Fori Automation, Inc. Profit Sharing Trust & 401(k) Plan

Notes to Financial Statements

1. Description of Plan

The following description of the Fori Automation, Inc. Profit Sharing Trust & 401(k) Plan (the “Plan”) provides only general information about the Plan. Participants should refer to the Plan agreement or Summary Plan Description for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution profit sharing plan that provides for employee contributions under Section 401(k) of the Internal Revenue Code (“IRC”). The Plan covers substantially all employees of Fori Automation, Inc. and Global Engineering, Inc. (the “Company”). Its provisions are governed by the Internal Revenue Code and the Employee Retirement Income Security Act of 1974 (“ERISA”).

The Plan has given Fidelity Management Trust Company (the “Trustee”), the trustee of the Plan, the authority to hold the assets of the Plan and to invest, control and disburse all assets of the Plan in accordance with the Plan agreement.

Eligibility

With respect to employee elective deferrals and profit sharing contributions, employees who have attained 3 months of service are eligible for entry in the Plan if they have reached 21 years of age. With respect to employer matching contributions, employees are eligible when they have completed one year of service of at least 1,000 hours and reached 21 years of age.

Contributions

A participant can make voluntary salary or wage deferral contributions up to 60% of his or her pretax compensation, as defined by the Plan agreement. The Plan also includes an auto enrollment feature where 6% of compensation is automatically withheld upon meeting eligibility requirements unless a participant elects otherwise. In addition, the Company may make discretionary contributions based on a percentage, to be determined annually by the Company’s Board of Directors, of the employees’ deferral contributions to the Plan. Employer contributions for the years ended December 31, 2019 and 2018 were \$403,333 and \$345,295, respectively. The Plan also allows for a discretionary profit-sharing contribution. For the years ended December 31, 2019 and 2018, there was no discretionary profit sharing contribution.

Participant Accounts

Each participant’s account is credited with the participant’s contribution and an allocation of (a) the applicable Company’s contribution, and (b) Plan earnings, and is charged with his or her withdrawals, Plan losses, and an allocation of administrative expenses. The Company’s contributions are allocated based on deferral amounts and compensation as computed according to the Plan agreement. Plan earnings or losses are allocated based on participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account. Each participant directs the investment of his or her account to any of the investment options available under the Plan.

Fori Automation, Inc. Profit Sharing Trust & 401(k) Plan

Notes to Financial Statements

Retirement, Death and Disability

A participant automatically becomes 100% vested in his or her respective Company contributed account balance upon retirement, death or disability.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting on discretionary employer contributions are vested according to the following schedule:

<i>Years of Service</i>	<i>Vest</i>
Less than 2 years	0%
2	20
3	40
4	60
5	80
6	100

Forfeitures

Forfeitures of employer matching contributions are used to offset future employer matching contributions or administrative expenses of the Plan. The Plan applied \$8,728 and \$25,906 of forfeitures towards employer contributions for the years ended December 31, 2019 and 2018, respectively. The Plan had \$4,841 and \$2,026 of unapplied forfeitures outstanding as of December 31, 2019 and 2018, respectively.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Participants may have no more than two loans outstanding at any point in time. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest payments are paid through payroll deductions.

Payment of Benefits

Upon termination of service, a participant is eligible to receive an amount equal to the value of the participant's vested interest in his or her account. Benefit amounts under \$1,000 are automatically distributed to participants. Participants may elect to receive their vested account balances as a single lump sum payment or installment payments. In certain circumstances, participants may make "hardship withdrawals" as defined in the Plan agreement. Active participants may also take distributions from the Plan upon attainment of age 59½.

Administrative and Investment Management Expenses

Administrative expenses consist of loan initiation and maintenance fees, short-term redemption fees applicable to certain funds, audit fees and certain fees related to the overall operation of the Plan. Fees are either charged to the specific accounts of the participants who incurred these charges or deducted from the Plan's forfeiture account.

Fori Automation, Inc. Profit Sharing Trust & 401(k) Plan

Notes to Financial Statements

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event of plan termination, participants will become 100% vested in their account balances.

