Notes to Financial Statements
(Modified Cash Basis)

1. Description of the Plans

The accompanying financial statements comprise the ADM Retirement Plan (the Retirement Plan) and the ADM Pension Plan for Hourly-Wage Employees (the Hourly Plan) (collectively, the Plans) of Archer-Daniels-Midland Company (ADM or the Company) that participate in the Archer Daniels Midland Master Retirement Trust (the Master Trust).

The Company's funding policy with respect to the Plans is to contribute at least the necessary amount each year to meet the minimum amount required by the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plans have met the ERISA minimum funding requirements for 2019 and 2018.

The Company is free to terminate the Plans at any time, subject to the provisions of ERISA and the collective bargaining agreements. In the event of the termination of the Plans, the net assets of Plans shall be allocated to provide benefits in the order of priority prescribed by ERISA. However, the Pension Benefit Guaranty Corporation guarantees the payment of all nonforfeitable basic benefits, subject to certain limitations prescribed by ERISA.

More complete information about the Plans, including vesting and benefit provisions, is contained in the plan documents available from the Company.

On June 25, 2019 the Retirement Plan was amended and offered to pay certain eligible individuals' pension benefit in lump sum. Individuals eligible for the voluntary lump sum payment option were generally Traditional Formula Participants who accepted the early retirement window program offered by ADM during the election period, and who retired during the period established under the Program. Participants who had a Termination of Employment other than for death on or after February 1, 2019 and prior to the availability of the Program, and who would have satisfied all conditions to participate in the Program had they continued in employment through June 30, 2019, were also eligible to participate in the program. The 2019 voluntary lump sum payment election period was July 1, 2019, to June 1, 2020. The voluntary lump sum benefits paid from plan assets in 2019 totaled \$181.4 million. The accumulated benefit obligation disclosed in Note 5 does not reflect the impact of this amendment.

On October 29, 2018, the Plan was amended to enter into a binding agreement to purchase a group annuity contract from The Prudential Insurance Company of America (Prudential), irrevocably transferring the future benefit obligations and annuity administration for approximately 3,800 retirees from the Retirement Plan to Prudential. The purchase of the group annuity contract, which was funded directly by the Retirement Plan's assets, was completed on November 2, 2018. The accumulated benefit obligation disclosed in Note 5 reflects the impact of this amendment.

Notes to Financial Statements
(Modified Cash Basis)

1. Description of the Plans (continued)

ADM Retirement Plan

The Retirement Plan is a defined benefit plan covering substantially all regular salaried employees of ADM and its participating affiliates.

From time to time, the assets and liabilities of acquired pension plans covering the salaried employees of acquired ADM subsidiaries or locations are merged into the Retirement Plan, as is the policy of ADM.

ADM Pension Plan for Hourly-Wage Employees

The Hourly Plan is a defined benefit plan covering those employees of ADM and its participating affiliates working at participating locations (as described in the plan document) and paid on an hourly rate basis. The Hourly Plan provisions for those locations that are not represented by a collective bargaining agreement, as well as those represented by a collective bargaining agreement, have been modified by the addition of appendices to the Hourly Plan specifying those provisions for the locations that differ from the corresponding provisions of the basic plan provisions.

From time to time, the assets and liabilities of acquired pension plans covering the hourly employees of acquired ADM subsidiaries or locations are merged into the Hourly Plan, as is the policy of ADM.

2. Significant Accounting Policies

Basis of Accounting

The accounting records of the Plans are maintained on a modified cash basis, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Under the modified cash basis, investments are recorded at fair value, and transactions are recorded when cash is received or paid rather than in the time period in which income is earned or expenses are incurred.

Benefits Paid

Benefits are recorded when paid.

Investments

The Plans' investments held in the Master Trust are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Further information regarding the valuation techniques used to measure the fair value of investment assets held in the Master Trust is included in Note 4.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Master Trust's gains and losses on investments bought and sold, as well as held, during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 5) are those estimated future periodic payments, including lump-sum distributions, attributable under the Plans' provisions to services rendered by employees through the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits payable under all circumstances, including retirement, death, disability and termination of employment, are included to the extent they are deemed attributable to employee service rendered through the valuation date.

