Independent Auditor's Report

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Nationwide Children's Hospital Pension Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting our audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in the notes to the financial statements, which was certified by JPMorgan Chase Bank, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2019 and 2018 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules of Assets (Held at End of Year) and Reportable Transactions as of or for the year ended December 31, 2019 are required by the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NATIONWIDE CHILDREN'S HOSPITAL PENSION PLAN

Notes to Financial Statements December 31, 2019 and 2018

Plan Description

The following description of Nationwide Children's Hospital (the Hospital) Pension Plan (the Plan) (formally Children's Hospital, Inc. Pension Plan) is provided for general information. Participants should refer to the plan agreement for a complete description of the Plan's provisions.

General

The Plan is a non-contributory defined benefit pension plan. Effective December 31, 1996, the Hospital's Board of Trustees elected to "freeze" the Plan. Accordingly, all plan participants became fully vested on that date. Plan participants who were under the age of 45 as of January 1, 1997 or plan participants who were over the age of 45 as of January 1, 1997, but elected to transfer participation to the new Defined Contribution Plan, accrued no further benefits under the Plan and no additional participants were added to the Plan subsequent to that date. Effective December 31, 2011, the Plan was further amended to freeze the accrual of benefits under the Plan for those employees who remained covered by the Plan. Additionally, effective January 1, 2012, the Defined Contribution Plan was amended to expand the eligibility provisions for the employees no longer accruing benefits under this Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Pension Benefits

Effective January 1, 2007, a participant was entitled to a benefit calculated as follows: (a) $1/12^{\text{th}}$ of 2.3% of the participant's average compensation, minus (b) $1/12^{\text{th}}$ of 2.0% of the participant's social security benefit, such difference multiplied by (c) the participant's years of benefit service.

Effective as of December 31, 2011, the accrued monthly benefit of each participant was frozen and will not increase or decrease after December 31, 2011. No future benefit service or compensation earned after December 31, 2011 will be recognized for purposes of calculating any benefit under the Plan. Additionally, as of December 31, 2011, the disability retirement benefit provisions of the Plan will be closed and no participant will be eligible to receive a disability retirement benefit.

A participant who retired or terminated employment prior to January 1, 2007, and who is not thereafter rehired, will continue to receive or be entitled to receive the benefits to which he was entitled under the Plan as in effect at the time of employment termination. Those benefit provisions are as follows:

- A participant hired prior to July 16, 1984 is entitled to a benefit calculated as (a) the participant's accrued monthly benefit, if any, as of June 30, 1976, plus (b) for each period of participation after June 30, 1976, but before April 1, 1993 and before the participant's date of severance, a monthly retirement credit equal to (i) $1/12^{\text{th}}$ of $3/4^{\text{th}}$ s of 1% of the participant's annualized compensation (up to an amount stipulated in the plan document), plus (ii) $1/12^{\text{th}}$ of 2% of the participant's annualized compensation (in excess of an amount stipulated in the plan document), multiplied by (iii) that portion of the year for which benefit service has been earned.

Plan Description (continued)

Pension Benefits (continued)

- A participant hired before April 1, 1993 is entitled to a benefit calculated as (a) $1/12^{\text{th}}$ of 1% of the participant's average compensation (up to an amount stipulated in the plan document), plus (b) $1/12^{\text{th}}$ of 1.45% of the participant's average compensation (in excess of an amount stipulated in the plan document), multiplied by (c) the participant's years of benefit service, not counting benefit service after March 31, 1993.
- A participant who retires on or after July 1, 1992 is entitled to a benefit calculated as (a) $1/12^{\text{th}}$ of 2.3% of the participant's average compensation, minus (b) $1/12^{\text{th}}$ of 2.0% of the participant's social security benefit, multiplied by (c) the participant's years of benefit service.
- Alternative provisions in the plan document apply to a participant who terminates employment after December 31, 1993 and who has any compensation prior to January 1, 1994 in excess of \$150,000.

The Plan permits early retirement at age 55 with 10 years of credited service or at age 60 with 20 years of credited service. Unless a participant elects an optional form of annuity payment, a married participant will receive a qualified joint survivor annuity and an unmarried participant will receive a 10-year certain and continuous annuity for the life of the participant. Employees may only receive a lump-sum distribution upon retirement or termination if the actuarial equivalent present value of the accrued monthly benefit does not exceed \$5,000.

