Notes to Financial Statements

For the Years Ended December 31, 2019 and 2018

1. Description of Plan

The following description of MBB Auto LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of MBB Auto LLC and its Affiliates (the "Company") who have one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Partial Plan Merger

During 2019, the Company acquired two additional entities with their own defined contribution plan (Penske Autogroup). The participants of Penske Autogroup were given the opportunity to join the Plan or remain with their existing plan. In total, twenty-eight participants with loan balances representing notes receivable from participants from the Penske Autogroup were merged into the Plan in 2019 totaling $393,733. Additionally, the Plan received $4,118,405 in rollovers with balances from participants merged into the Plan from the Penske Autogroup plan during 2019, of which, $3,067,515 of balances were from the twenty-eight participants with notes receivable balances.

Contributions

For 2019 and 2018, participants could contribute up to $19,000 and $18,500, respectively, or 100 percent of pre-tax annual compensation, as defined in the Plan. Participants may modify salary deferrals quarterly.

Elective deferrals cannot exceed the dollar limitations contained in Internal Revenue Code Section 402 (g) in effect for such taxable year.

Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions up to $6,000. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may change their investment options daily. The Company may make discretionary matching contributions to the Plan equal to a percentage of each participant's defined compensation, the exact percentage to be determined each year by the employer. Additionally, the Company may make a profit-sharing contribution as of the end of the year based upon profits up to a maximum of $3,000 per employee.

Investment Options

Participants direct the investment of their contribution into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of the Company's contribution and Plan earnings (losses) and charged with an allocation of administrative expenses. Allocations are based on participant's earnings or account balances, as defined. Forfeited

balances of terminated participants' non-vested accounts are used to reduce future Company contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their balance, dependent upon the value of the vested account balance. If the vested account balance is over $100,000, a participant can borrow up to $50,000. If the vested account balance is less than $100,000, a participant can borrow up to 50% of the balance. The minimum loan allowed is $1,000. Loan transactions are treated as a transfer from the investment fund to the participants' loan fund. The loans bear interest at the prime interest rate plus 1%, which range from 3.25% to 6.5% on notes outstanding at December 31, 2019 and 2018. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to termination of employment, death, disability or retirement, a participant may elect either of the following forms of payment: (1) a lump sum distribution equal to the value of the participant's vested interest in his or her account, or (2) a qualified joint and 50% survivor annuity. However, if the participant's account is not more than $5,000, the benefits will be distributed in a single payment of cash.

Forfeitures

Amounts forfeited for each year are used to reduce the Company's contributions. The Company used $10,720 and $5,730 of forfeitures to reduce the Company's non-elective employer contributions for the Plan years ended December 31, 2019 and 2018, respectively.

Administrative Expenses

The Plan Sponsor absorbs the administrative costs of the Plan.

2. Summary of Significant of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared under the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may

differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid accrued interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account are included in administrative expenses when incurred. As of December 31, 2019 and 2018, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the Plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the term of the Plan document.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payments of Benefits

Benefits are recorded when paid.

Recent Accounting Pronouncements

In August 2018, the FASB issued Accounting Standards Update No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement*, or ASU 2018-13. The amendments in ASU 2018-13 eliminate disclosures regarding amount and reasons for transfers between Level 1 and Level 2 of the fair value framework and add certain disclosures for recurring Level 3 fair value measurements. The amendments are effective for fiscal years beginning after December 15, 2019, with early adoption permitted. We adopted the provisions of this guidance retrospectively in 2018, with no impact on the Plan's financial statements and disclosures.

3. Unaudited Information Certified by the Plan Trustee

The December 31, 2019 and 2018, Statements of Net Assets Available for Benefits, the investment activities included on the Statements of Changes in Net Assets Available for Benefits for the year then ended, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by Reliance Trust Company (the "Trustee") in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Disclosure under the Employee Retirement Income Security Act of 1974. The information certified for the years ended December 31, 2019 and 2018 includes total investments of $22,368,255 and $13,531,052, respectively, and related total investment income (loss) of $3,804,302 and $(834,011), respectively.

