Independent Auditors' Report

To the Administrative Committee and Participants of the
WHX II Pension Plan:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of WHX II Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits and accumulated plan benefits as of December 31, 2019 and 2018, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the year ended December 31, 2019, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note F, which was certified by The Northern Trust Company (the "Trustee" of the Plan), except for comparing such information with the related information included in the financial statements. We have been informed by the Plan Administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the Trustee as of December 31, 2019 and 2018, and for the year ended December 31, 2019, that the information provided to the Plan Administrator by the Trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion on the financial statements. Accordingly, we do not express an opinion on the financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

WHX Pension Plan II

Notes to Financial Statements
December 31, 2019 and 2018

Note A – General and Plan Formation

[1] General and Plan Formation:

The WHX Pension Plan II (the "Plan") is sponsored by Handy & Harman Ltd. (the "Company" or "Plan Administrator") for the purpose of providing retirement and other benefits for certain participants and beneficiaries who were spun off from the WHX Pension Plan effective as of December 30, 2016, the inception of the Plan. The Plan contains supplements naming specific participants and beneficiaries covered. Steel Partners Holdings L.P. owns 100% of the stock of Handy & Harman Ltd. The benefits of participants under the Plan were equal to their accrued benefits under the benefit formula that was applicable to each participant under the WHX Pension Plan at the time of the spin-off. The total accumulated plan benefits of the two plans after the spin-off were equal to the accumulated plan benefits of the WHX Pension Plan immediately prior to the spin-off, and under the applicable spin-off rules, the Plan is considered fully funded.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Company's plan administrative committee is responsible for the administration of the Plan.

Note B - Description of the Plan

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. Eligibility and all future benefit accruals under the Plan are frozen. Participants are 100% vested in their benefits under the Plan. The Plan includes five primary benefit structures related to the specific employee groups covered, as discussed below:

[1] WPSC Bargaining Employees and Ohio Coatings Company:

Certain employees who were spun off into the Plan, with 5 years of continuous service are entitled to a benefit equal to the USWA-Wheeling-Pittsburgh Steel Corporation and the USWA-Pittsburgh-Canfield Corporation Retirement Security Plans ("RSP Plans") benefit, as defined in the Plan document, or a monthly pension benefit at normal retirement age of 65 equal to $40 times their years of continuous service offset by other pension benefits such as benefits from the Pension Benefit Guaranty Corporation ("PBGC") and benefits attributable to vested balances in the RSP Plans.

Benefits are payable as early as age 55 provided minimum service requirements are met. Employees who are permanently incapacitated with at least 15 years of continuous service are eligible for a monthly pension benefit as explained above. Surviving spouses of retirees receive reduced benefits. Surviving spouses are also eligible for additional reduced benefits based on the deceased's pension type election at the time of retirement. Surviving spouses of active employees are eligible to receive reduced benefits provided the deceased was an active employee with at least 15 years of service.

[2] WPSC Salaried Employees:

Certain employees who were spun off into the Plan, who were employees as of February 1, 1998 and have at least 5 years of continuous service are entitled to monthly pension benefits at normal retirement age of 62 equal to 1.3% of the highest average three-year compensation multiplied by years of continuous service offset by public pension benefits such as benefits from the PBGC and benefits attributable to vested balances in the Salaried Employees Pension Plan of WPSC. Reduced benefits are payable as early as age 55 provided minimum service requirements are met. Surviving spouses of retirees are eligible for reduced benefits as determined by the deceased's pension type election at the time of retirement. Surviving spouses of active employees are eligible to receive reduced benefits provided the deceased was an active employee with at least 5 years of service.

Note B - Description of the Plan (continued)

[3] H&H Employees:

Certain employees who were spun off into the Plan, are entitled to monthly pension benefits at the normal retirement age of 65. Benefits are payable as early as age 55 provided minimum service requirements are met. Participants are fully vested at the completion of 5 years of continuous service or normal retirement. For certain employees, the accrued monthly pension is generally equal to 28.75% or 38.75%, depending on the division in which the employee worked, of monthly average basic pay (determined by taking the average basic pay as of the beginning of the Plan year for each of the five most recent years) plus 11.25% of such average monthly pay in excess of $833.33. For certain other employees, monthly pension benefits are determined based on credited service multiplied by factors ranging from $6 to $25, depending on the division in which the employee worked. Employees who are permanently incapacitated with 2-15 years of continuous service, depending on the division in which the employee worked, are eligible for a monthly pension benefit as explained above. In certain cases this benefit is subject to a minimum amount based on a percentage of the total projected pension benefit they would have received at normal retirement age.

