Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITOR'S REPORT

October 14, 2020

To the Participants and Plan Administrator
American Axle & Manufacturing, Inc. Retirement Program for Salaried Employees

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the American Axle & Manufacturing, Inc. Retirement Program for Salaried Employees (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statements of changes in net assets available for benefits for the years then ended, as well as the related notes to the financial statements.

Management's Responsibility for the Financial Statements

The Plan's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the "Basis for Disclaimer of Opinion" paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by SEI Private Trust Company, the trustee and custodian of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the trustee as of, and for the years ended, December 31, 2019 and 2018 that the information provided to the Plan administrator by the trustee is complete and accurate.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

Disclaimer of Opinion

Because of the significance of the matter described in the "Basis for Disclaimer of Opinion" paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Plan Merger

As described in Note 1 to the financial statements, the Plan's sponsor merged the Plan into another plan sponsored by the Plan sponsor, effective December 31, 2019. All Plan assets were transferred to the other plan on that date. Our opinion is not modified with respect to that matter.

Adoption of New Accounting Pronouncements

As discussed in Note 2, effective January 1, 2019, the Plan has adopted the guidance contained in Accounting Standards Update 2017-06, *Employee Benefit Plan Master Trust Reporting*. Our opinion is not modified with respect to that matter.

RETIREMENT PROGRAM FOR SALARIED EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2019 and 2018

1. DESCRIPTION OF THE PLAN

The American Axle & Manufacturing, Inc. Retirement Program for Salaried Employees (the “Plan”) has been a defined benefit pension plan, established as of March 1, 1994 and restated effective January 1, 2013, which has covered all salaried employees of American Axle & Manufacturing, Inc. (the “Company”) hired before January 1, 2002. The Plan has provided for pension, disability, and death benefits. The Company has agreed to contribute such amounts as necessary to meet the minimum funding standards required by law. As of December 31, 2011, all benefit accruals, supplements and Part B contributions were frozen for all Plan participants.

As of December 31, 2019, the Plan was amended so that the Plan’s participants were transferred to, and the net assets and accumulated plan benefits of the Plan were merged with, and into, the American Axle & Manufacturing, Inc. Hourly-Rate Associates Pension Plan, another defined benefit pension plan sponsored by the Company, which was subsequently restated on January 1, 2020 and renamed the “American Axle & Manufacturing, Inc. Pension Plan” (the “AAM Pension Plan”). On December 31, 2019, the Plan’s participants became participants in the AAM Pension Plan. The amounts of net assets and accumulated plan benefits transferred were \$123,547,859 and \$141,275,660, respectively.

The Plan has provided for a retirement benefit that has been calculated in two parts (referred to as “Parts A and B”). The Part A benefit has been noncontributory and has consisted of basic benefits and three supplements, some of which have been payable only to salaried associates hired before January 1, 1988 (“pre-88 associates”) by General Motors Corporation (“GM”) and transitioned to the Company on March 1, 1994. The Company has paid the entire cost of Part A of the retirement program. The basic benefit has been a monthly benefit determined by a flat dollar rate multiplied by years of credited service. The basic benefit has provided a monthly lifetime benefit of up to \$51.65 for every year of credited service earned after February 28, 1994. The first supplement has been a temporary supplement which has been paid only for disability retirements, with a 30-year maximum for credited service. This supplement has been paid to retirees until age 62 and one month or, if earlier, when the employee has become eligible for Social Security disability benefits. The second supplement has been an early retirement supplement for those pre-88 associates who have retired with at least 30 years of credited service. This supplement has been paid to age 62 and one month if a retiree has been under age 62 at retirement.

1. DESCRIPTION OF THE PLAN (CONTINUED)

The third supplement has been an interim supplement for pre-88 early voluntary retirees who have been between age 55 and 59, have had less than 30 years of credited service at retirement, and have had at least 85 “points” by adding together the age and service of the employee or pre-88 early voluntary retirees who have been age 55 and have had at least 10 years of service. This supplement has been paid to retirees until age 62 and one month if a retiree has been under age 62 at retirement.

