Notes to Financial Statements

1. Description of Plan

The following brief description of the Moody.Nolan, Inc. 401(k) Profit Sharing Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General

In 1984, Moody.Nolan, Inc. (the Company and Plan Sponsor) established a defined contribution profit sharing plan for employee retirement. The Plan covers substantially all employees of Moody.Nolan Inc., Moody Nolan DC LLC, and Moody Engineering, LLC, who have attained twenty-one years of age. An employee may participate in the Plan as of the first day of the quarter following the date on which the employee completes the eligibility requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

On December 31, 2019, employees of Moody Engineering, LLC were included in a newly formed qualified plan, Moody Engineering, LLC 401(k) Plan. Transfers to this plan amounted to \$508,861 during the year ended December 31, 2019.

Contributions

Each eligible employee may defer a portion of his or her salary as defined by the Plan not to exceed the limits imposed by the Internal Revenue Service. The Company makes matching contributions at 50% of employee deferrals up to 4% of eligible wages.

The Company may choose to make additional contributions based on the Company's profits which will be allocated to the profit sharing account of each participant in the same proportion that each participant's compensation for the Plan bears to the total compensation of all such participants. All contributions are self-directed by the participants among the available investment options. During the plan years ended December 31, 2019 and 2018, the Company did not make any profit sharing contributions.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, (b) plan earnings, which are invested in the available funds as directed by the participant, and (c) administrative expenses. Allocations are based on participant earnings or account balances as defined by the Plan.

Vesting

Participant and employer contributions are fully vested immediately.

Financial Hardship Withdrawals

Financial hardship withdrawals of a participant's deferral contributions are permitted in certain circumstances of immediate and heavy financial need, as defined by the Plan.

Moody.Nolan, Inc.
401(k) Profit Sharing Plan

Notes to Financial Statements

Payment of Benefits

A participant is entitled to 100% of his or her account balance upon normal retirement (age 65), death, disability or termination. Benefits are recorded when paid. The Plan permits in-service distributions once the participant has reached age 59 ½. Certain contribution types are eligible for in-service distributions once the participant has reached age 55.

Notes Receivable from Participants

Participants can borrow against their account balance up to the lesser of 50% of the fair market value of such account balance or \$50,000. Interest is charged on such loans at market rates in effect at the time of the loan disbursement. Loans are repayable through payroll deductions over one to five years, unless the loan was used to acquire a principal residence. At December 31, 2019 and 2018, management has determined there are no notes receivable from participants that are deemed uncollectible.

Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue contributions at any time and terminate the Plan subject to the provisions set forth in ERISA. In the event of plan termination, the accrued benefits in each participant's account are distributable by the trustees as soon as reasonably possible.

Income Tax Status

The volume submitter plan received its latest determination letter in March 2014 in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements and supplemental schedule of the Plan have been prepared in conformity with the modified cash basis of accounting which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Certain additions to net assets and related assets are recognized when received rather than when earned and certain deductions are recognized when paid rather than when incurred. Investments are recorded at fair market value, other than those reported at contract value.

Moody.Nolan, Inc.
401(k) Profit Sharing Plan

Notes to Financial Statements

Investment Valuation and Income Recognition

Investments are reported at fair value, other than the guaranteed interest account. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements. Mutual funds are valued at the NAV of shares held by the Plan at year-end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when received. Dividends are recorded when paid.

In accordance with ASC 962-325, “Fully Benefit - Responsive Investment Contracts”, the Key Guaranteed Portfolio Fund holds deposit interests in Great-West which is a guaranteed interest account. ASC 962-325 requires that investment contracts held by a defined-contribution plan be reported at fair market value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The fully benefit-responsive investment contract is stated at contract value which approximates fair value.

Notes Receivable from Participants

Notes receivable from participants are recorded when loans are initiated, and reductions in the balance occur when repayments or distributions are made. Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest, less any allowance for uncollectible accounts. Delinquent loans are reclassified as distributions based upon the terms of the Plan document.

Use of Estimates

The preparation of financial statements (modified cash basis) requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options. The underlying investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits - modified cash basis and participants' individual account balances.

Administrative Expenses

The Plan paid administrative expenses of \$25,014 and \$32,929 for the years ended December 31, 2019 and 2018, respectively. Certain professional fees for the administration and audit of the Plan are paid by the Company on behalf of the Plan. Asset management fees are reported within net appreciation (depreciation) in fair value of investments.

Notes to Financial Statements

Subsequent Events

The Company has evaluated events and transactions that occurred between January 1, 2020 and October 13, 2020 which is the date that the financial statements were available to be issued for possible recognition or disclosure in the financial statements. See Note 8.