Surviving spouses of retirees are eligible for actuarially reduced benefits as determined by the deceased's pension election. Spouses may decline surviving spouse benefits at retirement. Surviving spouses of vested active employees are eligible to receive benefits starting at the time the employee would have been eligible to retire. Participants may elect to receive their accumulated plan benefits as a life annuity, joint and survivor annuity, or other optional form of pension in an amount equal to the actuarial equivalent of the life annuity. In addition, certain one-time death benefits are available to surviving spouses of certain employees.

[4] Bairnco Retirement Plan:

Certain employees who were spun off into the Plan, who commenced employment subsequent to March 31, 2006, were excluded from participation in the Bairnco Plan. Participants in the Bairnco Plan included all nonunion employees of the Bairnco Corporation ("Bairnco") and the union employees of the Arlon, East Providence, Rhode Island location. During the year ended December 31, 2004, the Arlon, East Providence, Rhode Island location was closed. On February 16, 2000, Bairnco purchased certain assets of the materials business of SignTech USA, Ltd. ("SignTech"). On March 15, 2000, Bairnco's Board of Directors (the "Board") elected to include the employees of SignTech in the Bairnco Plan, effective March 1, 2000, at which time the employees of SignTech began participating in the Bairnco Plan. On January 10, 2001, Bairnco purchased selected net assets of Viscor, Inc. ("Viscor"). On January 27, 2001, the Board elected to include the employees of Viscor in the Bairnco Plan, effective February 1, 2001, at which time the employees of Viscor began participating in the Bairnco Plan. All employees employed prior to January 1, 1995 were eligible to participate in the Bairnco Plan at the later of January 1, 1989 or January 1 following their first date of employment. All employees employed after January 1, 1995 were eligible to participate in the Bairnco Plan on January 1 following the completion of one year of service. A year of service with respect to employment on or after January 1, 1976 was defined, for eligibility and vesting purposes, as a plan year during which a participant is credited with at least 1,000 hours of service, allocated pro rata for the first and last plan year of a participant's employment.

Participants are entitled to annual pension benefits beginning at normal retirement (age 65) equal to 1.3% of final average compensation up to covered compensation levels plus 0.65% of final average earnings, which are in excess of covered compensation levels, multiplied by years of service up to a maximum of 25 years. A participant's benefits were 100% vested in the Bairnco Plan at the earliest of either: (a) the participant attains age 65, provided the participant is an employee of Bairnco on the date the participant becomes 65, or (b) upon completion of five years of credited service. Upon retirement, benefits are paid monthly during the lifetime of the retiree and, if applicable, during the lifetime of a surviving annuitant. A participant with an eligible spouse will have the benefits paid in the form of a joint and survivor annuity unless the participant elects not to receive it in this form. The amount of the monthly benefit is based on the participant's compensation, years of service, and other factors as defined in the Bairnco Plan agreement.

Note B - Description of the Plan (continued)

[5] Bairnco Hourly Kasco Employees:

Certain participants in the Kasco Plan who were spun off into the Plan, include individuals employed by Kasco Corporation ("Kasco") who have completed at least three months of service, were represented by the International Association of Machinists and Aerospace Workers, District No. 9 (the "Union"), and were covered by the collective bargaining agreement between Kasco and the Union. Effective January 1, 2004, the Union was terminated and the Kasco Plan no longer accepted new active participants. As such, all participants were considered terminated vested employees from that date forward. Participants receive a monthly benefit for each year of credited service in accordance with the benefit rate in effect per the collective bargaining agreement in effect at the time of their termination of employment. Upon retirement, benefits are paid monthly during the lifetime of the retiree and, if applicable, during the lifetime of a surviving annuitant. A participant with an eligible spouse will have the benefits paid in the form of a joint and survivor annuity unless the participant elects not to receive it in this form. The amount of the monthly benefit is based on years of service and other factors, as defined in the Kasco Plan agreement.

Note C - Summary of Significant Accounting Policies

[1] Basis of presentation:

The accompanying financial statements of the Plan have been prepared using the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America ("US GAAP").

