Notes to the Financial Statements
December 31, 2019 and 2018

Note 1 Description of Plan

The following description of The Metropolitan Companies, Inc. 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of The Metropolitan Companies, Inc. and certain affiliates (collectively the "Sponsor"). There are no age or service requirements. Employees become eligible to participate on their date of hire. Effective July 17, 2019, employees must have one year of service to participate in the Plan, however employees subject to the McNamara-O'Hara Service Contract Act are eligible to participate immediately. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). Substantially all of the Plan's costs are absorbed by the Sponsor.

Contributions

Each year, participants may contribute up to Internal Revenue Service dollar limitations as defined in the Plan. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers nineteen mutual funds and a money market account as investment options. The Sponsor may make a discretionary matching contribution equal to a uniform percentage of salary deferrals that the participants have contributed. No discretionary contributions were made for the years ended December 31, 2019 and 2018. Contributions are subject to certain limitations.

The Company includes a prevailing wage contribution to the Plan for employees subject to the McNamara-O'Hara Service Contract. The prevailing wage contribution is made if the participant is not enrolled in the Employer's Health and Welfare Plan. If the participant is enrolled in the Employer's Health and Welfare Plan, then a prevailing wage contribution shall be made only to the extent that amounts remain after first offsetting the Employer's: (1) payment of premiums for the participant's insurance under the Employer's Health & Welfare Plan and (2) payments, if any, that are necessary to maintain three months of reserves in the participant's account in the Employer's Health & Welfare Plan. This contribution is 100% vested. Contributions made in connection with the prevailing wage contract were $1,689,134 and $1,557,699 for the years ended December 31, 2019 and 2018, respectively.

Participant's Individual Accounts

Each participant's account is credited with the participant's contribution, prevailing wage contribution (if applicable), Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 Description of Plan (Continued)

Vesting

Participants are immediately vested in their contribution, prevailing wage contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account is based on years of continuous service. A participant is 100% vested after five years of continuous service.

Payment of Benefits

On termination of service or upon reaching normal retirement age, a participant or beneficiary, at their discretion, will receive either a lump-sum amount equal to the value of the participant's vested interest in their account, or installments over a period of not more than their assumed life expectancy, as determined at the time of distribution. Financial hardship withdrawals are permitted pending submission of verification to the Plan Administrator warranting the financial hardship.

Funding Policy

The Company remits employee deferral contributions to the Plan on a weekly basis. Prevailing wage contributions are made monthly.

Forfeited Accounts

Unvested portions of forfeited accounts shall be allocated in the same proportion as Company profit sharing contributions. Unallocated forfeitures was $71 and $70 at December 31, 2019 and 2018, respectively.

Note 2 Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America except for benefit payments which are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 2 Summary of Significant Accounting Policies - Continued

Contributions

Participant contributions are recorded when the Company makes payroll deductions from eligible Plan participants. Prevailing wage contributions are accrued in the period in which they become obligations of the Company.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to investment management services are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Note 3 Fair Value Measurements

Accounting Standards Codification ("ASC") Topic 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and establishes a three-tier hierarchy that is used to identify assets and liabilities measured at fair value. The three levels defined in ASC Topic 820 are described as follows:

Level 1	Observable inputs based upon quoted market prices for identical assets or liabilities within active markets.
Level 2	Observable inputs other than Level 1 that are based upon quoted market prices for similar assets or liabilities, based upon quoted prices within inactive markets, or inputs other than quoted market prices that are observable through market data for substantially the full term of the asset or liability.
Level 3	Inputs that are unobservable for the particular asset or liability due to little or no activity and significant to the fair value of the asset or liability.

ACS Topic 820 requires the Plan to describe the methodologies used to measure the fair value of assets and liabilities. These methodologies were consistently applied to all assets and liabilities carried by the Plan as of December 31, 2019 and 2018.

Mutual Funds: Valued at the total market value of the underlying assets based on published market prices as of the close of the last day of the plan year. These values represent the net asset values of the shares held by the Plan and are classified within Level 1 of the valuation hierarchy.

Money Market Account: This investment is comparable to a cash equivalent. Investments are liquid and credited with a current interest rate. These assets are classified within Level 1 of the valuation hierarchy.

