Note 1. Plan Description

The following description of the Buttonwillow Warehouse Company, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information with regard to the Plan. The Plan was formerly known as the Buttonwillow Ginning Company, Inc. 401(k) Profit Sharing Plan. The Plan adopted the name Buttonwillow Warehouse Company, Inc. 401(k) Profit Sharing Plan effective March 1, 2019. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all employees of Buttonwillow Ginning Company, Inc. and Buttonwillow Warehouse Company (the Company) upon the first day worked. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

Participating employees are allowed to make contributions of their pretax and after tax annual compensation as defined in the Plan, pursuant to Section 401(k) of the Internal Revenue Code. The Company may make discretionary match and profit sharing contributions. For the year ended December 31, 2019, the Company matched 30% of a participant's eligible contributions for a total of $166,760. Contributions are funded annually.

Forfeitures of terminated employees' nonvested account balances can be used to offset employer contributions and expenses. Forfeitures used to offset Plan expenses for the years ended December 31, 2019 and 2018 was $7,180. The forfeiture balances at December 31, 2019 and 2018 were $27,980 and $27,904, respectively.

Participant accounts:

Separate accounts are kept for each participant. Each participant's account is credited with the Company's contributions, the employee's contributions, and allocation of Plan earnings and expenses. All amounts are participant-directed; participants direct the investment of their contributions into various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting:

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contributions plus earnings thereon is based on continuous years of service. A participant is 100% vested after 3 years of credited service or upon reaching normal retirement age.

Notes receivable, participants:

Participants may borrow from their account a minimum of $1,000, up to a maximum of 50% of their vested account balance. The maximum aggregated dollar amount of loans outstanding to a participant may not exceed $50,000. Loans are secured by the participant's vested interest in the Plan.

Benefit payments and withdrawals:

Upon termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in their account. The Plan allows for in-service distributions. Participants automatically become 100% vested upon death or termination due to disability. If a terminated participant's vested account balance is less than $1,000, they will automatically receive payment in the form of a lump-sum. Participants with vested account balances greater than $1,000 may elect payments in the form of lump-sum, combination of lump-sum and installments, or installments.

Amounts allocated to accounts of participants who, at December 31, 2019, have elected to withdraw from the Plan but have not been paid are $-0-.

Note 2. Significant Accounting Policies

Basis of accounting:

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates:

The preparation of financial statements in conformity with U. S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition:

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that the changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Cash and cash equivalents:

The Plan considers cash equivalents to be all highly liquid debt instruments purchased with an original maturity of three months or less.

Notes receivable, participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Benefits:

Benefit payments are recorded when paid.

Plan expenses:

During the year ended December 31, 2019, certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses paid by the Company are excluded from these financial statements. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Tax status:

The Plan has been qualified under Section 401(a) of the Internal Revenue Code and, accordingly, income of the Plan is exempt from Federal and state income taxes. The Plan obtained its latest favorable opinion letter from the Internal Revenue Service dated August 11, 1995, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Service Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

Note 3. Plan Termination

Although it has not expressed an intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

Note 4. Fair Value Measurements

The Financial Accounting Standards Board (FASB) provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB are described as follows: Level 1 - inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access; Level 2 - inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means; Level 3 - inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018:

Registered investment companies (mutual funds): The fair values of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realized value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

		December 31, 2019		
		Fair Value Measurements Using:		
	Fair Value	***Level 1***	***Level 2***	***Level 3***
Registered investment companies	$ 11,017,158	$11,017,158	$ -	$ -
Total assets at fair value	$ 11,017,158	$ 11,017,158	$ -	$ -

		December 31, 2018		
		Fair Value Measurements Using:		
	Fair Value	***Level 1***	***Level 2***	***Level 3***
Registered investment companies	$ 9,559,852	$ 9,559,852	$ -	$ -
Total assets at fair value	$ 9,559,852	$ 9,559,852	$ -	$ -

Realized and unrealized gains and losses included in the statement of changes in net assets available for benefits for the year ended December 31, 2019, are reported in net appreciation (depreciation) in fair value of investments.