Death and Disability Benefits

A death benefit equal to the value of the employee's accumulated pension benefit is paid to the employee's beneficiary. Prior to December 31, 2011, a participant who became eligible for a disability retirement benefit and who was not then eligible for a normal retirement or early retirement benefit was entitled to a disability retirement benefit computed in accordance with the plan document. Any disability retirement benefit payable prior to the participant's normal retirement date will be reduced for early commencement, in accordance with the plan document.

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. For additional disclosure regarding fair value of investments, see the *Fair Value Measurements* footnote herein.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by the employees on the valuation date. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, and present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on employees' compensation during their period of credited service. The accumulated plan benefits for active employees are based on their annual compensation during the period of credited service preceding the valuation date. Benefits payable under all circumstances – retirement, death and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

Summary of Significant Accounting Policies (continued)

Actuarial Present Value of Accumulated Plan Benefits (continued)

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts of interest) and the probability of payment (by means of decrements such as for death or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of January 1, 2019 and 2018 were (a) life expectancy of participants (the RP-2014 Mortality Tables for employees and annuitants, for males and females, adjusted back to 2006 with Scale MP-2014 and then projected forward generationally using Scale MP-2018 for 2019 and the RP-2014 Mortality Tables for employees and annuitants, for males and females, adjusted back to 2006 with Scale MP-2014 and then projected forward generationally using Scale MP-2017 for 2018), (b) retirement age assumptions (the assumed average retirement age was 65 for both 2019 and 2018), (c) no salary increase assumptions due to the plan being frozen and (d) investment return. The valuation included assumed average rates of return of 7.00% for both 2019 and 2018. The foregoing actuarial assumptions are based on the presumption that the Plan will not be terminated. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Administrative Expenses

All costs and expenses incurred with regard to the purchase, sale or transfer of investments in connection with the operation of the Plan are borne by the Plan. The Plan also pays actuarial fees and the annual Pension Benefit Guaranty Corporation premium. Other administrative fees, including auditing services, are borne by the Plan's sponsor. In addition, the Hospital provides other accounting and personnel services to the Plan.

Payment of Benefits

Benefit payments to participants and beneficiaries are recorded upon distribution.

Funding Policy

The Hospital has agreed to voluntarily contribute such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to Plan participants. The Hospital's present intention is to make cash contributions in amounts sufficient to annually fund the Plan's current service cost and the initial past service cost plus interest over a period of 20 years. The Plan has met the minimum funding requirements prescribed by ERISA.

The Hospital has the right under the Plan to discontinue such contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

NATIONWIDE CHILDREN'S HOSPITAL PENSION PLAN

Notes to Financial Statements
December 31, 2019 and 2018

Plan Termination

In the event the Plan terminates, the net assets of the Plan shall be allocated or divided among participants and beneficiaries in the following order:

1. Retired participants and their beneficiaries to whom payment commenced at least three years prior to the date of termination.
2. Retired participants and their beneficiaries to whom payment commenced less than three years prior to the date of termination.
3. Participants who were eligible to receive early retirement benefits at the date of termination.
4. All benefits guaranteed and insured by the Pension Benefit Guaranty Corporation.
5. All other vested accrued benefits not insured by the Pension Benefit Guaranty Corporation.
6. All other accrued benefits provided under the Plan.
7. Any excess will revert to the Hospital.

Certain benefits under this Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

The PBGC guarantees vested benefits at the level in effect on the date of Plan termination. However, if the Plan has been in effect less than five years before it terminates or if benefits have been increased within the five years before Plan termination, the whole amount of the Plan's vested benefits or the benefit increase may not be guaranteed. In addition, there is a ceiling on the amount of monthly benefit that the PBGC guarantees, which is adjusted periodically.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

Information Prepared and Certified by the Trustee (continued)

The trustee also certified the completeness and accuracy of \$11,450,484 and \$(4,407,034) of net appreciation (depreciation) in fair value of investments and \$1,604,661 and \$1,451,054 of interest and dividend income related to the aforementioned investments for the years ended December 31, 2019 and 2018, respectively.

Fair Value Measurements

GAAP established a fair value hierarchy that prioritizes the inputs to measure the fair value of the assets or liabilities being measured. Fair value is defined as the exchange value that would be received on the measurement date to sell an asset or to value the amount paid to transfer a liability in the principal or most advantageous market available to the entity in an orderly transaction between market participants. The three levels of the fair value hierarchy are as follows:

- Level 1 Inputs are unadjusted quoted market prices in active markets for identical assets or liabilities that the entity has the ability to access at the measurement date. Level 1 inputs provide the most reliable measure of fair value as of the measurement date.
- Level 2 Inputs are based on significant observable inputs, including unadjusted quoted market prices for similar assets and liabilities in active markets, unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability.
- Level 3 Are significant unobservable inputs for the asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level or any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

<i>Mutual Funds:</i>	Valued at the net asset value of shares held by the Plan at year-end.

