ZWANGER & PESIRI RADIOLOGY GROUP LLP
401 (K) RETIREMENT PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2019

1. Description of Plan

The following description of Zwanger & Pesiri Radiology Group LLP 401 (k) Retirement Plan and Trust provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a. General

The Plan is a defined contribution plan covering all employees of the Company over the age of 21. Employees are eligible upon being hired and automatically enrolled in the Plan after one month of service with the Company. Employees are notified when hired that they will be automatically enrolled into the plan and are asked to set up their 401(k) deferrals. If they do not take any action, they will have 1% of their salary deferred into the plan. The Plan's sponsor is Zwanger & Pesiri Radiology Group, LLP. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

b. Contributions

Each year, participants may contribute up to 100% of pretax annual compensation as defined in the Plan, including a catch-up amount if the participant is age 50 or over. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of both their and their employer contributions into various investment options offered by the Plan. The Company contributes 100% of the first 5% or the first 3% of compensation that a participant contributes to the Plan, depending on the employee class.

c. Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d. Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after one year of credited service.

e. Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at local prevailing rates as determined quarterly by the Plan administrator. Loans must normally be repaid within such period agreed upon between the participants and the Plan, up to a maximum of 5 years. Principal and interest is paid ratably through payroll deductions. Defaulted loans are loans resulting from the failure of a participant to make the required loan repayments on an outstanding loan and are considered deemed distributed loans. At December 31, 2019, interest rates were 5.00% - 6.00% per annum.

f. Forfeited Accounts

Forfeited non-vested accounts may be used to offset future administrative expenses.

7. **Tax Status**

The Plan is a prototype plan that has received a determination letter dated July 1, 1994 issued by the National Office of the Internal Revenue Service that the Plan is qualified under Code Section 401. The Plan has been amended since receiving the determination letter; however the Sponsor believes that the Plan is correctly designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that at December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. Generally, tax authorities can examine tax returns filed for the last three years. Currently, there are no ongoing tax examinations that the Plan is aware of.

8. **Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying Statement of Net Assets Available for Benefits (Modified Cash Basis) and Statements of Changes in Net Assets Available for Benefits (Modified Cash Basis).

9. **Party-in-Interest Transactions**

Certain services are rendered to the Plan by the Company at no cost to the Plan. Investment management fees paid to Fidelity Trust Company were included in net appreciation in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment. Fidelity Trust Company is the trustee and record-keeper, therefore these transactions qualify as party-in-interest transactions.

6. Fair Value Measurements

FASB Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Mutual Funds:
Valued at the daily closing price as reported by the fund. Mutual funds hald by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively trading.

Money Market Funds:
Valued at $1 per share. Money market funds held by the Plan are invested in short-term, r less than one year, securities representing high-quality, liquid debt and monetary instruments. The money market funds held by the Plan are deemed to be of high quality and are maintaining a net asset value (NAV) of $1 per share.

3. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

1. **Description of Plan (continued)**

g. Payment of Benefits

Participants are eligible to receive benefit payments when they terminate service or reach age 65. On termination of service, a participant may elect to receive an annuity, installment payments or a lump sum amount equal to the participant's account. Benefit payments are also permitted for death, disability or hardship.

2. **Summary of Significant Accounting Policies**

a. Basis of Accounting

The accompanying financial statements are prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. This basis of accounting differs from accounting principles generally accepted in the United States of America in that contribution receivables and distribution payables are not recorded. This basis of accounting was also used by the trustee to prepare the plan's 5500 tax return for the year.

b. Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

c. Notes Receivable from Participants

Are measured at the unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2019 or 2018. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded if the participant has been terminated. If the participant has not been terminated, the defaulted loan amount remains classified as a Notes Receivable. Delinquent loans are considered "in default" and are treated as distributions (taxable to participant) on Form 5500.

d. Payments of Benefits

Benefits are recorded when paid.

e. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

f. Subsequent Events

Management has evaluated subsequent events through October 1, 2020, the date that the financial statements were available to be issued. No significant material events have been identified that would require adjustment of the accompanying financial statements. On March 11, 2020, the World Health Organization declared COVID-19 a pandemic. The COVID-19 pandemic and resulting global disruptions have caused significant economic uncertainty and volatility in financial markets. The impact of COVID-19 continues to evolve rapidly and the Company is not able at this time to estimate its full impact on the Plan's financial statements.

g. Plan Expenses

Expenses other than administrative fees of $104,677 are paid directly by the Plan sponsor. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2019

1. Description of Plan

The following description of Zwanger & Pesiri Radiology Group LLP 401 (k) Retirement Plan and Trust provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a. General

The Plan is a defined contribution plan covering all employees of the Company over the age of 21. Employees are eligible upon being hired and automatically enrolled in the Plan after one month of service with the Company. Employees are notified when hired that they will be automatically enrolled into the plan and are asked to set up their 401(k) deferrals. If they do not take any action, they will have 1% of their salary deferred into the plan. The Plan's sponsor is Zwanger & Pesiri Radiology Group, LLP. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

b. Contributions

Each year, participants may contribute up to 100% of pretax annual compensation as defined in the Plan, including a catch-up amount if the participant is age 50 or over. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of both their and their employer contributions into various investment options offered by the Plan. The Company contributes 100% of the first 5% or the first 3% of compensation that a participant contributes to the Plan, depending on the employee class.

c. Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d. Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after one year of credited service.

e. Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at local prevailing rates as determined quarterly by the Plan administrator. Loans must normally be repaid within such period agreed upon between the participants and the Plan, up to a maximum of 5 years. Principal and interest is paid ratably through payroll deductions. Defaulted loans are loans resulting from the failure of a participant to make the required loan repayments on an outstanding loan and are considered deemed distributed loans. At December 31, 2019, interest rates were 5.00% - 6.00% per annum.

f. Forfeited Accounts

Forfeited non-vested accounts may be used to offset future administrative expenses.

1. **Description of Plan (continued)**

g. Payment of Benefits

Participants are eligible to receive benefit payments when they terminate service or reach age 65. On termination of service, a participant may elect to receive an annuity, installment payments or a lump sum amount equal to the participant's account. Benefit payments are also permitted for death, disability or hardship.

2. **Summary of Significant Accounting Policies**

a. Basis of Accounting

The accompanying financial statements are prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. This basis of accounting differs from accounting principles generally accepted in the United States of America in that contribution receivables and distribution payables are not recorded. This basis of accounting was also used by the trustee to prepare the plan's 5500 tax return for the year.

b. Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

c. Notes Receivable from Participants

Are measured at the unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2019 or 2018. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded if the participant has been terminated. If the participant has not been terminated, the defaulted loan amount remains classified as a Notes Receivable. Delinquent loans are considered "in default" and are treated as distributions (taxable to participant) on Form 5500.

d. Payments of Benefits

Benefits are recorded when paid.

e. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

f. Subsequent Events

Management has evaluated subsequent events through October 1, 2020, the date that the financial statements were available to be issued. No significant material events have been identified that would require adjustment of the accompanying financial statements. On March 11, 2020, the World Health Organization declared COVID-19 a pandemic. The COVID-19 pandemic and resulting global disruptions have caused significant economic uncertainty and volatility in financial markets. The impact of COVID-19 continues to evolve rapidly and the Company is not able at this time to estimate its full impact on the Plan's financial statements.

g. Plan Expenses

Expenses other than administrative fees of $104,677 are paid directly by the Plan sponsor. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.