[2] Investment valuation and income recognition:

The investment in the WHX Pension Plan Trust (the "Master Trust") (see Note H) is valued at fair market value, which is determined by the current fair value of the underlying assets as reported by The Northern Trust Company (the “Trustee”) as of December 31, 2019 and 2018. The Master Trust invests in certain securities and other investments, including limited partnerships, joint ventures and hedge funds, for which no publicly quoted market value is readily available. The Trustee reported the fair value of these investments based upon the valuation techniques discussed in Note G. Purchases and sales of securities are recognized on the trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Plan interest in WHX Pension Plan Trust net investment income (loss) includes the Master Trust’s gains and losses on investments bought and sold as well as held during the year.

[3] Use of estimates:

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts in the financial statements and accompanying notes, and when applicable, disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

[4] Actuarial present value of accumulated plan benefits:

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on years of service and the benefit rate in effect at the time of termination. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits. Willis Towers Watson is the Plan's actuary. The actuarial present value of accumulated plan benefits is discounted to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, or retirement) between the valuation date and the expected date of payment.

Note C – Summary of Significant Accounting Policies (continued)

[4] Actuarial present value of accumulated plan benefits, continued:

The significant actuarial assumptions used in the valuation as of December 31, 2019 and 2018 are:

	2019	2018
Rate of Return/Interest Rate	6.50%	6.50%
Mortality	MP-2019	MP-2018
Normal Retirement Age	Age 62 to age 65	Age 62 to age 65

The foregoing actuarial assumptions are based on the presumption that the Plan will continue to operate. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2020 and 2019. Had the valuations been performed as of December 31, 2019 and 2018, respectively, there would be no material differences.

[5] RSP Benefits:

The RSP Benefits represent the current value of the USWA – Wheeling – Pittsburg Steel Corporation and the USWA – Pittsburg – Canfield Corporation Retirement Security Plans (“RSP Plans”) participant accounts that were merged into the Plan. The net assets available for plan benefits include RSP Benefits totaling $505,106 and $425,809 at December 31, 2019 and 2018, respectively. The assets related to the RSP Benefits can only be utilized to fund all or a portion of the former RSP Plan participant's total pension benefit as determined by the Plan's benefit formula.

[6] Benefit payments:

Benefit payments to participants are recorded upon distribution.

[7] Contributions:

The Company contributes such amounts as are necessary on an actuarial basis to provide sufficient assets to meet benefit payments to Plan members. Contributions to the Plan are recorded as additions to the Plan on an accrual basis.

[8] Administrative expenses:

Certain employees of the Company provide services to the Plan. Neither these individuals nor the Company receives any compensation from the Plan. Certain plan expenses, including consulting, legal, accounting, actuary and investment manager fees, were paid by the Master Trust and allocated to the respective plans based on their interest in the Master Trust or, if the fees were applicable to a particular plan, allocated directly to such plan.

[9] Recent accounting pronouncements:

In August 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2018-13, Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement. ASU No. 2018-13 modifies the disclosure requirements for fair value measurements in Topic 820, Fair Value Measurement. The amendments are based on the concepts in the FASB Concepts Statement, Conceptual Framework for Financial Reporting—Chapter 8: Notes to Financial Statements, which the Board finalized on August 28, 2018. ASU No. 2018-13 is effective for fiscal years beginning after December 15, 2019. Early adoption is permitted. Management is currently assessing the impact that ASU No. 2018-13 will have on the Plan’s financial statements.

Note C – Summary of Significant Accounting Policies (continued)

[9] Recent accounting pronouncements, continued:

In February 2017, the FASB issued ASU No. 2017-06, Plan Accounting: Defined Benefit Pension Plans (Topic 960); Defined Contribution Pension Plans (Topic 962); Health and Welfare Benefit Plans (Topic 965): Employee Master Trust Reporting. The amendments in ASU No. 2017-06 clarify presentation requirements for a plan's interest in a master trust. The amendments also eliminate redundancy relating to 401(h) account disclosures. ASU No. 2017-06 is effective for fiscal years beginning after December 15, 2018. Early adoption is permitted. The amendments should be applied retroactively to each period for which financial statements are presented. Management has elected to adopt the provisions of this new standard which were retroactively applied.

[10] Subsequent events:

The Plan has evaluated subsequent events through October 14, 2020, the date the financial statements were available to be issued, and noted the following event:

In March 2020, the World Health Organization categorized the outbreak of the SARS-CoV-2 coronavirus ("COVID-19") as a pandemic. The COVID-19 outbreak occurred globally causing significant fluctuations in financial markets in the United States and internationally. The extent of the impact on the Plan's net assets, including the fair value of investment securities and related net investment income or loss, as well as future contributions, will depend on the duration and continued spread of the COVID-19 outbreak and any other further economic developments. Plan management is not able at this time to estimate the full impact on the Plan's financial statements.

