Lone Star Paving 401(k) Plan

Notes to Financial Statements

As of December 31, 2019 and 2018
and for the year ended December 31, 2019

1. Description of the Plan

Lone Star Paving 401(k) Plan (the "Plan") is a defined contribution plan covering substantially all eligible employees of Asphalt, Inc. LLC d/b/a Lone Star Paving (the "Company" or "Plan Sponsor"). The Plan became effective January 1, 2016 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). All Plan assets are held by Voya Retirement Insurance and Annuity Company ("Voya"). Complete information regarding the Plan is included in the Plan Agreement. Significant Plan provisions are summarized below.

Eligibility

Employees of the Company are eligible to participate in the Plan upon the attainment of 18 years of age and completion of six months of service, as defined. Employees are eligible to participate in the Plan beginning the first of the month coinciding with or next following the date the eligibility requirement is met. All eligible employees who make elective deferrals to the Plan are eligible to receive employer matching contributions. Participants must complete 1,000 hours of service, as defined, in an applicable Plan year and be employed on the last day of the Plan year to be eligible to receive Company profit sharing contributions, unless a participant terminates employment with the Company due to death, disability or retirement, in which case these requirements are waived. Contract-based employees are not eligible to participate in the Plan.

Contributions

Participants are allowed to make elective pre-tax or Roth contributions to the Plan of not less than 1% nor more than 100% of their annual eligible Plan compensation, as defined, subject to limitation under the Internal Revenue Code (IRC). Participants may modify their deferral rates quarterly, and may stop an election to contribute at any time. Participants who have attained age 50 are eligible to make catch-up contributions. Participants may also contribute amounts representing rollovers from other qualified retirement plans or individual retirement accounts.

The Plan includes an automatic enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their pre-tax deferral rate set at 3% of annual eligible Plan compensation. This deferral rate is increased by 1% annually, up to a maximum of 6%, unless changed by the participant. The automatic deferral rate increase provisions described above also apply to eligible employees whose elective deferrals are less than the automatic enrollment deferral rates, unless changed by the participant. Automatically enrolled participants' contributions are invested in a target date fund, unless changed by the participant.

1. Description of the Plan (continued)

The Company makes safe harbor matching contributions each pay period to all participants in an amount equal to 100% of each participant's deferrals that are not in excess of 1% of their compensation and 50% of each participant's deferrals that exceed 1% of their compensation, but do not exceed 6% of their compensation. The Company may also make additional discretionary matching contributions of amounts determined and authorized by the Company. The Company may also make discretionary profit sharing contributions annually. No additional discretionary matching or profit sharing contributions were approved or made during the year ended December 31, 2019.

Participant Accounts

Participants direct the investment of their accounts among various investment options offered by the Plan. Participants may change their investment options daily.

Each participant's account is credited with (a) the participant's contributions, (b) an allocation of employer contributions, and (c) an allocation of investment earnings, and is charged with (a) withdrawals, (b) an allocation of investment losses, and (c) certain administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions, including rollover contributions, and Company safe harbor matching contributions, plus actual earnings thereon. Vesting in the Company's additional discretionary matching contributions and profit sharing contributions, plus actual earnings thereon, is based on years of credited service, as defined. A participant is 100% vested upon death, disability, or retirement. Company additional discretionary matching and profit sharing contributions are subject to the following vesting schedule:

Years of Service	Vested Benefits
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years or more	100%

1. Description of the Plan (continued)

Forfeitures

Non-vested balances of participants' accounts may be subject to forfeiture upon termination of their employment with the Company. A forfeiture occurs in the Plan year in which the participant either receives a distribution of their vested account or has five consecutive one-year breaks in service, as defined by the Plan. Forfeitures are retained in the Plan and used either to pay Plan administrative expenses or to reduce future employer contributions. There were no outstanding forfeitures as of December 31, 2019 and 2018, and there were no forfeitures used during the year ended December 31, 2019.

