Unity International Group 401(k) Plan

Notes to Financial Statements

Note 1 - Description of Plan

The following description of the Unity International Group 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement or Summary Plan Description ("SPD") for a more complete description of the plan's provisions. Unity International Group is comprised of Unity Electric Co., Inc., Unity Electric, LLC, Uni-Data and Communications, Inc., Uni-Data Services, LLC and Unity Data & Electrical Services, LLC, collectively (the "Company").

General

The Plan is a contributory, defined contribution 401(k) plan available to eligible employees of the Company. Eligible employees are those who have attained age 21 and have completed two months of service. Employees whose employment is governed by the terms of a collective bargaining agreement (union), non-resident aliens and part-time and seasonal employees are not eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Company serves as the Plan's sponsor and administrator.

Matrix Trust Company ("Matrix") is the trustee and custodian and Milliman, Inc. is the Plan's recordkeeper.

Contributions

All participants in the Plan may make tax deferred cash contributions of 1-25% of eligible compensation up to the maximum allowed by Section 402(g)(1) of the Internal Revenue Code. Effective January 1, 2013, the Plan implemented an automatic deferral amount of 2% from a participant's eligible compensation, unless the participant selects a different election percentage. The Company may make a discretionary matching and profit sharing contribution to a participant's account. For the year ended December 31, 2019, the Company did not make any discretionary matching or profit sharing contributions. Roth contributions are also permitted.

Note 1 - Description of Plan (continued)

Vesting

Participants are immediately vested in their voluntary contributions and any income or loss thereon. The Plan provides for the Company's matching contribution to become 100% vested upon the completion of 6 years of continuous service. Each participant's nonforfeitable percentage is determined under the following table.

Completed years of service	Nonforfeitable percentage vested
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's matching contribution and an allocation of plan earnings. Allocations are based on the account balances, as defined. The benefit which a participant is entitled to is the benefit that can be provided from the participant's vested account. Participants may direct the investment of their account balances into various investment options offered by the Plan. Participants have the option to transfer part or all of their fund balances among various funds within the Plan.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant is entitled to receive 100% of the participant's account balance as soon as practicable after the date of retirement, death or termination of employment. For termination of service due to other reasons, as defined, a participant is entitled to 100% of the participant's contributions, and the vested portion of their account attributable to the Company matching contributions. Benefits are recorded when paid.

Note 1 - Description of Plan (continued)

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned on the accrual basis. Participants may borrow up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The minimum loan amount is $1,000. A participant's loan is secured by the balance in the participant's account and bears interest at prime rate plus 1% determined when the participant applies for the loan. The loans are repaid ratably through payroll deductions over a period of five years or less.

No allowance for credit losses has been recorded at December 31, 2019 or 2018. If a participant ceases to make note repayments and the plan administrator deems the participant note to be a distribution, the participant note balance is reduced and a deemed distribution is recorded.

Corrective Distributions Payable

As of December 31, 2019 and 2018, refunds of contributions to certain participants totaling $1,381 and $369, respectively, have been recorded as a result of failing the Plan Imposed Limits on Deferrals. The Plan distributed the excess contributions to the applicable participants subsequent to the Plan year ends.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account. Investment related expenses are included in net appreciation of fair value of investments.

Forfeitures

Forfeiture allocations are retained in the Plan and first used to pay administrative expenses. Any remaining forfeitures will be used to reduce the Company's matching contributions, if applicable. Plan assets include $1,278 and $3,139 in forfeited balances at December 31, 2019 and 2018, respectively. Amounts forfeited during 2019 were $1.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared under the accrual method of accounting.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and Sales of Investments are Recorded on a Trade Date Basis.

Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (continued)

New Accounting Pronouncements

In August 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement. ASU 2018-13 eliminates, amends and adds disclosure requirements and is applicable to all entities to disclose recurring and nonrecurring fair value measurements under GAAP. ASU 2018-13 is effective for all reporting periods beginning after December 15, 2019, though early adoption is permitted for any eliminated or modified disclosure requirements. The Plan is currently evaluating the impact of this new standard on its financial statements. Management does not expect a material impact to the Plan's net assets available for benefits as there have not been historical transfers of financial instruments into or out of Level 1 or Level 2 and the Plan had no Level 3 measurements.

Note 3 – Investments

During 2019, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value and earned interest and dividends as follows:

Year ended December 31, 2019	
Net appreciation in fair value of mutual funds	$ 1,578,369
Net appreciation in fair value of stable value fund	28,321
Interest and dividends:	
Interest on notes receivable from participants	5,434
Interest and dividends on mutual funds	211,652
	$ 1,823,776

Note 4 - Information Certified by the Plan's Custodian

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian has certified that the following data included in the accompanying financial statements and supplemental schedule of assets (held at end of year) is complete and accurate.

	December 31,	
	2019	2018
Investments:		
Mutual funds	$ 7,621,709	$ 8,152,129
Stable value fund	1,414,401	1,152,175
Cash	231	2,242
Notes receivable from participants	85,472	60,192
Total	$ 9,121,813	$ 9,366,738

	Year ended December 31, 2019
Interest and dividends:	
Interest on notes receivable from participants	$ 5,434
Interest and dividends on mutual funds	211,652
Net appreciation in fair value of stable value fund	28,321
Net appreciation in fair value of mutual funds	1,578,369

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information with the related information included in the financial statements and supplemental schedule of assets (held at end of year).

