NOTE A – DESCRIPTION OF PLAN

The following brief description of The Homer Laughlin China Company (the "Company") and Glass, Molders, Pottery, Plastics, and Allied Workers International Union and Local Union No. 419 (the "Union") Individual Account Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution profit sharing pension plan covering all Company employees that are represented by the Union. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions
The Company contributes to the Plan such amounts that are specified by written agreements between the Company and the Union. The contributions to the Plan are based on a prescribed amount of cents multiplied by the hours worked by eligible employees, and are allocated to each participant's account based on the participant's actual hours worked. The contribution rate in effect was $ .70 per labor hour for the years ended December 31, 2019 and 2018, respectively.

Effective July 1, 2016, participants may elect to contribute, on a salary-deferral basis, amounts up to 100% of their pretax annual compensation but not to exceed certain limitations.

Employees of the Company that meet certain criteria are eligible to receive a death benefit of $1,000 upon retirement. An account is separately maintained within the investments of the Plan to fund the payments. There were no contributions to the fund during 2019 and 2018. The account had a balance of $20,655 and $23,454 at December 31, 2019 and 2018, respectively.

Eligibility
Any Company employee who is represented by the Union is eligible to participate in the Plan. An eligible employee shall cease to be an eligible employee if and when he/she ceases to be employed by the Company or represented by the Union. Eligible employees become a plan participant on their one year anniversary date.

Participant Accounts and Vesting
Each participant's account is credited with the participant's contributions, the Company's contribution, and an allocation of plan earning and losses and administrative expenses. Allocations of the Plan's earnings and losses are based on the proportion that each participant's account bears to the total of all participant accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants are immediately fully vested both in their voluntary and Company contributions plus actual earnings thereon.

Effective January 1, 2004, if a participant of the Plan is no longer represented by the Union but is still employed by the Company, the participant may transfer their account balance to another defined contribution pension plan maintained by the Company.

Similarly, if a non-union employee takes a union position with the Company, the participant may transfer their account balance from their existing defined contribution pension plan with the Company to the Plan.

NOTE A – DESCRIPTION OF PLAN (continued)

Payment of Benefits
Upon termination of employment, participants are entitled to 100% of their account balance. Benefits are payable in an amount equal to the value of the participant's vested interest in his or her account, either in a lump sum payment, equal annual installments over a period not to exceed ten years, or in a rollover to an eligible retirement plan.

Plan Termination
Although they have not expressed any intent to do so, the Company and the Union have the right to terminate the Plan at any time. Upon termination, the employer may direct benefits to be paid in one lump sum to participants. A complete discontinuance of contributions by the employer shall constitute a termination.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates
The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
The trustee shall pay all expenses incurred in the administration of the Plan from the Plan assets.

NOTE C – INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

Certification
All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2019 and 2018 and net change in investment income and expenses for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Plan's trustee, Charles Schwab Trust Company.

NOTE D – FAIR VALUE MEASUREMENTS

Financial accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

NOTE D – FAIR VALUE MEASUREMENTS (continued)

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 fair values are based on unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 fair value inputs are based on inputs other than quoted prices within Level 1 that are observable for the asset, either directly or indirectly. Observable inputs include quoted market prices in active markets for similar assets, quoted prices in markets that are not active for identical or similar assets and other market observable inputs such as interest rate, credit spread and foreign currency exchange rates observable in the marketplace or derived from market transactions.

Level 3 fair values are based on at least one significant unobservable input for the asset. Level 3 securities contain unobservable market inputs and as a result considerable judgment may be used in determining the fair values.

Certain investments are measured at fair value using the net asset value (NAV) per share, or its equivalent, as a practical expedient. These investments include commingled funds which may include money market funds, common collective trusts and pooled separate accounts which are typically valued using the NAV provided by the administrator of the fund. The Plan assets include common collective trusts. In accordance with accounting guidance, these investments have not been classified in the fair value hierarchy.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds: Valued at quoted market prices on the last business day of the Plan year.

Common collective trust: Units held in collective investment trusts are valued using the NAV of the fund, as a practical expedient. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV of a collective investment fund is calculated based on a compilation of primarily observable market information. The number of units of the fund that are outstanding on the calculation date is derived from observable purchase and redemption activity in the fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE D – FAIR VALUE MEASUREMENTS (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018.

Common collective trusts measured at NAV				1,456,713
Total				$ 12,203,493

NOTE E – RISKS AND UNCERTAINTIES

The Plan provides various investment options which are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE F – TAX STATUS

The Plan obtained its latest determination letter in 2017, in which the Internal Revenue Service stated that the Plan was in compliance with the applicable requirements of the Internal Revenue Code.

NOTE G – PARTY-IN-INTEREST

Certain parties provide services or have fiduciary responsibilities to the Plan, including the Plan Sponsor. These services are parties-in-interest transactions. Fees paid by the Plan for investment and administrative services amounted to $92,689 and $94,064 for the years ended December 31, 2019 and 2018, respectively.

NOTE H – SUBSEQUENT EVENTS

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through October 5, 2020, which is the date the financial statements were available to be issued.

Subsequent to year end, the outbreak of the COVID-19 virus created a public health emergency disrupting financial markets. As a result, economic uncertainties have arisen which are likely to negatively impact future investment results. However, the related financial impact and duration cannot be reasonably estimated at this time.