Note 3 Fair Value Measurements - Continued

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

	Fair Value Measurements Using: Quoted Prices in Active Markets for Identical Assets
December 31, 2019	Level 1
Investments, at fair value:	
Mutual Funds	$ 7,015,969
Money Market Account	7,525,109
Total Assets at Fair Value	$ 14,541,078

December 31, 2018	Level 1
Investments, at fair value:	
Mutual Funds	$ 5,478,368
Money Market Account	6,339,808
Total Assets at Fair Value	$ 11,818,176

Note 4 Information Prepared and Certified by Trustee

The following information, included in the accompanying financial statements and supplemental schedule, was obtained from data that has been prepared and certified to as complete and accurate by the Massachusetts Mutual Life Insurance Company, the trustee of the Plan, as of and for the year ending December 31:

	2019	2018
Investments, at Fair Value	$ 14,541,078	$ 11,818,176
Investment Income (Loss)	$ 1,439,346	$ (438,985)

Note 5 Related-Party Transactions

Plan investments are shares of mutual funds and a money market account managed by the Trustee of the Plan. Transactions involving these investments are considered party-in-interest transactions. These transactions are not, however, considered prohibited transactions under 29 CFR 408(b) of the ERISA regulations.

Note 6 Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, participants will be 100% vested in their accounts.

Note 7 Tax Status

The Plan Sponsor has adopted a prototype plan, in which the IRS has stated that the restated prototype plan document was in compliance with applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently being operated in accordance with the IRC requirements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by federal, state and/or local taxing authorities. Plan Management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019 and 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for the years prior to 2016.

Note 8 Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

Note 9 Subsequent Events

Management has evaluated subsequent events for disclosure and/or recognition in the financial statements through the date that the financial statements were available to be issued.

In January, 2020, Congress passed the Setting Every Community Up for Retirement Enhancement Act of 2019 that contained the largest package of retirement system reform in over a decade. Many of the provisions of the SECURE Act are effective on January 1, 2020 and will require changes to plan administration and recordkeeping.

The extent of the impact of the COVID-19 outbreak on the financial performance of a plan's investments will depend on future developments, including the duration and severity of the outbreak and its impact on the financial markets and the overall economy, all of which are highly uncertain and cannot be predicted. If the financial markets and/or the overall economy are impacted for an extended period, the Plan's investment results may be materially adversely affected.

A prolonged widespread epidemic could adversely impact global economies and financial markets resulting in an economic downturn that may disrupt the demand for a plan sponsors goods and/or services. Such disruptions could adversely affect plan sponsor profitability, cash flows, financial results, and the ability to make required plan contributions.

Fee and Compensation Disclosure Report

Please refer to the plan's ERISA Section 408(b)(2) Disclosure materials, including the 408(b)(2) Disclosure Statement(s), Investment Option Disclosure(s), Service Agreement and Contract Amendments and 408(b)(2) Disclosure Statement Change Notices (the "408(b)(2) Disclosure Materials") previously delivered to you. You can also access copies of your 408(b)(2) Disclosure Materials through your MassMutual plan sponsor portal or you can contact your account manager for assistance.

The 408(b)(2) Disclosure Materials and this document, together, can assist a plan administrator ("you") in completing the Form 5500 Schedule C[1] by identifying different types of services and the different types of compensation paid with respect to the product utilized by your plan.

As permitted under the Schedule C rules, compensation is disclosed in the attached report as an actual dollar amount, an estimate or a formula or rate.

- Where an actual dollar amount of compensation is disclosed, no further notation regarding compensation calculations is generally provided.
- Where an estimate of the compensation amount is disclosed, we have used a reasonable method to arrive at the estimate and we have described the method used to arrive at the estimated amount.
- Where a formula or rate is provided to report compensation, we have used a reasonable method to arrive at the estimate and we have described the method used to arrive at the estimated amount. This formula or rate may be disclosed to describe the compensation to which it applies under the Schedule C rules. Alternatively, for purposes of Schedule C disclosure or in connection with your fiduciary review of the compensation paid with respect to the services, products and investment options utilized by the plan, you may calculate and disclose an actual or estimated dollar amount by multiplying the rate by the total assets to which it applies.

Please note that, unless otherwise indicated in the descriptions contained in this report, direct compensation is presented on a plan year basis 01/01/2019 - 12/31/2019 and indirect compensation is presented on a calendar year basis ending 12/31/2019.

This report includes compensation actually paid to or by MassMutual within the indicated plan year as part of your MassMutual-serviced product. *(Note: If the plan year period or plan year end indicated in this Schedule C reporting package is incorrect, please notify your MassMutual customer service representative immediately).* This report does not include amounts deducted from plan assets and paid to third parties (other than MassMutual). In addition, the report does not include compensation related to investments held by the plan that are not serviced on our recordkeeping system. You should contact your other service providers for reportable compensation information. You may also receive information on the compensation reported here from other service providers as is described below.

Please note that we have provided suggested service codes (based on the information in our records) with respect to services provided through our product. Please review all Schedule C and other Form 5500 materials with your experienced benefits counsel and other professionals to determine the most appropriate codes for your plan. In addition, please note that because plans with fewer than 100 participants (as of the beginning of the plan year) are generally not required to file Schedule C, you should refer to the instructions provided by the IRS for Schedule C and/or review the applicability of Schedule C to your plan with your experienced tax/benefits counsel, to determine whether it is necessary for the plan to report the information contemplated by this report.

