NOTES TO FINANCIAL STATEMENTS
December 31, 2019 and 2018

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Hamilton Beach Brands, Inc. Pension Plan (the “Plan”) provides only general information. Reference should be made to the Plan document for a more complete description of the Plan’s provisions.

General: The Plan is sponsored by Hamilton Beach Brands, Inc. (the “Company”) and is a defined benefit pension plan subject to provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”) (as amended).

The Company established the Plan effective January 1, 2013. The Plan was formed by a spin-off of the net assets and obligations of The Combined Defined Benefit Plan for NACCO Industries, Inc. and Its Subsidiaries (the “Combined Plan”) which were attributable to participants and beneficiaries of the Company who were covered under Part II of the Combined Plan.

The Plan is frozen for purposes of eligibility and benefit accruals, except for interest credits on theoretical cash balances.

Plan Administration: The Company is the Plan sponsor and Plan administrator. Vanguard Fiduciary Trust Company (“Trustee”) is the trustee of the Plan. Investment decisions are made by the Hamilton Beach Brands Holding Company Retirement Funds Investment Committee.

Vesting: All Plan participants are 100% vested in their benefits under the Plan.

Contributions: The Company intends to contribute, at a minimum, amounts necessary to provide the Plan with sufficient assets to meet or exceed the minimum funding requirement under ERISA. No Company contributions were required for the plan years ended December 31, 2019 and 2018 to meet the ERISA minimum funding requirements.

Benefits: Plan benefits are equal to the sum of prior plan benefits plus cash balance pension benefits. Under the cash balance formula, a separate account was established for each participant in the Plan. The interest credited to the cash balance accounts is indexed to the one-year constant maturity yield published by the Federal Reserve as in effect on the last business day of the preceding plan year, subject to a 12% maximum. Various minimum benefits and prior plan benefits also apply. The Plan permits early retirement with reduced benefits at age 55 with 5 or more years of service.

Various pre-retirement and post-retirement death benefits are payable under the Plan. In the event of a participant’s death prior to distribution of such benefits, such benefits are distributed, as provided by the Plan, to the participant’s beneficiary. In general, benefits are distributed in the form of monthly or lump sum payments.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Expenses: Certain expenses of administering the Plan, principally actuarial fees, accounting fees and some investment management fees, are paid by the Plan. These costs are reflected on the accompanying financial statements. Other administrative expenses, such as legal fees and miscellaneous costs, are paid by the Company and are not reflected in the accompanying financial statements. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. Therefore, it is reasonably possible that a significant change may occur in the near term for the estimate of the actuarial present value of accumulated plan benefits.

Benefit Payments: Benefits are recorded when paid.

Risk and Uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair value is defined as the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following presents the valuation methods and assumptions used by the Plan to estimate the fair values of investments.

Mutual Funds: The fair values of mutual funds are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. Investments measured at fair value on a reoccurring basis as of December 31, 2019 and 2018 are summarized below.

	Fair Value Measurements at December 31, 2019 Using Quoted Prices in Active Markets for Identical Assets (Level 1)	Fair Value Measurements at December 31, 2018 Using Quoted Prices in Active Markets for Identical Assets (Level 1)
Investments		
Mutual funds	\$ 28,755,073	\$ 25,531,335

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died, and present eligible employees or their beneficiaries. Benefits under the Plan are based on the accumulation of the cash balance account as well as frozen prior plan benefits. Benefits payable under all circumstances (retirement, death, full and permanent disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated Plan benefits is determined by actuaries from Willis Towers Watson, the Plan's actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, full and permanent disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

The more significant actuarial assumptions used by the Plan's actuaries to arrive at the valuation of the Plan's accumulated plan benefit obligation as of December 31, 2018 are as follows:

Assumed rate of return	7.50%
Mortality basis	RP-2014/MP-2018
Retirement age	Rates vary by age, ranging from 3% (age 55) to 100% (age 70+)
Cash balance crediting rate	3.50%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The \$36,388 decrease in the present value of accumulated plan benefits in 2018 that is due to the change in actuarial assumptions was attributed to the change of the mortality improvement scale to MP-2018 and the increase in the cash balance interest crediting rate to 3.50%.

NOTE 4 - UNAUDITED INFORMATION – CERTIFIED INVESTMENTS

Substantially all information pertaining to the Plan's investments included in the financial statements, including the associated investment income (loss), was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Vanguard Fiduciary Trust Company, the Trustee of the Plan. This information has not been audited by independent accountants.

NOTE 5 - INCOME TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated May 13, 2014, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and, therefore, the related trust is exempt from taxation. Subsequent to the receipt of the determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes the Plan is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believes that the Plan as amended is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019 and 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2016.

NOTE 6 - PLAN TERMINATION

The Company has the right to terminate the Plan at any time within the constraints of ERISA and its related regulations. In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed in the Plan document and by ERISA and its related regulations. Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. However, benefit improvements attributable to plan amendments may not be fully guaranteed by the PBGC. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. Certain investments held by the Plan are shares of mutual funds managed by Vanguard Group, Inc. Vanguard Fiduciary Trust Company is a wholly-owned subsidiary of the Vanguard Group, Inc. Vanguard Fiduciary Trust Company is the Trustee, as defined by the Plan, therefore, these investments and investment transactions qualify as party-in-interest transactions. Amounts paid by the Plan to parties-in-interest included fees for investment management, actuarial, audit and trustee services. However, these investments and transactions are not considered prohibited transactions.

