Note 1 - Plan Description

The following description of FourKites, Inc. Retirement Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of FourKites, Inc. (the "Company"). The Plan does not cover nonresident aliens or independent contractors. Employees who have completed three months of service and are age 18 or older are eligible to participate in the Plan immediately upon meeting the eligibility requirements. The Plan was established on September 1, 2016 and is maintained on a calendar-year basis. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Plan provides for employee salary deferral contributions up to a maximum of 100 percent of annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code (IRC). Participants may designate all or a portion of their contributions as Roth contributions, which are after-tax contributions that are also subject to certain IRC limitations. Participants who have attained age 50 may make catch-up contributions in addition to their regular deferrals. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

Certain participant contributions in 2017, 2018, and 2019 were paid after the time frame required by the Department of Labor. The Company remitted certain 2017 and 2018 contributions in the respective plan years, while other 2017 and 2018 contributions were remitted to the Plan in 2019. All related lost earnings for the 2017 and 2018 late contributions were remitted to the Plan during 2019. The Company remitted certain 2019 contributions to the Plan during 2019 and intends to remit the related lost earnings to the Plan in 2020.

The Plan provides for employer safe harbor matching contributions equal to 100 percent of the participants' elective deferrals that do not exceed 4 percent of their compensation.

The Company may make discretionary employer matching contributions equal to a uniform percentage of each participant's salary deferrals. Each year, the Company will determine the amount of the discretionary percentage. No discretionary employer match contributions were made during the year ended December 31, 2019.

The Company may also make annual profit-sharing contributions. All participants of the Plan who are employed on the last day of the plan year will be eligible to receive an allocation of the Company's profit-sharing contribution. No profit-sharing contributions were made for the year ended December 31, 2019.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting

Participants' contributions and all types of employer contributions and related earnings are fully vested at all times and are not subject to forfeiture for any reason.

Note 1 - Plan Description (Continued)

Benefit Payments

Distributions are payable upon retirement, death, disability, or termination of employment in the form of a single lump-sum payment or a partial withdrawal. Benefits may also be paid directly to an eligible retirement plan as an eligible rollover distribution. In-service distributions are allowed once a participant attains the age of 59½. Hardship withdrawals are not allowed by the Plan.

Participant Notes Receivable

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000, less the difference between the highest outstanding balance of loans in the past 12 months, or 50 percent of their fully vested account balances. The notes receivable are secured by the balance in the participant's account and bear interest at market rates. The maximum number of loans a participant can have outstanding at any time is one. Principal and interest are paid ratably through monthly payroll deductions.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Matrix Trust Company or its affiliates. Matrix Trust Company is the custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Termination

While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Participant Notes Receivable

Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events

Effective June 15, 2020, the Company suspended the safe harbor match contribution as a result of COVID-19. The suspension is effective through January 31, 2021.

The financial statements and related disclosures include evaluation of events up through and including October 9, 2020, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Matrix Trust Company (the "Custodian") holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information certified by the Custodian.

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan’s assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Mutual Funds

Mutual funds are valued at quoted prices reported in active markets.

Note 4 - Fair Value Measurements (Continued)

Money Market Fund

The money market fund is valued at quoted prices reported in active markets.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2019 and 2018:
