NOTE 1 - SUMMARY DESCRIPTION OF THE PLAN

Effective as of January 1, 1996, AZDB Limited Partnership (the "Employer") adopted the Arizona Diamondbacks Retirement Savings Plan (the "Plan"). The Plan was amended and restated.

The following description of the Plan provides only general information. More complete information and a description of the Plan may be found in the Summary Plan Description covering the provisions of participation, contribution, vesting and benefit payments. The Summary Plan Description is published subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The following is a summary of provisions of the Plan.

General

The Plan is a defined contribution plan covering all of the eligible employees of the Employer (as defined). Employees are eligible to participate in the Plan after attaining the age of 21 and the completion of one year, as defined as 1,000 hours of service at the earliest quarterly date. The Administrative Committee ("Committee") is responsible for oversight of the Plan. The Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined by the Plan, up to the maximum annual amount allowable under the Internal Revenue Code. Participants hired after July 1, 2012 will be automatically enrolled to defer 3% of pay as of the date the participant becomes eligible to participate in the Plan. Participants may also elect to contribute all or a portion of Roth elective deferral contributions as defined by the Plan, as well as contribute amounts representing distributions from other qualified plans (rollovers). The Employer will make a matching contribution equal to 50% of the participant's 401(k) elective deferral contributions for up to the first 6% of pay deferred for all participants who were active during the payroll period.

The Employer, at its discretion, may make additional contributions. There were no additional Employer contributions during the years ended December 31, 2019 and 2018. The Employer will also make automatic contributions and service-based contributions to eligible participants.

Participants may direct all employee and employer contributions among certain funds as described in the employee enrollment package prepared by the Plan trustee.

NOTE 1 - SUMMARY DESCRIPTION OF THE PLAN - Continued

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Employer's contribution and (b) Plan earnings, and reduced for any plan losses and administrative expenses, if any. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a loan maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1-5 years. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid through payroll deductions.

Vesting

All elective participant contributions plus actual earnings, thereon, are immediately vested. Vesting in the Employer's contribution portion of their accounts is based on years of credited service as defined in the Summary Plan Description. A participant is 100% vested with three or more years of credited service. A participant who does not have at least one hour of service on or after January 1, 2019, the vesting will remain 20% per year of vesting service.

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant whose vested account balance exceeds $5,000 may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, annual installments over a period not to exceed the participant's life expectancy, or annual installments over the life or life expectancy of the participant or their beneficiary. Participants with account balances of more than $1,000 but less than or equal to $5,000 who do not request a lump-sum distribution, will automatically be rolled over by the Plan to an individual retirement account ("IRA"). Participants with account balances less than $1,000 must take a lump sum distribution as soon as practicable following termination.

NOTE 1 - SUMMARY DESCRIPTION OF THE PLAN - Continued

Forfeitures

Any accumulated benefits forfeited during a plan year due to participant withdrawal prior to full vesting shall be used to pay administrative expenses of the Plan or to reduce future Employer contributions. During the year ended December 31, 2019, forfeitures in the amount of $5,259 were used to reduce employer's contributions and $987 was used to reduce administrative expenses that were paid by the employer. As of December 31, 2018, forfeited non-vested accounts totaled approximately $6,528. Forfeitures in the amount of $3,674 were used to reduce employer's contributions and $424 was used to reduce administrative expenses that were paid by the employer during the year ended December 31, 2018. As of December 31, 2018, forfeited non-vested accounts totaled approximately $8,134.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 3 for discussion of fair value measurements

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES - Continued

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document. Related fees are recorded as administrative expense and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 or 2018.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Employer. Expenses that are paid by the Employer are excluded from these financial statements. Fees related to the administration of the notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through October 14, 2020, the date the financial statements were available to be issued.

The COVID-19 pandemic during 2020 has significantly disrupted financial markets, economies and other events subsequent to December 31, 2019. As noted in the risk and uncertainties note, investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Subsequent to December 31, 2019, the impact to the Plan of the COVID-19 pandemic during 2020 has resulted in significant reductions in values to many investments of the Plan. It has also significantly decreased interest rates.

The Plan has been amended to implement certain requirements by the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) and the Setting Every Community Up for Retirement Enhancement Act of 2019 (the SECURE Act), which laws change the Plan to, among others, allow

Subsequent Events - continued

certain eligible individuals to receive coronavirus-related relief for loan repayment, suspend required minimum distributions, and delay the commencement date for required minimum distributions.

The long-term impact of the effects of the COVID-19 pandemic to the Plan and Plan sponsor as well as any relief from regulatory authorities are currently not known. The extent of the adverse impact of the COVID-19 pandemic on the Plan's participant account balances and the net assets available for benefits cannot be reasonably estimated at this time.