Note D - Funding Policy

The Company's funding policy is to make annual contributions to the Plan in amounts needed to meet the minimum funding requirements of ERISA as amended. During 2019, the Company made no contributions. The Company has met the minimum funding requirements of ERISA.

Note E - Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan, subject to certain collective bargaining agreements, to discontinue or adjust its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

After all expenses of administration and liquidation are paid, benefits shall be distributed to vested participants in accordance with statutory priorities as defined by Title IV of ERISA. The participants' vested benefits shall be paid in accordance with the individual benefit structures, as defined generally in Note B above. If assets remain following the complete distribution of all benefit payments and Plan liabilities, they shall be returned to the Company. To the extent that unfunded vested benefits exist, ERISA provides that such benefits are payable by the PBGC to participants, up to specified limitations.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

NOTE F – CERTIFIED FINANCIAL INFORMATION

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following information included in the accompanying financial statements are complete and accurate:

- Plan's interest in the Master Trust as shown in the Statements of Net Assets Available for Benefits as of December 31, 2019 and 2018.

- The Plan's interest in the Master Trust net investment income as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2019.

The Plan's independent certified public accountant did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

Note G - Fair Value Measurements

FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note G - Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for the Master Trust assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2019 and 2018:

Equity securities: When available, quoted market prices are used to determine the fair value of investment securities, and they are included in Level 1. Level 1 securities primarily include publicly-traded equity securities. When unobservable, valuation methodologies are used, including utilization of the investee company's financial statements and industry comparisons.

Mutual funds: Valued at the daily closing price as reported by the fund. These are open-ended mutual funds that are registered with the Securities and Exchange Commission. Mutual funds are required to publish their daily net asset value ("NAV") and to transact at that price. They are deemed to be actively traded.

Fixed income securities: When available, observable market data, including pricing on recent closed market transactions, is used to value loans which are included in Level 2. When this data is unobservable, the Master Trust uses valuation methodologies using current market interest rate data adjusted for inherent credit risk.

Hedge funds: Comprised of shares or units in commingled funds that may not be publicly traded. The underlying assets in these funds are primarily publicly traded equity securities and fixed income securities, and the funds are valued at their NAVs as a practical expedient to measure fair value.

Private equity: One private equity limited partnership is a direct lending private debt fund which serves as an alternative source of liquidity for the shipping industry. Another private equity limited partnership has a strategy to build a concentrated portfolio of 8 to 10 companies with $100 million to $1 billion of equity allocated per investment. Investments will be control portions of minority stakes with significant protections and influence. The strategy will focus on the North American and Asian financial, industrial, energy, consumer and business service sectors. Another private equity limited partnership has a strategy to focus on private growth-oriented companies and value added investments in lower middle-market high growth industries committed to provide long-term opportunities and investing in both debt and equity. Another private equity limited partnership has a strategy to create a portfolio of high yield, secured, revenue-based loans made to established private companies generating between $4 million and $75 million in annual revenue. The limited partnerships are primarily valued based on NAV as a practical expedient to measure fair value as calculated by the funds and are not publicly available.

Fund of funds: Fund of funds is a limited partnership that operates as a fund of funds. The underlying assets in this fund are generally expected to be illiquid. The limited partnership's investment strategy is to seek above-average rates of return and long-term capital growth by investing in a broad range of investments, including, but not limited to, global distressed corporate securities, activist equities, value equities, post-reorganizational equities, municipal bonds, high yield bonds, leveraged loans, unsecured debt, collateralized debt obligations, mortgage-backed securities, commercial mortgage-backed securities, direct lending and sovereign debt. The limited partnership is primarily valued based on NAV as a practical expedient to measure fair value as calculated by the fund and is not publicly available.

Offshore feeder fund: The offshore feeder fund has a Pan-Asia strategy which employs a value-oriented and concentrated approach with a long-term horizon and seeks to build a portfolio of independent long and short positions with access to small/mid-cap opportunities. The fund is valued based on NAV as a practical expedient to measure fair value as calculated by the fund and is not publically available.

Convertible promissory notes, stock warrants and private company common stock: These consist of promissory notes that are convertible into preferred shares of stock, stock warrants that are exercisable into preferred shares of stock, and common stock in a privately-held company. As there is no quoted market value for these investments, they are recorded at fair value based upon the market approach which reflects the value of recent transactions in the last rounds of financing. These investments are included in Level 3.