2. Summary of Significant Accounting Policies

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The effect of a change in valuation technique or its application on a fair value estimate is accounted for prospectively as a change in accounting estimate. When evaluating indications of fair value resulting from the use of multiple valuation techniques, the Plan is to select the point within the resulting range of reasonable estimates of fair value that is most representative of fair value under current market conditions. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, the Trustee and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances. Loans in default that are not made current within a specified time are deemed distributed and recorded as distributions paid to participants and beneficiaries in the Statements of Changes in Net Assets Available for Benefits.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts of assets, liabilities, changes in those assets and liabilities and disclosure of contingent assets and liabilities. Actual results may differ from these estimates.

Risks and Uncertainties

The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events

Plan management has evaluated subsequent events for recognition and disclosure through October 13, 2020, which is the date financial statements were available to be issued and has determined that there are no subsequent events to disclose.

On January 30, 2020, the World Health Organization ("WHO") announced a global health emergency because of a new strain of coronavirus originating in Wuhan, China (the "COVID-19 outbreak") and the risks to the international community as the virus spreads globally beyond its point of origin. In March 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. This pandemic has adversely affected global economic activity and greatly contributed to volatility in financial markets. Because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, and related impact on the Plan's liquidity cannot be determined at this time.

On March 27, 2020, President Trump signed into law the "Coronavirus Aid, Relief, and Economic Security ("CARES") Act." The CARES Act, among other things, includes several relief provisions available to tax-qualified retirement plans and their participants. Plan management has evaluated the relief provisions available to plan participants under the CARES Act and has implemented the following provisions:

- Extend the period for loan repayments, if applicable, up to one year
- Suspended required minimum distributions for 2020
- Special coronavirus distributions up to \$100,000.

3. Information Certified by the Plan's Trustee

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee of the Plan has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

<i>Year ended December 31,</i>	2019	2018
Investments, at fair value	\$ 28,089,556	\$ 20,528,143
Notes receivable from participants	358,599	231,408

<i>Year ended December 31,</i>	2019	2018
Net appreciation (depreciation) in fair value of investments	\$ 4,183,939	\$ (2,950,092)
Interest and dividends	1,174,720	1,630,277
Interest income on notes receivable from participants	25,889	16,560

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. Fair Value Measurements

ASC 820, *Fair Value Measurement and Disclosure*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1 - Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2 - Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 - Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

Notes to Financial Statements

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual Funds and Money Market Fund - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (“NAV”) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

	Investment Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Mutual Funds	\$ 27,493,066	\$ -	\$ -	\$ 27,493,066
Money Market Fund	596,490			596,490
Total Investments, at fair value	\$ 28,089,556	\$	\$	\$ 28,089,556

	Investment Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Mutual Funds	\$ 19,703,672	\$ -	\$ -	\$ 19,703,672
Money Market Fund	824,471			824,471
Total Investments, at fair value	\$ 20,528,143	\$	\$	20,528,143

5. Parties-In-Interest

Parties-in-interest are defined under Department of Labor (“DOL”) Regulations as any fiduciary of the Plan, any party rendering service to the plan, the employer, and certain others. Investment management fees are paid for by the Plan to investment managers who qualify as parties-in-interest. These investment management fees are reflected in the financial statements as a reduction of the return on the Plan’s investments. Certain investments in mutual funds are party-in-interest investments. These investments are issued or managed by Fidelity Investments, an affiliate of Fidelity Management Trust Company, trustee of the Plan. Notes receivable from participants also reflect party-in-interest transactions. As of December 31, 2019 and 2018, \$25,990,799 and \$19,287,221, respectively, of Plan mutual funds and \$358,599 and \$231,408, respectively, of notes receivable from participants were managed by Fidelity Management Trust Company of Fidelity Investments. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

6. Income Tax Status

The Company has adopted a prototype plan document sponsored by Fidelity Management & Research Company. The Internal Revenue Service ("IRS") has informed the prototype sponsor with an opinion letter dated March 31, 2014, that the prototype plan satisfies the applicable provisions of the IRC to be tax-exempt. Although the Plan has since been amended from the original prototype document, Plan administration believes that the Plan is being operated in accordance with the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2019 and 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there currently are no audits for any tax periods in progress.
