MOMENTIVE PERFORMANCE MATERIALS INC. PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2019 and 2018

NOTE 1 - DESCRIPTION OF THE PLAN

The following brief description of the Momentive Performance Materials Inc. Pension Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: Momentive Performance Materials Inc. Pension Plan is a noncontributory defined benefit pension plan for the benefit of eligible employees of Momentive Performance Materials Inc. (the "Company", and "Plan Sponsor") and its participating U.S. subsidiaries. The Company's parent company, MPM Holdings, Inc, was acquired by an investor group consisting of SJL Partners LLC, KCC Corporation and Wonik QnC Corporation on September 13, 2018. The Plan was established January 29, 2007, and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Eligibility: The Plan covers substantially all eligible U.S. employees of Momentive Performance Materials Inc., Momentive Performance Materials Quartz, Inc. and Momentive Performance Materials USA Inc. except for those in certain employee classes hired after the effective freeze date for that class. Newly hired employees in an eligible group become participants on the January 1 following their hire date.

Effective August 31, 2012, no new exempt employees may enter the Plan after September 1, 2012.

Effective December 31, 2013, employees covered by the IUE-CWA, The Industrial Division of the Communications Workers of America, AFL-CIO, CLC, (the "IUE Union") agreement who were hired on or after January 1, 2013 are not eligible to participate in the Plan.

Effective December 31, 2014, employees covered by the Local 698-C of the International Chemical Workers Union Council of the United Food and Commercial Workers (the "Sistersville Union") agreement who were hired on or after January 1, 2014 and non-exempt employees not covered by a collective bargaining agreement ("NUNE," or "non-union non-exempt") will not be eligible to participate in the Plan. As such, the Plan is fully frozen to participation as of December 31, 2014.

Vesting: Participants generally vest in their benefits under the Plan after completing five years of pension qualification service or upon the attainment of normal retirement age, whichever comes first. The Plan recognizes prior employment service with certain predecessor employers of the Company for purposes of vesting and other benefits with service requirements. The Plan was amended effective October 24, 2014, to immediately vest employees who transfer between the Company and Hexion, Inc. ("Hexion"), the Company's former affiliate, while a Shared Services Agreement is in effect (Cross Company employees) regardless of whether such transfer is at the request of the Company or Hexion.

Retirement Age: Normal retirement is defined under the Plan as age 65. Pension benefits consist of a regular pension monthly annuity and, if applicable, special pension supplements. The Plan permits early retirement at age 60.

The Plan also provides special early retirement benefits as early as age 55 to participants meeting the eligibility criteria, which includes 25 years of service, for certain job loss events. This provision expired July 1, 2013 for exempt and non-bargained hourly associates and was extended with no expiration for certain Union employees, and for certain other bargained associates until July 31, 2014.

December 31, 2019 and 2018

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

An employee with at least 15 years of pension qualifying service, who becomes disabled while actively employed, and subsequently becomes permanently disabled prior to normal retirement age, may be eligible to receive a disability pension. An employee is considered permanently disabled if he received disability benefits under the federal Social Security Act or under the Company's long-term disability plan. Pre-retirement death benefits are available for beneficiaries of vested and qualified participants under the Plan.

Pension Benefits: For service and pay earned January 29, 2007 through December 31, 2007, the benefit under the Plan is an enhanced formula designed to provide a benefit equal to or greater than the benefit provided under the predecessor General Electric Pension Plan.

For service and pay earned on or after January 1, 2008, the Plan generally provides an annual benefit payable at age 65 equal to the greater of a final average pay formula multiplied by years of service earned after December 31, 2007 or a flat dollar amount multiplied by years of service. Pension Benefits also provide for regular and special supplemental payments to eligible participants. Participant eligibility for these supplemental payments is dependent upon their associate classification and benefit commencement date as defined by the Plan and amended from time to time.

Pension qualification service shall be credited to a participant who continues as an employee while receiving worker compensation pay until the earlier of the date benefits commence, or 18 months following the commencement of worker compensation pay.

Beginning September 1, 2012, compensation or service earned by exempt associates will not be taken into account for purposes of determining pension benefits.

Beginning January 1, 2014, IUE Union associates who are hired before January 1, 2013 and are at least 50 years of age and have 10 years of Pension Qualified Service (PQS) may make a one-time irrevocable election (Choice Election) to continue earning benefit accruals under the Plan and remain eligible for supplements under the Plan (Grandfathered IUE Associates), or they may elect to participate in enhanced defined contributions plan benefits under the Momentive Performance Materials Savings Plan (MPM Savings Plan). Beginning January 1, 2014, IUE Union associates hired before January 1, 2013 who are under 50 years of age with less than 10 years of service and all other IUE Union associates who did not make the Choice Election (Non-Grandfathered IUE Associates), any compensation and service earned will not be taken into account for purposes of determining pension benefits.

