Note 1 - Description of Plan

The following brief description of the First Sonora Bancshares, Inc. 401(K) Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The First Sonora Bancshares, Inc. (the Company) established the Plan effective as of November 1, 1981. The Plan operates as an employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (IRC), as amended and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (the ERISA). The Plan is administered by the ESOP committee of the Company. The ESOP committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Eligibility

Employees are eligible to participate in the Plan if they have completed thirty days of service and are 21 years of age.

Entry Date

Employees may enter the Plan on the first day of the calendar month coinciding with or following the date they satisfy the Plan's eligibility requirements.

Contributions

Each year, participants may contribute up to 100% of their pretax annual compensation, as defined in the Plan. Contributions are subject to certain IRC limitations. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan allows participants to designate contributions as Roth contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollover). The Company contributes a safe harbor match up to 4% of base compensation that a participant contributes to the Plan. Safe Harbor contributions, equal to 4% of employee salaries, were made in the amount of $247,909 by the Company as of December 31, 2019. Additional amounts may be contributed at the discretion of the Company's board of trustees. In 2019, the Company made a discretionary contribution of $196,313.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Participant Accounts

The Plan is a defined contribution Plan under which a separate individual account is established for each participant. Each participant's account is credited with the participant's contributions and the Company's matching contributions, as well as allocations of the Company's discretionary contributions and Plan earnings. When there is unallocated stock, the participants are credited, as of the last date of each Plan year, with an allocation of shares of the Company's common stock released by the trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who have over 500 hours of service during the year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to the total eligible compensation. Plan earnings and losses are allocated to each participant's account based on the ratio of the participant's account balance.

Investment Options

Upon enrollment to the Plan, a participant may direct deferrals and employer contributions in any of the funds offered by the Plan for the 401(k) portion of the Plan. Participants may change their investment options daily.

Vesting

Participants are vested immediately in their contributions and safe harbor contributions, plus actual earnings thereon. Vesting in the Company's common stock contribution matching and discretionary portion of their accounts is based on years of continuous service.

Vesting is based on years of credited services as set forth in the following table:

Participant's Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeitures

At December 31, 2019 and 2018, forfeited non-vested accounts totaled $66,168 and $27,461, respectively. These accounts will be used to make any minimum top-heavy contributions, to correct any errors in prior allocations under the Plan, pay administrative expenses of the Plan that are not paid by the Company, and then reallocated to participants who are eligible to share in matching contributions for that year. During the year ended December 31, 2019, forfeited non-vested accounts totaling $25,383 were allocated to eligible participants. Allocations are based on a participant's eligible compensation, relative to the total eligible compensation.

Notes Receivable from Participants

Participants may borrow from their fund accounts, a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The notes are secured by the balance in the participant's account. The loan interest rates range from 4.25% to 6.25%. Principal and interest is paid ratably through payroll deductions over a period not to exceed five years. The term of a loan shall not be more than 5 years, except it may be extended in the case of a participant who is on military leave. A participant may have no more than two outstanding notes at any one time.

Payment of Benefits

Participants may elect to receive either a lump-sum amount equal to the value of their vested interest of annual installments as defined in the Plan document upon retirement, termination of service, death or disability. A terminated participant with a balance of less than $1,000 may be automatically paid out by the Plan upon termination. Any terminated participants with a balance between $1,000 and $5,000 can still be automatically paid out if their balance is rolled into a qualified Individual Retirement Account. Distributions may be made at the participant's election prior to termination upon attainment of age 59 ½ as defined in the Plan document. If a distribution is to be made whose balance in their ESOP stock account or ESOP dividend account, the Plan administrator may require that such distribution be made in annual installments over a period of 5 years, plus one additional year (not in excess of five more years) for each $195,000 by which the value of the accounts exceeds the foregoing threshold.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who have completed 10 years of participation in the Plan and are at least 55 years of age within ninety days after the close of each Plan year during the qualified election period may elect to diversify a portion of their account. In each of the first five years, a participant may direct the Plan Administrator in writing to sell up to 25 percent of the fair market value of the qualified participants ESOP account (reduced by the fair market value of the amounts transferred pursuant to a prior election) and to transfer such amount to the 401(k) portion of the Plan. In the case of the election year in which the participant can make his last election, the percentage changes from 25 percent to 50 percent and shall be effective no later than 180 days after the close of the Plan year.

Plan Termination

Although it has not expressed any interest to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the ERISA. In the event of Plan termination, participants would become 100% vested in their account.

Note 2 - Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as those held during the year.

The classification of investment earnings reported in the statement of changes in net assets available for benefits may differ from the classification of earnings on Form 5500 due to different reporting requirements on Form 5500.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent notes receivables are recorded as distributions based upon the terms of the Plan document. No allowance for credit losses has been recorded as of December 31, 2019 and 2018.