ADM Retirement Plan

Effective January 1, 2009, salaried employees who were vested (five or more years of service before January 1, 2009) continued with the existing traditional pension formula and will continue until December 31, 2021, after which such participants will transition to the cash balance formula, while maintaining their frozen traditional formula accrued benefit. Salaried employees with less than five years of service before January 1, 2009, participate in a point-based cash balance pension formula with a three-year vesting schedule.

Benefits for retired or terminated employees or their beneficiaries, under the traditional pension formula, are based on the employee's highest average monthly salary for 60 consecutive months out of the last 180 consecutive months of credited service. Benefits for retired or terminated employees or their beneficiaries under the cash balance pension formula are based on the employee's cash balance account.

ADM Pension Plan for Hourly-Wage Employees

Effective January 1, 2009, most non-bargaining hourly employees, as well as those represented by a collective bargaining agreement, who were hired prior to January 1, 2009, that have a pension plan at their location continued with the existing traditional pension formula.

Non-bargaining hourly employees who are hired or rehired on or after January 1, 2009, participate in a point-based cash balance pension formula. Employees represented by a collective bargaining agreement who were hired or rehired on or after January 1, 2009, participate in the pension formula applicable to their respective location.

Benefits for retired or terminated employees or their beneficiaries, under the traditional formula, are based on the applicable benefit level and the employees' credited service as determined by hours worked. Benefits for retired or terminated employees or their beneficiaries under the cash balance pension formula are based on the employee's cash balance account.

Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Plan Expenses

All costs and expenses incurred in connection with the operation of the Plans with regard to the purchase and sale of investments, as well as certain professional fees, are paid out of the Master Trust. Other administrative expenses and actuarial and audit fees are paid by ADM, the plan sponsor.

Recent Accounting Pronouncements

During 2019, the Plans adopted Accounting Standards Update (ASU) 2017-06, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962) Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting. ASU 2017-06 was issued by the Financial Accounting Standards Boards (FASB) in February 2017, and requires a plan to present its interest in a master trust and the change in that interest in separate line items in the statement of net assets available for benefits and in the statement of changes in net assets available for benefits, respectively. The ASU also requires a plan to disclose the master trust's investments and other assets and liabilities, as well as the dollar amount of its interest in these balances. This standard was adopted retrospectively and had no impact on the Plans' net assets or changes in net assets.

2. Significant Accounting Policies (continued)

In July 2018, the FASB issued ASU 2018-09, Codification Improvements, which, among other things, amends an illustrative example of a fair value hierarchy disclosure to indicate that a certain type of investment should not always be considered to be eligible to use the net asset value per share practical expedient. Also, it further clarifies that an entity should evaluate whether a readily determinable fair value exists or whether its investments qualify for net asset value per share practical expedient in accordance with ASC 820, Fair Value Measurement. Adoption of the amended guidance, which is to be applied prospectively, affects the fair value disclosures, but does not change the fair value measurement of the investments. This standard was adopted in 2019 and the financial statement disclosures have been updated accordingly.

In August, 2018, FASB issued ASU 2018-13, Fair Value Measurement - Disclosure Framework (Topic 820). The updated guidance improves the disclosure requirements on fair value measurements. The updated guidance is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. Early adoption is permitted for any removed or modified disclosures. The Plan is currently assessing the impact of adopting the updated provisions.

3. Master Trust Investment Information

Certain investment information disclosed in the accompanying financial statements for the Plans and Master Trust, including investments held at December 31, 2019 and 2018, and net appreciation (depreciation) in fair value of investments, interest, dividends and investment expenses for the years ended December 31, 2019 and 2018, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Northern Trust Company, the custodian.

The Plans' investments are held in the Master Trust established for the investment of assets of the Plans. Each participating retirement plan has an undivided interest in the Master Trust. The Retirement Plan's and Hourly Plan's interest in the net assets of the Master Trust was approximately 66 percent and 34 percent, at December 31, 2019, and 67 percent and 33 percent, at December 31, 2018, respectively.

Investment income (loss) and expenses are allocated among the Plans based upon each plan's pro rata share in the net assets of the Master Trust.