The Part B benefit has been optional and has required participant contributions, which have been combined with the Company contributions for enhanced benefits. Part B has provided primary benefits and supplementary benefits. Employees have been eligible to contribute to Part B after they have had six months of service and attained at least age 21. Each employee participating in Part B for primary benefits has contributed 1.25% of his or her monthly base salary in excess of \$3,400. The primary benefit has been based on participant contributions. The monthly lifetime benefit has been 8.33% of the sum of all such participants’ contributions through retirement. The supplementary benefits payable under Part B have been based on each participant’s final five-year average salary. The monthly benefit payment has equaled 1.00% of the participant’s average monthly base salary in excess of \$5,165.

Participants have been vested after earning five years of credited service. Employees hired by GM prior to 1988 may retire at any age with 30 or more years of credited service, or between the ages of 55 and 59 with age plus credited service equaling at least 85 “points.” Employees with 10 or more years of credited service may retire at any age prior to age 65 in the case of total and permanent disability or with 10 or more years of credited service and attainment of age 55. Employees at least age 65 have been automatically vested.

The American Axle & Manufacturing, Inc. and Affiliated Corporation Salaried Cash Balance Pension Plan (the “Cash Balance Plan”) merged into the Plan, effective December 31, 2011. Only salaried associates hired between January 1, 2002 and December 31, 2006, including those at Colfor Manufacturing, Inc. (“Colfor”) and MSP Industries Corporation (“MSP”), were eligible participants in the Cash Balance Plan. A hypothetical account was established for each participant based on contribution points, which has been equal to the total of an associate’s age and service points. This account has also accrued interest credits at the end of each quarter. The Cash Balance Plan was frozen on December 31, 2006 for the Company’s salaried associates and frozen on December 31, 2009 for Colfor and MSP salaried associates. Only interest credits have been credited to the hypothetical account after the freeze dates.

1. DESCRIPTION OF THE PLAN (CONTINUED)

In 2019, the Company offered a voluntary one-time lump-sum payment option to certain eligible terminated vested participants of the Plan that, if accepted, would settle the Company's pension obligations to them (the "AAM Pension Payout Offer"). The lump-sum settlements, which were paid from Plan assets, reduced Plan liabilities and administrative costs going forward. In addition to the lump-sum cash payment option, the AAM Pension Payout Offer allowed participants to commence payment of their monthly benefits early. In total, 81 participants of the Plan accepted the offer, and the Company made a one-time lump-sum cash payment from the American Axle & Manufacturing, Inc. Defined Benefit Plan Master Trust (the "Master Trust") of approximately \$5.4 million on December 19, 2019. The Company also paid fees of approximately \$65,000 from the Master Trust in conjunction with the AAM Pension Payout Offer, which are included in administrative expenses for the year ended December 31, 2019. As a result of this settlement, the assets and liabilities of the Plan were remeasured.

The Plan has met minimum funding requirements of the Employee Retirement Income Security Act of 1974, as amended. The Company has had the right under the Plan to discontinue such contributions at any time and to amend, modify, suspend or terminate the Plan, consistent with the collective bargaining agreement and applicable law. No amendment, modification, suspension or termination of the Plan could have the effect of providing that any amounts then held under the Plan could be used or diverted to any purpose other than for the exclusive benefit of members or their beneficiaries.

Should the AAM Pension Plan terminate at some future time, its net assets will generally not be available on a pro-rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") at the time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

The foregoing description of the Plan provides only general information. Participants should refer to the summary plan description for a more complete representation of the Plan's provisions. Copies of the summary plan description are available from the Company's human resources department.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General — The financial statements of the Plan have been presented on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America (“GAAP”).

Adoption of New Accounting Pronouncements — In February 2017, the Financial Accounting Standards Board issued Accounting Standards Update (“ASU”) 2017-06, *Employee Benefit Plan Master Trust Reporting*. ASU 2017-06 standardizes the presentation requirement for investments in master trusts and changes in investments in master trusts so that they are presented as single line items in the financial statements. ASU 2017-06 also requires all plans to disclose the dollar amount of their interest in each general type of investment, other assets, and liabilities held by master trusts, while removing the requirement to disclose the percentage interest in a master trust for plans with divided interests. The Plan adopted the provisions of ASU 2017-06 as of January 1, 2019. These provisions have been retrospectively applied to the accompanying financial statements as of, and for the year ended, December 31, 2018. The adoption of this pronouncement did not impact the Plan’s net assets available for benefits.

