Note 1 – Description of the Plan

The following description of the CMC Rescue, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The CMC Rescue, Inc. 401(k) Plan is a defined contribution plan that was established January 1, 1996 to provide benefits to eligible employees of CMC Rescue, Inc. (the "Company"). The Plan was restated and amended in its entirety effective June 1, 2019. Prior to June 1, 2019, the Plan covered all eligible employees of the Company after completing one month of service. Excluded employees were non-resident aliens with no U.S. income or all such income was exempt from U.S. income tax and/or employees who were considered part-time/seasonal, with regularly scheduled hours less than 1,000 hours of service in the relevant eligibility computation period. Beginning June 1, 2019, the Plan covers all eligible employees of the Company that are age 21 and older upon completing two months of service. Excluded employees are non-resident aliens with no U.S. income or all such income is exempt from U.S. income tax and/or leased employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Prior to June 1, 2019, each participant may have contributed up to 100% of pretax annual compensation, as defined by the Plan. Beginning June 1, 2019, participants may contribute up to 90% of pretax annual compensation, as defined in the Plan. Annual contributions may not exceed $19,000 for calendar year 2019. Participants who have attained age 50 before the end of the Plan year are eligible to make additional pre-tax catch-up contributions of up to $6,000 for calendar year 2019. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elected not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of their pre-tax eligible compensation, as defined by the Plan, and their contributions invested in designated balanced funds until chan ged by the participant. The Plan allows for scheduled increases of the automatic deferral by 1% in Plan years following the automatic deferral effective date, not to exceed 6% of pre-tax eligible compensation, as defined by the Plan. Such increase will be applied as of the period that begins after the period in which the initial deferral amount was withheld and will occur as of the beginning of each subsequent Plan year.

Note 1 – Description of the Plan (Continued)

Contributions (Continued)

The Plan also provides for the Company to make discretionary employer matching contributions and profit sharing contributions to eligible participants, in accordance with the guidelines outlined in the Plan document. During 2019, the Company elected to match contributions up to 25% of the employee deferral, up to a maximum of 1.5% of eligible wages. The Company elected out of a discretionary profit sharing contribution in 2019.

Participant Accounts

Each participant's account is credited with the participant's contribution and Company discretionary employer matching contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account is based on years of service. A participant is 100% vested in employer contributions after six years of credited service.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to the maximum equal to the lesser of (a) 50% of their vested account balance in the Plan, or (b) $50,000, reduced by the highest loan balance during the prior twelve months minus the loan balance on the date of the new loan. Loan terms shall not exceed 5 years, except in the case of a loan for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 6.50%, which are based on 1% over the prime rate. Prior to June 1, 2019, the prime rate to be used was reported by Thomson Reuters on the first business day of the month, but no later than five business days following such business day, the system will be updated to reflect changes, as applicable. Beginning June 1, 2019, the prime rate to be used is the published rate in the Wall Street Journal on the 14th day of each month the loan is originated, or on the first business day preceding the 14th in the event the 14th is not a business day. Principal and interest is paid ratably through payroll deductions no less than quarterly. There may be no more than one loan outstanding per participant at any time.

Forfeitures

Forfeited non-vested accounts are used to pay administrative expenses or used to offset employer contributions. At December 31, 2019 and 2018, forfeited non-vested accounts totaled $10 and $12,376, respectively. During the year ended December 31, 2019, respectively, $16,186 was used to offset discretionary employer contributions.

Note 1 – Description of the Plan (Continued)

Withdrawals and Payment of Benefits

The Plan includes several sets of provisions for withdrawal or payment of benefits relative to a participant's age and circumstances, in compliance with provisions of the Internal Revenue Code. There are provisions for disability, death, hardship withdrawals, in-service distributions at age 59 ½, qualified reservist, direct rollovers, delay of payments to normal-retirement date at age 65, and benefit payments made in either lump sum payments or annual installments. Participants with vested account balances less than $5,000 will be automatically distributed as soon as administratively feasible following termination of employment whether or not the participant has not reached Normal Retirement Age.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisers, trustees, and insurance company. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan agreement.

Note 2 – Summary of Significant Accounting Policies (Continued)

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain administrative expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation of fair value of investments.

Upcoming Pronouncements

In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update No. 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework – Changes to Disclosure Requirements for Fair Value Measurement, which modifies the disclosure requirements for fair value measurements by removing, modifying, or adding certain disclosures. ASU 2018-13 is effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. An entity is permitted to early adopt any removed or modified disclosures and delay adoption of the additional disclosures until their effective date. The adoption of ASU 2018-13 is not expected to have a material impact on the financial statements.

Note 3 – Tax Status

The IRS has determined and informed the prototype plan provider by a letter dated July 16, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan is no longer subject to income tax examinations for years prior to 2016.

Note 4 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 5 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan can access at the measurement date.

Level 2 Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs that are unobservable inputs for the asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Note 5 – Fair Value Measurements (Continued)

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission (SEC). These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

	(Audited) December 31, 2019			
	Total Fair Value	Level 1	Level 2	Level 3
Mutual funds	$ 6,957,381	$ 6,957,381	$ -	$ -

Note 6 – Assets Certified by the Trustees

The Plan Administrator has obtained certifications from the trustees that the following information provided to the Plan Administrator by the trustees related to the assets presented is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by Reliance Trust Company, the current trustee of the Plan and Fidelity Management Trust Company, the former trustee of the Plan, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule.

Note 6 – Assets Certified by the Trustees (Continued)

The following is a summary of the Plan's asset information as of December 31, 2019 and 2018, and for the year ended December 31, 2019, included throughout the Plan's financial statements and supplemental schedule, that was certified by the trustees and furnished to the Plan Administrator:

Note 7 – Related-Party Transactions and Party in Interest Transactions

Certain Plan investments were managed by the former trustee/recordkeeper, Fidelity. Therefore, these transactions qualify as party in interest transactions, which are exempt from prohibited transaction rules.

Note 8 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will continue to be 100% vested in their accounts.

Note 10 – Operational Defect

The Plan sponsor discovered that an incorrect definition of compensation was used when determining certain employee deferral contributions. The cumulative total dollar amount related to these operational defects is not estimated to be material to the financial statements based on management's analysis and is not reflected in the financial statements for the year ended December 31, 2019. The Plan sponsor is evaluating these errors and taking corrective action and plans to resolve this as soon as administratively feasible.

Note 11 – Subsequent Events

The Plan Administrator has evaluated subsequent events through September 30, 2020, the date that the financial statements were available to be issued.

On January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 11, 2020, declared it to be a pandemic. Actions taken around the world to help mitigate the spread of the coronavirus include restrictions on travel, quarantines in certain areas, and forced closures for certain types of public places and businesses.

The coronavirus and actions taken to mitigate it have had and are expected to continue to have an adverse impact on the economies and financial markets of many countries, including the geographical area in which the Plan operates. It is unknown how long these conditions will last and what the complete financial effect will be to the Plan. The inherent risk and volatility of financial markets during the pandemic make it reasonably possible that the Plan is vulnerable to the risk of a near-term impact.
