Notes to Financial Statements

1. Plan Description

The following description of the HCT Packaging 401(k) Profit Sharing Plan & Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established to provide savings and retirement benefits for eligible employees of HCT Packaging, Inc. (the "HCT" or "Employer") as defined in the Plan document. The Plan administrator, who is an officer of HCT, has entered into a trustee agreement with Principal Trust Company ("Principal Trust"). The Plan is subject to the applicable requirements of the Internal Revenue Code ("IRC") and the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Employer contributions and (b) Plan earnings and charged with an allocation of administrative expenses. Administrative expenses are allocated based on participant earnings, account balances or specific participant transactions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant Contributions

Eligible employees may elect to contribute to the Plan after completing 3 consecutive months of service beginning on the employee's date of hire and attainment of age 21. Participating employees may make contributions up to 100% of base salary on a pretax or after-tax basis, or a combination of both (limited to \$19,000 for 2019). Participants age 50 or older before the close of the calendar year may also elect to make additional pre-tax catch-up contributions to the Plan. Participants are also allowed to make Roth contributions to the Plan. All contributions are subject to IRC annual calendar year maximums. In addition, the Plan accepts qualified plan rollovers from eligible participants. Participants direct the investment of their contributions into various investment options offered by the Plan.

Employer Contributions

The Employer matches 25% for each \$1 contributed by Plan participants, up to 6% of the Plan Participant's eligible compensation for the Plan year. The Employer also makes a non-elective contribution of 3% of annual compensation for active participants on the last day of the Plan year, excluding any compensation earned during the year for which an employee was not an active participant.

HCT Packaging 401(k) Profit Sharing Plan & Trust

Notes to Financial Statements

Vesting

Participants are immediately vested in their contributions and rollovers plus actual earnings thereon. A participant is entitled to 100% of his or her account balance upon retirement, death or disability. Vesting in employer contributions is based on continuous years of service per the vesting schedule as follows:

<i>Years of Vesting Service</i>	<i>Vested Percentage</i>
Less than 1	20%
1	40%
2	60%
3	80%
4 or more	100%

Notes Receivable from Participants

Participating employees may borrow from the Plan on such terms and conditions as have been approved by the Employer, thereby resulting in the Plan's notes receivable from participants (the "Notes"), which are secured by an assignment of the vested balance in the participant's account. The interest rate will be based on the rates available for similar loans from commercial lending institutions. The loan administrator periodically examines the rates such lenders are using. Once a loan is granted, the interest rate on that loan will not change. Notes have maturities of no more than five years and must be repaid through payroll. The repayment period for a loan used to buy a principal residence is limited to a period consistent with commercial home loan practices. The maximum amount borrowable is the lesser of (i) 50% of the participating employee's vested account balance or (ii) \$50,000. Participating employees may have a maximum of one loan outstanding at any time with a minimum balance of \$1,000. As of December 31, 2019, the rates of interest on outstanding loans ranged from 4.5% to 6.5% with various maturities through 2048.

Payment of Benefits

Upon termination from active service, if a participant's vested account balance does not exceed \$5,000, unless the participant makes a timely election to roll over the vested account to an Individual Retirement Account ("IRA") or another eligible retirement plan, or elects to have the vested account balance distributed, the vested account balance will be paid in a single-sum payment as soon as administratively feasible.

If a participant's vested account balance exceeds \$5,000 upon termination from active service, the participant may defer their distribution election under the Plan. They may also elect to roll over the vested account balance to an IRA or another eligible retirement plan or elect a distribution from options offered by the Plan. The Plan also allows for hardship withdrawals.

Forfeited Account Balances

Forfeited non-vested Employer matching contributions are used exclusively to reduce the future employer contributions. The total forfeited non-vested account balances at December 31, 2019 and 2018 were \$7,722 and \$1,525, respectively. During the year ended December 31, 2019, \$1,525 in forfeitures was used to reduce Employer contributions.

**HCT Packaging
401(k) Profit Sharing Plan & Trust
Notes to Financial Statements**

Administrative Expenses

The Plan's administrative expenses consist of distribution processing fees and short-term trading fees (as provided in the Plan document), as well as investment advisory consulting fees, the costs of participant communications and professional and other fees charged by Principal Trust Company, Trustee of the Plan, and totaled \$76,280 for the year ended December 31, 2019. Other administrative expenses of the Plan are borne by HCT. Investment related expenses are included in net appreciation in fair value of investments. The Plan administrator is an employee or officer of HCT and provides certain services without charge.

