Note 1. Description of the Plan

The following description of Continental Datalabel, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of Continental Datalabel, Inc. (the Company) who are age 21 or older and have completed three months of service. The Company's Retirement Plan Committee has responsibility for the operation and administration of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may contribute up to 85% of pre-tax annual compensation, limited to the Internal Revenue Service (IRS) annual limitations. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

For participants who are employed on the last day of the year and complete 1,000 hours of service during the plan year, the Company also may make a discretionary matching contribution and a discretionary profit-sharing contribution. The Company made no discretionary contributions for 2019.

Investment options: Upon enrollment in the Plan, participants may direct their account balances in a variety of investment options, as more fully described in the Plan's literature. Participants may change their investment options daily.

Participant accounts: Each participant's account is credited with the participant's contributions and allocations of (a) the Company's discretionary contributions and (b) plan earnings, and charged with an allocation of administrative expenses and applicable loan fees. Allocations are based on participant earnings, account balances, or specific transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their salary deferral contributions plus actual earnings thereon. Vesting in the Company's discretionary contributions is based on years of continuous service. These contributions are subject to the following vesting schedule:

Years of Service	Percentage
Less than 2	None
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 or more	100%

Note 1. Description of Plan (Continued)

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan Administrator. The term of the loan may not exceed five years unless the loan proceeds will be used to acquire the principal residence of the participant. Principal and interest are paid ratably through payroll deductions.

Payment of benefits: On termination of service for any reason, a participant will be eligible to receive a lump-sum amount equal to the value of the participant's vested account balance. Withdrawals are permitted by the Plan upon attainment of age 59½ or upon incurring financial hardship.

Forfeited accounts: Forfeitures are used to pay plan expenses or to reduce employer contributions. There were no forfeitures used to reduce employer contributions or Plan expenses during the year ended December 31, 2019 and no significant forfeitures were included in net assets available for benefits as of December 31, 2019 and 2018.

Note 2. Summary of Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the Plan's trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based upon terms of the plan document.

Payment of benefits: Benefit payments to participants are recorded when paid.

Administrative expenses: Certain administrative expenses of maintaining the Plan are paid by the Company and are not included in these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account.

Note 2. Summary of Accounting Policies (Continued)

Recent accounting pronouncements: In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-13*, Fair Value Measurement (Topic 820): Disclosure Framework – Changes to Disclosure Requirements for Fair Value Measurement*, which modifies the disclosure requirements for fair value measurements by removing, modifying, or adding certain disclosures. ASU 2018-13 is effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. An entity is permitted to early adopt any removed or modified disclosures and delay adoption of the additional disclosures until their effective date. The Plan is currently evaluating the impact of this new standard on its financial statements.

Subsequent events: Plan management has evaluated subsequent events through October 14, 2020, the date on which the financial statements were available to be issued.

Note 3. Information Certified or Provided by Fidelity Management Trust Company

The following is a summary of the Plan's asset information as of December 31, 2019 and 2018, and for the year ended December 31, 2019, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by Fidelity Management Trust Company (Fidelity), the trustee, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	2019	2018
Investments at fair value:		
Shares of registered investment companies	$ 4,379,119	$ 4,105,588
Units of common collective trust	87,373	83,364
Notes receivable from participants	236,573	171,083

The trustee also certified to the completeness and accuracy of $708,649 of net appreciation in fair value of investments and $151,104 of interest and dividends related to the aforementioned plan assets for the year ended December 31, 2019.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of fair value hierarchy under the FASB Accounting Standards Codification 820 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; and • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Shares of registered investment companies: Shares of registered investment companies are valued at the daily closing price as reported by the fund. Funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Units of common collective trust: Valued based on the NAV per unit of the common collective trust fund. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2019 and 2018. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	2019			
	Total	Level 1	Level 2	Level 3
Shares of registered investment companies	$ 4,379,119	$ 4,379,119	$ -	$ -
Investment measured using NAV (a)	87,373			
Investments at fair value	$ 4,466,492			

	2018			
	Total	Level 1	Level 2	Level 3
Shares of registered investment companies	$ 4,105,588	$ 4,105,588	$ -	$ -
Investment measured using NAV (a)	83,364			
Investments at fair value	$ 4,188,952			

(a) In accordance with Subtopic 820-10, certain investments that are measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Changes in fair value levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. Plan management evaluates the significance of transfers between levels based upon the nature of the investments and size of transfer relative to total net assets available for benefits. For the year ended December 31, 2019, there were no transfers in or out of Level 3.