Valuation of Investments — Investments in the Master Trust have been stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price).

The shares of registered investment companies and units of money market funds have been valued at quoted market prices that represent the asset value of the shares or units held by the Master Trust at year-end. Investments in U.S. government agency bonds have been valued by independent pricing sources based on the quoted market prices of similar securities available in the over-the-counter market. Investments traded in the over-the-counter market and listed securities for which no sale was reported on that date have been valued at the average of the last reported bid and ask prices.

The investment in a property fund (which invests primarily in U.S. Core Real Estate) has been estimated using the net asset value per share of the fund, which is determined by using the fair value of the portfolio as of the close of business at the end of each quarter.

YEARS ENDED DECEMBER 31, 2019 and 2018

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Income — Purchases and sales of securities have been recorded on a trade-date basis. Gains and losses on sales of securities have been based on average costs. Interest income has been recorded on the accrual basis. Dividends have been recorded on the ex-dividend date. Net appreciation and depreciation have included gains and losses on investments bought and sold, as well as held, during the year.

Fair Value Measurements — The Plan has used fair value measurements in the preparation of its financial statements, which utilize various inputs, including those that can be readily observable, corroborated or are generally unobservable. The Plan has utilized market-based data and valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Additionally, the Plan has applied assumptions that market participants would use in pricing an asset or liability, including assumptions about risk.

The measurement of fair value includes a hierarchy based on the quality of inputs used to measure fair value. Financial assets and liabilities are categorized into this three-level fair value hierarchy based on the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets and liabilities and the lowest priority to unobservable inputs.

The various levels of the fair value hierarchy are described as follows:

- Level 1 — Financial assets and liabilities whose values are based on unadjusted quoted market prices for identical assets and liabilities in an active market that the Plan has the ability to access
- Level 2 — Financial assets and liabilities whose values are based on quoted prices in markets that are not active or model inputs that are observable for substantially the full term of the asset or liability
- Level 3 — Financial assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement

The use of observable market data, when available, is required in making fair value measurements. When inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurement.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and accumulated plan benefits at the date of the financial statements and the reported amounts of increases or decreases in net assets available for benefits and accumulated plan benefits during the reporting period. Actual results could differ from those estimates.

Actuarial Present Value of Accumulated Plan Benefits — Accumulated plan benefits (see Note 3) are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on various plan benefit formulas, as defined in the Plan document, depending upon the date of the retirement, death or termination of employment. Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

Subsequent Events — The Plan's management has evaluated subsequent events through October 14, 2020, the date that the accompanying financial statements were available to be issued.

3. ACCUMULATED PLAN BENEFITS

The Plan's actuary, Willis Towers Watson, estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

3. ACCUMULATED PLAN BENEFITS (CONTINUED)

The accumulated plan benefit information as of January 1, 2019 and 2018 is as follows:

	<u>2019</u>	<u>2018</u>
ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS:		
Vested benefits	\$ 133,597,040	\$ 146,732,411

 TOTAL ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS	 <u><u>\$ 136,310,703</u></u>	 <u><u>\$ 150,069,590</u></u>

Changes in the actuarial present value of accumulated plan benefits for the year ended January 1, 2019 are as follows:

INCREASE (DECREASE) IN ACCUMULATED PLAN BENEFITS ATTRIBUTABLE TO:

3. ACCUMULATED PLAN BENEFITS (CONTINUED)

The more significant assumptions underlying the actuarial valuations are as follows:

Actuarial cost method:	
Funding purposes	Projected unit credit
Accumulated plan benefits	Unit credit
Weighted average discount rate for the present value of accumulated plan benefits	2019 — 4.35% 2018 — 3.70%
Mortality basis	RP-2014 healthy mortality with white collar adjustments, projected generationally using a modified scale MP-2017
Employee turnover	A moderate rate
Retirement	A graduated scale

These actuarial assumptions were based on the presumption that the AAM Pension Plan will continue. Were the AAM Pension Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee compensation and demographics. Due to the nature of these assumptions and the uncertainties inherent in setting these assumptions, it is at least reasonably possible that changes in the near term to these assumptions would be material to the financial statements.

