NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2019 AND 2018

Note 1 – Description of Plan

The following description of the H.O. Penn 401(k) & Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees of H.O. Penn Machinery Company, Inc. (the "Company") who are not covered by a collective bargaining agreement that provides for retirement benefits. Eligibility for the 401(k) Plan and the Profit Sharing Plan does not have a service requirement. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Contributions

Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan and in any combination of before-tax and after-tax (Roth) contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified benefit plans. The Company, on a payroll basis, contributes 50 percent of the first 6 percent of compensation contributed as pre-tax contributions. Additional amounts may be contributed at the option of the Company's board of directors. Annual contributions are subject to certain limitations prescribed by the Internal Revenue Code.

Effective September 1, 2017, under a Plan amendment, the Plan implemented an eligible automatic contribution arrangement for employees.

The Plan was amended, effective January 1, 2012, to add a provision allowing Roth In-Plan Rollovers. Under this feature, a participant may elect to rollover all or a portion of his or her vested Plan account that is then available for distribution or in-service withdrawal into Roth (after-tax) funds. A participant is required to pay income taxes on the amount rolled over and, assuming the applicable holding period and distribution requirement are satisfied, the Roth In-Plan Rollover held in the Plan together with subsequent investment earnings will not be subject to Federal income taxes at the time of distribution. There were no Roth In-Plan Rollovers for the year ended December 31, 2019.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (1) the Company's discretionary contribution, (2) Plan earnings, and (3) allocations of charged administrative expenses. Allocations are based on participant earnings, account balances, or specific transactions as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Notes receivables from participants

Participants may borrow from their fund accounts a minimum of $1,000 and up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1 to 5 years or up to 10 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. Interest rates range from 3.25 percent to 7.50 percent. Principal and interest are paid ratably through payroll deductions or by direct payment by the participants to their account.

Payment of benefits

On termination of service due to death, disability or retirement, a participant or their beneficiary may elect to receive either a lump-sum amount equal to the value of the participant's vested account balance or a single sum of a portion of the participant's vested account balance. For termination of service due to other reasons, a participant may receive the value of their vested account balance as a lump-sum distribution or a rollover distribution. In-service withdrawals are permitted by the Plan from the participant's vested account at any time upon or after the occurrence of the participant's attainment of age 59 1/2. Hardship withdrawals are permitted by the Plan and shall be made from the vested portion of the participant's account balance.

Forfeited accounts

If a participant terminates their employment with the Company, prior to full vesting, the nonvested portion of his or her account attributable to the Company matching and discretionary contributions and earnings thereon is forfeited. The discretionary contributions and earnings thereon will be reallocated to participants. These accounts will be used to reduce future employer 401(k) matching contributions and certain administrative expenses.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustees determine the Plan's valuation policies utilizing information provided by the investment advisors, custodians and other third-party service providers. See Note 3 for a discussion of fair value

measurements. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded. Delinquent notes receivable from participants are recorded as deemed distributions based upon the terms of the plan document. No allowance for credit losses has been recorded as of December 31, 2019 and 2018.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Although not required by the Plan, the Company has elected to pay some of the administrative expenses of the Plan including legal, audit and other administrative expenses. The Plan pays for investment advisory fees. Expenses paid by the Company are excluded from these financial statements. Notwithstanding the foregoing, the Company may direct that administrative expenses that are allocable to the account of a specific participant shall be paid from that participant’s account. All other investment fees applicable to each investment fund are netted against the related investment income before investment income is allocated to participants’ accounts.

Subsequent events

The emergence of the COVID-19 virus, triggered volatility in financial markets and a significant negative impact on the global economy. As a result, the Plan’s investment portfolio has incurred declines in fair value since December 31, 2019. However, because the values of the Plan’s individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined. The full impact of the COVID-19 outbreak continues to evolve as of the date of this report.

Additionally, the Coronavirus Aid, Relief, and Economic Security ("CARES") Act was signed into law on March 27, 2020 to provide economic relief in the early wake of the COVID-19 pandemic. The CARES Act allows retirement plan participants to have greater access to their savings if they are impacted by the coronavirus, as defined in the CARES Act.

The following is a summary of the main provisions adopted by the Plan:

- Qualified participants impacted by COVID-19 may take penalty-free distributions, not to exceed $100,000 during the taxable year between January 1, 2020 and December 31, 2020. Additionally, COVID-19 related distributions are not subject to the 20% federal tax withholding but are subject to a 10% federal tax withholding requirement with the option to spread the applicable income tax resulting from the COVID-19 distribution over a three-year period. The CARES Act also allows a participant who obtains a distribution to repay the distribution to an eligible retirement plan within the three-year period following the distribution to defer taxation.

- Under the CARES Act, the Plan temporarily increased the maximum thresholds for retirement plan loans under IRC Section 72(p) to the lesser of: (1) $100,000 (increased from $50,000), or (2) 100% (increased from 50%) of the present value of the participant's vested account balance. This is only available for plan loans made during the period from March 27, 2020 to September 22, 2020. The repayment provision for these new loans are set for January 2021. The Plan also adopted a provision for qualified participants with outstanding plan loans (on or after March 27, 2020) by allowing for a suspension of the loan payments (due from March 27, 2020 through December 31, 2020) and to be repaid by January 2021. During the suspension period, interest will continue to accrue.

The Plan has evaluated subsequent events through October 13, 2020, the date the financial statements were available to be issued.

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to values based on unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level with the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual Funds

The fair value is determined by reference to the funds' Net Asset Value (NAV). NAV per share is computed once a day based on the closing market prices of the securities in the fund's portfolio.

Putnam Stable Value Fund (A Common Collective Trust)

The Putnam Stable Value Fund ("PSVF"), a common collective trust, invests directly or indirectly in fully benefit–responsive investment contracts. The PSVF is valued at the NAV as provided by the trustee, which is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the PSVF, the issuer reserves the right to temporarily delay withdrawal from the PSVF in order to ensure that securities liquidations will be carried out in an orderly business manner. The PSVF, included in the fair value hierarchy table below, files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity. Accordingly, certain disclosure requirements under FASB ASU 2015-12 with respect to investment strategies for investments measured using the net asset value practical expedient are not required in this report.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2019 AND 2018

Note 5 - Related-Party and Party-In-Interest Transactions

All Plan investments were managed by Fidelity Management Trust Company who was the trustee, custodian and a recordkeeper of Plan assets at December 31 2019 and 2018. The purchases and sales of these investments and resulting balances qualify as party-in-interest transactions.

Note 6 – Plan Termination

Although it has not expressed an intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 7 – Tax Status

The Plan uses a volume submitter plan document of Fidelity "Volume Submitter Profit Sharing Plan with CODA". The volume submitter plan document has obtained an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2014, which states that the volume submitter document satisfies the applicable provisions of the Internal Revenue Code. The Plan has not received a determination letter from the IRS; however, the Plan administrator and the Plan's counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the Unites States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