3. Master Trust Investment Information (continued)

Summarized financial information with respect to the Master Trust's net investment income (loss) is as follows for the years ended December 31, 2019 and 2018:

	Years Ended December 31	
	2019	2018
Net realized and unrealized appreciation (depreciation) in fair value of investmen	\$ 272,504,321	\$ (135,796,925)

	<u>\$ 299,362,376</u>	<u>\$ (97,288,990)</u>

4. Fair Value Measurements

The Master Trust assets are valued as required by ASC Topic 820. ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels are described below:

Level 1: Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs are observable, including Level 1 prices that have been adjusted, quoted prices for similar assets or liabilities, quoted prices in markets that are less active than traded exchanges, and other inputs that are observable or can be substantially corroborated by observable market data.

Level 3: Inputs are unobservable and are supported by little or no market activity and are a significant component of the fair value of the assets or liabilities.

Following is a description of the valuation techniques and inputs used for investments measured at fair value, including the general classification of such investments pursuant to the valuation hierarchy:

Common stock:

Equity securities are valued based on quoted exchange prices and are classified within Level 1 of the valuation hierarchy.

4. Fair Value Measurements (continued)

Mutual funds:

Mutual funds are valued at the closing price reported on the active market on which they are traded and are classified within Level 1 of the valuation hierarchy.

Common collective trust (CCT) funds:

The common collective trust funds are valued at net assets value as provided by the issuers and are classified within Level 1 of the valuation hierarchy.

U.S. Treasury instruments:

U.S. Treasury instruments are valued at the closing price reported on the active market on which they are traded and classified within Level 1 of the valuation hierarchy.

U.S. government agency, state and local government bonds:

U.S. government agency obligations and state and municipal debt securities are valued using third-party pricing services and are classified within Level 2 of the valuation hierarchy.

Corporate debt instruments:

Corporate debt instruments are valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available for comparable securities of issuers with similar credit ratings. These debt instruments are classified within Level 2 of the valuation hierarchy.

Other investments:

Other investments include derivatives, corporate bonds and commercial securities, which are all valued using pricing models maximizing the use of observable inputs for similar investments. This includes basing value on yields currently available for comparable securities of issuers with similar credit ratings. These investments are classified within Level 2 of the valuation hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the plan administrator of the Plans believes the valuation methods are appropriate and consistent with other market participants' methods, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Level 3 gains and losses:

There are no assets in the Plans classified as Level 3 in the fair value hierarchy at December 31, 2019 and 2018.

The investments' redemption frequency was daily, and there was no redemption notice requirement. The funds invests in high quality securities with the most attractive yields. The investment fund offers a competitive rate of return through a portfolio of high-grade, short term, money market instruments. Principal preservation is the prime objective, with liquidity management also emphasized to provide for redemption of units on any business day.

5. Accumulated Plan Benefits

The Plans' consulting actuaries estimate the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for death, disability, withdrawal or retirement) between the valuation date and the expected payment date.

6. Derivatives

In the normal course of operations, the Master Trust investment managers use derivative financial instruments (swaps, forwards and futures) to mitigate the risk of changes in interest rates and foreign currencies impacting the fair values of certain investments held by the Master Trust. These derivatives may involve, in varying degrees, elements of credit and market risks in excess of more traditional investment holdings, such as equity and debt instruments.

The contract or notional amounts disclosed in this note and the amounts of realized and unrealized gains and losses on derivative instruments during the period presented below provide a measure of the involvement in such instruments but are not indicative of potential loss. The Master Trust fiduciaries do not anticipate any material adverse effect on the financial position of the Master Trust resulting from its use of these instruments.

Using derivative financial instruments means assuming counterparty credit risk. Counterparty credit risk relates to the loss the Master Trust would incur if a counterparty were to default on a derivative contract. The amount of counterparty credit exposure is limited to the unrealized gains, if any, on such derivative contracts.

The fair value of forwards and futures and the realized and unrealized gain or loss on forwards and futures were not material to the Master Trust at December 31, 2019 and 2018, and for the years then ended. The Plan has recorded interest rate swaps in an asset position of \$223,401, and in a liability position of \$210,842 as of December 31, 2019. The fair value of these instruments is included in the investment in Master Trust balance on the statement of net assets available for benefits, and is reflected in the “other” balance in the fair value table in Note 4.

