LADDAWN, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

Note 1. Description of Plan

The following description of the Laddawn, Inc. (the Company) 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan covering all employees of Laddawn, Inc. who are age eighteen or older and have completed two months of consecutive service. The Plan's entry dates are the first day of each calendar month. Effective January 1, 2017, participants are automatically enrolled into the plan unless they specifically opt to not participate. Automatically enrolled participants default contribution is 3%. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

Effective August 23, 2018, Laddawn, Inc. was purchased by Berry Global. The Plan transferred all assets to the Berry Global Employees 401(k) Plan on December 31, 2019.

Participants may contribute up to 100% of pretax or after-tax annual compensation or \$19,000 as defined in the Plan. Participants age fifty and older may make a "catch up" contribution of an additional \$6,000. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct their contributions and Company contributions, if any, within various investment options offered by the Plan through Fidelity Management Trust Company. Each year, the Company, at the discretion of its Board of Directors, may make an annual matching contribution or a profit-sharing contribution. In 2019, the Company contributed 50% of the first 6% of base compensation that each participant contributed to the plan. Contributions are subject to certain limitations. The Company contributed \$418,517 to the Plan in 2019.

Each participant's account is credited with the participant's contribution, the Company matching contribution (if any) and the Company non-elective contribution (if any), an allocation of Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company matching contributions is based on years of continuous service. A participant is 100% vested after three years of credited service.

At December 31, 2019 and 2018, forfeited accounts totaled \$0 and \$1,384, respectively. These accounts will be used to offset future plan expenses and future employer contributions. In 2019, the Plan Sponsor used forfeited accounts to reduce employer contributions by \$52,805.

LADDAWN, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

Note 1. Description of Plan (cont.)

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of the vested portion of their individual accounts, whichever is less. Loans must be repaid within five years unless the proceeds are used to buy a primary residence. The loans are secured by the balance in the participant's account and bear interest at rates that range from 5.25% to 7.25%, which is commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through weekly payroll deductions. As of December 31, 2019 all loans were transferred to the Berry Global Employees 401(k) Plan.

On termination of service, for any reason, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Withdrawals may be made under certain other circumstances in accordance with the Plan document.

Participants are allowed to take hardship distributions from the Plan. Participants must meet all qualifications as defined by the Internal Revenue Service and have no other financial resources to draw from.

Note 2. Summary of Significant Accounting Policies

The financial statements are prepared on the accrual method of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the plan.

Management uses estimates and assumptions in preparing financial statements in accordance with accounting principles generally accepted in the United States of America. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported additions to and deductions from assets. Actual results could vary from the estimates that were used.

The Plan's investments are stated at fair market value, except for fully benefit-responsive investment contracts, which are reported at contract value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the gains and losses on investments bought and sold as well as held during the year.

The Plan invested in a collective trust in 2017. The value for this collective trust was based on the net asset value of the fund as reported by the custodian, Fidelity Management Trust Company. The Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits presents the net asset value of the investment.

Benefits are recorded when paid.

Note 3. Information Prepared and Certified by Custodians

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by the custodians. Fidelity Management Trust Company certification was obtained for 2019 and 2018:

	2019	2018

Units of Stable Value Fund	-	146,440

Investment Income	<u>3,189,328</u>	
Benefit Payments and Administrative Expenses	<u>3,520,491</u>	

Note 4. Fair Value Measurements

U.S. Generally accepted accounting principles establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Inputs to the valuation methodology include:
- quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;

LADDAWN, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

Note 4. Fair Value Measurements (cont.)

- Level 2**
- inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3** Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Stable value fund: Valued at the NAV of units of a bank of collective trust. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefit.

The Plan's policy is to recognize transfers between Levels 1 and 2 and into and out of Level 3 as of the event or change in circumstances that caused the transfer. For the years ended December 31, 2019 and 2018, there were no transfers between Levels 1 and 2 and no transfers into or out of Level 3.

Investments Measured Using the Net Asset Value per Share Practical Expedient:

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2018. There were no assets at December 31, 2019. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

LADDAWN, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

Note 7. Party in Interest

Certain Plan investments are shares of mutual funds managed by Fidelity Management Company, the investment custodian as defined by the Plan, therefore, these transactions qualify as party in interest transactions. Fees paid by the Plan for the investment management services totaled \$7,504 for the year ended December 31, 2019. O'Connor Maloney & Company, P.C. received a portion of the audit fee from the Plan in the amount of \$27,887 for the year ended December 31, 2019. This transaction qualifies as a party in interest transaction.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of assets available for benefits.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of total contributions as presented in the statement of changes in net assets available for benefits to Form 5500 for the year ended December 31, 2019:

Total Contributions per the Financial Statements	1,711,752
Total Employer Receivable	<u>(28,621)</u>
Total Income per the Form 5500	<u><u>1,683,131</u></u>

This reconciliation is included as the 5500 is prepared as a final return, however there is a matching contribution that was due to the participants of the Plan as of December 31, 2019 that is recorded on the financial statements. The matching contribution of \$28,621 was remitted to the Berry Global Employees 401(k) Plan on February 18, 2020.

LADDAWN, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

Note 10. Plan Termination

The Plan transferred its assets to the Berry Global Employees 401(k) Plan on December 31, 2019. An additional employer contribution receivable of \$28,621 for the year ended December 31, 2019 was transferred on February 18, 2020.

Note 11. Tax Status

The Company has a Prototype Plan and Trust Agreement. The Internal Revenue Service has determined, by a letter, that the prototype plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believes that the Plan is qualified, and is tax-exempt. Management does not believe the Plan's financial statements include any uncertain tax positions. Generally, the Plan's Forms 5500 remain subject to examination for a period of three years.

Note 11. Date Through Which Subsequent Events Have Been Evaluated

The Company has evaluated all material subsequent events from the end of the fiscal year through October 9, 2020, the date the financial statements were available to be issued.
