AAA REFRIGERATION SERVICE, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2019

1. Description of Plan

The following description of AAA Refrigeration Service, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees of AAA Refrigeration Service, Inc. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

An employee is eligible to participate upon completion of one year of service and attaining age 20. An employee is credited with a year of service at the end of the twelve-month period beginning on the employee's date of hire if the employee has been credited with at least 1,000 hours of service during such period. If the employee has not been credited with 1,000 hours of service by the end of such period, he will have completed a year of service at the end of any following twelve-month period, based on his date of hire and anniversaries thereof, during which he was credited with 1,000 hours of service.

Participant Contributions

Participants of the Plan can contribute on a pre-tax basis a percentage of their compensation up to the maximum amount allowed under the Internal Revenue Code ("IRC"), which is $19,000 in 2019. Participants who are at least age 50 or they attain age 50 before the end of a calendar year may elect to defer additional amounts (called "catch-up contributions") to the Plan for that year. The additional amounts may be deferred regardless of any other limitations on the amount that the participants may defer to the Plan. The maximum catch-up contribution for 2019 is $6,000.

Employer Contributions

The employer may make a discretionary matching contribution equal to a uniform percentage or dollar amount of the participants' elective deferrals for each Plan year. There was no discretionary contribution in 2019.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of the employer discretionary contributions, plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their employee contributions and share of employer contributions into investment options offered by the Plan.

1. Description of Plan - Continued

Vesting

Participants are fully vested in their employee contributions plus actual earnings thereon. Vesting in employer contributions and earnings thereon is based on years of service and is determined as follows:

Years of Service	Vested%
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. The loan is secured by the balance in the participant's account. Generally, the term of the loan may not exceed five years. However, if the loan is for the purchase of the participant's principal residence, the Plan may permit a longer repayment term. The loan must be repaid through payroll deductions.

Payment of Benefits

Benefit distributions are based on the vested interest of the participants' account upon retirement (age 65), death, disability, or termination of employment. The Plan also allows for hardship distributions, subject to certain plan provisions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

2. Summary of Significant Accounting Policies - Continued

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Company and are, therefore, excluded from these financial statements. Investment-related expenses are included in net appreciation in fair value of investments. Administrative expenses of the Plan are allocated to participant accounts.

Subsequent Events

Subsequent events were evaluated through October 14, 2020, which is the date the financial statements were available to be issued.

As a result of the spread of COVID-19 coronavirus, economic uncertainties have arisen which have resulted in significant volatility in the investment markets, resulting in a substantial decline in the value of the investments. The duration of these uncertainties and the ultimate financial effects cannot be reasonably estimated at this time.

3. Certified Information (Unaudited)

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee, has certified to the completeness and accuracy of all the investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2019 and 2018, the supplemental Schedule H, Part IV, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2019 and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2019.

4. Investments and Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Fidelity Management Trust Company determines the Plan's valuation policies. Although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available. There are no plan assets requiring the use of Level 3 inputs for the periods presented.

The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

4. Investments and Fair Value Measurements - Continued

The Putnam Stable Value Fund (the "Fund"), a common collective trust, invests directly or indirectly in fully benefit-responsive investment contracts. The Fund is valued at the NAV as provided by the trustee, which is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the Fund, the issuer reserves the right to temporarily delay withdrawal from the Fund in order to ensure that securities liquidations will be carried out in an orderly business manner. The Fund's units are issued and redeemed daily at the constant NAV of $1 per unit. The Fund's investment objective is stability of principal and high current income. The Fund invests in high-quality guaranteed investment contracts and similar contracts issued by insurance companies, banks and other financial institutions. The Fund also invests up to 75% of its assets in security-backed investment contracts, including separate account products of insurance companies. The Fund strives to maintain at least 5% of its assets in high-quality money market instruments, cash, cash equivalents and stable value funds with investment policies and other provisions similar to those of the Fund, and may invest without limit in these investments.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019 and 2018:

Investments at Fair Value as of December 31, 2019

	Level 1	Total
Investments in the fair value hierarchy		
Mutual funds	$ 4,926,091	$ 4,926,091
Investments valued at NAV[(a)]		
Common collective trust		177,592
Investments at Fair Value		$ 5,103,683

Investments at Fair Value as of December 31, 2018

	Level 1	Total
Investments in the fair value hierarchy		
Mutual funds	$ 4,254,481	$ 4,254,481
Investments valued at NAV[(a)]		
Common collective trust		290,290
Investments at Fair Value		$ 4,544,771

[(a)] In accordance with FASB ASC 820, certain investments that are measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

4. Investments and Fair Value Measurements - Continued

Fair Value of Investments that Calculate Net Asset Value

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2019 and 2018, respectively:

	Fair Value as of December 31, 2019	Fair Value as of December 31, 2018	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Common collective trust [(b)]	$ 177,592	$ 290,290	N/A	Daily	None

[(b)] The common collective trust fund is valued at its December 31, 2019 and 2018 NAV per share as provided by the trustee. The Fund's investment objective is stability of principal and high current income.

Gains and losses (realized and unrealized) included in net increase in net assets available for benefits for the year ended December 31, 2019 is reported in net appreciation in fair value of investments.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

6. Tax Status

The Plan has adopted a Volume Submitter Defined Contribution Plan sponsored by Fidelity Management Trust Company. On March 31, 2014, the IRS stated in an opinion letter that the Volume Submitter Defined Contribution Plan sponsored by Fidelity Management Trust Company adopted by the Plan, as then designed, was in compliance with applicable requirements of the IRC Section 401 and, therefore, the related trust is exempt from taxation. The Plan has been amended since receiving the letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

7. Party in Interest Transactions

The Plan is managed by Alliant, Inc., the Plan's recordkeeper, and by Fidelity Management Trust Company, the Plan's trustee and custodian of funds. Accordingly, these transactions qualify as party in interest transactions.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