The notional amount represents the contract amount, not the amount at risk. The approximate notional amount of swaps within the Master Trust at December 31, 2019 and 2018, is as follows:

	December 31	
	2019	2018
Swaps	\$ 579,644,050	\$ 559,422,936

The following table presents net gains (losses) with respect to swaps. The gains (losses) are located on the statements of changes in net assets available for benefits as net investment gain (loss) from Master Trust.

Net income per the Form 5500	<u>\$ 89,855,419</u>	<u>\$ 83,623,651</u>

8. Income Tax Status

The Plans have received determination letters from the Internal Revenue Service (IRS) dated June 29, 2017, stating the Plans are qualified under section 401(a) of the Internal Revenue Code (the Code) and, therefore, the Master Trust is exempt from taxation. Subsequent to this determination by the IRS, the Plans were amended and restated. Once qualified, the Plans are required to operate in conformity with the Code to maintain their qualified status. ADM believes the Plans are being operated in compliance with the applicable requirements of the Code and therefore believes the Plans as amended and restated are qualified and the related Master Trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plans and recognize a tax liability if the Plans have taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plans and has concluded that there are no uncertain positions taken or expected to be taken. The Plans are subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The Master Trust invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risks associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the assumptions and estimation process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

10. Subsequent Events

Management evaluated subsequent events for the Plans through September 14, 2020, the date that these financial statements were available to be issued.

In March 2020, the World Health Organization categorized Coronavirus Disease 2019 (“COVID-19”) as a pandemic, and the President of the United States declared the COVID-19 outbreak a national emergency. The COVID-19 pandemic has led to extreme volatility in financial markets and has affected, and may continue to affect, the market price of Plan investments. The potential economic impact brought by, and the duration of, COVID-19 is difficult to assess or predict and will depend on future developments that are highly uncertain and cannot be predicted.

The Plans are in the process of operationally being amended to implement certain changes permitted by the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) and the Setting Every Community Up for Retirement Enhancement Act of 2019 (the SECURE Act), which laws change the Plans to, among others, allow certain eligible individuals to receive coronavirus-related distributions, suspend required minimum distributions, and delay the commencement date for required minimum distributions. Written amendments to the Plans to reflect these operational changes will be adopted at a later date in accordance with applicable law and IRS guidance.

Disability Rates

See Table 6

Decrement Timing

Middle of year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%)

Surviving Spouse Benefit

It is assumed that 80% of males and 80% of females have an eligible spouse, and that males are two years older than their spouses.

Valuation Compensation

2018 Pensionable earnings rolled forward one year with the salary increase assumption

Benefit and Compensation Limits

Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of \$225,000 and the IRC section 401(a)(17) compensation limit of \$280,000.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Schedule SB, Part V—Summary of Plan Provisions

History of Plan

The Archer Daniels Midland Retirement Plan was established effective December 27, 1943, as a group annuity contract with the Equitable Life Assurance Society. Effective September 1, 1952, a separate plan was established for hourly employees.

In December 1954, a change was made in financing the plan from a deposit administrative group annuity contract to a trustee basis. No further contributions were made to the Equitable deposit administration fund. The existing deposit administration contract funds were used to purchase benefits upon retirement and such funds were sufficient to purchase the benefits of all participants who retired prior to July 31, 1963. The Trustee currently is the National City Bank of Minneapolis.

Effective January 1, 1968, the benefit formula was changed from a career average pay formula to a final average pay formula. The final average pay formula adopted was 1% of all pay plus ½% of pay in excess of an average Social Security wage base for all years of service up to 35 years.

Effective January 1, 1973, the method of integrating the benefit formula with Social Security was changed from a step rate basis (a higher benefit rate on pay over a wage base) to an offset basis (same benefit rate on all pay with the plan benefit reduced by some portion of Social Security benefits). The formula adopted was 56% of final average compensation minus 50% of primary Social Security, times the ratio of credited service to 35 years. In addition, a minimum benefit formula of 9.00 times credited service up to 35 years was added, the disability benefit was removed (now covered by an insured long-term disability plan), the retirement death benefit provisions were liberalized, and the eligibility provisions for vesting were liberalized.