Note 5 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note 5 - Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable value fund: The fair value of participation units held in the Reliance Trust Stable Value Fund (MetLife Series 25053), a common/collective trust ("CCT") is based on net asset value, as reported by the manager of the collective trust fund, Reliance Trust Company, and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date. The CCT invests in the MetLife Group Annuity Contract 25053 Class 60, which consists of separately managed investment portfolios in fixed income securities, and also enters into wrapper contracts, which are issued by third-parties and are designed to allow the Fund to maintain a constant net asset value. The CCT provides for daily redemptions by the Plan at reported net asset value, with no advance notice requirements.

The following sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of:

December 31, 2019	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 7,621,709	$ -	$ -	$ 7,621,709
Cash	231	-	-	231
	$ 7,621,940	$ -	$ -	$ 7,621,940
Stable Value Fund, at net asset value [a]				1,414,401
Total				$ 9,036,341

Note 5 - Fair Value Measurements (continued)

December 31, 2018	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 8,152,129	$ -	$ -	$ 8,152,129
Cash	2,242	-	-	2,242
	$ 8,154,371	$ -	$ -	$ 8,154,371
Stable Value Fund, at net asset value [a]				1,152,175
Total				$ 9,306,546

[a] In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) or at contract value have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, the Company is required to direct the timely distribution of the participant's account balances. Each participant will receive either the entire amount finally credited to the participant's account, or such amount as may be held by the Custodian until the participant's normal retirement date.

Note 7 - Income Tax Status

The Internal Revenue Service has determined and informed Milliman, Inc., the Plan's recordkeeper, via a favorable opinion letter dated March 31, 2014 that the Milliman, Inc. Prototype Non-standardized Profit Sharing Plan with CODA (the prototype plan upon which the Plan is based) is qualified under Section 401(a) of the Internal Revenue Code ("IRC") and that the Trust is exempt from Federal income taxes under Section 501(a), which provides that income is taxable only upon distribution thereof. The Plan has been amended since receiving the opinion letter; however, the Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Note 7 - Income Tax Status (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2016.

Note 8 - Party-In-Interest Transactions

A party-in-interest is defined under Department of Labor and ERISA regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The following qualify as a party-in-interest or party-in-interest transactions:

Matrix Trust Company (“Matrix”) is the trustee and custodian and Milliman, Inc. is the Plan’s recordkeeper.

Participant loans granted in accordance with the Plan are secured by the balances in the participants' accounts.

Administrative fees incurred by the Plan and paid to Milliman, Inc., recordkeeper, amounted to $45,122 for the year ended December 31, 2019.

Note 9 - Risks and Uncertainties

The Plan invests in various mutual fund investment securities and a CCT. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the statements of net assets available for benefits.

Note 10 – Reconciliation of Financial Statements to the Form 5500

The following is a reconciliation of net assets available for benefit and the changes in net assets available for benefits per the financial statements to the Form 5500:

	December 31, 2019	December 31, 2018
Net assets available for benefits, per financial statements	$ 9,126,182	$ 9,367,685
Add: Corrective distributions payable to participants	1,381	369
Net assets available for benefits, per the Form 5500	$ 9,127,563	$ 9,368,054

	Year Ended December 31, 2019
Net decrease in net assets per the financial statements	$ (241,503)
Less: Corrective distributions paid to participants	(369)
Add: Corrective distributions payable to participants	1,381
Net increase in net assets per the Form 5500	$ (240,491)

Note 11 – Delinquent Participant Contributions

During 2019, the Company failed to remit certain participant contributions totaling $80,473 to the Plan within the period prescribed by ERISA. Late transmissions of participant contributions constitute a prohibited transaction under ERISA section 406, regardless of materiality. The Company subsequently transmitted the delinquent participant contributions of $80,473 to the Plan and reimbursed the Plan for lost earnings in the amount of $51 on October 2, 2020. Related excise taxes were paid by the Company.

Note 12 – Subsequent Events

The Company has evaluated subsequent events from January 1, 2020 through October 14, 2020, the date the financial statements were available to be issued, and has determined that there are no events to disclose except the impact of the COVID-19 pandemic.

Note 12 – Subsequent Events (continued)

On March 11, 2020, the World Health Organization (“WHO”) classified the COVID-19 outbreak as a pandemic, triggering volatility in financial markets and a significant negative impact on the global economy. As a result, the Plan’s investment portfolio may have incurred significant changes in fair value since December 31, 2019. However, because the values of the Plan’s individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined. The full impact of the COVID-19 outbreak continues to evolve as of the date of this report.

On March 27, 2020, Congress passed the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act"). The Plan adopted certain measures under the CARES Act including allowing qualified individuals to receive coronavirus-related distributions up to $100,000 without penalty or immediate tax withholding and delaying qualified participant note repayments for up to one year.