NOTE 8 - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through October 7, 2020, which is the date the financial statements were available to be issued.

In December 2019, a novel strain of coronavirus surfaced in Wuhan, China, and has spread around the world, with resulting business and social disruption. The coronavirus was declared a Public Health Emergency of International Concern by the World Health Organization on January 30, 2020. The ultimate impact of the coronavirus on the Plan and the Company will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of the coronavirus and the actions required to contain the coronavirus or treat its impact, among others.

NOTE 9 – DECEMBER 31, 2019 ACTUARIAL VALUATION (UNAUDITED)

The December 31, 2019 actuarial valuation was completed prior to the release of the financial statements. A summary of the actuarial valuation information provided by the Plan's actuary, which has not been audited by independent accountants, is provided below for informational purposes.

The actuarial present value of accumulated plan benefits as of December 31, 2019 is as follows:

Actuarial present value of accumulated plan benefits

Vested benefits	
Participants currently receiving payments	\$ 11,446,079
Other participants	<u>3,370,980</u>
	14,817,059
 Nonvested benefits	 <u>2,962</u>
 Total actuarial present value of accumulated plan benefits	 <u>\$ 14,820,021</u>

The change in actuarial present value of accumulated plan benefits for the year ended December 31, 2019 consists of the following:

Actuarial present value of plan benefits at January 1, 2019	\$ 15,701,185
Actuarial (gains)/losses	(35,922)
Increase due to decrease in the discount period	1,113,148
Benefits paid	(1,750,074)
Assumption changes	<u>(208,316)</u>
	<u>(881,164)</u>
 Actuarial present value of plan benefits at end of the year	 <u>\$ 14,820,021</u>

The \$208,316 decrease in the present value of accumulated plan benefits in 2019 that is due to the change in actuarial assumptions was attributed to the change of the mortality base table to Pri-2012 and the mortality improvement scale to MP-2019.

Timing of benefit payments Lump sum payments are assumed to be payable on date of decrement and date of first eligibility for actives or age 65 for deferred vesteds.

Funding policy HBB's funding policy is to contribute an amount equal to the minimum required contribution. during plan year (based on actual expenses paid in previous year; \$200,509 for the 2019 plan year).

Actuarial value of assets

The actuarial value of assets is equal to the market value of assets as of the valuation date plus the discounted present value of contributions made after the valuation date for the prior plan year, discounted using the effective interest rate for the prior plan year.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued except for disability benefits which are determined to be immaterial. Willis Towers Watson has reviewed the plan provisions with HBB and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

Data sources

Willis Towers Watson used asset data supplied by the trustee. HBB furnished participant data as of the valuation date. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with HBB, assumptions or estimates were made when data were not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Administrative expenses

Administrative expenses are estimated as the actual expenses paid from the trust the preceding year.

Cash balance interest crediting rate

The plan credits interest to cash balance accounts using the sum of 1% plus one-year constant maturity yield published by the Federal Reserve as in effect on the last business day of the preceding plan year. HBB has selected an expected future one-year constant maturity yield of 2.50%. After examining historical variability in this rate, we believe that the selected assumption does not significantly conflict with what would be reasonable based on a combination of market conditions at the measurement date and future expectations consistent with other economic assumptions used, other than the discount rate.

IRC §417(e) form of payment conversion rate

As required by IRC §430, lump sum benefits are valued for funding purposes using “annuity substitution”, so that the interest rates assumed are effectively the same as described above for the discount rate.

Assumptions Rationale - Significant Demographic Assumptions

Healthy and Disabled Mortality

Assumptions used for funding purposes are as prescribed by IRC §430(h).

Retirement

Assumed retirement rates differ by age because of expected differences in retirement rates by age.

Forms of payment

The percentage of retiring participants assumed to take lump sums is based on recent observed experience and anticipated future experience.

Funding methods

The methods used for funding purposes as described herein, including the method of determining plan assets, are “prescribed methods set by law,” as defined in the actuarial standards of practice (ASOPs). Account balance

The account balance consists of automatic retirement contributions and profit sharing retirement contributions accumulated with interest until December 31, 1996, when the plan was frozen. The automatic retirement contribution percentage was age-based according to the following table:

Age	Percentage of Compensation	Percentage of Compensation Exceeding Social Security Wage Base
34 & under	2.00%	2.00%
35-39	2.33%	2.33%
40-44	2.83%	2.83%
45-49	3.50%	3.50%
50-54	4.33%	4.33%
55-59	5.33%	5.33%
60 & over	6.33%	5.70%

The profit sharing retirement contribution percentage is age-based and will vary from year to year.

Interest will be credited for each plan year up to the benefit commencement date. The interest credited will be based on the one year U.S. Treasury Bill "ask yield" rate as of the last business day of the prior plan year plus 1%, subject to a maximum of 12%.

Monthly pension benefit

The account balance converted to an annuity plus the frozen accrued benefit.

Monthly preretirement death benefit

The actuarial equivalence of the account balance at participant's death plus the frozen accrued benefit determined as if the participant quit work on the earlier of his or her date of death or date of determination and elected a 50% joint and survivor option.

Schedule SB, Line 24 Change in Actuarial Assumptions

Assumed plan-related expenses of \$200,509 were added to the target normal cost (as compared to \$187,909 for plan year 2018) to reflect actual administrative expenses paid from the trust in the prior year.