3. Summary of Financial Data Certified by the Custodian

In accordance with 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, Great-West has certified as complete and accurate the following information at December 31, 2019 and 2018 including the comparable information in the accompanying supplemental schedule:

<i>December 31,</i>	2019	2018
Investments	\$ 21,475,170	\$ 15,613,379

<i>Year ended December 31,</i>	2019	2018
Net appreciation (depreciation) in fair value of investments	\$ 3,719,493	\$ (829,085)
Interest earned on guaranteed interest account	16,299	9,979
Investment income (loss)	\$ 3,735,792	\$ (819,106)

As directed by the plan administrator, no auditing procedures have been performed on the above certified information except to compare such information to the information included in the accompanying financial statements and supplemental schedule.

4. Investment in Fully Benefit-Responsive Contract

The Plan contains a benefit-responsive investment contract with Great-West (Key Guaranteed Portfolio Fund). Great-West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by Great-West. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. At December 31, 2019 and 2018, fair value approximates the contract value of the Plan's investment.

The contract has no stated maturity date. At December 31, 2019 and 2018, there were no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value, which approximates fair value, of the investment contract was \$1,635,434 and \$958,473, as of December 31, 2019 and 2018, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. The minimum rate was 1.20% and 1.10% for 2019 and 2018, respectively. Such interest rates are reviewed on a quarterly basis for resetting.

Moody.Nolan, Inc.
401(k) Profit Sharing Plan

Notes to Financial Statements

The repayment of principal and interest credited to participants holding the investments is a financial obligation of Great-West. However, if an event should ever occur such that realization of full contract value for a particular investment contract is no longer probable, for example, a significant decline in the creditworthiness of Great-West, the Key Guaranteed Portfolio Fund investment choice will no longer be considered fully benefit-responsive. The occurrence of an event that limits the ability of the investment to transact at contract value with Great-West and participants holding the investment, is not probable.

	2019	2018
Average yields for:		
Based on actual earnings	1.20%	1.10%
Based on interest rate credited to participants	1.20%	1.10%

5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 Fair Value Measurement are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology includes:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Moody.Nolan, Inc.
401(k) Profit Sharing Plan

Notes to Financial Statements

Common collective trust funds: Common collective trust funds (“CCTs”) are privately managed through investment companies and are not publicly quoted. CCTs are comprised, primarily, of shares of registered investment companies held through sub-accounts of an insurance company. The CCTs are valued using NAV as a practical expedient to estimate fair value where NAV is based on the value of the underlying investment assets held through sub-accounts of a separate account of an investment company. This practical expedient is not used when it is determined to be probable that the account will sell the investment for an amount different than the reported NAV. The Plan has concluded that the NAVs reported by the investment companies approximate the fair value of the investments. There are currently no redemption restrictions or unfunded commitments on these investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan’s assets at fair value as of December 31, 2019:

	Assets at Fair Value as of December 31, 2019

6. Party-in-interest Transactions

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer and certain others. Plan investments are managed by Great-West, the Plan's custodian. Therefore, these investments and all transactions with Great-West qualify as party-in-interest transactions.

Certain plan investments are shares of mutual funds and an investment contract managed by Great-West. Great-West is the custodian of the assets, and therefore, these transactions qualify as party-in-interest transactions. For 2019 and 2018, the Plan paid \$6,730 and \$4,619, respectively, in asset management fees to Great-West. These fees are reported within net appreciation (depreciation) in fair value of investments on the statements of changes in net assets available for benefits.

7. Corrective Distributions

For the year ended December 31, 2019, the Plan failed to pass the Actual Deferral Percentage (ADP) Test. Corrective distributions in the amount of \$20,942 for the year ended December 31, 2019, were made to the respective participants within 3 ½ months subsequent to the respective Plan year-end.

8. Subsequent Events

On January 30, 2020, the World Health Organization ("WHO") announced a global health emergency because of a new strain of coronavirus originating in Wuhan, China (the "COVID-19 outbreak") and the risks to the international community as the virus spreads globally beyond its point of origin. In March 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. This pandemic has adversely affected global economic activity and contributed to significant volatility in financial markets. Because the values of the Plan's individual investments have and will fluctuate

Notes to Financial Statements

in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, and related impact on the Plan's liquidity cannot be determined at this time.

On March 27, 2020, the "Coronavirus Aid, Relief and Economic Security (CARES) Act" was signed into law. The CARES Act, among other things, includes several relief provisions available to Plan participants under the CARES Act. The Plan Sponsor has implemented the following provision:

- Extended participant loan repayments, up to one year.