Effective January 1, 1976, the plan was amended to comply with the Employee Retirement Income Security Act of 1974 (ERISA). These changes included providing the rule of 45 for vesting.

During 1978, the plan was amended retroactive to January 1, 1976, to increase the minimum benefit to \$9.00 times credited service.

Effective January 1, 1983, the plan was amended to be in accordance with the maximum benefit rules of TEFRA.

The plan was amended effective August 1, 1984, to extend preretirement death coverage to terminated vested employees on an employee paid basis as required by the Retirement Equity Act.

Effective January 1, 1987, the plan was amended to be in accordance with the maximum benefit rules of TRA-86.

Effective January 1, 1989, in accordance with the Tax Reform Act of 1986, a five-year cliff vesting schedule was adopted and the maximum compensation taken into account in determining benefits was limited to \$200,000 subject to future indexing.

During 1990, Collingwood Grain was merged into this plan. The benefit for former Collingwood Grain employees is based on the accrued benefit payable at age 65 as of December 31, 1989 with Collingwood Grain plus service from January 1, 1990 under the ADM Salaried Plan.

Effective December 15, 1990, Pfizer was merged into this plan. The benefit for former Pfizer employees is based on Pfizer plan provisions.

During 1992, Agri-Trans was merged into this plan. The benefit for former Agri-Trans employees is calculated in accordance with the ADM Salaried Plan.

Effective January 1, 1993, Dixie Portland salaried employees were merged into the plan. The benefit for former Dixie Portland employees is based on the larger of the accrued benefit payable at age 65 as of December 31, 1992, under Dixie Portland plan formula plus service from January 1, 1993, under the ADM Salaried Plan, or the ADM plan formula based on Dixie Portland and ADM service.

Effective January 1, 1993, the benefit for former Pfizer employees was changed to be the larger of the accrued benefit payable at age 65 as of December 31, 1992, under the Pfizer plan formula plus service from January 1, 1993, under the ADM Salaried Plan, or the ADM plan formula based on Pfizer and ADM service.

Effective January 1, 1996, the Premiere salaried employees were merged into the plan. The benefit for former Premiere employees is based on the larger of the accrued benefit payable at age 65 as of October 31, 1994, under the Premiere plan formula plus service from November 1, 1994, under the ADM salaried formula, or the ADM plan formula based on total service.

Effective September 30, 1996, Southern Cellulose salaried employees were merged into the plan. The benefit for former Southern Cellulose employees is based on the accrued benefit payable at age 65 of September 30, 1996 with Southern Cellulose plus the benefit for service from October 1, 1996 under the ADM Salaried Plan.

Effective May 31, 1997, Benson-Quinn employees were merged into the plan. The benefit for former Benson-Quinn employees is based on the accrued benefit payable at age 65 as of May 31, 1998 with Benson-Quinn plus service from June 1, 1998 under the ADM Salaried Plan.

Effective January 1, 1998, the ADM salaried plan benefit formula was changed to an excess step-rate formula of 36% of final average pay up to covered compensation plus 16.5% of final average pay in excess of covered compensation, reduced proportionately for service less the 30 years, plus 0.5% of final average pay times service over 30 years.

Effective December 31, 1999, the Moorman salaried employees and retired employees were merged into the plan. The Moorman salaried employees were granted the ADM salaried plan benefit for all years of service with Moorman and ADM.

Effective January 1, 2000, ADM unpurchased annuities previously purchased from an insurance carrier for former Moorman employees and will now pay trust benefits from the ADM plan. ADM also adopted a 415(d) COLA which increases the maximum benefit payable from a qualified plan and eliminated the two-plan limits from the qualified plan.

Effective December 31, 2001, the Consolidated Nutrition salaried employees were merged into the plan.

Effective January 1, 2009, employees who did not have five years of continuous service as of December 31, 2008, and all new hires on or after January 1, 2009, are eligible for the cash balance formula. All other employees continue to have benefits calculated under the traditional formula.

Effective December 31, 2011, the Golden Peanut Pension Plan salaried group was merged into this plan.

Nonvested participants from CRS who were divested on May 1, 2017 were granted 100% vesting for their Salaried plan benefits.