Plan Termination

While the Employer has not expressed any intent to discontinue their contributions or terminate the Plan, in the event of termination, Plan assets would be distributed to the participants and beneficiaries in the order prescribed by ERISA. In the event of Plan termination, participants would become 100% vested in all contribution accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"), including the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires Plan Management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates and assumptions and such differences could be material.

Investment Valuation and Income Recognition

The Plan's investments, other than the fully benefit-responsive group annuity contract, are reported at fair value as determined by quoted market prices on the last business day of the Plan year. Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Contract value is the relevant measure for the Plan's fully benefit-responsive investment contract, because contract value is the amount Plan participants generally receive when executing transactions under the terms of the contract and Plan provisions.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

HCT Packaging 401(k) Profit Sharing Plan & Trust

Notes to Financial Statements

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued (but unpaid) interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances. Related fees are recorded as administrative expenses and are expenses when they are incurred. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefit distributions and withdrawals are recorded upon payment.

Risks and Uncertainties

The Plan holds various investments. Investments are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Recently Issued Accounting Standards

In August 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement*. ASU 2018-13 amends the disclosure requirements for recurring and nonrecurring fair value measurements by removing, modifying and adding certain disclosures. ASU 2018-13 removes the following disclosures: the amount of and reasons for transfers between Level 1 and Level 2 of the fair value hierarchy; the policy for timing of transfers; the valuation process for Level 3 fair value measurements; and changes in the unrealized gains and losses for the period included in earnings for recurring Level 3 fair value measurements held at the end of the reporting period. The ASU modifies the following disclosure requirements: transfers in and out of Level 3 and purchases and issues of Level 3 assets and liabilities; for investments in certain entities that calculate net asset value, the timing of liquidation of an investee's assets and the date when restrictions from redemption might lapse if timing has been communicated or announced publicly; and clarifies that the measurement uncertainty disclosure is to communicate information about the uncertainty in measurement as of the reporting date. The additional disclosures required under ASU 2018-13 are applicable only for public entities. The ASU is effective for fiscal years beginning after December 15, 2019, with early adoption permitted. Certain amendments of the ASU may be applied prospectively while others should be applied retrospectively to all periods presented upon the effective date. It is permissible to early adopt any removed or modified disclosures and delay adoption of the additional disclosures, if applicable, until the effective date. Plan management is currently evaluating the impact that the ASU will have on the Plan's financial statements.

Notes to Financial Statements

In July 2018, the FASB issued ASU 2018-09, *Codification Improvements*, ("ASU 2018-09"), which includes amendments to Subtopic 962-325, *Plan Accounting Defined Contribution Pension Plans Investments Other*. The amendment removes the stable value common collective trust fund from the illustrative example to avoid the interpretation that such an investment would never have a readily determinable fair value and, therefore, would always use the net asset value per share practical expedient. Rather, a plan should evaluate whether a readily determinable fair value exists to determine whether those investments may qualify for the practical expedient to measure at net asset value in accordance with ASC 820. The amendment to Subtopic 962-325 is effective for fiscal years beginning after December 15, 2018 using a modified retrospective approach. The adoption of the amendment did not have any impact on the Plan's financial statements.

Other accounting standards that have been issued or proposed by the FASB or other standard setting bodies are not expected to have a material impact on the Plan's Net Assets Available for Benefits, or Changes in Net Assets Available for Benefits.

3. Information Certified by the Plan's Trustees

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Trust Company, the trustee of the Plan, who holds the assets and executes transactions of the Plan, has certified that the following data included in the accompanying financial statements and supplemental Form 5500, Schedule H, Line 4i - Schedule of Assets (Held at End of Year) - December 31, 2019, and investment values disclosed in Note 4 are complete and accurate:

<i>December 31,</i>	2019	2018

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule, as instructed by the Plan administrator.

4. Fair Value of Financial Instruments

Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Registered Investment Companies (Mutual Funds)

Mutual funds consist of publicly traded funds of registered investment companies. Shares of mutual funds are valued using net asset value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and is classified within level 1 of the valuation hierarchy.

Notes to Financial Statements

Pooled Separate accounts ("PSAs")

The separate accounts are designed to deliver safety and stability by preserving principal and accumulating earnings. The PSA assets include, but are not limited to, investments in common stocks of companies that comprise of various S&P indexes, which are valued at fair value. The fair value of the underlying funds and securities is used to determine the net asset value of the PSAs, as reported by Principal. ASU Update 2015-10, *Technical Corrections and Improvements* updated the definition of Readily Determinable Fair Value. The valuation techniques used to measure the fair value of the PSAs and the collective trust funds are based on quoted market prices, such as quoted net asset values published by Principal as supported in an active market. The NAV of the PSAs is calculated in a manner consistent with GAAP for investment companies and is determinative of its fair value and represents the price at which the Plan would be able to initiate a transaction. Therefore, the PSAs have "Readily Determinable Fair Value." Because PSAs are valued similar to mutual funds, these assets are valued using Level 1 inputs. Participants are limited to one transfer per 30-day period.