Beginning January 1, 2015, compensation or service earned by Sistersville Union associates who are under 50 years of age as of December 31, 2014, or who have less than ten years of PQS as of December 31, 2014, ("Non-Grandfathered Sistersville associates"), will not be taken into account for purposes of determining pension benefits.

Effective January 1, 2015, the Company amended the Plan to freeze accruals under the Plan as of December 31, 2015 for NUNE employees, except for eligible NUNE employees who make a Choice Election to either continue accruing benefits under the Plan and remain eligible for supplements under the Plan or to participate in the enhanced defined contribution plan benefits under the MPM Savings Plan in lieu of earning any additional benefit accruals and being eligible for supplements under the Plan after December 31, 2015. Each NUNE Employee who is at least 50 years of age and has at least 10 years of PQS ("Grandfathered NUNE employee") as of December 31, 2015 may make a Choice Election.

December 31, 2019 and 2018

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

Effective December 31, 2015, a Grandfathered NUNE Employee who terminates employment with the Company on or after January 1, 2016, and is rehired by the Company is eligible to recommence active participation in the Plan solely for purposes of earning PQS. Compensation will not be taken into account for purposes of determining final average pay. A Grandfathered NUNE Employee that is placed on temporary lay-off and is reemployed immediately following the temporary lay-off will recommence active participation in the Plan for all purposes.

Grandfathered NUNE Employees will be eligible for the Special Early Retirement Option and Plant Closing Pension Option commencing January 1, 2016 and after; there will be no expiration, except that early retirement supplements are only available until the Supplement Expiration Date, as defined in the Plan document.

Plan Expenses: The Company provides certain administrative services without charge to the Plan. In accordance with the Plan document, all other administrative expenses of the Plan are paid from the Plan assets.

Investment management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses of these funds are reflected as a reduction of investment return for such investments.

Funding Policy: The Company will make contributions to the Plan as permitted or required by government laws and regulations. Participant contributions are not permitted under the Plan. The Company's contributions to the Plan for the year ended December 31, 2019 satisfied the minimum funding requirements prescribed by the ERISA.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results could differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term for the estimate of the actuarial present value of accumulated plan benefits.

Risk and Uncertainties: The Plan's investments are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in these financial statements.

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Contributions to the Plan are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, employee demographics and compensation. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term, and due to uncertainties inherent in setting assumptions, that the effect of such changes could be material to the actuarial present value of accumulated plan benefits or the statements of net assets available for benefits and statement of changes in net assets available for benefits.

Payment of Benefits: Benefit payments to participants are recorded when paid.

Investment Valuation and Income Recognition: Plan investments are stated at fair value. Investment purchases and sales transactions are recognized on a trade-date basis. Dividends are recorded on the ex-dividend date and interest income is recognized on the accrual basis. The net appreciation (depreciation) in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan:

Mutual Funds: The fair values of mutual fund investments are valued based on underlying net asset value multiplied by the number of shares held (Level 2 inputs).

Collective Trusts: The fair values of participation units held in collective trusts are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices. Each collective trust held by the Plan provides for daily redemptions at reported net asset values per share, with no advance notice requirement. No unfunded commitments exist for any of the collective trust funds.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

	<u>Total</u>	Fair Value Measurements at December 31, 2019 Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	\$ 150,236,184	\$ -	\$ 150,236,184	\$ -
Collective trust funds*	<u>22,125,685</u>	<u>-</u>	<u>-</u>	<u>-</u>
Total	<u>\$ 172,361,869</u>	<u>\$ -</u>	<u>\$ 150,236,184</u>	<u>\$ -</u>

	<u>Total</u>	Fair Value Measurements at December 31, 2018 Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	\$ 124,937,915	\$ -	\$ 124,937,915	\$ -
Collective trust funds*	<u>21,993,659</u>	<u>-</u>	<u>-</u>	<u>-</u>
Total	<u>\$ 146,931,574</u>	<u>\$ -</u>	<u>\$ 124,937,915</u>	<u>\$ -</u>

* Investments measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the hierarchy tables for such investments are intended to permit the reconciliation of the fair value hierarchy to the investments at fair value line item presented in the statement of net assets available for benefits.