Note 4. Fair Value Measurements (Continued)

Investments measured using the net asset value per share practical expedient
There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan. The following table summarizes investments for which fair value is measured using the NAV practical expedient as of December 31, 2019 and 2018:

	2019			
	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Units of common collective trust	$ 87,373	$ -	Immediate	12 months

	2018			
	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Units of common collective trust	$ 83,364	$ -	Immediate	12 months

Note 5. Related Party and Party-In-Interest Transactions

Certain plan investments are shares of registered investment companies and a common collective trust managed by Fidelity. Fidelity is the trustee of the Plan, as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Fidelity also performed administration and recordkeeping services for the Plan. Fees paid by the Plan for these services were approximately $8,700 for the year ended December 31, 2019.

Certain administrative functions are performed by officers or employees of the Company for which they receive no compensation from the Plan.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants become 100% vested in their accounts.

Note 7. Income Tax Status

The Plan is operating under a volume submitter defined contribution plan document sponsored by Fidelity Management & Research Company. The volume submitter plan document has received an opinion letter from the Internal Revenue Service that the plan document and the related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The volume submitter plan opinion letter has been relied upon by the Plan. The Plan has been amended since the Plan received the opinion letter. However, the Plan Administrator believes the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress.

Note 8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2019 and 2018:

	2019	2018
Net assets available for benefits per the financial statements	$ 4,703,065	$ 4,360,035
Difference in:		
Participant loans	236,573	171,083
Notes receivable from participants	(236,573)	(171,083)
Units of common collective trust	1,178	(885)
Shares of registered investment companies	-	1
Net assets available for benefits per the Form 5500	$ 4,704,243	$ 4,359,151

The following is a reconciliation of the changes in net assets available for benefits for the year ended December 31, 2019, per the financial statements to the Form 5500:

Net increase in net assets available for benefits per the financial statements	$ 343,030
Difference in:	
Benefits paid to participants	(10)
Administrative expenses	10
Investment income (loss)	2,062
Net increase in net assets available for benefits per the Form 5500	$ 345,092

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 10. Subsequent Event

On January 30, 2020, the World Health Organization declared the coronavirus outbreak a “Public Health Emergency of International Concern” and on March 11, 2020, declared it to be a pandemic. Actions taken around the world to help mitigate the spread of the coronavirus include restrictions on travel, and quarantines in certain areas, and forced closures for certain types of public places and businesses. The coronavirus and actions taken to mitigate the spread of it have had and are expected to continue to have an adverse impact on the economies and financial markets of many countries, including the geographical area in which the Plan Sponsor operates.

It is unknown how long the adverse conditions associated with the coronavirus will last and what the complete financial effect will be to the Plan. The Plan’s investments have experienced significant changes in fair values because of volatility in the market in 2020 due to the uncertainty caused by the pandemic.

Note 10. Subsequent Event (Continued)

Additionally, it is reasonably possible that estimates made in the financial statements have been, or will be, materially and adversely impacted in the near term as a result of these conditions, including those related to investment valuations.

On March 27, 2020, the *Coronavirus Aid, Relief, and Economic Security Act* (CARES Act) was enacted to amongst other provisions, provide emergency assistance for individuals, families and businesses affected by the coronavirus pandemic. The CARES Act also provides for certain optional relief measures that can be adopted by qualified retirement plans including increased levels of participant loans for affected individuals for a limited time, and distributions with special tax treatment for affected individuals. Plans must also allow participants who are affected by the coronavirus to suspend loan payments through December 31, 2020, and required minimum distributions for participants over 70½ can be omitted for 2020.