Please contact your MassMutual Service Team should you require additional information regarding the compensation paid to or by MassMutual with respect to your plan.

****

Information provided in this document and related materials we provide are not intended to be and shall not be deemed tax advice, tax form preparation services, legal advice, advice to plans regarding compliance with ERISA reporting compliance, or accounting or other professional services. As described above, the information contained in this report may not cover all of the compensation received by the plan's service providers. We strongly encourage you to review all Schedule C and other Form 5500 materials with experienced benefits counsel and other professionals.

[1]Please refer to the Schedule C of the Form 5500 and its instructions (available at: http://www.dol.gov/ebsa/5500main.html), and please confer with experienced benefits counsel and other professionals, to determine the applicability of Schedule C to your plan.

Please review the detailed breakdown at the end of the report for further information.

Indirect Compensation

Float compensation **$114.87**

Bank accounts and investments associated with short-term investment pool

This is an estimate based on the annual average rate of float (0.399% for 2019) earned on the bank accounts and investments associated with the short-term investment pool for the 2019 calendar year multiplied by an estimate of the assets related to uncashed checks.* This estimate does not include float earned for any other reason (e.g., if amounts remitted cannot be immediately invested because they are not in good order). Please review or request a copy of the current float disclosure for more information about the other circumstances in which float is earned.

* A complete listing of distribution checks that remain outstanding for your plan is available on the Retirement Plan Access web site under the Standard Reports section (Report R03998-Outstanding Distribution Checks). Uncashed check assets will continue to remain in a float-earning bank account until such time direction is received from the Plan Sponsor, subject to applicable regulation. The Plan Sponsor should consult with the Plan's/Plan Sponsor's tax advisor or benefits counsel to determine if assets attributable to uncashed checks should be included on the Form 5500 filing.

Non Monetary Compensation

Under the variable investment options available through your plan's group annuity contract or funding agreement, contract values are invested in insurance company separate accounts that, in turn, invest in underlying registered investment companies (i.e., mutual funds) and collective investment funds.

The above list includes any investment option held by the plan on at least one month end during the 2019 calendar year. To arrive at an estimate of the dollar amount that MassMutual received from each investment option, multiply the rate of fees received from each investment option by your plan's year-end balance (or if the investment option was liquidated prior to year end, the balance on the liquidation date) and, if applicable, the per participant fee by the number of participants in the investment option at year end (or the liquidation date if earlier). This will be an estimate because your plan's balance and number of participants will vary over the course of the year, so the year-end balance and number of participants may be higher or lower than the daily balance. In addition, these fees are calculated on a daily basis.

Notes to the Financial Statements
December 31, 2019 and 2018

Note 1 Description of Plan

The following description of The Metropolitan Companies, Inc. 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of The Metropolitan Companies, Inc. and certain affiliates (collectively the "Sponsor"). There are no age or service requirements. Employees become eligible to participate on their date of hire. Effective July 17, 2019, employees must have one year of service to participate in the Plan, however employees subject to the McNamara-O'Hara Service Contract Act are eligible to participate immediately. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). Substantially all of the Plan's costs are absorbed by the Sponsor.

Contributions

Each year, participants may contribute up to Internal Revenue Service dollar limitations as defined in the Plan. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers nineteen mutual funds and a money market account as investment options. The Sponsor may make a discretionary matching contribution equal to a uniform percentage of salary deferrals that the participants have contributed. No discretionary contributions were made for the years ended December 31, 2019 and 2018. Contributions are subject to certain limitations.

The Company includes a prevailing wage contribution to the Plan for employees subject to the McNamara-O'Hara Service Contract. The prevailing wage contribution is made if the participant is not enrolled in the Employer's Health and Welfare Plan. If the participant is enrolled in the Employer's Health and Welfare Plan, then a prevailing wage contribution shall be made only to the extent that amounts remain after first offsetting the Employer's: (1) payment of premiums for the participant's insurance under the Employer's Health & Welfare Plan and (2) payments, if any, that are necessary to maintain three months of reserves in the participant's account in the Employer's Health & Welfare Plan. This contribution is 100% vested. Contributions made in connection with the prevailing wage contract were $1,689,134 and $1,557,699 for the years ended December 31, 2019 and 2018, respectively.

Participant's Individual Accounts

Each participant's account is credited with the participant's contribution, prevailing wage contribution (if applicable), Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 Description of Plan (Continued)

Vesting

Participants are immediately vested in their contribution, prevailing wage contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account is based on years of continuous service. A participant is 100% vested after five years of continuous service.