Payment of Benefits

Benefit payments to participants are recorded upon distribution. There were no amounts allocated to accounts of persons who have elected to withdraw from the Plan but have not yet been paid at December 31, 2019 and 2018.

Expenses

The Plan's expenses are paid by either the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation in fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Note 3 - Investment in Common Stock

The Plan had no unallocated shares as of December 31, 2019 and 2018. The Plan's common stock investments are as follows:

	2019	2018
First Sonora Bancshares, Inc, Inc. Common Stock Number of shares	352	719
Cost	$ 518,496	$ 1,059,087
Fair Value	$ 478,720	$ 975,683

In August 2019, the Plan sold 367 shares of common stock for $512,332.

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds (including money market mutual funds) – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the plan are deemed to be actively traded.

Money market deposit accounts – Valued at carrying value, which approximates fair value, based on the amount of net contributions plus any investment earnings allocated to the account.

Common collective fund – Valued at fair value based on the NAV of units held of the collective fund. The NAV is based on the observable market prices of the underlying investments within the fund less liabilities. The NAV for the underlying assets of the fund is a readily determinable measure of their fair value and is the basis used by the fund for current transactions.

Common Stock – The fair value of the Company common stock held in the Plan is valued as estimated fair value based upon an independent appraisal. The appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, discount rates, return on assets, return on equity, market comparables, and estimated fair value of the Company assets and liabilities, including discounts for lack of control and lack of marketability.

The valuation process involves Plan management's selection of an independent appraiser on an annual basis. Plan management accumulates the data for the appraiser from the audited financial statements of the Company. The appraiser prepares a preliminary report which Plan management, along with the Board of Trustees, review in detail, discuss and approve. The results of this process are documented in the minutes of the Company.

The Plan's executive management determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and other third parties.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values.

Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

	2019			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 5,670,083	$ -	$ -	$ 5,670,083
Money market deposit account	18,006	-	-	18,006
Common collective fund	-	600,758	-	600,758
Common stock	-	-	478,720	478,720
Investments at fair value	$ 5,688,089	$ 600,758	$ 478,720	$ 6,767,567

	2018			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 4,822,698	$ -	$ -	$ 4,822,698

Investments at fair value	$ 4,838,263	$ 521,429	$ 975,683	$ 6,335,375

The tale below sets forth a summary of changes in the fair value of the Plan’s Level 3 assets for the years ended December 31, 2019 and 2018:

	2019 Company Stock	2018 Company Stock
Balance, beginning of year	$ 975,683	$ 884,370
Unrealized gains relating to investments held at end of year	15,369	91,313
Sales	(512,332)	-
Balance, end of year	$ 478,720	$ 975,683

Gain and losses (realized and unrealized) included in the change in net assets for the period are reported in net depreciation in fair value of investments in the statement of changes in net assets available for benefits.

Transfers Between Levels

For the years ended December 31, 2019 and 2018, there were no significant transfers between Level 1 and 2 and no transfers in or out of Level 3.

Note 5 - Information Certified by Reliance Trust Company

The Plan Administrator has elected the method of compliance permitted by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERISA. Accordingly, as permitted under such election, the plan Administrator instructed the plan's independent auditors not to perform any auditing procedures with respect to the information certified as complete and accurate by Reliance Trust Company, the custodian, except for comparing such information certified by the custodian with information included in the plan's financial statements and supplemental schedule H, Line 4i-schedule of assets held at end of year.

Other than the investment in First Sonora Bancshares, Inc. common stock and the related income, all investment information for the Plan disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2019 and 2018 and net appreciation in fair value of investments, interest, and dividends for the year ended December 31, 2019 was obtained or derived from information provided to the Plan Administrator and certified as complete and accurate by Reliance Trust Company, the custodian of the Plan. First Sonora Bancshares, Inc. common stock of $478,720 and $975,683 as of December 31, 2019 and 2018, respectively and dividend income of $21,488 and net appreciation in fair value of investments of $10,793 for the year ended December 31, 2019 were not certified by the custodian.

Note 6 - Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated August 27, 2014, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC. The Company and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and therefore believe the Plan is qualified and related trust continues to be tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 - Related Party and Party-In-Interest Transactions

As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are exempt party-in-interest transactions under the ERISA.

The Plan invests in Company common stock. In addition, the Plan received $21,488 in dividends from the Company for the year ended December 31, 2019. These are related party and party-in-interest transactions.

Note 8 - Risks and Uncertainties

The Plan invests in various investment securities including the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Note 9 - Subsequent Events

Subsequent to year-end, the United States and global markets experienced significant volatility in value resulting from uncertainty caused by the world-wide coronavirus pandemic. The plan sponsor is closely monitoring its investment portfolio and its liquidity and is actively working to minimize the impact of this volatility. The plan's financial statements do not include adjustments to fair value that have resulted from this volatility.

The Plan sponsor has evaluated subsequent events through October 9, 2020, the date which the financial statements were available to be issued.
