NOVIDEA HEALTHCARE, INC. PROFIT SHARING PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2019 AND 2018

1. Description of Plan:

General:

The following description of the Novidea Healthcare, Inc. Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Novidea Healthcare, Inc. (the "Company") is the Plan Sponsor and a Professional Employer Organization ("PEO") with offices in Westlake, Ohio and Toledo, Ohio. The Company was formed in 1998.

The Company provides human resource solutions by entering into a co-employment relationship with participating employers under which the Company and its participating employers each take responsibility for certain portions of the employer-employee relationship. The Company and its participating employers designate each party's responsibilities through its Client Service Agreement ("CSA"), under which the Company becomes the employer of the employees who work at the participating employer's location ("worksite employees") for most administrative and regulatory purposes.

The Plan, established February 1, 2006, is a multiple employer defined contribution plan covering all worksite employees of participating employers of Novidea Healthcare, Inc. (collectively, the "Companies") who meet the eligibility requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company's Advisory Committee is responsible for oversight of the Plan, including determining the appropriateness of the Plan's investment offerings and monitoring investment performance.

Contributions:

Participants may elect to contribute up to 100% of their compensation into the Plan on a pre-tax or post-tax basis (Roth). The amount a participant can contribute is limited to the annual amount set by the Internal Revenue Service. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Rollovers are included with participant contributions on the statements of changes in net assets available for benefits for the years ended December 31, 2019 and 2018.

The Companies may make discretionary matching contributions to the Plan. The amount to be matched is determined by each individual participating employer. There were no employer discretionary matching contributions made in 2019 and 2018.

The Companies may make a discretionary profit sharing contribution to the Plan. The amount of the discretionary profit sharing contribution is determined annually by each individual participating employer. Employer discretionary profit sharing contributions totaled \$179,457 in 2019 and \$206,467 in 2018.

Certain participating employers are required to make Safe Harbor Qualified Non Elective Contributions (QNEC) to the Plan. Safe Harbor Qualified Non Elective contributions totaled \$184,011 in 2019 and \$176,963 in 2018.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEARS ENDED DECEMBER 31, 2019 AND 2018

1. Description of Plan (continued):

Vesting:

Participants are immediately vested in their pre-tax, post-tax and QNEC contributions plus earnings thereon. Participants vest in discretionary matching and profit sharing contributions in accordance with the following schedule:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 2	0%
2	20
3	40
4	60
5	80
6 or more	100

Forfeitures of nonvested accounts are retained in the Plan and can be used to reduce future employer contributions. Forfeited accounts not allocated to participant accounts amounted to \$55,070 in 2019 and \$36,669 in 2018. No forfeitures were used in 2019 or 2018.

Participant accounts:

Separate accounts for each participant are maintained by the custodian (excluding the participant-directed brokerage accounts). Each account is credited with the participant's contributions, as well as allocations of the Companies' contributions and earnings and losses from investments held in the account.

Participants may direct their contributions, including the employer's portion, into any combination of investment funds. Participants may invest in participant-directed brokerage accounts subject to certain terms and provisions.

Payment of benefits:

Participants may elect to withdraw a specified portion of their contributions prior to their termination of employment subject to certain restrictions under the Plan. All accounts are subject to distribution upon the participant's termination, retirement, total disability or death.

On termination of service for any other reason than death, the participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest or in periodic payments as elected by the participant.

Benefits are recorded when paid.

During 2019, several self-directed brokerage accounts were distributed totaling \$4,503,244. These payments are included with benefits paid to participants on the statement of changes in net assets available for benefits.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEARS ENDED DECEMBER 31, 2019 AND 2018

1. Description of Plan (continued):

Expenses:

Certain expenses of maintaining the Plan are paid directly by the Companies and are excluded from these financial statements. Investment related expenses are included in net appreciation (depreciation) in fair value of investments in the statements of changes in net assets available for benefits.

2. Summary of significant accounting policies:

Basis of accounting:

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates and assumptions.

Investment valuation and income or loss recognition:

The Plan's pooled separate accounts and guaranteed investment contract are reported at fair value, as provided by John Hancock Life Insurance Company (U.S.A.) ("John Hancock"), the custodian of the Plan. The Plan's participant-directed brokerage accounts are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company's Advisory Committee determines the Plan's valuation policies utilizing information provided by its investment advisors and the custodian.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. These amounts were provided by the various investment companies for the years ended December 31, 2019 and 2018.