Note G - Fair Value Measurements (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Master Trust assets and liabilities at fair value as of December 31, 2019:

	Level 1	Level 2	Level 3	Total
Investments in the fair value hierarchy:				
Equity securities:				
U.S. mid-cap	$ 28,729,282	$ -	$ -	$ 28,729,282
U.S. large-cap	91,785,328	-	-	91,785,328
U.S. small-cap	1,252,015	-	-	1,252,015
International large-cap	939,675	-	-	939,675
Mutual funds	1,822,812	-	-	1,822,812
Fixed income securities:				
Foreign exchange contracts	-	78,060	-	78,060

There were no changes in fair value of the Master Trust's Level 3 assets for the year ended December 31, 2018.

Valuation Processes Used in Level 3 Measurements

The Plan Administrator discusses and assesses fair value measurements with internally responsible personnel as well as with the Trustee, investment managers of separately managed funds, and an independent investment advisor. The principal valuation technique employed in determining the fair value of the Level 3 assets held as of December 31, 2019 and 2018 was the market approach. The Level 3 assets consist of promissory notes that are convertible into preferred shares of stock, stock warrants that are exercisable into preferred shares of stock, and common stock in a privately-held company. The significant unobservable input used in the valuation was the estimated fair value of $300 per share, which reflects the value of recent transactions in the last rounds of financing.

Changes in Fair Value Levels

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in Plan interest in the WHX Pension Plan Trust net investment income in the Statement of Changes in Net Assets Available for Benefits.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2019 and 2018, there were no transfers into or out of Levels 1, 2 or 3.

Note H - Interest In WHX Pension Plan Trust

The Trustee maintained all records of investment transactions and determined the valuation of the investment portfolio for the Plan's interest in the Master Trust. The Master Trust was established for the investment of assets for the Plan and several other retirement plans sponsored by the Company or its subsidiaries. The Retirement Pension Plan for Employees of JPS Industries Holdings LLC and WHX Pension Plan, related plans, are part of the Master Trust. Each participating plan has an interest in each investment fund within the Master Trust in the proportion its investment in such investment fund is to the total investments of all participating plans invested in such investment fund. As of December 31, 2019 and 2018, the assets of the Master Trust were held by The Northern Trust Company. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income or loss less actual distributions and allocated administrative expenses, which approximates the Plan’s divided interest in the Master Trust at th end of the year. At December 31, 2019 and 2018, the Plan's interest in the net assets of the Master Trust was approximately 2%. Income or loss related to the Master Trust is allocated to the individual plans based upon average monthly balances invested by each plan. Administrative expenses paid by the Master Trust are allocated to the individual plans based on their interest in the Master Trust or, if the fees were applicable to a particular Plan, allocated directly to such Plan. The Plan's investment in the Master Trust is included in Plan interest in WHX Pension Plan Trust in the accompanying Statements of Net Assets Available for Benefits.

Note I - Related Party and Party In Interest Transactions

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan. Certain Plan investments are managed by the Trustee. Transactions related to those investments qualify as party-in-interest transactions. The Plan pays fees for investment management services and other exempt services provided by the Trustee. For the year ended December 31, 2019, there were no administrative fees incurred and paid by the Plan to the Trustee. Certain investments in the Master Trust are managed by the Trustee or affiliates, and are therefore considered exempt party-in-interest transactions.

Note J - Risks And Uncertainties

Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported on the basis of certain assumptions pertaining to interest rates, investment return, inflation rates and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

The Plan invests in a Master Trust, which in turn invests in various equity and debt securities, mutual funds, derivatives, and hedge funds. These investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is possible that changes in risks in the near term could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Note K - Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated April 18, 2018 that the Plan is qualified under the Internal Revenue Code ("IRC") and therefore the related trust is exempt from taxation. The Plan Administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan is subject to routine examinations by taxing jurisdictions, however, there are currently no examinations for any tax periods in progress.

Demographic Assumptions

Inclusion date

The valuation date coincident with or next following the date on which the employee becomes a participant.

New or rehired employees

It was assumed there will be no new or rehired employees.

Mortality (for healthy and disabled)

For non-annuitants, separate rates based on RP-2014 “Employees” table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under §1.430(h)(3)-1 using Scale MP-2017.

For annuitants, custom base tables based on the IRS approved substitute mortality tables for funding valuations, projected using Scale MP-2018.

