RICHARDSON MANUFACTURING COMPANY 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1. DESCRIPTION OF THE PLAN

The following brief description of the Richardson Manufacturing Company 401k Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution retirement savings plan covering all eligible employees of Richardson Manufacturing Company (Employer). Employees are eligible to participate in the Plan on the first day of the month following one month of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Board of Directors of the Employer is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

On February 15, 2018, the Plan moved it assets from Reliance Trust Company to John Hancock Trust Company. The Plan also changed its recordkeeper from T. Rowe Price to John Hancock Trust Company.

Contributions

Each year, participants may authorize the Employer to contribute to the Plan, through a salary reduction election, a portion of their salary up to the maximum annual amount permitted under the Internal Revenue Code (IRC). Participants who attain age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also make rollover contributions from amounts representing distributions from other qualified plans.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan or elect to defer a different percentage. Automatically enrolled participants have their deferral rate set at 5% of eligible compensation and their contributions invested in a designated fund until changed by the participant. At the anniversary date of the participant's deferral default enrollment date, the deferral rate increases by 1% for participants utilizing the auto-enrollment feature up to a maximum deferral rate of 6%.

The Plan was restated on January 1, 2018. The restatement included electing to contribute a safe harbor matching contribution. The Employer matches 100% of participant's elective deferrals not exceeding 1% of the participant's compensation, plus 50%f of participant's elective deferrals in excess of 1% but not in excess of 6% of the participant's compensation The Employer may also make discretionary contributions to the Plan on behalf of each Participant at the option of the Employer's Board of Directors. During the year ended December 31, 2019, there were no discretionary contributions made to the Plan. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Employer's contribution and plan earnings (losses). Participant accounts are charged with an allocation of administrative expenses paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant Investment Options

Participants direct the investment of their contributions and the Employer's contributions to selected investment options as offered by the Plan. Participants may change their investment options at any time pursuant to procedures established in the Plan document.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Employer's discretionary matching contribution portion of their account is based on years of service. A participant becomes 20% vested after two year of service, increasing by 20% per additional year, with full vesting after six years of credited service. Vesting in the Employer's safe harbor matching contribution portion of their account is based on years of service. A participant is not vested in the safe harbor matching contribution until reaching two year of service at which time the participant becomes 100% vested.

Payment of Benefits

Upon the occurrence of a distributable event due to separation from service by termination, death, disability, or retirement, as defined by the Plan Agreement, a participant may elect to receive a lump-sum cash distribution equal to the value of the participant's vested interest in his or her account. Hardship and in-service withdrawals, as defined in the Plan Agreement, are also permitted from a participant's account.

Forfeited Accounts

At December 31, 2019 and 2018, forfeited nonvested accounts totaled $20,347 and $16,744 respectively. Forfeitures may be used to reduce the Employer's future contributions or pay administrative expenses. During the plan year ended December 31, 2019, $15,005 of forfeitures were utilized to reduce employer contributions.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes there in, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the trustee or custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Employer. Expenses that are paid by the Employer are excluded from these financial statements. Fees related to distribution processing are charged directly to the participant's account and are included in administrative expenses. Certain investment related expenses are included in the net depreciation of fair value of mutual funds and net appreciation of fair value of pooled separate account.

Income Tax Status

The Plan has elected to adopt the Benefit Planning Consultants Inc Volume Submitter Profit Sharing Plan with CODA. The prototype Plan has a favorable opinion letter in which the Internal Revenue Service stated the plan is acceptable for use by employers under Section 401 of the IRC. The Plan itself has not requested a determination letter. The Plan has been amended since the prototype plan received the opinion letter. However, the Plan administrator and the Plan's tax counsel believe the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken uncertain tax positions that more likely than not would not be sustained upon examination by applicable taxing authorities. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes that the plan is no longer subject to income tax examinations for years prior to December 31, 2016.

Subsequent Events

Subsequent events were evaluated through October 14, 2020, which is the date the financial statements were available to be issued.

NOTE 3. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE AND CUSTODIAN

The following information included in the accompanying financial statements and Schedule H, Line 4i, Schedule of Assets (Held at End of Year) was obtained from data that has been prepared and certified to as complete and accurate by John Hancock Trust Company LLC.

	2019	2018
Investments at fair value	$ 9,279,365	$ 6,719,995
Investment income	1,671,154	

NOTE 4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money Market Fund: Valued at $1 per share which approximates fair value.

Pooled separate account: Valued at the NAV of units as determined by the insurance company. NAV is a readily determinable fair value and is the basis for current transactions.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018.

Investments at Fair Value as of December 31, 2019

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 8,490,475	$ -	$ -	$ 8,490,475
Pool separate account measured at net asset value (a)				788,890
Investments at fair value				$ 9,279,365

Investments at Fair Value as of December 31, 2018

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 6,254,131	$ -	$ -	$ 6,254,131
Pool separate account measured at net asset value (a)				465,864
Investments at fair value				$ 6,719,995

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Fair Value of Investments in Entities that Use NAV

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2019 and 2018.

December 31, 2019	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled separate account	$ 788,890	n/a	Daily	none

December 31, 2018	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled separate account	$ 465,864	n/a	Daily	none

NOTE 5. PARTIES IN INTEREST

John Hancock Trust Company LLC (current recordkeeper and custodian), Phillips, Salmi + Associates, LLC (plan auditor), qualify as parties-in-interest. The following fees were paid directly to parties in interest during the year ended December 31, 2019:

John Hancock Trust Company LLC	$	33,816
Phillips, Salmi + Associates, LLC		5,300
	$	39,116

The Employer provides certain accounting and administrative services to the Plan for which it receives no compensation.

NOTE 6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

NOTE 7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.