December 31, 2019 and 2018

Fair Value Measurements (continued)

Fixed Income

Obligations:

Valued using pricing models maximizing the use of observable inputs for similar securities. This included basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximized observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote, if applicable.

U.S. Government

and Agency

Obligations:

Valued using evaluated prices based on a compilation of primarily observable market information or a broker quote in a non-active market. Inputs include benchmark yields, base spreads, spread adjustments, YTM, adjustments for corporate actions, treasury feeds, broker feeds and CPI.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

Assets at Fair Value as of December 31, 2019:

	Level 1	Level 2	Level 3	Total

Tax Status

The Plan received its latest determination letter from the Internal Revenue Service (IRS) dated December 28, 2017, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (IRC) and therefore, the related trust is exempt from taxation.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Party-in-Interest Transactions

Certain Plan investments are shares of a money market fund managed by JPMorgan Chase Bank, N.A. (JPMorgan). The Plan also holds corporate bonds issued by JPMorgan Chase and Co. JPMorgan is the trustee as defined in the plan agreement, and therefore, these transactions qualify as party-in-interest. Trustee fees paid to JPMorgan during 2019 and 2018 were approximately \$40,000 and \$41,000, respectively.

During 2019 and 2018, PNC Wealth Management and Huntington National Bank provided investment advisory management services to the Plan. Fees paid by the Plan during both 2019 and 2018 for investment advisory management services were approximately \$26,000.

During 2019 and 2018, the Plan paid fees of approximately \$97,000 and \$100,000, respectively, to Willis Towers Watson. Willis Towers Watson is the Plan's actuary, and therefore, these transactions qualify as party-in-interest.

NATIONWIDE CHILDREN'S HOSPITAL PENSION PLAN

Notes to Financial Statements December 31, 2019 and 2018

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the accompanying 2019 statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Subsequent Event

On March 11, 2020, the World Health Organization declared COVID-19 to be a pandemic. The outbreak of the COVID-19 pandemic has severely impacted global economic activity and caused significant volatility and negative pressure in financial markets. Because of the uncertainty impacting the financial markets during this time, management is unable to estimate the impact of the pandemic on the assets of the Plan.

Subsequent Event – Date of Management's Evaluation

Plan management has evaluated subsequent events through the date of the Independent Auditor's Report, the date on which the financial statements were available to be issued.

SCHEDULE SB ATTACHMENTS

Demographic Assumptions

Inclusion date	The valuation date coincident with or next following the date on which the employee becomes a participant. Participation in this plan is frozen.
New or rehired employees	It was assumed there will be no new or rehired employees.
Mortality	Separate rates for non-annuitants (based on RP-2014 "Employees" table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under §1.430(h)(3)-1 using Scale MP-2017) and annuitants (based on RP-2014 "Healthy Annuitants" table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under §1.430(h)(3)-1 using Scale MP-2017).
Termination	None.
Disability	None.
Retirement	For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age and gender are shown below.

Percentage assumed to retire during the year		
Age	Males	Females
63-69	25%	25%
70	100%	100%

Benefit commencement date:

■ Preretirement death benefit	Death of the active participant
■ Deferred vested benefit	The later of age 65 or termination of employment
■ Retirement benefit	Upon termination of employment

Plan Name:	Nationwide Children's Hospital Pension Plan

Plan Sponsor:	Nationwide Children's Hospital, Inc.
Valuation Date	January 1, 2019

SCHEDULE SB ATTACHMENTS

Form of payment	Participants are assumed to elect the normal form for single participants.
Percent married	100% of participants are assumed married.
Spouse age	Male spouses are assumed to be 3 years older than female spouses.
Covered pay	Not applicable; The plan froze benefit accruals December 31, 2011.
Plan-related expenses	The amount included this year for plan-related expenses is \$790,000, which is based on prior year's plan-related expense minus the prior year's PBGC premiums plus the current year's estimated PBGC premiums.
Timing of benefit payments	Annuity payments are assumed to be payable annually at the date of decrement, which is assumed to be beginning-of-year for retirement and middle-of-year otherwise.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430