4. INVESTMENTS AND FAIR VALUE (UNAUDITED)

The following is a summary of unaudited information regarding the Plan and the Master Trust, included in the Plan's financial statements, that was prepared by SEI Private Trust Company ("SEI"), the Plan's trustee and custodian. The Plan administrator has obtained certifications from SEI that such information is complete and accurate.

- Colfor Manufacturing, Inc. United Automobile, Aerospace, and Agricultural Implement Workers of America Local 4199 Pension Plan
- MSP Industries Corporation United Automobile, Aerospace, and Agricultural Implement Workers of America Local 9699 Pension Plan

The Master Trust was terminated, effective December 31, 2019, in conjunction with the Plan merger described in Note 1.

Earnings, market adjustments, trustee fees, and expenses relating to investment transactions of the Master Trust have been allocated to the participating plans based on each plan's beneficial interest in the trust assets. The Master Trust has constituted a single investment account as defined in the Master Trust reporting and disclosure rules and regulations of the U.S. Department of Labor. Each Plan's investment in the Master Trust has represented a divided interest.

4. INVESTMENTS AND FAIR VALUE (UNAUDITED) (CONTINUED)

As of December 31, 2018, the Master Trust held the following investments with various parties-in-interest:

Investments managed by SEI:	
Registered investment companies	\$ 349,390,068
Money market funds	150,436

The investment in the property fund may be redeemed subject to the terms of the redemption request. There are no unfunded commitments to acquire additional units of this fund as of December 31, 2019.

5. TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain investments held by the Master Trust as of December 31, 2018 have been managed by the Plan's trustee. Such investments fall within the investment guidelines of the Plan and Master Trust and are considered parties-in-interest. See Note 4 for investments held by the Master Trust with various parties-in-interest.

Fees for accounting, legal, and trustee services were paid by the Plan. The fees paid for services rendered by parties-in-interest were based on customary and reasonable rates for such services.

6. INCOME TAX STATUS

The Plan obtained its latest determination letter on November 21, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. In addition, the Plan administrator is not aware of any uncertain tax positions or unrecognized tax benefits as of December 31, 2019 or 2018. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Schedule SB, Part V Summary of Plan Provisions

AAM Retirement Program for Salaried Employees Provisions

The AAM and Affiliated Corporation Salaried Cash Balance Pension Plan was merged into the AAM Retirement Program for Salaried Employees on December 31, 2011. The provisions for the two prior plans are outlined separately below.

AAM Salaried Participants Hired before January 1, 2002

Effective Date	March 1, 1994 Restated January 1, 2013 and amended through end of 2018.
Employees Covered	Salaried employees of AAM hired before January 1, 2002.
Plan Year	First: March 1, 1994 to December 31, 1994; second and later: calendar years beginning on or after January 1, 1995.
Eligibility	Part A: Immediately upon becoming a salaried employee of AAM. Part B: Age 21, six months of service, and elect to contribute.
Grandfathered Participants	Participants who are active and a participant on December 31, 2006, and will be eligible to retire under the plan on or before December 1, 2011.
Freeze Date	Benefits were frozen on December 31, 2006, for non-grandfathered participants and benefits were frozen on December 31, 2011, for grandfathered participants.

Plan Name:	American Axle and Manufacturing, Inc. Retirement Program for Salaried Employees

Plan Sponsor:	American Axle & Manufacturing, Inc.
Valuation Date	January 1, 2019

SCHEDULE SB ATTACHMENTS

Credited Service Generally all periods of service for which the employee is paid; however, credited service is frozen on December 31, 2006 for non-grandfathered participants and on December 31, 2011, for grandfathered participants for benefit purposes. Service after the freeze dates is counted for vesting purposes and determining retirement eligibility. Credited service with GM is included for determining eligibility for AAM benefits for associates defined as Transitioned Associates under the Plan. For employees with less than five years of service at March 1, 1994, GM credited service before March 1, 1994 counts for AAM benefits as well as eligibility. All credited service counts for Part B benefits for employees who contribute at all times while eligible; otherwise only credited service while contributing counts for Part B benefits.

