General

The Plan is a defined contribution plan that covers all full-time employees of The Dupps Company (the "Company"). Employees are eligible for participation in the form of pre-tax contributions and Roth elective deferrals after they have completed thirty days of employment and reached age twenty-one. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Company automatically enrolls an employee in the Plan as soon as the employee meets the eligibility requirements, unless the Company obtains a waiver of participation from the employee. The Company has set the auto enrollment contribution level at 3% of compensation.

Contributions

Participants may contribute one to twenty percent of their annual compensation and dollar amount permissible under Section 402(g) of the Internal Revenue Code (IRC) not to exceed the limits of Code Sections 401(k), 404 and 415. Participants may choose to invest funds, in multiples of 1%, in various investment categories comprising the Plan. The Company may make a discretionary matching contribution to be made at the discretion of the Board of Directors in proportion to the participants' relative before-tax contribution.

There may be a limit placed on the percent of compensation deferred by certain participants. The Company determines that the salary deferral percentage, the Company matching percentage, and the total defined contribution percentage comply with several tests as prescribed by law. The Company elected to make discretionary contributions of \$499,118 and matching contributions of \$416,936 for the plan year ended December 31, 2019.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution (b) plan earnings and (c) forfeitures of terminated participants' nonvested accounts. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their elective contributions, rollover contributions, plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is fully vested after two years of credited service.

Notes receivable from participants

Participants may borrow from their fund accounts a maximum of \$50,000 or 50 percent of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at prime plus 1% at the date of loan issuance. The term of the loan is not to exceed five years, unless the loan is used to acquire a dwelling unit. Principal and interest is paid through payroll deductions.

Payment of benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or in

installments. Director rollovers may also be made into an IRA or into a new employer's plan. Balances under \$1,000 may be automatically distributed without the participant's consent.

Forfeiture accounts

At December 31, 2019 and 2018, forfeited nonvested accounts totaled \$22,840 and \$14,931, respectively. These accounts will be used to reduce future company contributions. There were no forfeitures used to offset employer contributions for the year ended December 31, 2019.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The following are the significant accounting policies of the Plan:

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 or 2018. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded on the basis of the terms of the Plan agreement.

Payment of benefits

Benefits are recorded when paid.

Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Subsequent events

The Plan has evaluated subsequent events through the report date, the date the financial statements were available to be issued.

3. INFORMATION PREPARED AND CERTIFIED BY THE CUSTODIAN:

Plan management has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TD Ameritrade Trust Company, the custodian, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2019 and 2018, and the supplemental schedule of assets (held at end of year) as of December 31, 2019; the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2019.

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Registered investment companies: Valued at the daily closing price as reported by the registered investment companies. Funds held by the Plan are open-ended funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Common collective trust: Valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the TD Ameritrade Trust Company, is used as a practical expedient to estimate fair value.

The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the issuer reserves the right to temporarily delay withdrawal from the

trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Stable value collective trust fund: A stable value fund that is composed primarily of fully benefit-responsive investment contracts. It is valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

5. TAX STATUS:

The Company adopted a defined contribution volume submitter plan and trust with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Service (IRS) dated March 31, 2014. The IRS stated in the letter that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has since been amended. While the Company has not obtained its own determination letter on the Plan, management believes that the Plan currently is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

6. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a plan termination, participants will become fully vested in their accounts.

7. RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS:

Certain plan investments are shares of mutual funds, common collective trusts and money market account managed by TD Ameritrade. TD Ameritrade Trust Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest.

The Company has elected to pay certain administrative expenses of the Plan and provides certain administrative services at no cost to the Plan. If not paid by the Company, administrative expenses become a liability of the Plan.

8. RISK AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. PLAN TRANSFER ROLLOVER CONTRIBUTIONS:

During 2018, the Plan Sponsor approved an amendment to terminate the Dupps Company Retirement Plan effective September 1, 2018. Upon termination, the trust associated with the Dupps Company Retirement Plan was dissolved and all participants or beneficiaries in that plan received a distribution of benefits during 2019, in a form elected by the participant or beneficiary. All participants or beneficiaries were provided the option to have their account balance rolled into any qualified plan (including the Plan) or IRA, or receive a lump sum distribution. An aggregate of \$4,155,920 was rolled into the Plan during the year ended December 31, 2019 and is included in rollovers on the statement of changes in net assets available for benefits. In addition, the Dupps Company Retirement Plan was overfunded at the effective date of termination. As a result, an aggregate of \$792,761 was deposited into the Plan during the year ended December 31, 2019 and is included in transfers on the statement of changes in net assets available for benefits. These funds will be used to reduce future Company discretionary and matching contributions.

10. SUBSEQUENT EVENT:

Subsequent to the date of the financial statements, an outbreak of a novel strain of coronavirus (COVID-19) has disrupted supply chains and affected production and sales across a range of industries. The extent of the impact of COVID-19 on the Plan Sponsor's performance and the Plan's investments will depend on certain developments, including the duration and spread of the outbreak. Impact to the Plan cannot be predicted, and the extent to which COVID-19 may impact the statement of net assets available for benefits is uncertain at this time.