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future benefit payments that are attributable under the Plan's provisions to the services employees have rendered through the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on the current benefit levels and actual service. Benefits are payable under all circumstances (retirement, death and termination of employment) included to the extent that they are deemed attributable to employee services rendered up to the valuation date.

(Continued)

MOMENTIVE PERFORMANCE MATERIALS INC. PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2019 and 2018

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

The actuarial present value of the accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by decrements such as for death, full and permanent disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions underlying the actuarial valuations as of December 31, 2019 and 2018 are as follows:

Mortality:	For 2019, Pri-2012 mortality table for annuitants and non-annuitants with the MP-2019 mortality improvement scale; For 2018, RP-2014 mortality table for annuitants and non-annuitants with the MP-2018 mortality improvement scale;
------------	--

Annual retirement rate:	<u>Age nearest birthday</u>	<u>2019</u>	<u>2018</u>
	60	20%	20%
	61	15%	15%
	62	25%	25%
	63-69	20%	20%
	70	100%	100%

Long-term rate of return:	7.50% at December 31, 2019 and 2018
---------------------------	-------------------------------------

The change in the actuarial present value of accumulated plan benefits for plan actuarial assumptions during 2019 was due to a change in mortality table from RP-2014 to Pri-2012 and mortality improvement scale from using generational scale MP-2018 to generational scale MP-2019. In addition, the lump sum conversion rate for certain death benefits was decreased from 4.39% to 3.44%.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE 4 - INVESTMENTS – UNAUDITED INFORMATION

The Bank of New York Mellon/BNY Mellon, N.A., the trustee of the Plan, holds the Plan's investment assets and executes investment transactions therein. Except for the fair value of the Plan's investments in SEI Energy Debt CIT, SEI Structured Credit Collective Fund, and the SEI Special Situations CIT of \$19,586,881 and \$20,494,321 as of December 31, 2019 and 2018, respectively, and the related net appreciation of \$ 686,880 for the year ended December 31, 2019, substantially all information pertaining to the Plan's investments included in the financial statement has been certified by them. This information has not been audited by independent accountants.

(Continued)

NOTE 5 - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event the Plan terminates, the net assets of the Plan will be allocated among the participants and beneficiaries of the Plan in the order provided by ERISA.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for those benefits and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 6 - PARTIES-IN-INTEREST

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain Plan investments were managed by Bank of New York Mellon/BNY Mellon, N.A., the trustee of the Plan, therefore, these transactions qualify as party-in-interest investments. Certain Plan investments were issued by SEI Institutional Investments Trust, an affiliate of an investment manager for the Plan, therefore, these transactions qualify as party-in-interest investments. Fees paid by the Plan to parties-in-interest for investment management, actuarial, audit, and consulting services totaled \$1,133,908 for the year ended December 31, 2019. Various administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

NOTE 7 - TAX STATUS OF PLAN

The Internal Revenue Service has determined and informed the Company by a letter dated December 9, 2013, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019 and 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the Department of Labor or Internal Revenue Service, however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2016.

NOTE 8 - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through October 14, 2020, which is the date the financial statements were available to be issued.

In December 2019, a novel strain of coronavirus surfaced in Wuhan, China, and has spread around the world, with resulting business and social disruption. The coronavirus was declared a Public Health Emergency of International Concern by the World Health Organization on January 30, 2020. The operations and business results of the company could be materially adversely affected. The extent to which the coronavirus may impact business activity of the Company or investment results of the Plan will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of the coronavirus and the actions required to contain the coronavirus or treat its impact, among others.

Effective January 1, 2020 Momentive Performance Materials Quartz, Inc. spun-off from Momentive Performance Materials Inc into Momentive Quartz Technologies, as a separate Employer. As a result, the Plan has converted from a single employer plan to a multiple-employer plan.

Plan

MPM Pension Plan

Effective Date and Most Recent Amendment

The plan was originally effective January 29, 2007 and was restated effective January 1, 2018. The last amendment reflected herein is Amendment 1, signed July 16, 2018.

Coverage and Participation

All transition employees from GE as of January 29, 2007 begin participation in the plan on January 29, 2007. Transition employees are individuals who participated in the GE Pension Plan as a GE employee on January 28, 2007 and became an employee of MPM on January 29, 2007. Participation for Salaried Exempt associates was frozen effective January 1, 2012. Participation for IUE Non-Grandfathered associates was frozen effective January 1, 2013. Participation for all other associates was frozen effective January 1, 2014.

If an associate is not a transition employee from GE, participation begins on the January 1 following date of hire by MPM.

Retirement Eligibility Dates

Normal First day of month following age 65.

