INDEPENDENT AUDITORS' REPORT

To the Participants and the Employee's Benefit Committee
Hawaiian Telcom Management Pension Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Hawaiian Telcom Management Pension Plan (the Plan), which comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 31, 2019, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the 2019 Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Northern Trust Company and Vanguard Fiduciary Trust Company, the trustees of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that Vanguard Fiduciary Trust Company held the Plan's investment assets and executed investment transactions from July 1, 2019 to December 31, 2019, and that Northern Trust Company held the Plan's investment assets and executed investment transactions for the period January 1, 2018 to June 30, 2019. The plan administrator has obtained a certification from the trustees as of and for the year ended December 31, 2019 that the information provided to the plan administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion on the 2019 financial statements. Accordingly, we do not express an opinion on the 2019 financial statements.

Other Matter – 2018 Financial Statements

The financial statements of the Plan as of December 31, 2018, were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the predecessor auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by the trustee of the Plan. Their report, dated October 9, 2019, indicated that (a) because of the significance of the information that they did not audit, they were unable to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Report on Form and Content in Compliance with DOL Rules and Regulations 2019

The form and content of the information included in the 2019 financial statements, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Hawaiian Telcom Management Pension Plan
Notes to Financial Statements
For the Years Ended December 31, 2019 and 2018

1. Description of Plan

The Hawaiian Telcom Management Pension Plan (the "Plan") is a noncontributory cash balance plan covering management employees of Hawaiian Telcom Communications, Inc. and subsidiaries (the "Company" or "Employer"). Participants with 10 years of net credited service as of January 1, 2002 are also eligible for a defined pension benefit. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

Effective April 1, 2007, the Plan was frozen whereby participants will continue to be eligible for benefits earned through that date but will not earn additional benefits.

Cash Balance – Regular Benefit

Under the cash balance formula, each participant has a hypothetical cash balance account in the Plan. Pay credits and interest credits were added to the cash balance formula on a monthly basis as long as a participant was an eligible employee. Interest credits continue to be credited every month until the benefit is paid to the participant.

Pay credits were a dollar amount determined as a percentage of eligible earnings based on total points. Points used for determining pay credits were the total of the employee's age and net credited service. The pay credits were determined each January 1 and remained the same for the entire year. The pay credit percentages were: fewer than 35 points (4%), 35 to 49 points (5%), 50 to 64 points (6%) and 65 or more points (7%).

Interest credits are added to the cash balance plan account on a monthly basis. The annual interest credit rate is the average annual yield of U.S. Treasury Securities with a constant maturity of one year, plus 1%.

Effective April 1, 2007, all participants are fully vested in the cash balance benefit. Participants are eligible to receive benefits upon leaving the Company. Benefits are generally payable immediately as a lump sum, immediately as a monthly annuity, or at a later date up to the participant's normal retirement age of 65.

Cash Balance – Death Benefit

If a participant dies before the commencement of benefits, the beneficiary will receive a death benefit in an amount equal to the cash balance.

Cash Balance – Disability Benefit

If a participant is disabled by an accident while working for the Company, they may be eligible to receive a benefit equal to 66-2/3% of the average final salary less any amount paid by workers' compensation.

Pension – Regular Benefit

Participating employees that had at least 10 years of credited service with Verizon Communications, Inc. ("Verizon"), the Company's predecessor owner, as of January 1, 2002 are eligible for the higher of the benefit under the cash balance formula and the pension benefit using the highest average pay formula. The highest average pay formula provides for the participant to receive the greater of the following as limited by the Plan freeze effective April 1, 2007.

- The benefit determined as: (1) 1.65% of average final pay, as defined, to December 31, 2007 multiplied by total service with the Company and Verizon to December 31, 2007 less the accrued normal retirement benefit from Verizon as of May 1, 2005, plus (2) 1.65% of average final pay at termination/retirement multiplied by the years of services with the Company beginning on January 1, 2008.

**Hawaiian Telcom Management Pension Plan
Notes to Financial Statements
For the Years Ended December 31, 2019 and 2018**

- The benefit determined as 1.65% average final pay at termination/retirement multiplied by service with the Company beginning May 2, 2005.

