Note A. Description of the Plan

The following description of the Maguire Flex$aver Plan ("The Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan provisions.

General

The Plan is a defined contribution plan covering all full-time employees of CDR Maguire, Inc. (the "Company") and its participating affiliate. All non-resident aliens and temporary employees are excluded from participation.

Great-West Trust Company, LLC ("Great-West" or the "Trustee") is the trustee and custodian of the Plan. Great-West Life & Annuity Insurance Company is the record keeper of the Plan. Management of the Company controls and manages the operation and administration of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan is also intended as a plan described in Section 401(k) of ERISA.

Contributions

Each year, participants may contribute up to one hundred percent (100%) of their annual compensation, subject to Internal Revenue Service ("IRS") limitations. Participants who have attained age fifty (50) before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct their contributions into various investment options offered by the Plan. The Plan currently offers sixty-nine (69) mutual funds, one (1) fixed annuities, and one (1) collective trust fund as investment options for participants. The employer matching contribution is discretionary. During the years ended December 31, 2019 and 2018, the Company matched thirty-five cents ($0.35) for each dollar contributed by an eligible participant up to the first four percent (4%) of eligible compensation.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contribution and Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account balance.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of service. A participant is vested in the Company's contribution in accordance with the following schedule:

Less than three years of service	0%
Three or more years of service	100%

Note A. Description of the Plan - continued

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or fifty percent (50%) of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at 1% over the Prime Rate published in the Wall Street Journal on the first business day of the month before the loan is originated, which was commensurate with local prevailing rates at the time the loans were initiated. Principal and interest loan repayments are made through payroll deductions for current employees.

Payment of Benefits

Upon termination of service due to death, disability, retirement, or other reason, a participant, or beneficiary in case of death, may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or installment payments.

In-Service Distributions

The Plan allows in-service distributions if the participant has a hardship, attained the normal retirement age or attained the early retirement age. In-service distributions are permitted if the Participant is 100% vested in the amount being withdrawn.

Forfeited Accounts

If a participant terminates employment prior to becoming fully vested, the non-vested portion of the participant's account, as defined by the Plan, is forfeited. Participant forfeitures for the year ended December 31, 2019 and 2018 amounted to $8,067 and $6,904, respectively. The forfeitures may be used to pay administrative expenses and to reduce future employer contributions. At December 31, 2019 and 2018, forfeited non-vested accounts totaled $13,384 and $5,210, respectively. During 2019 and 2018, forfeited amounts were not used to pay Plan recordkeeping expenses. During 2019, no employer contributions were reduced from the forfeited non-vested account balance. During 2018, employer contributions in the amount of $7,454 were reduced from the forfeited non-vested account balance.

Note B. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Note B. Summary of Significant Accounting Policies - continued

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan utilizes various investment instruments, including mutual funds and fixed annuities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. During the year ended December 31, 2019 and 2018, the fair value of investments appreciated by $1,822,215 and depreciated by $1,477,472, respectively, due to expected market changes related to economic conditions. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those such changes could materially affect the amounts reported in the financial statements.

The Plan provides investment options that hold securities of foreign companies, which may involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than securities of comparable U.S. companies.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end. The notes receivable from participants are secured by vested account balances of borrowing participants, are valued at amortized cost, which approximates fair value. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation and depreciation include the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Note B. Summary of Significant Accounting Policies - continued

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative fees and are expensed when incurred. No allowance has been recorded as of December 31, 2019 and 2018.

Excess Contributions Payable

During 2019, there were no excess employee contributions. During 2018, there were excess employee contributions of $1,477. The Plan distributed the 2018 excess contributions to applicable participants prior to March 15th of the following year.

Payments of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses assessed by the trustee to the Plan consist primarily of fees charged for loan transactions and other miscellaneous transaction fees. The Company has elected to pay substantially all other administrative costs.

Subsequent Events

The Plan has evaluated subsequent events through September 30, 2020, the date the financial statements were available to be issued. Subsequent events requiring disclosure in the financial statements are included in Note L.

Reclassifications

Certain reclassifications have been made to the prior year financial statements in order for them to be in conformity with the current year presentation.

Note C. Investments

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Great-West Trust Company, LLC, the Trustee for the Plan, has certified as to the completeness and accuracy of all the investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2019 and 2018, the supplemental Schedule H, Part IV, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2019, and the related investment activity reflected in the Statement of Changes in Net Assets Available for Benefits for the years ended December 31, 2019 and 2018.

Note C. Investments - continued

The Plan has investments that are held in a guaranteed investment contract directed by each participant. The annuity contract has a guaranteed interest minimum. The aggregate value of the minimum guarantee is $923,986 and $857,868 at December 31, 2019 and 2018, respectively.

During 2019, the Plan's investments in collective trusts amounted to $884,834.

During 2019 and 2018, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $1,822,215 and depreciated in value by $1,477,472, respectively.