Termination

Rates in accordance with the 2003 study conducted by the Society of Actuaries

SCHEDULE SB ATTACHMENTS

Benefit commencement date:

■ Preretirement death benefit	Surviving spouse benefits commence at the later of the death of the active participant or the date the participant would have attained age 55 (or earliest retirement age, if later). However, Steelworker surviving spouse benefits under the WPSC Bargaining provisions are assumed to commence immediately upon the participant's death.
■ Deferred vested benefit	Age 65
■ Disability benefit	Upon termination of employment. Also, 80% of WPSC Bargaining participants retiring on account of disability will qualify for Social Security benefits.
■ Retirement benefit	Upon termination of employment
Form of payment	Normal form for unmarried participant, except that all WPSC Salaried participants are assumed to elect lump sum payments
Percent married	85% of males; 65% of females
Spouse age	Wife three years younger than husband
At-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan, which is usually the normal form of payment.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

SCHEDULE SB ATTACHMENTS

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits The IRC §430 regulations describe the required methodology for attributing benefits among Funding Target, current year Target Normal Cost, and future years' Target Normal Costs for disability benefits, Social Security benefits, death benefits and other ancillary benefits.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable. The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

SCHEDULE SB ATTACHMENTS

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with Handy & Harman Ltd. and, based on that review, is not aware of any significant benefits required to be valued that were not.

The plan pays small benefits in a single lump sum payment. Such lumps sums are not explicitly valued as such; rather such participants' benefits are valued using the benefit choice assumptions described above.

Assumptions Rationale - Significant Economic Assumptions

Discount rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Assumptions Rationale - Significant Demographic Assumptions

Healthy and Disabled Mortality

Mortality rates were based on an experience study conducted in 2018, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. For annuitants, custom base tables based on the IRS approved substitute mortality tables for funding valuations.

Termination

Termination rates were based on an experience study conducted in 2010, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future

Retirement

Retirement rates were based on an experience study conducted in 2013, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future

Administrative expenses

Administrative expenses are estimated by determining the expected expenses for the coming year, reflecting items like expected PBGC premiums as well as the average expenses paid from the trust over the preceding three years.

SCHEDULE SB ATTACHMENTS

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law," as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Data Sources

Handy & Harman Ltd., through its administrative platform, furnished participant data as of January 1, 2019. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Change in Assumptions and Methods since Prior Valuation

Change in Assumptions and Methods since Prior Valuation

- The segment interest rates used to calculate funding target and target normal cost were updated to the current valuation date as required by IRC §430.
- The mortality table used to calculate the funding target and target normal cost was updated to reflect the new tables, based on RP-2014 and subsequent Society of Actuaries studies, published by the IRS in October 2017 in regulations §1.430(h)(3)-1 for non-annuitants and custom base tables based on the IRS approved substitute mortality tables for funding valuations, projected using Scale MP-2018 for annuitants.
- The assumed plan-related expenses added to the target normal cost were updated to reflect current experience from $200,000 to $210,000.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

SCHEDULE SB ATTACHMENTS

Special retirement benefits:

- Handy & Harman/USWA — Eligibility: Any employee retiring under Normal or Early Retirement or to a beneficiary of a participant scheduled to commence under Normal or Early Retirement.

  Benefit: Additional lump sum benefit at date of retirement in the amount of 13 times employee's weekly rate of pay, less any vacation pay received.

- Martinsburg Automotive — Eligibility: Termination other than death after three years of Vesting Service, and not entitled to a pension benefit from the Plan.

  Benefit: Lump sum payment of $50 times years of Credited Service.

Preretirement spouse benefits

- Handy & Harman — If a Vested participant dies while active but after meeting the Early Retirement eligibility, spouse receives one-half of Monthly Pension Benefit (NOT reduced for 50% J&S option).

  In all other cases where a vested participant dies prior to commencement, spouse receives benefit as though participant commenced on her elected commencement date with a 50% J&S benefit.

- H&H Tube Company — If a Vested participant dies while active and after the participant attains age 55 and 10 years of vesting service or age 65, surviving spouse receives one-half of Monthly Pension Benefit (NOT reduced for 50% J&S option).

  In all other cases where a vested participant dies prior to commencement, spouse receives benefit as though participant commenced on her elected commencement date with a 50% J&S benefit. If participant had 10 years of vesting service, benefit may commence at participant's age 55. Otherwise, benefit commences at participant's age 65.

