Note A - Description of Plan

Aladdin Bakers, Inc. (the Company) established the Aladdin Bakers, Inc. 401(k) Plan I (the Plan). The Plan was effective as of January 1, 2005. The following description of the Plan provides only general information. Participants should refer to the plan documents for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company who have one year of entry service (with 1,000 or more hours of service) and are age twenty-one and over. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Employee Contributions

The Plan provides for employee elective salary deferral contributions under Section 401(k) of the Internal Revenue Code ("IRC"). Participants can defer compensation "pre-tax" to the Plan instead of being received currently, subject to the maximum annual limitation prescribed by the Internal Revenue Service ("IRS") ($19,000 for calendar year 2019). Additional "catch up" contributions of $6,000 for calendar year 2019 can also be made by participants age 50 or older.

Employer Contributions

The Company makes elective contributions to each eligible employee. The Company's contribution matches the employee contribution dollar-for-dollar, up to 3% of the employee's compensation, and $.50 cents on the dollar for the employee's contribution that exceeds 3% but no more than 5% of the employee's compensation. Company contributions for the year ended December 31, 2019 were $74,904.

The Company may make non-elective profit-sharing contributions to the Plan as decided on a year by year basis. There were no non-elective contributions made by the Company to the Plan for the year ended December 31, 2019.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, (b) Plan earnings, and (c) forfeitures of terminated participants' non-vested accounts and charged with an allocation of investment earnings and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their elective salary deferral contributions and the Company's elective matching contribution, plus actual earnings thereon. Participants are also immediately vested in qualified nonelective contributions allocated to their accounts, if applicable, and rollover contributions. Vesting in the portion of their accounts attributable to Company profit sharing contributions, if any, is based on years of continuous service, with increments of 20% between the second and sixth years. A participant is 100 percent vested after six years of credited service.

Payment of Benefits

Upon termination of service, a participant with vested balances over $1,000 must consent to any distribution of their account; upon consent the vested balance will be distributed in a lump sum. For vested balances of $1,000 or less, the vested balance is automatically paid in a single sum.

Notes Receivable from Participants

The minimum loan amount is $1,000 up to a maximum equal to the lesser of $50,000 or 50% of a participant's vested account balance. The loans are secured by the balance in the participant's account. Principal and interest are paid ratably through payroll deductions for each regular paycheck.

Risks and Uncertainties

The Plan provides for various investment contracts with any underlying combination of stock funds, bond funds, fixed income securities, mutual funds, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

Certification

The plan management has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted under such election, the following investment information was certified by Lincoln Life and Annuity Company of New York and was not subjected to any auditing procedures performed by the independent public accountants:

a. Total investments as shown in the accompanying statements of net assets available for benefits of $3,294,742 as of December 31, 2019, and $2,552,771 as of December 31, 2018.

b. Participant loans as shown in the accompanying statements of nets assets available for benefits of $29,528 as of December 31, 2019 and $36,013 as of December 31, 2018.

b. Net investment appreciation as shown in the accompanying statement of changes in net assets available for benefits of $558,765 for the year ended December 31, 2019.

c. Investment income and participant loan interest of $3,480 and $1,412, respectively, in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2019.

d. All investment-related information in the accompanying supplemental Schedule H, Line 4i—Schedule of Assets (Held at End of Year) as of December 31, 2019.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation

Investments in pooled separate accounts are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements. Insurance company guaranteed interest accounts under group annuity contracts are stated at contract value. Contract value is the amount participants would receive if they were to initiate a transaction under the terms of the plan. Participant loans are valued at cost which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2019, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document. As of December 31, 2019 and 2018 notes receivable from participants was $29,528 and $36,013, respectively.

Subsequent Events

The Plan has evaluated subsequent events through October 1, 2020 the date the financial statements were available to be issued. On January 30, 2020, the World Health Organization ("WHO") announced a global health emergency stemming from a new strain of coronavirus that was spreading globally (the "COVID-19 outbreak"). On March 11, 2020, the WHO classified the COVID-19 outbreak as a pandemic. Since December 31, 2019, there has been volatility in the financial markets largely driven by concerns over COVID-19; however, Plan participants may select investments from a portfolio of diversified investment options, which may mitigate market instability.

Note C - Investment Contracts with Insurance Company

During the plan year ended December 31, 2015, the Plan entered into a group annuity contract with Lincoln Life and Annuity Company of New York ("Lincoln"). Lincoln maintains contributions either in a separate pooled account or in the Guaranteed Account. Investments stated at fair value in pooled separate accounts was $3,294,742 and $2,552,771 as of December 31, 2019 and 2018, respectively.

Participant sub-accounts are self-directed and include their deferrals and any employer matching contributions. Each participant's account is credited with actual earnings on the underlying investments and is reduced by participant withdrawals, investment depreciation, and administrative expenses charged by the Lincoln Life and Annuity Company of New York.

Investment options under pooled separate accounts allow for investment among over 30 different mutual funds sub-advised by various mutual fund managers. The contracts are evergreen contracts that remain in-force until they are terminated by either the Plan or Lincoln and have no

specified maturity date. There are no known scheduled cash flows associated with these contracts.

The value of the plan's investment in the pooled separate accounts is reported at fair value using Net Asset Value as a practical expedient. The contract value is equal to the number of participation units owned under the pooled separate account times the unit value of the participation units. The net asset value is based on the value of the underlying asset owned by the fund minus the fund's liabilities, divided by the number of participation units outstanding (See Note D – Fair Value).

Note D – Fair Value

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- ◊ Quoted prices for similar assets or liabilities in active markets;
- ◊ Quoted prices for identical or similar assets or liabilities in inactive markets;
- ◊ Inputs other than quoted prices that are observable for the asset or liability;
- ◊ Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Shares in pooled separate accounts are valued at the net asset value of the units held by the Plan at year end. The net asset value is used as a practical expedient to estimate fair value.

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2019 and 2018, respectively. There are no participant redemption restrictions for these investments.

December 31, 2019	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Pooled separate accounts	$3,294,742	n/a	Daily	None

December 31, 2018	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Pooled separate accounts	$2,552,771	n/a	Daily	None

During the Plan year ended December 31, 2019, the Plan's investments (including investments bought, sold and held during the year) appreciated by $558,765.

Note E - Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their account balances.

Note F - Tax Status

The Company adopted a prototype non-standardized Profit Sharing Plan with CODA that received a favorable opinion letter from the IRS on March 31, 2014, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being

operated in compliance with the applicable requirements of the Internal Revenue Code and therefore believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by Federal or State taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note G - Administrative Expenses

For the year ended December 31, 2019, record keeping fees, asset management fees and other fees were paid by the Plan in the amount of $22,289. Accounting fees were paid by the Company.

Note H – Parties In Interest

Certain plan investments are shares of separate pooled accounts managed by Lincoln Life and Annuity Company of New York. Lincoln Life and Annuity Company of New York is the custodian, as defined by the plan, and qualifies as a party in interest.
