 1	Total
BrokerageLink	\$ 581,768	\$ 581,768
Stable Value Fund - collective investment trusts	97,732	97,732
Investments measured at net asset value:		
Duke Energy Common Stock Fund		1,518,353
Institutional funds		5,284,610
Total investments at fair value	\$	7,482,463

Valuation methods of the primary fair value measurements disclosed above are as follows. There have been no changes in the methodologies used at December 31, 2019 or 2018.

Common Stock Fund: Valued at the closing price in the principal active market on which the securities are traded. Principal active markets include published exchanges such as National Association of Securities Dealers Automated Quotations (NASDAQ), New York Stock Exchange (NYSE), New York Mercantile Exchange (NYMEX) and Chicago Board of Trade, as well as pink sheets, which is an electronic quotation system that displays quotes for broker-dealers for many over-the-counter securities. The Plans' investments in common stock within the BrokerageLink account are valued using Level 1 measurements.

The Duke Energy Common Stock Fund is comprised of common stock as well as cash and cash equivalents. The value of a unit reflects the combined market value of the underlying stock and market value of the short-term cash position. The market value of the common stock portion of the fund is based on the closing market price of the common stock on the NYSE times the number of shares held in the fund. The market value of the cash and cash equivalents is based on the net asset value of shares held in the Fidelity Institutional Money Market Treasury Portfolio Class I.

Institutional funds: The fair value of these investments has been estimated using the net asset value of units held by the Plan at year end. Net asset value is not a publicly-quoted price in an active market. There are currently no redemption restrictions or redemption notice period, and the redemption frequency was immediate for these funds.

Commingled funds: Valued at the net asset value of shares held by the Plan at year end.

Stable Value Fund: The Plan's investment in the Stable Value Fund's collective investment trusts are valued using Level 1 measurements. Investments in the Stable Value Fund collective investment trusts are based on the underlying unit value reported by the Wells Fargo/BlackRock Short Term Investment Fund S. The Plan does not allow for direct exchanges from the Stable Value Fund to the BrokerageLink account. Exchanges from the Stable Value Fund must be made first with another Plan fund and held by that Plan fund for at least 90 days before an exchange can occur with the BrokerageLink account.

DUKE ENERGY RETIREMENT SAVINGS PLAN
Notes to Financial Statements
December 31, 2019 and 2018

8. Plan Changes

Effective as of January 1, 2018, the Plan was amended to reflect Florida bargaining changes (i.e., employees hired or rehired on or after January 1, 2018 are eligible for employer retirement contributions), add employer transition credit contributions for certain Piedmont Natural Gas Company, Inc. employees, clarify the amounts eligible for hardship withdrawal and set forth the use of forfeitures.

Effective as of April 1, 2018, the Plan was amended to modify the disability claims procedures.

Effective as of August 30, 2018, the Plan was amended to fully vest certain employees of the tax department who terminated employment in connection with the Ernst & Young master services agreement.

Effective as of January 1, 2019, the Plan was amended to modify the hardship withdrawal rules to address IRS regulations, including (i) eliminating the requirement to first obtain all nontaxable loans, (ii) permitting earnings on before-tax and Roth contributions to be withdrawn, (iii) expanding eligibility for casualty loss withdrawals, and (iv) eliminating 6-month suspension from making elective contributions.

Effective as of January 1, 2019, the Plan was amended to (i) clarify the treatment of back pay for employees who are reinstated pursuant to Duke Energy's Employee Recourse Policy or in accordance with a grievance settlement or arbitration/judicial settlement, (ii) modify the nondiscrimination testing provisions for collective bargaining employees, (iii) modify the correction ordering rule when IRS maximum benefits are exceeded, and (iv) modify the minimum required distribution provisions for beneficiaries.

Effective as of January 2, 2019, the Plan was amended to permit the hardship withdrawal of amounts attributable to qualified non-elective contributions (QNECs).

Effective as of February 1, 2019, the Plan was amended to permit hardship withdrawal of amounts attributable to employer matching contributions, deferred profit sharing contributions, and Roth basic contributions.

Effective as of November 1, 2019, the Plan was amended to (i) add in-plan Roth rollover contributions, (ii) increase the small amount cash-out to \$5,000 and (iii) revise the provisions regarding unclaimed benefits.

Effective as of January 1, 2020, the Plan was amended to update the hardship withdrawal provisions in light of final IRS regulations.