Fair Value Measurements

The Financial Accounting Standard Board Accounting Standards Codification provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level l

Inputs to the valuation methodology are unadjusted quoted prices for identical unrestricted assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note C. Investments - continued

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan's investments that are measured at fair value on a recurring basis, such as money market funds, mutual funds, and equity securities are generally classified within Level 1 of the fair value hierarchy. The fair values of these investments are based on quoted market prices in active markets.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2019 and 2018.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end. The mutual funds held by the Plan are deemed to be actively traded and have a readily determinable fair value.

Collective trusts: Valued as determined by the custodian based on net asset values and recent transaction prices. Net asset values per share are generally obtained directly from the fund house or other investment provider.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

	As of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Registered investment companies (Mutual Funds)	$ 10,839,348	$ -	$ -	$ 10,839,348
Total assets in the fair value hierarchy	10,839,348	-	-	10,839,348
Investments measured at net asset value (a)				
Collective trusts	-	-	-	884,834
Total investments at fair value	$ 10,839,348	$ -	$ -	$ 11,724,182

	As of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Registered investment companies (Mutual Funds)	$ 9,668,110	$ -	$ -	$ 9,668,110
Total investments at fair value	$ 9,668,110	$ -	$ -	$ 9,668,110

(a) In accordance with GAAP, certain investments that were measured at net asset value (or its equivalent as a practical expedient) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items in the statement of net assets available for benefits.

Note D. Bonding Requirements

The Employer Retirement Income Security Act of 1974 requires fiduciaries of qualified benefit plans to be bonded with a bond equivalent to 10% of the assets held in the Plan at the beginning of the Plan year.

The minimum bond is $1,000 and the maximum bond is $500,000. The Plan is in compliance with bonding requirements.

Note E. Related Party and Party-in-Interest Transactions

The Plan invests in shares of mutual funds and in fixed annuities managed by Great-West Trust Company, LLC, as included in the supplemental information in Schedule H, Line 4(i) – Schedule of Assets (held at end of year). Great-West Trust Company, LLC is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

The Plan issues loans to participants, which are secured by the balances in the participants' accounts. These transactions qualify as party-in-interest transactions.

During the years ended December 31, 2019 and 2018, the Plan paid $74,087 and $77,287, respectively, in administrative expenses to Great-West.

Note F. Plan Termination

Although it has not expressed any intent to do so, the Company and its participating affiliate have the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become one hundred percent (100%) vested in their accounts.

Note G. Tax Status

The IRS has determined and informed the Plan sponsor by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdiction; however, there are currently no audits for any tax periods in progress.

Note H. Guaranteed Investment Contract

The Plan has entered into a group annuity contract with Great-West Trust Company, LLC, an insurance company, totaling $923,986 and $857,868 for 2019 and 2018, respectively.

The account is credited with participant contributions to the account and earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. The interest crediting rate is reset quarterly. The effective annual interest rate will never be less than 0%.

The average yield earned by the Plan for the benefit responsive fund can be derived by averaging the quarterly gross interest rates for the fund over the year. The average for 2019 and 2018 was 1.20% and 1.10%, respectively.

The actual average yield earned by the Plan for the benefit responsive fund can be derived by averaging the Plan's quarterly interest rates. The average for 2019 and 2018 was 1.20% and 1.10%, respectively.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value.

Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Great West Trust Company, LLC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) bankruptcy of the Plan's sponsor or other Plan sponsor events that cause a significant withdrawal from the Plan, (3) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transactions exemption under ERISA or (4) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contracts issuers and that also would limit the ability of the plan to transact at contract value with the participants.

Note H. Guaranteed Investment Contract - continued

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) breach of material obligation under the contract, (3) a material misrepresentation, and (4) a material amendment to the agreement without the consent of the issuer.

Note I. Contingencies

Except as disclosed in subsequent events (Note L), there were no unusual or infrequent events or transactions occurring subsequent to the balance sheet date that might significantly affect the usefulness of the financial statements in assessing the Plan's present and future ability to pay benefits.

Note J. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks.

Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note K. Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of the Form 5500 at December 31:

	2019	2018

Rounding	(1)	-
Contributions received per Schedule H of Form 5500	$ 841,771	$ 890,722

Note L. Subsequent Events

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. This pandemic has adversely affected global economic activity and greatly contributed to significant deterioration and instability in financial markets. Because the values of the Plan's investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, and related impact on the Plan's liquidity cannot be determined at this time.

In March 2020, in response to the COVID-19 pandemic, Congress passed the Coronavirus Aid, Relief, and Economic Security Act (CARES Act). The CARES Act allows the access to retirement savings and suspension of required minimum distributions. The Plan adopted the coronavirus-related distributions up to $100,000 per individual, the suspension of loan payments through the end of 2020, and the suspension of required minimum distributions in 2020.