On July 31, 2017, ADM announced that beginning January 1, 2022 all participants in the Salaried pension plan and the SERP will begin accruing benefits under the cash balance formula. Benefits for participants who were accruing under the final average pay formula will be frozen as of December 31, 2021, including pay and service through that date.

The Company amended the plan and on October 29, 2018 entered into a binding agreement to purchase a group annuity contract from The Prudential Insurance Company of America ("Prudential"), irrevocably transferring the future benefit obligations and annuity administration for 3,841 retirees from the Plan to Prudential. The annuity contract purchase was completed on November 2, 2018. Participants who were in payment as of January 1, 2018 were included in this transaction. Prudential began making payments to these participants on January 1, 2019.

An early retirement window was offered to a group of ADM Salaried employees that were at least age 55 with five years of vesting service as of June 30, 2019. If a participant met those requirements, they were offered the following enhancement for pension benefits:

- For traditional final average pay participants, an additional three years of service was given in the calculation of the retirement benefit and an additional three years of age was given in determining the early retirement subsidy. Additionally, participants are eligible to receive their enhanced benefit as a lump sum option if commencement occurs before June 30, 2020.
- For participants eligible for the early retirement window and included in pay band 28+, their ADM Retirement Plan enhancements will be paid out of the SERP instead of the ADM Retirement Plan.
- For cash balance participants, the account balance as of the retirement date, plus and additional pay credit equal to 40% pay credit was given.

Schedule SB, Part V—Summary of Plan Provisions

History of Plan

The Archer Daniels Midland Retirement Plan was established effective December 27, 1943, as a group annuity contract with the Equitable Life Assurance Society. Effective September 1, 1952, a separate plan was established for hourly employees.

In December 1954, a change was made in financing the plan from a deposit administrative group annuity contract to a trustee basis. No further contributions were made to the Equitable deposit administration fund. The existing deposit administration contract funds were used to purchase benefits upon retirement and such funds were sufficient to purchase the benefits of all participants who retired prior to July 31, 1963. The Trustee currently is the National City Bank of Minneapolis.

Effective January 1, 1968, the benefit formula was changed from a career average pay formula to a final average pay formula. The final average pay formula adopted was 1% of all pay plus ½% of pay in excess of an average Social Security wage base for all years of service up to 35 years.

Effective January 1, 1973, the method of integrating the benefit formula with Social Security was changed from a step rate basis (a higher benefit rate on pay over a wage base) to an offset basis (same benefit rate on all pay with the plan benefit reduced by some portion of Social Security benefits). The formula adopted was 56% of final average compensation minus 50% of primary Social Security, times the ratio of credited service to 35 years. In addition, a minimum benefit formula of 9.00 times credited service up to 35 years was added, the disability benefit was removed (now covered by an insured long-term disability plan), the retirement death benefit provisions were liberalized, and the eligibility provisions for vesting were liberalized.

Effective January 1, 1976, the plan was amended to comply with the Employee Retirement Income Security Act of 1974 (ERISA). These changes included providing the rule of 45 for vesting.

During 1978, the plan was amended retroactive to January 1, 1976, to increase the minimum benefit to \$9.00 times credited service.

Effective January 1, 1983, the plan was amended to be in accordance with the maximum benefit rules of TEFRA.

The plan was amended effective August 1, 1984, to extend preretirement death coverage to terminated vested employees on an employee paid basis as required by the Retirement Equity Act.

Effective January 1, 1987, the plan was amended to be in accordance with the maximum benefit rules of TRA-86.

Effective January 1, 1989, in accordance with the Tax Reform Act of 1986, a five-year cliff vesting schedule was adopted and the maximum compensation taken into account in determining benefits was limited to \$200,000 subject to future indexing.

During 1990, Collingwood Grain was merged into this plan. The benefit for former Collingwood Grain employees is based on the accrued benefit payable at age 65 as of December 31, 1989 with Collingwood Grain plus service from January 1, 1990 under the ADM Salaried Plan.

Effective December 15, 1990, Pfizer was merged into this plan. The benefit for former Pfizer employees is based on Pfizer plan provisions.

During 1992, Agri-Trans was merged into this plan. The benefit for former Agri-Trans employees is calculated in accordance with the ADM Salaried Plan.