4. Fair Value Measurements and Investments

FASB ASC Topic 820, Fair Value Measurements, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access, at the measurement date.
Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability through corroboration with market data at the measurement date.
Level 3: Unobservable inputs that reflect management's best estimate of what participants would use in pricing the asset or liability at the measurement date.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used or assets measured at fair value:

Registered investment companies

These investments are valued at the daily closing price as reported by the fund. Registered investment companies (mutual funds) held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission ("SEC"). The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust funds

Investments in common collective trusts are valued based on NAV's reported by the Trustee of the funds which are based on the value of the underlying assets owned by the fund, minus its liabilities and then divided by number of shares outstanding. The NAV is used as a practical expedient to estimate fair value

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The fair values of receivables approximate their carrying values.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

Notes to Financial Statements

For the Years Ended December 31, 2019 and 2018

December 31, 2019	Total	Fair Value Measurements at Reporting Date Using: Level 1	Level 2	Level 3
Registered Investment Companies	$ 16,471,005	$ 16,471,005	$ -	$ -
Investments at NAV*	5,897,250	-	-	-
Total investments	$ 22,368,255	$ 16,471,005	$ -	$ -

December 31, 2018	Total	Fair Value Measurements at Reporting Date Using: Level 1	Level 2	Level 3
Registered Investment Companies	$ 9,075,650	$ 9,075,650	$ -	$ -
Investments at NAV*	4,455,402	-	-	-
Total investments	$ 13,531,052	$ 9,075,650	$ -	$ -

*The investments in common collective trust funds are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient and have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the fair value of the Plan's assets at the end of each respective year.

The following table summarizes investments measured at fair value based on net asset value per share as of December 31, 2019 and 2018, respectively.

December 31, 2019 Investment	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common collective trust funds	$ 5,897,250	None	Daily	None

December 31, 2018 Investment	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common collective trust funds	$ 4,455,402	None	Daily	None

5. Plan Termination

Although it has not expressed any interest to do so, the Company has the right under the Plan to discontinue its contribution at any time and to terminate the Plan, subject to the provision of ERISA. In

the event of Plan termination, participants will become 100 percent vested in their accounts.

6. Tax Status

The plan administrator has adopted an IRS pre-approved prototype plan of ADP, LLC, which is the Company's payroll service provider. On July 16, 2014, ADP, LLC obtained a letter in which the IRS stated its opinion that the form of the pre-approved prototype plan of ADP, LLC is acceptable under Section 401 of the Internal Revenue Code ("IRC") for use by employers for the benefit of their employees. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.

8. Subsequent Events

The Plan's management has evaluated subsequent events through October 7, 2020, the date the financial statements were available to be issued.

On March 11, 2020, the World Health Organization declared the outbreak of a novel coronavirus disease ("COVID-19") as a pandemic. The pandemic had an unfavorable impact on the Company's businesses, financial condition, and results of operations in 2020. Due to the COVID-19 pandemic, the value of the Plan's investments has been subject to significant volatility. As a result of the uncertainties surrounding COVID-19, the impact on the Plan's financial statements cannot be reasonably estimated at this time.

The Coronavirus Aid, Relief, and Economic Security Act ("CARES Act") was signed into law on March 27, 2020. Effective April 5, 2020, the Plan adopted the applicable provisions of the CARES Act. As a result of the CARES Act, qualifying participants may take a loan up to $100,000 or 100% of the participant's vested balance, whichever is less, until September 22, 2020. Further, repayment on existing loans due through the end of 2020 may be delayed one year. The CARES Act also permits participants to take a distribution of $100,000 or 100% of their vested balance, whichever is less, until December 31, 2020. Eligible participants who receive a distribution under the CARES Act will not be subject to the standard early withdrawal penalty that generally applies to participants under the age of 59½. The full impact of the CARES Act is unknown at this time.
