GREAT LAKES AUTO NETWORK, INC. 401(k) PROFIT SHARING PLAN

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Great Lakes Auto Network, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement, available at their employer's office, for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering certain employees of the Company, as defined by the plan document. An employee must be at least 18 years of age to participate. An employee will enter the plan on the first day of the month following their completion of the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants are able to contribute to the Plan during each plan year a percentage of their compensation not to exceed \$19,000, or \$25,000 for employees age 50 or older. All amounts contributed by a participant shall be credited to each participant's account and shall be fully vested and non-forfeitable at all times. Participants are permitted to direct the custodian of the Plan how to invest amounts credited to such participant's account. If the participant does not select how the funds are to be invested, then the Custodian, as directed by the Plan Administrator, will invest the contributed funds. The Company may make a discretionary matching contribution subject to certain limits and provisions of ERISA and the Plan document. For both the years ended December 31, 2019 and 2018, the Company did not make a discretionary contribution to the Plan.

Participant Accounts

Each participant's account is credited with an allocation of the Company's contribution, plan earnings, and an allocation of administrative expenses. Allocations are based on participant's earnings as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participant contributions plus actual earnings thereon are 100% vested while employer elective contributions and actual earnings thereon are vested depending on years of service as follows:

Years of Service	Percentage Vested
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Participant Loans

Participants may borrow from their fund accounts up to a maximum of \$50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions. Loans are accounted for at cost, which approximates market value.

See accompanying independent auditors' report

Note 1. Description of Plan (continued)

Payment of Benefits

Upon termination of service all vested amounts credited to that participant's account become distributable. Additionally, in-service distributions are permitted once a participant reaches age 59 ½ or for certain hardship events as defined.

Forfeited Accounts

At December 31, 2019, there were no forfeited non-vested accounts outstanding.

Note 2. Summary of Significant Accounting Policies

Investments

The Plan investments are held in a Trust Fund invested in mutual funds managed by Reliance Trust Company (the "Custodian"). The Plan provides for participant directed investments up to the extent of allocated account balances. Fair market values of investments as determined by the Custodian are presented in Note 3.

Basis of Accounting

The accounting records of the Plan are maintained on the accrual basis.

Benefit Payments

Benefits are recorded when requested.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

Plan audit fees and certain third party administrative expenses are paid for by the Plan sponsor, Great Lakes Auto Network, Inc.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 3. Information Certified By Custodian

The following table is a summary of the unaudited information regarding the Plan, included in the Plan's financial statements that was prepared by the Custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certification from the Custodian that such information is complete and accurate:

	<u>2019</u>	<u>2018</u>
Investments:		
Fair value	\$ 2,653,857	\$ 1,783,166
Contract value	228,685	222,429

For the period ended:

Information contained in the following
supplemental schedules

Note 4. Fair Value Measurements

Accounting Standards Codification (ASC) 820-10, *Fair Value Measurements and Disclosures*, defines fair value, establishes a framework for measuring fair value, establishes a three-level valuation hierarchy for disclosure of fair value measurement and enhances disclosure requirements for fair value measurements. The valuation hierarchy is based upon the transparency of inputs to the valuation of the fair value of an asset or liability as of the measurement date. The three levels of the fair value hierarchy under ASC 820-10 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. Level 1 securities include highly liquid government bonds, treasury securities, and exchange traded equities.
Level 2	Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. Level 2 securities would include U.S. agency securities, mortgage-backed agency securities, obligations of states and political subdivisions, and certain corporate, asset backed securities, and swap agreements.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement. Level 3 securities would include hedge funds, private equity securities, and private investments in public entities.

Following is a description of the valuation methodologies used for assets measured at fair value.

See accompanying independent auditors' report

Note 4. Fair Value Measurements (continued)

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at quoted prices of the underlying mutual fund shares held by the plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018.

	Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 2,653,857			\$ 2,653,857
Total assets at fair value	\$ 2,653,857			\$ 2,653,857

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 1,783,166			\$ 1,783,166
Total assets at fair value	\$ 1,783,166			\$ 1,783,166

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 6. Tax Status

The Plan was created using a prototype plan effective January 1, 2000. The prototype plan obtained its most recent determination letter on July 8, 2014 in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

See accompanying independent auditors' report

Note 8. Investment Contract

The Plan participates in a fully benefit-responsive guaranteed investment contract with Invesco Management Company. Invesco maintains the contributions in a general account. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed by the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at contract value. Contract value, as reported to the Plan by Invesco, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2019 and 2018 was \$228,685 and \$222,429, respectively. The crediting interest rate is based on a formula agreed upon with the issuer but may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with Invesco. Such events include the following: (a) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exception under ERISA. Furthermore, certain events would allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include (a) an uncured breach of the Plan's investment guidelines, (b) a material amendment to the contract without the issuer's consent, (c) a violation of a material obligation under the contract, or (d) a material misrepresentation. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants or the issuer are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 9. Reclassifications

Certain minor reclassifications were made in 2019 to conform to the 2018 presentation.

Note 10. Subsequent Events

Events subsequent to December 31, 2019 have been evaluated through the date these financial statements were available to be issued, to determine whether additional disclosures should be made to keep the financial statements from being misleading. The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. This pandemic has adversely affected global economic activity and greatly contributed to significant deterioration and instability in financial markets. As a result, the Plan's investment portfolio has become increasingly volatile since December 31, 2019. Because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, and related impact on the Plan's liquidity cannot be determined at this time.