Plan Name:	Nationwide Children's Hospital Pension Plan

SCHEDULE SB ATTACHMENTS

Actuarial value of assets for determining minimum required contributions

Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2018 plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

Willis Towers Watson has reviewed the plan provisions with the plan sponsor and, based on that review, is not aware of any other significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor furnished participant data as of January 1, 2019. Information on contributions and plan provisions was supplied by the plan sponsor. Asset information was supplied by the Hospital. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. No data adjustments were made and we are unaware of any data adjustment made by the data provider.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Plan Name: Nationwide Children's Hospital Pension Plan

Plan Sponsor: Nationwide Children's Hospital, Inc.
Valuation Date: January 1, 2019

SCHEDULE SB ATTACHMENTS

Administrative expenses Administrative expenses are estimated by determining the actual expenses paid from the trust the preceding year with an estimate of any change in upcoming PBGC premium.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality Assumptions used for funding purposes are as prescribed by IRC §430(h).

Source of Prescribed Methods

Funding methods The methods used for funding purposes as described herein, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2017 to September 2018 as required by IRC §430. The basis for this assumption remains unchanged.
- The required mortality table used to calculate the funding target and target normal cost was updated to reflect the new tables, based on RP-2014 and subsequent Society of Actuaries studies, published by the IRS in October 2017 in regulation §1.430(h)(3)-1.
- The assumed plan-related expenses included in the target normal cost were changed from \$630,000 for 2018 to \$790,000 for 2019. The basis is still the prior year’s plan-related expenses, minus the prior year’s PBGC premiums, plus an estimate of the current year’s PBGC premiums.
- The decrement timing used in the valuation was changed from beginning of year to rounded middle of year. Under rounded middle of year decrement timing, all decrements are assumed to occur at the middle of the year and eligibility for benefits, commencement and cessation of benefits, and other events are assumed to occur at the middle of the year. The change in funding method meets the parameters for automatic approval of software changes under IRS Rev. Proc. 2017-56.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Demographic Assumptions

Inclusion date	The valuation date coincident with or next following the date on which the employee becomes a participant. Participation in this plan is frozen.
New or rehired employees	It was assumed there will be no new or rehired employees.
Mortality	Separate rates for non-annuitants (based on RP-2014 "Employees" table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under §1.430(h)(3)-1 using Scale MP-2017) and annuitants (based on RP-2014 "Healthy Annuitants" table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under §1.430(h)(3)-1 using Scale MP-2017).
Termination	None.
Disability	None.
Retirement	For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age and gender are shown below.

Percentage assumed to retire during the year		
Age	Males	Females
63-69	25%	25%
70	100%	100%

Benefit commencement date:

■ Preretirement death benefit	Death of the active participant
■ Deferred vested benefit	The later of age 65 or termination of employment
■ Retirement benefit	Upon termination of employment

SCHEDULE SB ATTACHMENTS

Form of payment	Participants are assumed to elect the normal form for single participants.
Percent married	100% of participants are assumed married.
Spouse age	Male spouses are assumed to be 3 years older than female spouses.
Covered pay	Not applicable; The plan froze benefit accruals December 31, 2011.
Plan-related expenses	The amount included this year for plan-related expenses is \$790,000, which is based on prior year's plan-related expense minus the prior year's PBGC premiums plus the current year's estimated PBGC premiums.
Timing of benefit payments	Annuity payments are assumed to be payable annually at the date of decrement, which is assumed to be beginning-of-year for retirement and middle-of-year otherwise.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430

Actuarial value of assets for determining minimum required contributions

Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2018 plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

Willis Towers Watson has reviewed the plan provisions with the plan sponsor and, based on that review, is not aware of any other significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor furnished participant data as of January 1, 2019. Information on contributions and plan provisions was supplied by the plan sponsor. Asset information was supplied by the Hospital. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. No data adjustments were made and we are unaware of any data adjustment made by the data provider.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

SCHEDULE SB ATTACHMENTS

Administrative expenses Administrative expenses are estimated by determining the actual expenses paid from the trust the preceding year with an estimate of any change in upcoming PBGC premium.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality Assumptions used for funding purposes are as prescribed by IRC §430(h).