Payment of Benefits

On termination of service or upon reaching normal retirement age, a participant or beneficiary, at their discretion, will receive either a lump-sum amount equal to the value of the participant's vested interest in their account, or installments over a period of not more than their assumed life expectancy, as determined at the time of distribution. Financial hardship withdrawals are permitted pending submission of verification to the Plan Administrator warranting the financial hardship.

Funding Policy

The Company remits employee deferral contributions to the Plan on a weekly basis. Prevailing wage contributions are made monthly.

Forfeited Accounts

Unvested portions of forfeited accounts shall be allocated in the same proportion as Company profit sharing contributions. Unallocated forfeitures was $71 and $70 at December 31, 2019 and 2018, respectively.

Note 2 Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America except for benefit payments which are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 2 Summary of Significant Accounting Policies - Continued

Contributions

Participant contributions are recorded when the Company makes payroll deductions from eligible Plan participants. Prevailing wage contributions are accrued in the period in which they become obligations of the Company.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to investment management services are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Note 3 Fair Value Measurements

Accounting Standards Codification ("ASC") Topic 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and establishes a three-tier hierarchy that is used to identify assets and liabilities measured at fair value. The three levels defined in ASC Topic 820 are described as follows:

Level 1	Observable inputs based upon quoted market prices for identical assets or liabilities within active markets.
Level 2	Observable inputs other than Level 1 that are based upon quoted market prices for similar assets or liabilities, based upon quoted prices within inactive markets, or inputs other than quoted market prices that are observable through market data for substantially the full term of the asset or liability.
Level 3	Inputs that are unobservable for the particular asset or liability due to little or no activity and significant to the fair value of the asset or liability.

ACS Topic 820 requires the Plan to describe the methodologies used to measure the fair value of assets and liabilities. These methodologies were consistently applied to all assets and liabilities carried by the Plan as of December 31, 2019 and 2018.

Mutual Funds: Valued at the total market value of the underlying assets based on published market prices as of the close of the last day of the plan year. These values represent the net asset values of the shares held by the Plan and are classified within Level 1 of the valuation hierarchy.

Money Market Account: This investment is comparable to a cash equivalent. Investments are liquid and credited with a current interest rate. These assets are classified within Level 1 of the valuation hierarchy.

Note 3 Fair Value Measurements - Continued

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

	Fair Value Measurements Using: Quoted Prices in Active Markets for Identical Assets
December 31, 2019	Level 1
Investments, at fair value:	
Mutual Funds	$ 7,015,969
Money Market Account	7,525,109
Total Assets at Fair Value	$ 14,541,078

December 31, 2018	Level 1
Investments, at fair value:	
Mutual Funds	$ 5,478,368
Money Market Account	6,339,808
Total Assets at Fair Value	$ 11,818,176

Note 4 Information Prepared and Certified by Trustee

The following information, included in the accompanying financial statements and supplemental schedule, was obtained from data that has been prepared and certified to as complete and accurate by the Massachusetts Mutual Life Insurance Company, the trustee of the Plan, as of and for the year ending December 31:

	2019	2018
Investments, at Fair Value	$ 14,541,078	$ 11,818,176
Investment Income (Loss)	$ 1,439,346	$ (438,985)

Note 5 Related-Party Transactions

Plan investments are shares of mutual funds and a money market account managed by the Trustee of the Plan. Transactions involving these investments are considered party-in-interest transactions. These transactions are not, however, considered prohibited transactions under 29 CFR 408(b) of the ERISA regulations.

Note 6 Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, participants will be 100% vested in their accounts.

Note 7 Tax Status

The Plan Sponsor has adopted a prototype plan, in which the IRS has stated that the restated prototype plan document was in compliance with applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently being operated in accordance with the IRC requirements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by federal, state and/or local taxing authorities. Plan Management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019 and 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for the years prior to 2016.

Note 8 Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

Note 9 Subsequent Events

Management has evaluated subsequent events for disclosure and/or recognition in the financial statements through the date that the financial statements were available to be issued.

In January, 2020, Congress passed the Setting Every Community Up for Retirement Enhancement Act of 2019 that contained the largest package of retirement system reform in over a decade. Many of the provisions of the SECURE Act are effective on January 1, 2020 and will require changes to plan administration and recordkeeping.

The extent of the impact of the COVID-19 outbreak on the financial performance of a plan's investments will depend on future developments, including the duration and severity of the outbreak and its impact on the financial markets and the overall economy, all of which are highly uncertain and cannot be predicted. If the financial markets and/or the overall economy are impacted for an extended period, the Plan's investment results may be materially adversely affected.

A prolonged widespread epidemic could adversely impact global economies and financial markets resulting in an economic downturn that may disrupt the demand for a plan sponsors goods and/or services. Such disruptions could adversely affect plan sponsor profitability, cash flows, financial results, and the ability to make required plan contributions.