Effective January 1, 1993, Dixie Portland salaried employees were merged into the plan. The benefit for former Dixie Portland employees is based on the larger of the accrued benefit payable at age 65 as of December 31, 1992, under Dixie Portland plan formula plus service from January 1, 1993, under the ADM Salaried Plan, or the ADM plan formula based on Dixie Portland and ADM service.

Effective January 1, 1993, the benefit for former Pfizer employees was changed to be the larger of the accrued benefit payable at age 65 as of December 31, 1992, under the Pfizer plan formula plus service from January 1, 1993, under the ADM Salaried Plan, or the ADM plan formula based on Pfizer and ADM service.

Effective January 1, 1996, the Premiere salaried employees were merged into the plan. The benefit for former Premiere employees is based on the larger of the accrued benefit payable at age 65 as of October 31, 1994, under the Premiere plan formula plus service from November 1, 1994, under the ADM salaried formula, or the ADM plan formula based on total service.

Effective September 30, 1996, Southern Cellulose salaried employees were merged into the plan. The benefit for former Southern Cellulose employees is based on the accrued benefit payable at age 65 of September 30, 1996 with Southern Cellulose plus the benefit for service from October 1, 1996 under the ADM Salaried Plan.

Effective May 31, 1997, Benson-Quinn employees were merged into the plan. The benefit for former Benson-Quinn employees is based on the accrued benefit payable at age 65 as of May 31, 1998 with Benson-Quinn plus service from June 1, 1998 under the ADM Salaried Plan.

Effective January 1, 1998, the ADM salaried plan benefit formula was changed to an excess step-rate formula of 36% of final average pay up to covered compensation plus 16.5% of final average pay in excess of covered compensation, reduced proportionately for service less the 30 years, plus 0.5% of final average pay times service over 30 years.

Effective December 31, 1999, the Moorman salaried employees and retired employees were merged into the plan. The Moorman salaried employees were granted the ADM salaried plan benefit for all years of service with Moorman and ADM.

Effective January 1, 2000, ADM unpurchased annuities previously purchased from an insurance carrier for former Moorman employees and will now pay trust benefits from the ADM plan. ADM also adopted a 415(d) COLA which increases the maximum benefit payable from a qualified plan and eliminated the two-plan limits from the qualified plan.

Effective December 31, 2001, the Consolidated Nutrition salaried employees were merged into the plan.

Effective January 1, 2009, employees who did not have five years of continuous service as of December 31, 2008, and all new hires on or after January 1, 2009, are eligible for the cash balance formula. All other employees continue to have benefits calculated under the traditional formula.

Effective December 31, 2011, the Golden Peanut Pension Plan salaried group was merged into this plan.

Nonvested participants from CRS who were divested on May 1, 2017 were granted 100% vesting for their Salaried plan benefits.

On July 31, 2017, ADM announced that beginning January 1, 2022 all participants in the Salaried pension plan and the SERP will begin accruing benefits under the cash balance formula. Benefits for participants who were accruing under the final average pay formula will be frozen as of December 31, 2021, including pay and service through that date.

The Company amended the plan and on October 29, 2018 entered into a binding agreement to purchase a group annuity contract from The Prudential Insurance Company of America ("Prudential"), irrevocably transferring the future benefit obligations and annuity administration for 3,841 retirees from the Plan to Prudential. The annuity contract purchase was completed on November 2, 2018. Participants who were in payment as of January 1, 2018 were included in this transaction. Prudential began making payments to these participants on January 1, 2019.

An early retirement window was offered to a group of ADM Salaried employees that were at least age 55 with five years of vesting service as of June 30, 2019. If a participant met those requirements, they were offered the following enhancement for pension benefits:

- For traditional final average pay participants, an additional three years of service was given in the calculation of the retirement benefit and an additional three years of age was given in determining the early retirement subsidy. Additionally, participants are eligible to receive their enhanced benefit as a lump sum option if commencement occurs before June 30, 2020.
- For participants eligible for the early retirement window and included in pay band 28+, their ADM Retirement Plan enhancements will be paid out of the SERP instead of the ADM Retirement Plan.
- For cash balance participants, the account balance as of the retirement date, plus and additional pay credit equal to 40% pay credit was given.
