Express Oil Change, LLC 401(k) Plan

Notes to Financial Statements

December 31, 2019

1. Description of the Plan

The following description of Express Oil Change, LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Express Oil Change, LLC and subsidiaries (the Company) who have six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

In February of 2018, the Company announced that it had entered into a merger with Mavis Discount Tire. The Company merged the Plan with the Mavis Tire Supply LLC 401(k) Plan (the Mavis Plan) in 2019 and all Plan assets were transferred prior to year-end.

Contributions

Each year, participants may contribute a percentage of pretax annual compensation (as defined by the Plan), not to exceed federal limits. The Plan also provides for an automatic deferral feature of two percent of eligible compensation for newly eligible employees. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Plan provides for a discretionary match as determined by the Company. In 2019, the Company match was equivalent to 50 percent of the first four percent of base compensation that a participant contributes to the Plan. Additional discretionary amounts may be contributed at the option of the Company. No such contribution was made in 2019. Contributions are subject to certain limitations. Participants direct the investment of their contributions and Company contributions into various investment options offered by the Plan.

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contributions, Company contributions and Plan earnings or losses from the participant's investment activities. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company contribution portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Benefit Payments

On termination of service due to separation, death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. The Plan also allows early retirement after six years of service and upon attainment of age 57 ½. For minimum distributions only, a participant may elect to receive annual installments over a fixed reasonable period of time not to exceed the life expectancy of the participant or the joint life expectancy of the participant and his designated beneficiary. Hardship and in-service withdrawals may be available as defined by the Plan document.

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates. Principal and interest are paid ratably through payroll deductions. Participant loans are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Express Oil Change, LLC 401(k) Plan
Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Administrative Expenses

Certain administrative expenses, including accounting and custodial fees, have been paid by the Company.

Forfeitures

Forfeitures of terminated, nonvested participant accounts relating to matching contributions are used to reduce future Company match contributions. Forfeitures of terminated nonvested participant accounts relating to discretionary contributions are allocated to active participant accounts as an additional contribution. The Company used \$154,000 in forfeitures to reduce the current year Company matching contributions.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants would become 100 percent vested in their Company contributions.

2. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Management of the Company determines the Plan's valuation policies utilizing information provided by the investment adviser and custodian. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Express Oil Change, LLC 401(k) Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

The Plan provides for investments in various investment securities that in general are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Basis of Presentation

The financial statements of the Plan have been prepared on the accrual basis of accounting.

3. Investment Information

All information related to investments and participant loans disclosed in the accompanying financial statements, including investments held and participant loans receivable at December 31, 2018, and net appreciation in fair value of investments and interest for the year ended December 31, 2019, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by John Hancock Life Insurance Company, the custodian.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include:
Quoted prices for similar assets or liabilities in active markets;
Quoted prices for identical or similar assets or liabilities in inactive markets; |

Express Oil Change, LLC 401(k) Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

Inputs other than quoted prices that are observable for the asset or liability;

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Guaranteed interest account: fair value represents the amount that would be received if amounts were withdrawn at the reporting date, which is book value less an early withdrawal charge. The guaranteed interest account is issued by John Hancock Life Insurance Company, the custodian, with the backing of their general account, and is not considered fully benefit responsive. Due to the nature of the guaranteed interest account, it does not have specific underlying assets assigned.

Pooled separate accounts: stated at fair value based on prices quoted and published by the investment adviser of the accounts. Quoted prices are determined daily based on the net asset value (NAV) of the underlying mutual funds and other securities in the accounts. The NAV is used as a practical expedient to estimate fair value. Net change in fair value of the accounts includes interest, dividends and realized and unrealized gains and losses on investments in the accounts.

Express Oil Change, LLC 401(k) Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level and investment category, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

Assets at Fair Value as of December 31, 2018				
	Level 1	Level 2	Level 3	Total
Guaranteed interest account	\$ —	\$ 106,710	\$ —	\$ 106,710
Pooled separate accounts measured at NAV (a)				22,888,712
Investments at fair value				<u>\$ 22,995,422</u>

(a) In accordance with Subtopic 820-10 as amended by ASU 2015-07, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits. There are no unfunded commitments for these investments, they are valued daily, and there are no redemption restrictions.

5. Tax Status

The Company adopted a prototype non-standardized profit sharing plan with a cash or deferral arrangement, which received a favorable opinion letter from the Internal Revenue Service on December 12, 2015, which stated that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Notes to Financial Statements (continued)

6. Subsequent Events

Management of the Company evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through October 13, 2020, which is the date the financial statements were available to be issued.