- All other locations — Surviving spouse will receive the amount that would have been payable if the former employee had elected a 50% joint and survivor pension. Benefit is payable at the later of the date of death or when the deceased employee would have reached the EBCD, except for MSW Cockeysville (age 55). In all cases, the benefit is reduced for any early commencement of benefits.

SCHEDULE SB ATTACHMENTS

The following groups have additional Pre-Retirement Spousal Benefit provisions:

- Martinsburg Automotive — If a participant dies while active, and the employee has three or more years of service, a lump sum benefit in the amount of $50 times years of Vesting Service, with a maximum benefit of $2,000, is payable. If eligible for Normal Retirement at date of death, beneficiary will receive a lump sum death benefit of $2,000.

- H&H Tube Company — If a vested participant is not married at date of death, or married less than one year, a lump sum payment will be payable to the beneficiary in the amount of $50 times the Monthly Pension Benefit at date of termination. A spouse may choose a lump sum benefit equal to $50 times the Monthly Pension Benefit, in lieu of and in complete substitution for all other pre-retirement spouse benefits

- Sumco — A lump sum option is available if the actuarial equivalent of the spouse's benefit is greater than $5,000

- Postretirement Surviving Spouse Benefit — A single lump sum death benefit is payable to the spouse or otherwise indicated beneficiary. The amount of the single lump sum death benefit is as follows:

Group	Single Lump Sum Death Benefit
Dover Automotive	$1,000
Martinsburg Automotive	$2,000
H&H Tube Company	$5,000*
Indiana Tube	$2,000
MSW Cockeysville	$2,000

Termination with deferred vested benefit	Monthly pension benefit determined as of termination date, actuarially reduced if payments begin prior to age 62 and the participant had less than ten years of Continuous Service at termination
Disability	Monthly pension benefit is available immediately based on service and earnings as of date of disability.
Death with preretirement spouse benefits	50% of monthly pension benefit determined as of the date of death, payable for the lifetime of the spouse. If the participant was over age 55 payment will commence on the first day of the month coincident with or immediately following the participant's death; otherwise, payment will commence on the first day of the month the participant could have elected immediate benefits had he survived (earliest retirement date.) The surviving spouse may elect to defer receipt of the annuity past the earlier available date.

SCHEDULE SB ATTACHMENTS

Forms of payment	All benefits other than death benefits are payable for the lifetime of the retired participant. A married participant is deemed to have elected a 50% joint and survivor option.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

Future Plan Changes

No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions.

Final Average Annual Compensation	For purposes of computing the benefits provided under the Plan, Final Average Annual Compensation is defined as the average annual compensation earned during the highest five consecutive years during the ten year period preceding retirement. In determining the compensation to be counted in a particular year, Management Incentive Compensation (MIC) shall be included in an amount up to 50% of the employee's basic rate of pay as of the December 31st of the preceding calendar year. The partial year's compensation earned during the employee's last year of employment may be included in the Final Average Annual Compensation if it would be to his advantage. In such an instance, a fraction of the fifth preceding year's compensation must be included in the averaging for the period of time in which the employee did not work during his final year. However, no more than five year's bonuses may be included. In the event an employee completes less than five years of Credited Service, average compensation shall be based on all his periods of Credited Service. Only Compensation prior to March 31, 2006 is counted for benefit accrual purposes.

Retirement Dates	
Normal	The first day of the month coincident with or next following a participant's 65th birthday
Early	The first day of any month following age 55 and completion of ten years of Credited Service
Disability	The first day of any month coincident with or next following the date on which the participant has completed ten years of Credited Service and has been approved for Social Security disability benefits
Deferred	The first day of any month coincident with or next following a participant's termination of service after his Normal Retirement Date

SCHEDULE SB ATTACHMENTS

Retirement Benefits

Normal

A monthly benefit equal to 1/12th of the greater of (1), (2), and (3):

1. The sum of 1.3% of Final Average Annual Compensation and 0.65% of Final Average Annual Compensation in excess of participant's "covered compensation"; multiplied by years of Credited Service (to a maximum of 25) adjusted, if applicable, to reflect a participant's prior plan benefit
2. The accrued benefit as of December 31, 1993, plus a benefit based on (1) above and Credited Service after December 31 1993, with total Credited Service not in excess of 25 years
3. The annual accrued benefit as of December 31, 1988, based on Plan in effect at that time

All benefit accruals were frozen as of March 31, 2006

Early

A deferred pension equal to the pension computed as at Normal Retirement Date but based on Final Average Annual Compensation at actual date of retirement. Such pension shall be reduced by a fraction, the numerator of which is the number of years of Credited Service at the Early Retirement Date and the denominator of which is the number of years of Credited Service at the Normal Retirement Date; or an immediate pension equal to the pension payable just described, reduced for each month by which the Early Retirement Date precedes the Normal Retirement Date.