Recent accounting pronouncement:

In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-13, *Changes to the Disclosure Requirements for Fair Value Measurements*. This standard intended to modify requirements and improve effectiveness of disclosures on fair value measurements included in Accounting Standards Codification Topic 820, *Fair Value Measurements*. The ASU will be effective for fiscal years beginning after December 15, 2019, with early adoption permitted. Plan management is currently evaluating the impact this ASU will have on its financial statements and will adopt the provisions upon its effective date.

	<u>\$ 11,676,502</u>	<u>\$ 9,289,066</u>

The following table presents the value of participant-directed brokerage accounts at December 31, 2019 and 2018. All investments are participant-directed.

	<u>2019</u>	<u>2018</u>
Investments at fair value:		
Cash equivalents	\$ 202,708	\$ 306,534
Common stocks	457,446	3,273,751
Mutual funds	<u>2,108,335</u>	<u>2,816,783</u>
	<u>\$ 2,768,489</u>	<u>\$ 6,397,068</u>

4. Fair value:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

4. Fair value (continued):

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Guaranteed investment contract: Fair value is calculated as the number of units of the sub-account held on particular date multiplied by the unit value on that date, and generally is the value that would be paid out for participant-initiated or benefit withdrawals. The fair value of the guaranteed investment contract is determined by John Hancock by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer.

Pooled separate accounts: Valued at their accumulation unit value (AUV). The pooled separate accounts are valued daily as the number of accumulation units held multiplied by the AUV. The AUV is first established when a new fund starts and is then determined daily based on the net asset value of shares of the underlying fund, the fund's dividends, and the contract's separate account charges.

Participant-directed brokerage accounts: The fair value of common stocks is based on quoted market prices. Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV), and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. The fair value of cash equivalents is valued at face value, which approximates fair value.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation technique is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

	Fair Value at December 31, 2019	Measurement Level 1	Fair Value at December 31, 2018	Measurement Level 1
Guaranteed investment contract	\$ 364,247	\$ 364,247	\$ 162,397	\$ 162,397

5. Party-in-interest transactions:

Certain Plan investments are managed by John Hancock. John Hancock is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Certain fees related to the administration of the Plan were paid by the Plan or Plan Sponsor, which also qualify as party-in-interest transactions.

6. Administrative expenses:

Certain administrative expenses for the Plan are paid by the Companies during 2019 and 2018. Certain administrative functions are performed by employees of the Companies. No such employee or the Companies receive compensation from the Plan.

7. Certified investments:

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments (excluding the participant-directed brokerage accounts) at December 31, 2019 and 2018, and net appreciation (depreciation) in fair value of investments (excluding the participant-directed brokerage accounts) for the years ended December 31, 2019 and 2018, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by John Hancock.

8. Guaranteed investment contract:

The Plan is enrolled in a non-fully benefit-responsive investment contract with John Hancock. John Hancock maintains the contributions in a separate account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Fully benefit-responsive investment contracts held by a defined contribution plan are required to be reported at contract value. Contract value is the relevant measurement attributable for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan's investment contract does not meet the criteria of being fully benefit-responsive, and therefore, the investment contract is recorded on the statements of net assets available for benefits at fair value.

The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting. The guaranteed investment contract does not permit the insurance company and trust company to terminate the agreement prior to the scheduled maturity date.

9. Income tax status:

On March 12, 2018, the Internal Revenue Service ruled that the Plan qualifies under Section 401(a) of the Internal Revenue Code (IRC) and is therefore not subject to tax under present income tax law. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan is a prototype plan and has received a favorable determination letter from the Internal Revenue Service. Management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. Plan termination:

The Companies expect to continue the Plan but reserve the right at any time within their sole discretion to reduce, suspend or discontinue contributions to the Plan or to terminate the Plan. In the event of termination, all affected participants will become 100% vested in their accounts.

11. Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

12. Subsequent events:

In March 2020, the World Health Organization categorized the COVID-19 as a pandemic, and the President of the United States declared the COVID-19 outbreak a national emergency. As a result, economic uncertainties have arisen which has contributed to significant volatility for businesses and in financial markets. The pandemic may have continued adverse impact on economic and market conditions that could result in a global economic slowdown for an extended period of time. Consequently, there is and will continue to be uncertainty and risk with respect to the Plan sponsor, the Plan, and its investments and its financial results. Management has, and will continue to, monitor the situation and make operational changes in an attempt to minimize any future financial impact.

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through October 13, 2020, the date the Plan's financial statements were available to be issued.