Early First day of month following age 60.

The plan allows retirement prior to age 60 under limited conditions, as outlined below. Eligibility for these special features is subject to numerous special conditions; some of the key conditions are summarized below.

Special Early Retirement Option (SERO): Legacy Participants terminating on or before July 1, 2013, whose termination is due to an eligible permanent job loss event, may be eligible for early retirement if they are at least age 55 and less than age 60 with at least 25 years of Pension Qualification Service (PQS) on the date of the permanent job loss event.

Plant Closing Pension Option (PCPO): Legacy Participants terminating on or before July 1, 2013, whose termination is connected with an eligible plant closing, may be eligible for early retirement if they are at least age 55 and less than age 60 with at least 25 years of Pension Qualification Service (PQS) at the end of the calendar year of the plant closing.

SERO and PCPO benefits are extended indefinitely for Grandfathered IUE associates, Grandfathered Sistersville Union associates and Grandfathered NUNE associates. For Non-Grandfathered Sistersville Union associates the benefits were extended through July 31, 2014.

Deferred

Any time after normal retirement date; payments begin no later than the March 1 following the year the participant attains age 70½.

Disability

Fifteen or more years of PQS and permanently disabled while an active associate participating in the MPM Pension Plan. For New Plan Participants, no disability pension is available for retirements that occur on or after age 60. Permanently disabled means permanently impaired and unable to perform present job or any other available MPM job for which the associate is reasonably suited by education, training or experience, as determined by the benefits administrator. For eligible recipients, payments generally begin six months after permanent disablement and are discontinued if associate regains work capacity.

If exempt salaried and hired prior to January 1, 2011, unreduced pension payable as early as age 60 for benefits earned under NRB (A) and reduced pension payable as early as age 60 for benefits earned under NRB (B), with a reduction equal to 5/12% for each month the participant's early retirement date precedes his normal retirement date. This reduction will not be imposed, however, if the participant terminates from service on or after (a) attainment of at least age 62 and (b) completion of at least 25 years of PQS.

If hired on or after January 1, 2011, benefits are reduced 5/12% for each month the participant's early retirement date precedes his normal retirement date. This reduction will not be imposed, however, if the participant terminates from service on or after (a) attainment of at least age 62 and (b) completion of at least 25 years of PQS.

For transition employees from GE who retire prior to age 60, the pension payable prior to application of any early retirement reduction noted above is equal to an increasing pension as determined in NRB above, for which NRB (A)(ii) is set to zero, payable until age 60 and as determined in NRB above, with no adjustment to NRB (A)(ii), payable beginning at age 60. The associate may also elect to receive a level pension determined as actuarially equivalent to the aforementioned increasing pension. For this purpose, actuarial equivalence is based on 6.00% interest and the mortality table pursuant to Revenue Ruling 2001-62.

For associates with at least 5 years of PQS, a supplement of \$18.00 per month per year of PBS earned after January 28, 2007 is payable up to the age at which the participant is eligible for 80% of his Social Security benefits. This extension of supplements beyond age 62 applies for eligible retirements indefinitely for IUE Grandfathered, Sistersville Union Grandfathered and NUNE Grandfathered associates, on or before January 1, 2015 for Sistersville Union Non-Grandfathered associates and on or before January 1, 2016 for all other associates still accruing benefits as of January 1, 2014. For eligible retirements at later dates, this supplement is payable until age 62. This supplement is also payable to those who retire under SERO or PCPO; those who retire under the long-service security provisions may not receive this supplement before age 60. Salaried Exempt associates who retire after December 31, 2012, IUE Non-Grandfathered associates who retire after December 31, 2013, Sistersville Union Non-Grandfathered associates who retired after December 31, 2014 and NUNE Non-Grandfathered associates who retired after December 31, 2015 are no longer eligible for this supplement.

After Retirement

- Single associates Basic form of benefit is payable for life with a five-year minimum.

- Married associates Unless waived by the associates with spousal consent, the benefit is payable as a 50% spouse option which provides a reduced amount to the associate of 93.5% of the benefit otherwise payable but with 50% of the reduced amount continued to the surviving spouse for life after the associate's death. The 93.5% factor is reduced (increased) by 0.5% for each full year in excess of two years by which the spouse is younger (older) than the associate and increased by 0.2% for each full year the associate's age at benefit commencement is less than age 60; the factor applied will not be less than 90% or more than 100%.

If the spouse predeceases the participant within the first five years after retirement, a fraction of the pension reduction for the spouse option is discontinued. The fraction discontinued depends upon the anniversary of effective date of survivorship option; 100% of reduction is discontinued if spouse dies within one year of effective date, reducing by 20% each year thereafter.