Payment of Benefits

Upon termination of service due to death, disability, normal retirement, or termination of employment, a participant is entitled to receive an amount equal to the vested interest in his or her account, payable in lump-sum form. In general, if a participant's vested account balance, as defined by the Plan, is greater than $5,000 and employment is terminated other than due to retirement or death, the account may not be distributed before normal retirement without the participant's consent. Participants' account balances that are less than $5,000 (the involuntary cash-out amount) will be paid as a direct rollover to an individual retirement account. However, regardless of participant election as to the payment, the Plan may, upon termination of service of a participant for any reason, pay the benefits owed in a lump sum if the account balance is less than the involuntary cash-out amount. Distributions are subject to the applicable provisions of the Plan Agreement.

In-service withdrawals of all or a portion of a participant's vested account balance may be withdrawn by a participant at any time.

Withdrawals from a participant's elective deferral or rollover account balance may also be made upon circumstances of financial hardship, in accordance with the provisions specified in the Plan. Hardship withdrawals are strictly regulated by the Internal Revenue Service (IRS) and a participant must exhaust all available distribution options prior to requesting a hardship withdrawal. Effective January 1, 2019, in accordance with the Bipartisan Budget Act of 2018 (BBA), the provisions specified in the Plan were modified to remove the six-month suspension on employee contributions after a hardship withdrawal.

Distributions from the Plan will normally be subject to income taxes and in certain circumstances may also be subject to IRS penalties, unless the distribution is transferred to another qualified plan or individual retirement account.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of the financial statements in conformity with U.S. GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for investments in various investment securities, which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the financial statements and supplemental schedule.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Administrative Committee determines the Plan's valuation policies using information provided by investment advisers, the custodian, and the insurance company. See Note 3 for discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

2. Significant Accounting Policies (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and expenses charged to the Plan for investments in mutual fund accounts are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2019 excess contributions to the applicable participants after March 15, 2020 and will pay the appropriate excise taxes.

Payment of Benefits

Benefits to participants are recorded by the Plan when actual payment is made.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Plan sponsor and are excluded from these financial statements. Fees related to the administration of benefit payment transactions are charged directly to the participant's account and are included in administrative expenses.

Subsequent Events

The Plan evaluated events occurring between the end of the most recent fiscal year and through the report date, October 13, 2020, the date the financial statements and supplemental schedule were available to be issued. See specific subsequent events disclosed in Note 8.

2. Significant Accounting Policies (continued)

Recent Accounting Pronouncements

In August 2018, the Financial Accounting Standard Board (FASB) issued Accounting Standards Update (ASU) No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement*, which eliminates, adds, and modifies certain disclosure requirements for fair value measurements as part of its disclosure framework project. The guidance is effective for all entities for fiscal years beginning after December 15, 2019. Early adoption is permitted. The Plan Administrator is currently evaluating the effect of these provisions on the Plan's financial position and results of operations.

3. Fair Value Measurements

The guidance for fair value measurement establishes the authoritative definition of fair value, sets out a framework for measuring fair value, and outlines the required disclosures regarding fair value measurements. Fair value is the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. The Plan uses a three-tier fair value hierarchy based upon observable and non-observable inputs as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: Unobservable inputs developed using the Plan's estimates and assumptions which reflect those that market participants would use.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

3. Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 or 2018.

- *Mutual funds*: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019 and 2018:

	December 31, 2019			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	**$ 6,715,052**	**$ –**	**$ –**	**$ 6,715,052**
Total	**$ 6,715,052**	**$ –**	**$ –**	**$ 6,715,052**

	December 31, 2018			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 4,393,523	$ –	$ –	$ 4,393,523
Total	$ 4,393,523	$ –	$ –	$ 4,393,523

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2019, there were no significant transfers in or out of Levels 1, 2 or 3.

4. Fully Benefit-Responsive Investment Contract

The Plan holds a portfolio of investment contracts which includes a guaranteed investment contract. This contract meets the fully benefit-responsive investment contract criteria and, therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants when they initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less withdrawals.

