Dogfish 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Dogfish 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a single employer 401(k) elective deferral plan, which covers substantially all employees of Dogfish Head Companies LLC, Dogfish Head Craft Brewery, LLC, Dogfish Head, LLC, and Dogfish Inn, LLC (collectively, the Company). Employees are eligible for participation in the Plan upon six months of service. The Plan Investment Committee is responsible for oversight of the Plan. The Plan Administrator determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Investment Committee. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may contribute up to 85% of their eligible earnings, as defined in the Plan document, subject to Internal Revenue Code (IRC) limitations. The minimum elective deferral is 1%. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers).

The Plan requires the Employer to make safe harbor matching contributions equal to 100% of the first 3% of employee elective salary deferrals, and an additional 50% of the next 2% of salary deferrals thereafter.

Investment options: Upon enrollment in the Plan, a participant may direct all contributions to selected investments as made available and determined by the Plan Administrator in 1% increments. Participants may change their investment options daily.

Participant accounts: Each participant's account is credited with the participant's elective salary deferral, the Employer matching contribution and an allocation of Plan earnings, and is charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. Participants are not allowed to borrow from their accounts under the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: The Plan provides for 100% immediate vesting of participant contributions, the Employer's matching contributions, plus actual earnings attributable to such contributions.

Payment of benefits: Upon termination of service, a participant may withdrawal an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount or various installment options as provided by the Plan. Benefits may be paid in cash, rolled over to another qualified retirement plan, or remain in the Plan until the participant chooses to take a distribution. If the vested participant balance is greater than \$5,000 at the time of termination, the participants may elect to defer receiving payments until age 70½ or receive installments. In-service distributions are permitted from fully vested accounts after attaining age 59½.

Hardship withdrawals are available upon demonstration of financial hardship with limitations as defined in the Plan. After withdrawal, a participant may not make deferral contributions to the Plan for at least six months after receipt of the hardship distribution.

The Plan also provides for minimum required distributions per Internal Revenue Service (IRS) regulations by April 1 of the calendar year following the later of the calendar year in which participants reach age 70½ or the calendar year the participant retires.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the trustee and investment advisor. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Investment securities are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and such changes could materially affect participant account balances and the amounts reported in the statement of net assets available for benefits.

Payment of benefits: Benefits are recorded when paid.

Expenses: Certain expenses of maintaining the Plan are paid directly by the Employer and are excluded from these financial statements. Administrative expenses include fees related to the administration of participant benefit payments that are charged directly to the participant's account. Investment related expenses are included in net depreciation in fair value of investments.

Subsequent events: The Plan has evaluated subsequent events through October 12, 2020, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by Reliance Trust Company

The following is a summary of the Plan's asset information as of December 31, 2019 and 2018, and for the year ended December 31, 2019, included throughout the Plan's financial statements, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate to the best of their knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information that appears throughout the financial statements and supplemental schedule related to the following assets:

	2019	2018
Investments at fair value:		
Registered investment companies	\$ -	\$ 8,586,164
Common collective trust	-	231,495
	<u>\$ -</u>	<u>\$ 8,817,659</u>

Reliance Trust Company also certified to the completeness and accuracy of \$1,818,870 of net appreciation in fair value of investments and \$447,570 of interest and dividends related to the aforementioned Plan assets for the year ended December 31, 2019.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Dogfish 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the best level of input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2019 and 2018.

Registered investment companies (mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust stable value fund: A stable value fund is composed primarily of fully benefit-responsive investment contracts that is valued at NAV of units of the collective trust. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 8,586,164	\$ -	\$ -	\$ 8,586,164
Investments measured at NAV (a)				231,495
				<u>\$ 8,817,659</u>

- (a) In accordance with the Fair Value Measurements topic, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31, 2019 and 2018:

Investment	Fair Value Estimated Using NAV Per Share				
	Fair Value		Unfunded Commitment	Redemption Frequency	Redemption Notice Period
	2019	2018			
Common collective trust	<u>\$ -</u>	<u>\$ 231,495</u>	None	Daily	None

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits.

Note 5. Related Party Transactions and Parties-in-Interest

Reliance Trust Company is the trustee of the Plan; therefore, transactions with the trustee qualify as party-in-interest transactions. The Employer paid certain administrative expenses of the Plan during 2019. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of investments, as they were paid through revenue shares, rather than a direct payment. No fees were paid to the trustee directly from the Plan.

Note 6. Plan Merger

On July 3, 2019, Off-Centered Way, LLC, the parent of the Company, was acquired by the Boston Beer Company, Inc. As a result of the acquisition, effective December 31, 2019, the Plan merged into the Boston Beer Company 401(k) Plan. As a result, net assets of \$12,091,580 were transferred to the control of the Boston Beer Company 401(k) Plan on December 31, 2019. The merger does not impact participant benefits.

Note 7. Tax Status

Effective May 1, 2017, the Plan adopted a non-standardized form of a prototype plan sponsored by ADP, LLC. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken any significant uncertain tax positions that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