The minimum total payment is five times the associate's pension under the five-year certain form of payment in i. below.

Alternatively, with spouse consent, the associate may elect one of the following forms:

 - i. Five-year certain and life annuity; or
 - ii. 75% spouse option (available beginning January 1, 2008), which provides a reduced amount to the associate of 90% of the benefit otherwise payable but with 75% of the reduced amount continued to the surviving spouse for life after the associate's death. The 90% factor is reduced (increased) by 0.5% for each full year by which the spouse is younger (older) than the associate in excess of one year and reduced (increased) by 0.3% for each full year the associate's age at benefit commencement is greater (less) than age 60. The factor applied will not be more than 98.5% but will not be less than the factor that pertains under the 100% spouse option. If the spouse predeceases the participant within the first five years after retirement, a pop-up provision similar to that outlined above applies; or

For associates who are not disabled at retirement, 100% spouse option, which provides a reduced amount to the associate of 87% of the benefit otherwise payable but with 100% of the reduced amount continued to the surviving spouse for life after the associate's death. The 87% factor is reduced (increased) by 0.5% for each full year by which the spouse is younger (older) than the associate and reduced (increased) by 0.5% for each full year the associate's age at benefit commencement is greater (less) than age 60. The factor applied will not be more than 98% but will not be less than the factor that would have applied to the 100% portion of the plan's former 50% / 100% spouse option. Retirement Eligibility Dates

Normal First day of month following age 65.

Early First day of month following age 60.

The plan allows retirement prior to age 60 under limited conditions, as outlined below. Eligibility for these special features is subject to numerous special conditions; some of the key conditions are summarized below.

Special Early Retirement Option (SERO): Legacy Participants terminating on or before July 1, 2013, whose termination is due to an eligible permanent job loss event, may be eligible for early retirement if they are at least age 55 and less than age 60 with at least 25 years of Pension Qualification Service (PQS) on the date of the permanent job loss event.

Termination Benefits

Annual benefit determined as in NRB payable at retirement at or after age 60 if associate has at least five years of PQS at termination. After Retirement

- Single associates Basic form of benefit is payable for life with a five-year minimum.

- Married associates Unless waived by the associates with spousal consent, the benefit is payable as a 50% spouse option which provides a reduced amount to the associate of 93.5% of the benefit otherwise payable but with 50% of the reduced amount continued to the surviving spouse for life after the associate's death. The 93.5% factor is reduced (increased) by 0.5% for each full year in excess of two years by which the spouse is younger (older) than the associate and increased by 0.2% for each full year the associate's age at benefit commencement is less than age 60; the factor applied will not be less than 90% or more than 100%.

If the spouse predeceases the participant within the first five years after retirement, a fraction of the pension reduction for the spouse option is discontinued. The fraction discontinued depends upon the anniversary of effective date of survivorship option; 100% of reduction is discontinued if spouse dies within one year of effective date, reducing by 20% each year thereafter.

The minimum total payment is five times the associate's pension under the five-year certain form of payment in i. below.

Alternatively, with spouse consent, the associate may elect one of the following forms:
 - i. Five-year certain and life annuity; or
 - ii. 75% spouse option (available beginning January 1, 2008), which provides a reduced amount to the associate of 90% of the benefit otherwise payable but with 75% of the reduced amount continued to the surviving spouse for life after the associate's death. The 90% factor is reduced (increased) by 0.5% for each full year by which the spouse is younger (older) than the associate in excess of one year and reduced (increased) by 0.3% for each full year the associate's age at benefit commencement is greater (less) than age 60. The factor applied will not be more than 98.5% but will not be less than the factor that pertains under the 100% spouse option. If the spouse predeceases the participant within the first five years after retirement, a pop-up provision similar to that outlined above applies; or

- Married associates
 - iii. For associates who are not disabled at retirement, 100% spouse option, which provides a reduced amount to the associate of 87% of the benefit otherwise payable but with 100% of the reduced amount continued to the surviving spouse for life after the associate's death. The 87% factor is reduced (increased) by 0.5% for each full year by which the spouse is younger (older) than the associate and reduced (increased) by 0.5% for each full year the associate's age at benefit commencement is greater (less) than age 60. The factor applied will not be more than 98% but will not be less than the factor that would have applied to the 100% portion of the plan's former 50% / 100% spouse option. If the spouse predeceases the participant within the first five years after retirement, a pop-up provision similar to that outlined above applies.