Guaranteed investment contracts are backed by the general account of the contract issuer. The Plan deposits a lump sum with the issuer and receives a guaranteed crediting rate for a specified period. Interest is accrued on either a simple or fully compounded basis and is paid either periodically or at the end of the contract term. The issuer guarantees that all qualified participant withdrawals will be at contract value (principal plus accrued interest). The contract cannot be terminated before the scheduled maturity date. The Plan's ability to receive amounts due is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

If the Plan defaults on its obligations under the contract (including the issuer's determination that the agreement constitutes a nonexempt prohibited transaction as defined under ERISA), and such default is not corrected within the time permitted by the contract, then the contract may be terminated by the issuer and the Plan will receive the fair value as of the date of the termination. The contract recognizes certain "events of default" that can invalidate the contract's coverage. Among these are investments outside the range of the instruments which are permitted under the investment guidelines contained in the investment contract, fraudulent or other material misrepresentations made to the issuer, changes of control of the investment adviser not approved by the contract issuer, changes in certain key regulatory requirements, or failure of the Plan to be tax qualified.

4. Fully Benefit-Responsive Investment Contract (continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan); (ii) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions; or (iii) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such event that would limit the Plan's ability to transact at contract value with participants is probable.

5. Information Certified by the Custodian

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Voya, the custodian of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, at fair value and contract value, as shown in the statements of net assets available for benefits as of December 31, 2019 and 2018.
- Total investment income as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2019.
- Schedule H, line 4i – schedule of assets (held at end of year) as of December 31, 2019.

6. Related-Party and Party-in-Interest Transactions

Plan assets include investment in funds managed by Voya. Voya serves as the Plan's custodian and as such, these transactions qualify as party-in-interest transactions under ERISA. Fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Plan Sponsor pays directly any other fees related to the Plan's operations.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the termination of the Plan, the individual accounts of all members shall become fully vested. After deducting all charges and expenses, the balances of all individual accounts will be adjusted and the remaining assets distributed.

8. Subsequent Events

On March 11, 2020, the World Health Organization declared a novel strain of coronavirus ("COVID-19") a "Public Health Emergency of International Concern" and characterized COVID-19 as a pandemic. This virus has resulted in worldwide government restrictions on the movement of people, goods, and services resulting in an economic downturn. As a result, the fair value of investments and the related net assets available for benefits have experienced increased levels of volatility. There is significant uncertainty around the duration and the overall impact on economic and market conditions. Due to this uncertainty, the impact of COVID-19 on the Plan's investment portfolio cannot reasonably be estimated; however, this disruption may have a significant impact on the Plan's financial position and results for 2020.

The Coronavirus Aid, Relief, and Economic Security Act ("CARES Act") became law on March 27, 2020. The CARES Act includes several relief provisions available to qualified retirement plans and their participants including, among other things, penalty free hardship withdrawal. As part of the CARES Act, a qualified participant may elect to take a penalty-free Coronavirus Related Distribution ("CRD") from 401(k) plans up to $100,000, not to exceed the participant's vested balance. CRD distributions are available from March 27, 2020 through December 31, 2020.

Optional features within the CARES Act have not been implemented to date. Written amendments to the Plan to enact optional provisions of the CARES Act will be adopted at a later date in accordance with applicable law and IRS guidance.

Effective April 27, 2020 the Plan was amended and restated to include the hardship distribution provisions in accordance with the BBA.

9. Income Tax Status

The Plan adopted a volume submitter plan document, which received an advisory letter from the IRS on September 30, 2014. The advisory letter states that the volume submitter plan document is designed in accordance with the applicable sections of the IRC. In accordance with Revenue Procedures 2020-4 and 2015-36, the Company has determined that it is eligible to and has chosen to rely on the current IRS advisory letter. The Plan has adopted other required and discretionary amendments. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes is included in the Plan's financial statements.

9. Income Tax Status (continued)

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2019 and 2018, and for the year ended December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the Plan's financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, the Plan is not currently under audit with respect to any tax periods in progress.