Collective Investment Trusts ("CITs")

Principal LifeTime Hybrid CITs invest in a collective trust fund as well as a variety of separate accounts and mutual funds that seek total return consisting of long-term growth of capital and current income, consistent with the investment strategy of an investor with a specific target retirement date. Valued at net asset value per unit held by the Plan at year-end as reported by Principal, which is based on the fair value of the underlying investments held by the fund less its liabilities. The NAV of the CITs is calculated in a manner consistent with GAAP for investment companies and is determinative of their fair value and represents the price at which the Plan would be able to initiate a transaction. Because CITs are valued similar to mutual funds, these assets are valued using Level 1 inputs.

Participant transactions may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure the securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31, 2019 and 2018:

<i>Fair Value Measurements at December 31, 2019</i>

5. Investment Contract with Insurance Company

The Plan has a fully benefit-responsive guaranteed investment contract with Principal Life Insurance Company ("Principal"). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented at contract value on the Statements of Net Assets Available for Benefits. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2019 and 2018 was \$179,999 and \$212,331, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a semi-annual basis for resetting.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with Principal. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants or the issuer are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

6. Federal Income Tax Status

The Plan has adopted the Principal Prototype Profit Sharing Plan ("Prototype Plan"). The Prototype Plan received a favorable tax opinion letter dated March 31, 2014. Plan management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

HCT Packaging 401(k) Profit Sharing Plan & Trust

Notes to Financial Statements

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Related Party and Party-in-Interest Transactions

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the Employers, and certain others. Certain officers and employees of HCT perform administrative services related to the operation, recordkeeping and financial reporting of the Plan. HCT pays their salaries and they receive no compensation from the Plan. HCT pays other administrative expenses on behalf of the Plan.

Notes receivable from participants and all direct and indirect expenses paid for by the Plan also reflect party-in-interest transactions.

Certain Plan investments are pooled separate accounts and collective investment trusts managed by Principal. Principal is the trustee as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions.

Such transactions are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2019 and 2018, to the Form 5500:

<i>December 31,</i>	2019	2018

The following is a reconciliation of the change in net assets available for benefits between the financial statements and the Form 5500:

<i>Year Ended December 31,</i>	2019
Net increase in net assets available for benefits per financial statements	\$ 3,406,974

9. Non-Exempt Transactions

For the Plan year ended December 31, 2018, Plan management identified an instance of untimely remittance of participant contributions and loan repayments to the Plan amounting to \$118,612. The contributions and loan repayments were remitted to the Plan in 2018 during the Plan year in which the amounts were deferred. The Employer calculated and remitted the lost earnings to the Plan in 2020.

10. Subsequent Events

On January 30, 2020, the World Health Organization (“WHO”) announced a global health emergency because of a new strain of coronavirus originating in Wuhan, China (the “COVID-19 outbreak”) and the risks to the international community as the virus spreads globally beyond its point of origin. In March 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. This pandemic has adversely affected global economic activity and greatly contributed to volatility in financial markets. Because the values of the Plan’s individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, and related impact on the Plan’s liquidity cannot be determined at this time. Although HCT cannot estimate the length or gravity of the impact of the COVID-19 outbreak at this time, if the pandemic continues, it may have an adverse effect on the net assets available for benefits and financial position of the Plan.

On March 27, 2020, President Trump signed into law the “Coronavirus Aid, Relief, and Economic Security (CARES) Act.” The CARES Act, among other things, includes several relief provisions available to tax-qualified retirement plans and their participants. Plan management has evaluated the relief provisions available to plan participants under the CARES Act and has implemented the following provisions effective April 6, 2020:

- Special Coronavirus distributions up to \$100,000
- Increase of the available loan amount to the lesser of \$100,000 or 100% of the participant’s vested account balance
- Extended participant loan repayments, if applicable, up to one year

Effective May 1, 2020, the Company terminated the safe harbor contribution and temporarily suspended the employer match of 25% up to 6% in response to the economic conditions caused by the COVID-19 pandemic. This employer match was reinstated effective September 11, 2020.

The Plan has evaluated subsequent events through October 14, 2020, the date the accompanying financial statements were available to be issued.