Source of Prescribed Methods

Funding methods The methods used for funding purposes as described herein, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2017 to September 2018 as required by IRC §430. The basis for this assumption remains unchanged.
- The required mortality table used to calculate the funding target and target normal cost was updated to reflect the new tables, based on RP-2014 and subsequent Society of Actuaries studies, published by the IRS in October 2017 in regulation §1.430(h)(3)-1.
- The assumed plan-related expenses included in the target normal cost were changed from \$630,000 for 2018 to \$790,000 for 2019. The basis is still the prior year's plan-related expenses, minus the prior year's PBGC premiums, plus an estimate of the current year's PBGC premiums.
- The decrement timing used in the valuation was changed from beginning of year to rounded middle of year. Under rounded middle of year decrement timing, all decrements are assumed to occur at the middle of the year and eligibility for benefits, commencement and cessation of benefits, and other events are assumed to occur at the middle of the year. The change in funding method meets the parameters for automatic approval of software changes under IRS Rev. Proc. 2017-56.

Plan Provisions

November 1, 1958; amended effective January 1, 1989 to comply with the Tax Reform Act of 1986 (TRA 86); most recently restated effective January 1, 2016.

Covered employees A non-discriminatory group of employees who voluntarily elected to continue their participation in this Plan.

Participation date Participation under the Plan was frozen as of December 31, 1996.

Definitions

Vesting service The number of years in which the associate works over 1,000 hours from the later of (a) date of hire or (b) 18th birthday.

Pension service The number of years in which the associate works over 1,000 hours.

Service prior to an employee's 21st birthday is excluded.

Service prior to July 1, 1976 is excluded for those employees who were then classified by the Hospital as "other than full-time."

Service after December 31, 2011 shall not be recognized for purposes of calculating any benefit under the plan.

Break in service Vesting service and Pension service will be restored upon reemployment following a break in service (termination of employment and completion of twelve months with no hours of service) only if (i) the participant has vested benefits under the Plan, or (ii) his consecutive years of break in service is less than the greater of 5 years or his aggregate number of years of pre-break service.

Monthly pension benefit

A monthly pension equal to 57.50% of the Final Average Compensation minus 50% of the Primary Insurance Amount, such difference proportionately reduced for Years of Service less than 25. The above offset is no more than the lesser of 18.75% of the Final Average Wage Base Compensation and 28.75% of the lesser of the Final Average Compensation, the Final Average Wage Base Compensation and the Covered Compensation.

In addition, no benefit will be less than the accrued benefit under the old formulas as of March 31, 1993.

The extended wear away grandfather approach has been adopted relative to the reduced IRS Section 401(a) 17 compensation limitation effective January 1, 1994.

Effective December 31, 2011, benefit accruals were frozen under the plan.

Eligibility for Benefits

Normal retirement

Retirement on NRD

Early retirement

Retirement following the attainment of:

- i) age 55 and the completion of 10 Years of Credited Service, or
- ii) age 60 and the completion of 20 Years of Credited Service.

Postponed retirement

Retirement after NRD

Early retirement

Monthly pension benefit determined as of the early retirement date, reduced for early retirement as follows:

i) Those retiring after attaining age 55 with 10 or more years of Pension service will have their benefits reduced by 1/180th per month for each of the first 60 months early and 1/360th for each month in excess of 60.

ii) However, those retiring after attaining age 60 with 20 or more years of Credited Service will receive the benefit unreduced.

Postponed retirement

Monthly pension determined as of age 65 is payable upon actual retirement.

Vested termination

Monthly pension benefit determined as of the termination date, payable at NRD.

Other Plan Provisions

Forms of payment

Preretirement death benefits are payable. Monthly pension benefits are paid as a life annuity with 10 years certain, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are a joint and survivor annuity, a 5 year certain and life annuity, or a life annuity. Actuarial equivalence is based on 1971 Group Annuity Mortality Table projected to 1990 by scale D with age set back four years for participant and two years for spouse and 7% interest.

Maximum on benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Forms of payment

Preretirement death benefits are payable. Monthly pension benefits are paid as a life annuity with 10 years certain, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are a joint and survivor annuity, a 5 year certain and life annuity, or a life annuity. Actuarial equivalence is based on 1971 Group Annuity Mortality Table projected to 1990 by scale D with age set back four years for participant and two years for spouse and 7% interest.

Maximum on benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Schedule SB, Line 25 Change in Method

The decrement timing used in the valuation was changed from beginning of year to rounded middle of year. Under rounded middle of year decrement timing, all decrements are assumed to occur at the middle of the year and eligibility for benefits, commencement and cessation of benefits, and other events are assumed to occur at the middle of the year. The change in funding method meets the parameters for automatic approval of software changes under IRS Rev. Proc. 2017-56.