Participants are eligible to receive benefits upon leaving the Company. Benefits are generally payable immediately as a lump sum, immediately as a monthly annuity, or at a later date up to the participant's normal retirement age of 65. The single life annuity may be reduced if the benefit begins prior to the participant reaching age 60.

Pension -- Death Benefit

If a participant dies before the commencement of benefits, the beneficiary will receive a death benefit. The death benefit is the greater of: (1) the cash balance or (2) the value of the 50% survivor benefit determined based on the highest average pay formula benefit.

Pension -- Disability Benefit

If a participant is disabled by an accident while working for the Company, they may be eligible to receive a benefit equal to 66-2/3% of the average final salary less any amount paid by workers' compensation.

Administrative Expenses

Administrative expenses of the Plan are paid by the Plan as provided in the Plan document.

2. Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan utilizes various investment securities including equity funds, fixed income funds and short term investments. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits reported are based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Hawaiian Telcom Management Pension Plan
Notes to Financial Statements
For the Years Ended December 31, 2019 and 2018

Master Trust Arrangement

The assets of the Plan have been commingled with the assets of the Hawaiian Telcom Hourly Employees Pension Plan (collectively referred to as the "Plans") in the Hawaiian Telcom Master Retirement Trust (the "Master Trust") for investment and administrative purposes. The Plans do not own specific Master Trust assets but rather maintain an undivided beneficial interest in such assets. Each plan's interest in the Master Trust is credited or charged for contributions, transfers and distributions. Although assets of both plans are commingled in the Master Trust, the Trustee maintains supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans. Investment income is allocated to the Plans based on each plan's beneficial interest in the net assets of the Master Trust.

Master Trust Investment Valuation and Income Recognition

The Plan's investment in the Master Trust is presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust. The underlying investments include equity funds, fixed income funds and short term investments which are generally valued based on quoted market prices. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Accumulated Plan Benefits

Accumulated plan benefits are those future benefit payments attributable under the Plan's provisions for service that employees have rendered as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died and (3) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits has been determined by an independent actuary and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the benefit information date and the expected payment dates. The effect of Plan amendments on accumulated plan benefits is recognized during the year in which such amendments become effective.

The significant actuarial assumptions used in determining accumulated plan benefits as of December 31, 2019 and 2018 are as follows:

Investment return: 6.00% and 6.50% at December 31, 2019 and 2018, respectively.

Mortality: Pri-2012 Total Employee and Retiree Mortality Tables (base year 2012) and projected with Mortality Improvement Scale MP-2019, except for beneficiaries of deceased participants, at December 31, 2019. RP-2014 with MP-2014 generational projection backed out to 2006 and MP-2018 projection applied from 2006 at December 31, 2018.

Retirement: The rates at which participants retire range by age and years of service from a probability at age 30 at 0.0160 to age 70 at 1.0000.

The actuarial assumption as to the percentage of retirees selecting lump-sum benefits at retirement is 95%.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

For the Years Ended December 31, 2019 and 2018

Subsequent Events

Subsequent to the date of the financial statements, an outbreak of a novel strain of coronavirus ("COVID-19") has disrupted supply chains and affected production and sales across a range of industries. The extent of the impact of COVID-19 on the Company's performance and the Plan's investments will depend on certain developments, including the duration and spread of the outbreak. Impact to the Plan cannot be predicted, and the extent to which COVID-19 may impact the statement of net assets available for benefits is uncertain at this time.

The Plan evaluated and gave recognition, if appropriate, to subsequent events which occurred after the financial statement date of December 31, 2019 through October 14, 2020, the date on which the financial statements were available to be issued.

3. Funding Policy

The Company's funding policy is to contribute funds to the trust for the Plan as necessary to provide for current service and for any unfunded projected benefit obligation over a reasonable period of time. To the extent that these requirements are covered by assets in the trust, the Company may elect not to make any contribution in a particular year. Company contributions to the Plan amounted to \$494,238 and \$417,373 for the years ended December 31, 2019 and 2018, respectively. The Plan met the minimum funding requirements of ERISA as of December 31, 2019 and 2018.

4. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions set forth in ERISA.

Benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC"). In the event that the Plan terminates, the net assets of the Plan shall be allocated among the participants and beneficiaries in accordance with the priorities mandated by ERISA. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

Fair Value Measurements

In accordance with accounting standards for fair value measurements, the Plan classifies its investments into Level 1, which refers to securities valued using quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. There were no Level 3 investments as of December 31, 2019 and 2018. The following table sets forth by level within the fair value hierarchy a summary of the Master Trust's investments measured at fair value on a recurring basis.

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Total

6. Information Certified by the Plan's Trustees (Unaudited)

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting under ERISA. Vanguard Fiduciary Trust Company held the Plan's investment assets and executed investment transactions from July 1, 2019 to December 31, 2019, and Northern Trust Company held the Plan's investment assets and executed investment transactions as of June 30, 2019, and for the period January 1, 2018 to June 30, 2019 except for certain cash distribution activity which continued through December 31, 2019. Accordingly, Vanguard Fiduciary Trust Company and Northern Trust Company, the trustees of the Plan, have certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2019 and 2018 and related investment activity reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2019 and 2018.

For the Years Ended December 31, 2019 and 2018

7. Federal Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated October 26, 2017 stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Management is required to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Related-Party Transactions

Vanguard Fiduciary Trust Company and Northern Trust Company ("Trustee") are the trustees for the Plan. Fees paid to Vanguard Fiduciary Trust Company by the Master Trust and allocated to the Plan for services amounted to \$1,824 for the year ended December 31, 2019. There were no fees paid to Vanguard Fiduciary Trust Company by the Master Trust for the year ended December 31, 2018. Fees paid to Northern Trust Company by the Master Trust and allocated to the Plan for services amounted to \$3,617 and \$6,727 for the years ended December 31, 2019 and 2018, respectively.

Form of payment	Calculation of Lump Sum: 95% of participants are assumed to elect a lump sum form of payment under the plan when eligible. Lump sums were valued using the substitution of annuity form under IRS Regulation 1.430(d)-1(f)(4) without application of generational mortality. Annuities were calculated from the cash balance accounts using the required methodology in IRS Regulation 1.430(d)-1(f)(5).
Percent married	90% of males; 50% of females. Used to value pre-retirement surviving spouse benefits.
Spouse age	Wife three years younger than husband.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

Actuarial value of assets for determining minimum required contributions

Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2018 plan year.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with the plan sponsor and, based on that review, is not aware of any significant benefits required to be valued that were not.

The plan pays small benefits (with a present value up to \$1,000 in a single lump sum payment). Such lump sums are not explicitly valued; rather such participants' benefits are valued using the benefit choice assumptions described.

Sources of Data and Other Information

The plan sponsor through its third party administrator, Alight Solutions, furnished participant data as of January 1, 2019. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Cash Balance Interest crediting rate	<p>The interest crediting rate under the plan for a given month is the greater of (a) 1% plus the average annual yield on U.S. Treasury debt securities with a constant maturity of one year for the second month preceding the first day of the calendar quarter in which the given month occurs or (b) the “applicable interest rate” within the meaning of section 417(e)(3)(A)(ii)(II) of the Code for the second month preceding the first day of the calendar quarter in which the given month occurs.</p> <p>For 2019 we used the assumption of 3.60% based on the one-year yield on U.S. Treasury debt securities with a constant maturity of one year as of January 2, 2019.</p>
Lump sum conversion rate	As required by IRC §430, lump sum benefits are valued using “annuity substitution”, so that the interest rates assumed are effectively the same as described above for the discount rate.
Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).
Rates of increase in:	
■ Assumed return for asset smoothing	The assumed return of 6.11% used for asset smoothing is the third segment rate.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Assumed termination rates differ by age because of expected differences in termination rates by age.
Retirement	Retirement rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed.