NOTE 3 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from, or corroborated, by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement, and usually reflect the plan's own assumptions about the assumptions that market participants would use in pricing the assets (i.e. real estate valuation, broker quotes).

NOTE 3 – FAIR VALUE MEASUREMENTS

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The Financial Accounting Standards Board ("FASB") has issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendment applies to reporting entities that elect to measure the fair value of an investment using the net asset value per share (or its equivalent) practical expedient. The amendment removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. This ASU also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. This ASU is effective for Plan fiscal year beginning after December 15, 2016 and requires retrospective treatment to all periods presented. The Plan has fully adopted the provisions of ASU 2015-07 as of December 31, 2017. Accordingly, investments for which fair value is measured using net asset value per share as a practical expedient have not been categorized within the fair value hierarchy.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual Funds:

Mutual funds are valued at quoted market prices in an exchange and active market and are classified as Level 1 investments.

Pooled Separate Accounts:

Pooled separate accounts ("PSA") are privately managed through investment companies and are not publicly quoted in an active market. PSA's are valued at net asset value ("NAV") and are computed in accordance with the investment company measurement principles. The Plan has concluded that the NAV reported approximate the fair value of investments.

Common Collective Trust:

The Putnam Stable Value Fund (25) in 2019 and the Principal Stable Value Fund in 2018 are held in a collective trust fund ("CCT") and are not publicly quoted in an active market. The CCT is valued at NAV and is compiled in accordance with the investment company measurement principles. The Plan has concluded that the NAV reported approximate the fair value of investments.

NOTE 3 – FAIR VALUE MEASUREMENTS - Continued

Assets measured at fair value on a recurring basis as of December 31, 2019 and 2018 are summarized as follows:

	Assets at Fair Value as of December 31, 2019

(a) Certain investments that are measured at NAV per share practical expedient or its equivalent have not been classified in the fair value hierarchy. The fair value amounts presented in this table are reported for the purpose of reconciling the fair value hierarchy to the investments as shown on the Statements of Net Assets Available for Benefits.

NOTE 3 – FAIR VALUE MEASUREMENTS - Continued

Level 3 Gains and Losses

There were no Level 3 assets upon which to report gains or losses for the years ended December 31, 2019 and 2018.

Fair Value of Investments that Calculate Net Asset Value

The following table summarizes investments measured at fair value based on NAV per share as at December 31, 2019 and 2018, respectively.

NOTE 4 – INFORMATION CERTIFIED BY THE PLAN TRUSTEE

A summary of the unaudited information regarding the Plan, included in the Plan's financial statements, that was prepared by the trustee, and furnished to the Plan administrator, is as follows:

- Statement of Net Assets Available for Benefits – investments.
- Statement of Changes in Net Assets Available for Benefits–net appreciation/(depreciation) in fair value of investments and interest and dividends.
- Information regarding investments contained in Note 3
- All investment information contained in the supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year).

All information related to investments and notes receivables from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2019 and 2018, and appreciation in fair value of investments, interest and dividends for the year ended December 31, 2019, was obtained from information supplied to the plan administrator and certified complete and accurate by Principal Financial Group (the trustee of the Plan).

NOTE 5 – REPORTING OF INVESTMENTS

In accordance with FASB *Accounting Standards Update* ("ASU"*)* 2016-12 that amends reporting of fully benefit-responsive contracts that are indirectly held by plans, investment in the common collective trust is not considered fully benefit-responsive contract, and should be reported at fair value.

According to the trustee of the Plan, the Putnam Stable Value Fund (25) in 2019 and the Principal Stable Value Z Fund in 2018 are indirectly held by the Plan. As a result, these Funds will not be adjusted to contract value and will be presented at fair value.

NOTE 6 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated, participants will become 100 percent vested in their accounts.

NOTE 7 - RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of pooled separate accounts and common collective trusts managed by Principal Life Insurance Company. Principal Life Insurance Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest, which are exempt from the prohibited transaction rules. Fees paid by the Plan for the investment management services and other administrative services totaled approximately $49,417 and $44,290 for the years ended December 31, 2019 and 2018, respectively. All other expenses of the plan are paid by the plan sponsor.

NOTE 8 – TAX STATUS

The Plan obtained its latest determination letter dated March 31, 2008. The Plan has been amended since receiving the determination letter, however the plan administrator and attorney believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and the related trust was tax-exempt as of the financial statement date. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 9 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' accounts balances and amount reported in the statement of net assets available for benefits.
