1. GENERAL DESCRIPTION OF THE PLAN

The Plan includes as employers:

a. Kinplex Corp.
b. Tables Mfg., Inc.
c. Toga Mfg., Inc.
d. Kinsouth Corp.
e Rack-It LLC
f. Nokomis LLC
g. Kinmetal LLC
h. Kintucky LLC

The following description of the Kinplex 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all eligible employees of the above-mentioned employers. An eligible employee is one who has completed one year of service as defined in the Plan, worked not less than 1,000 hours, and is age twenty-one or older. The Plan was established and implemented in January 1995. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Contributions - Employees may elect to defer up to 10% of their covered compensation subject to certain limitations.

Employers' matching contributions are equal to 25% of the first 5% of the participant's compensation which is deferred, subject to a maximum matching contribution of $2,000 per employee for the Plan year.

Participants may make rollover contributions, in cash, from an eligible retirement plan, as defined in the Plan, to this Plan.

Participant accounts - Each participant's funds are kept in their own separate accounts. Each participant's pre-tax account is credited with the participant's contribution. The employer's matching contribution, if any, is credited to the participant's employer contribution account. Participants direct the investment of their accounts in one or more of the available funds. Net investment income or loss in each mutual fund or collective fund and administrative expenses paid by the Plan (see Note 8) are allocated to each participant's account in proportion to account balances, as defined. Forfeitures of terminated participants' nonvested company contribution accounts are used to reduce the Company's future contributions.

Vesting - Participants are immediately vested in their elective deferral contributions. Vesting in the employers' contributions in the participants' accounts is based on years of continuous service. A participant will be 100% vested in the employers' contributions after six years of credited service.

Payment of benefits - On termination of service, a participant may elect to receive either a lump-sum payment or installment payments of the value of their vested percentage in their accounts subject to Plan provisions.

Termination of Plan - While the employers have not expressed any intent to discontinue their contributions or terminate the Plan, they are free to do so at any time. In the event of complete discontinuance of employer contributions or the termination of the Plan, each participant will become fully vested in all amounts credited to his or her individual participant accounts.

Notes receivable from participants - Participants may borrow from their accounts a minimum of $500 up to a maximum note receivable equal to the lesser of $50,000 (reduced by the highest outstanding balance the participant had during the previous twelve months) or 50% of their vested account balance. Loans bear a fixed rate of interest equal to the prime rate plus two percentage points. Loans must be fully repaid through payroll deductions within 5 years unless the loan is for the purchase of a primary residence, in which case the loan must be repaid within 30 years.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting - The Plan prepares its financial statements on the accrual basis of accounting.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. All income earned on the Plan's investments is included in the unit value and, accordingly, is recorded as net appreciation (depreciation) in fair value of investments, which includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits - Benefits are recorded when paid.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Actual results could differ from those estimates.

Notes receivable from participants - Participant loans are classified as notes receivable from participants and are measured at their unpaid principal balance plus any accrued but unpaid interest. Notes receivable from participants are reported as investments on Form 5500. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Current economic conditions - The Plan's investments are subject to changes in value from the impact of social and natural catastrophic events that are beyond its control, such as health epidemics, natural disasters and other catastrophes, which may materially and adversely affect their respective values. The Plan is currently monitoring the global pandemic of the coronavirus disease known as COVID-19 and is assessing the impact that it could have on the values of its investments, including a potential decline in

the fair value of investments due to the disruption of financial markets. Future developments with respect to COVID-19 remain highly uncertain and difficult to forecast. Accordingly, the Plan is unable to quantify the full impact of COVID-19 and it is at least reasonably possible that changes in the fair values of investments will materially affect participant's account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits in the near term.

Subsequent events - The Plan has evaluated events and transactions for potential recognition or disclosure through October 12, 2020, the date the financial statements were available to be issued.

The Setting Every Community Up for Retirement Enhancement (the "SECURE Act") became law on December 20, 2019, and became effective on January 1, 2020, bringing about certain changes to IRS regulations that allow retirees to delay taking required minimum distributions ("RMD's") until age 72, up from the previously required age of 70 1/2. As such, participants who turned 70 1/2 before December 31, 2019 would be required to be paid an RMD by April 1 of 2020 and any subsequent years, while a participant who turned 70 1/2 after December 31, 2019, would not be required to be paid an RMD until April 1 of the year after they reach the age of 72.

On April 7, 2020, the Plan's management opted to implement certain provisions of the Coronavirus Aid, Relief and Economic Security Act of 2020 (the "CARES Act"), more specifically those allowing qualified individuals to (i) take a penalty-free retirement account distribution of a maximum of $100,000 until December 30, 2020, (ii) borrow up to the lesser of $100,000 or 100% of the individual's vested balance between March 27, 2020 and September 22, 2020 (iii) defer loan repayment for a period of one year for any repayments due between March 27, 2020, and December 31, 2020. The CARES Act also waived RMD requirements in 2020, including 2019 first year RMD's for individuals born before July 1, 1949, with an RMD payable no later than April 1, 2020. In accordance with the CARES Act, the Plan sponsor will formally amend plan documents with regard to these provisions on or before the last day of the first plan year beginning on or after January 1, 2022.

3. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, "*Fair Value Measurement*," establishes a framework for measuring fair value that provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are summarized as follows:

Level 1 - Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that the Plan can access. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these securities does not entail a significant degree of judgment. Level 1 investments of the Plan consist of registered investment companies (mutual funds) which are valued at the net asset value ("NAV") of shares held by the Plan at year end where NAV is publicly available.

Level 2 - Valuations based on quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active or inputs other than quoted prices that are observable, either directly or indirectly. Level 2 investments of the Plan consist of common collective trusts which are valued at NAV based on the fair value of the underlying investments held by the common collective trusts at year end. Unlike shares of registered investment companies, the NAV of common collective trusts is not publicly available.

Level 3 - Valuations based on inputs that are unobservable and significant to the overall fair value measurement that reflect the assumptions that market participants would use.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined by the lowest level input that is significant to the fair value measurement. Although the degree of judgment exercised by the Plan in determining fair value is greatest for investments categorized in Level 3, the inputs or methodology used for valuing investments are not necessarily an indication of the risk associated with those investments.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019 and 2018:

Investments at Fair Value at December 31, 2019

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 6,670,494	$ -	$ -	$ 6,670,494
Common collective trusts	-	2,461,266	-	2,461,266
Total investments at fair value	$ 6,670,494	$ 2,461,266	$ -	$ 9,131,760

Investments at Fair Value at December 31, 2018

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 5,608,429	$ -	$ -	$ 5,608,429
Common collective trusts	-	1,904,673	-	1,904,673
Total investments at fair value	$ 5,608,429	$ 1,904,673	$ -	$ 7,513,102

4. INVESTMENTS

The Plan has investment programs with Reliance Trust Company, the trustee, providing participants the ability to invest in various funds having different investment objectives.

The trustee has certified to the accuracy and completeness of the investments and notes receivable from participants, and related investment income and interest income on notes receivable from participants as reported in the accompanying financial statements and supplemental schedule.

The following is a summary of the financial data certified by the trustee as of December 31, 2019 and 2018 and for the year ended December 31, 2019:

	December 31, 2019	December 31, 2018
Investments at fair value	$ 9,131,760	$ 7,513,102
Notes receivable from participants	250,323	311,050
Net appreciation in fair value of investments	1,688,452	
Interest income on notes receivable from participants	18,265	

5. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits between that shown on the financial statements and on Form 5500:

	December 31, 2019	December 31, 2018
Net assets available for benefits per the financial statements	$ 9,207,321	$ 7,678,425
Less - Deemed distributed loans	(36,522)	(37,253)
Add - Excess contributions payable	174,762	145,727
Net assets available for benefits per Form 5500	$ 9,345,561	$ 7,786,899

The following is a reconciliation of the net increase in net assets available for benefits between that shown on the financial statements and on Form 5500:

Net increase in net assets available for benefits per the financial statements	$	1,528,896
Add - Excess contributions payable December 31, 2019		174,762
Less - Excess contributions payable December 31, 2018		(145,727)
Add - Deemed distributed loans December 31, 2018		37,253
Less - Deemed distributed loans December 31, 2019		(36,522)
Net increase in net assets available for benefits per Form 5500	$	1,558,662

Notes receivable from participants per the statement of net assets available for benefits differ from loans to participants per the Form 5500 because certain conditions apply which cause certain loans to be reported as a deemed distribution for tax purposes. These loans are properly reported as Plan assets for financial statement purposes as determined by the written terms of the Plan document, related Plan policies and procedures and the loan documents.

6. EXCESS CONTRIBUTIONS PAYABLE

Contributions received from employees for 2019 are reported net of refunds of excess deferral contributions of $174,762 made to certain active participants in the subsequent year as required to satisfy the relevant nondiscrimination provisions of the Plan. This amount is reported in the Plan's statement of net assets available for benefits as excess contributions payable at December 31, 2019. At December 31, 2018, excess contributions payable totaled $145,727.

7. TAX STATUS

The plan administrator adopted a prototype 401(k) Plan that received a favorable determination letter from the Internal Revenue Service dated July 8, 2014. Although the Plan has been subsequently amended, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of ERISA and the Internal Revenue Code and therefore fulfills the criteria for exemption from federal and state income taxes.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken by the Plan that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to December 31, 2016.

8. PARTY-IN-INTEREST TRANSACTIONS AND ADMINISTRATIVE EXPENSES

Certain administrative expenses of the Plan are paid by the Company. Additionally, certain services are rendered to the Plan by the Company at no cost to the Plan. ADP is the record keeper for the Plan and provides other general services. Reliance Trust Company serves as trustee and custodian for the Plan. The charges by Reliance Trust Company for its services and charges by other advisors, for investment advisory and management fees are paid indirectly by revenue sharing payments from mutual funds and reported within net appreciation in fair value of investments on the statement of changes in net assets available for benefits. In addition, certain revenue sharing income received by the Plan is credited to an administrative expense account and used to reduce administrative expenses.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. The Plan's exposure to a concentration of risk is limited by the diversification of investments across multiple investment fund options. Additionally, the investments within each investment fund option are further diversified into varied financial instruments. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