Prescribed Methods

Funding methods	The methods used for funding purposes including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.
------------------------	--

Changes in Assumptions and Methods

Change in assumptions since prior valuation	<p>The segment interest rates used to calculate the funding target were updated to the current valuation date as required by IRC §430.</p> <p>The mortality table used to calculate the funding target was updated as required final regulations under IRC §430 issued in October 2017.</p> <p>The cash balance interest crediting rate assumption was changed from 2.83% to 3.60%.</p> <p>The assumed plan-related expense added to the target normal cost were changed from \$221,000 for the prior valuation to \$240,000 for the current valuation to account higher expected expenses to be paid from the trust.</p>

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Form of payment	Calculation of Lump Sum: 95% of participants are assumed to elect a lump sum form of payment under the plan when eligible. Lump sums were valued using the substitution of annuity form under IRS Regulation 1.430(d)-1(f)(4) without application of generational mortality. Annuities were calculated from the cash balance accounts using the required methodology in IRS Regulation 1.430(d)-1(f)(5).
Percent married	90% of males; 50% of females. Used to value pre-retirement surviving spouse benefits.
Spouse age	Wife three years younger than husband.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

Actuarial value of assets for determining minimum required contributions

Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2018 plan year.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with the plan sponsor and, based on that review, is not aware of any significant benefits required to be valued that were not.

The plan pays small benefits (with a present value up to \$1,000 in a single lump sum payment). Such lump sums are not explicitly valued; rather such participants' benefits are valued using the benefit choice assumptions described.

Sources of Data and Other Information

The plan sponsor through its third party administrator, Alight Solutions, furnished participant data as of January 1, 2019. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Cash Balance Interest crediting rate	<p>The interest crediting rate under the plan for a given month is the greater of (a) 1% plus the average annual yield on U.S. Treasury debt securities with a constant maturity of one year for the second month preceding the first day of the calendar quarter in which the given month occurs or (b) the “applicable interest rate” within the meaning of section 417(e)(3)(A)(ii)(II) of the Code for the second month preceding the first day of the calendar quarter in which the given month occurs.</p> <p>For 2019 we used the assumption of 3.60% based on the one-year yield on U.S. Treasury debt securities with a constant maturity of one year as of January 2, 2019.</p>
Lump sum conversion rate	As required by IRC §430, lump sum benefits are valued using “annuity substitution”, so that the interest rates assumed are effectively the same as described above for the discount rate.
Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).
Rates of increase in:	
■ Assumed return for asset smoothing	The assumed return of 6.11% used for asset smoothing is the third segment rate.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Assumed termination rates differ by age because of expected differences in termination rates by age.
Retirement	Retirement rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed.

Prescribed Methods

Funding methods	The methods used for funding purposes including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation	<p>The segment interest rates used to calculate the funding target were updated to the current valuation date as required by IRC §430.</p> <p>The mortality table used to calculate the funding target was updated as required final regulations under IRC §430 issued in October 2017.</p> <p>The cash balance interest crediting rate assumption was changed from 2.83% to 3.60%.</p> <p>The assumed plan-related expense added to the target normal cost were changed from \$221,000 for the prior valuation to \$240,000 for the current valuation to account higher expected expenses to be paid from the trust.</p>

Schedule SB, Line 24 Change in Actuarial Assumptions

Other than the prescribed changes in the discount rate and mortality, the following other changes in assumptions were made as part of this valuation.

- The assumed plan-related expense added to the target normal cost were changed from \$221,000 for the prior valuation to \$240,000 for the current valuation to account higher expected expenses to be paid from the trust.
- The cash balance interest crediting rate assumption was changed from 2.83% to 3.60%.

Change in Method

The decrement timing used in the valuation was changed from beginning of year to rounded middle of year. Under rounded middle of year decrement timing, all decrements are assumed to occur at the middle of the year and eligibility for benefits, commencement and cessation of benefits, and other events are assumed to occur at the middle of the year. This change in funding method was made in accordance with a class ruling issued to Willis Towers Watson on March 18, 2019, and the effects of the change fall within the parameters of the class ruling.

Schedule SB, Line 24 Change in Actuarial Assumptions

Other than the prescribed changes in the discount rate and mortality, the following other changes in assumptions were made as part of this valuation.

- The assumed plan-related expense added to the target normal cost were changed from \$221,000 for the prior valuation to \$240,000 for the current valuation to account higher expected expenses to be paid from the trust.
- The cash balance interest crediting rate assumption was changed from 2.83% to 3.60%.