The early retirement reduction factors are illustrated below for select ages:

Age	Factor	Age	Factor
64	0.923	59	0.654
63	0.846	58	0.615
62	0.769	57	0.577
61	0.731	56	0.529
60	0.692	55	0.486

Deferred

Same as payable at Normal Retirement Date, but based on Final Average Annual Compensation and Credited Service at Deferred Retirement Date

SCHEDULE SB ATTACHMENTS

Disability	A deferred pension based on service to Normal Retirement Date and based on Final Average Annual Compensation as of the date of disability

Death Benefits

Active employees	Joint and 50% Survivor death benefit is standard for active members who meet the service requirement for vesting and have an eligible spouse Benefit payable to the spouse is equal to the benefit that would have been payable had the employee separated from service at the date of his death, survived to the earliest retirement age, retired with an immediate Joint and 50% Survivor benefit at that age and then died Members who were participants in the Pittsburgh-Erie Saw Corporation Pension Plan are entitled to the lump sum equivalent of their Prior Plan benefits computed as of May 1, 1968 and accumulated to the date of their death with interest at 3% compounded annually Members who were participants in any Plan to which this Plan becomes successor and who were entitled to a vested benefit upon death under such prior Plan shall receive such vested benefit upon death
Retired employees	None, unless an optional form of retirement benefit is elected, which provides a death benefit

Deferred vested benefit

Eligibility	Completion of 5 years of Credited Service
Benefits	The benefit is determined as for Normal Retirement but based on Credited Service to the Date of Termination. The benefit commences at the Normal Retirement Date. An employee may elect to commence benefit payments on the first day of any month following his Early Retirement Date if he has 10 years of Credited Service. If benefit payments commence prior to his Normal Retirement Date, this will be actuarially reduced.

Information on Use of Multiple Mortality Tables

Different mortality tables were used for before and after retirement. Per instructions, Item 23 reflects that the annuitant mortality will apply to the entire population. Below is the breakout of the current population.

Population description	Population size	Mortality table
Non-annuitants (Active employees and participants with deferred benefits)	**187**	Pre -retirement: separate rates based on RP-2014 "Employees" table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under §1.430(h)(3)-1 using Scale MP-2017. Post-retirement: Plan specific mortality approved by the IRS.
Male and Female annuitant only	**549**	Plan specific mortality approved by the IRS

Schedule SB, Line 23
Information on Use of Substitute Mortality Tables

Substitute mortality tables are used for the following plan populations:

Mortality is assumed to occur according to a plan-specific substitute mortality table with separate male and female rates, as approved by the IRS in 2018 for valuations for the 2019 through 2023 plan years. The mortality rates are applied to all annuitants (including disabled annuitants). The prescribed tables apply for non-annuitants (including disabled non-annuitants) before retirement. The tables were developed based on mortality experience of the annuitant populations for the qualified defined benefit pension plans sponsored by Handy & Harman for the period from January 1, 2013, through December 31, 2017. The tables are generational, based on the IRS-prescribed projection scale MP-2017, with a base year of 2015. The table below presents illustrative rates for the base year.

Percentage of Participants Expected to Die Within One Year		
Age	Males	Females
25	0.0577%	0.0218%
30	0.0567%	0.0265%
35	0.0664%	0.0368%
40	0.0786%	0.0519%
45	0.1820%	0.1202%
50	0.4995%	0.3319%
55	0.7063%	0.4553%
60	0.9673%	0.6720%
65	1.3866%	1.0204%
70	2.1024%	1.6116%
75	3.3876%	2.6384%
80	5.7122%	4.4790%
85	9.9707%	7.9501%
90	17.4435%	14.1017%

The single mortality ratio for both genders of the aggregated pension plans is equal to 1.259291. The partial credibility weighting factor for the population determined pursuant to § 1.430(h)(3)-2(e)(2) is 0.774930 The single mortality ratio for both genders of the aggregated pension plans after reflecting the partial credibility weighting factor is 1.200932.

Prescribed tables are used for the following plan populations:

The prescribed tables apply for only annuitants (including disabled annuitants) after retirement.

The last plan year for which the IRS approval for the substitute mortality tables applies is: 2023.