Under the Voluntary Compliance Program (VCP) in 2010, fourteen non-grandfathered non-highly compensated participants were granted an additional year of benefit accrual for 2009.

Similarly in 2012, sixteen non-grandfathered, non-highly compensated participants were granted an additional year of benefit accrual for 2011.

Benefit Formula All benefits were frozen as of December 31, 2006 for non-grandfathered participants and as of December 31, 2011 for grandfathered participants. Benefits are based on the credited service, basic benefit rate, and base pay as of the freeze date. There are no additional employee contributions after the freeze date.

Part A: Monthly pension of \$51.65 times credited service.

Part B:

- Basic: Annual pension equals 100% of the Participant's contributions.
- Supplemental: Monthly pension is 1% of excess average monthly base pay times credited service. Excess average monthly base pay is the excess of average monthly base pay over 100 times the Part A basic benefit rate for Class D (\$51.65). Average monthly base salary is the average salary rate for the highest 60 months during the last 120 months of employment before the freeze date.

Accrued Pension: The sum of the accrued Part A and Part B pensions earned by the Participant and payable from the plan's normal retirement date as a single life annuity.

Participant Contributions 1.25% of monthly base salary in excess of \$3,400. No further contributions are required after 35 years. No contributions after the freeze date.

2014 Window Benefit

In the fall of 2014, there was a limited time program called the AAM Pension Payout Offer. Under this program, terminated vested participants were offered a lump sum or immediate annuity as of December 1, 2014. Alternatively, participants could take no action under the program and would still be entitled to their annuity benefit upon attainment of retirement eligibility.

Benefits at Retirement

(a) Normal Retirement:

- Eligibility: Age 65
- Benefit: The accrued pension.

(b) Early Retirement:

- Eligibility: (1) Age 55 with at least 10 years of credited service, (2) if hired by GM before 1988, any age after completion of 30 years of credited service or (3) if hired by GM before 1988, age 55 with at least 85 points (sum of age and credited service). Service after the freeze date is counted for eligibility purposes.
- Benefit: The accrued pension, reduced for early commencement, plus a supplement. Sample early retirement factors are as follows:

Age	1) On or after age 60 or 2) Pre 1988 hires with	Age 55 to 60(Less Than 85 Points or Hired After 1987)
	a) 30 years of service or b) 85 points	
65	100.0%	100.0%
62	100.0%	78.4%
60	86.7%	64.0%
55	57.9%	46.0%

For Participants hired by GM before 1988, reductions in Part A pensions are restored at age 62 if the Participant has at least 30 years of service, or if the sum of the Participant's age and credited service at retirement is at least 85.

Benefits at Retirement (cont.)

Supplements:

- Early retirement supplement: Participants hired by GM before 1988 who retire with at least 30 years of credited service are entitled to a monthly supplement until age 62. The amount is equal to the excess of a total benefit amount determined as for an hourly employee (\$3,020), over the sum of Participant's reduced Part A and Part B supplemental pensions. Supplements are prorated based on credited service as of the freeze date, for participants whose credited service was frozen for benefit accrual purposes, but continued to grow for benefit eligibility purposes.
- Interim supplement: For Participants hired by GM before 1988 who retire with less than 30 years of credited service, a monthly interim supplement is payable until age 62. The interim supplement is equal to a rate at age of retirement as described in the Hourly Plan summary multiplied by credited service, reduced by Part B Supplementary Benefits. Supplements are prorated based on credited service as of the freeze date, for participants whose credited service was frozen for benefit accrual purposes, but continued to grow for benefit eligibility purposes.
- All early retirement supplements are payable beyond age 62 for individuals born between 1938 and 1945. These supplements are payable to the Social Security retirement age in which 80% of the normal benefit is payable.

(c) Disability Retirement:

- Eligibility: Qualification for disability under age 65 and after completing at least 10 years of eligibility credited service.
- Benefit: The accrued pension without reduction for early commencement plus a temporary benefit. For participants born between 1938 and 1945, the temporary benefit is payable to the Social Security retirement age in which 80% of the normal benefit is payable. For all other participants, the temporary benefit is payable until age 62. The monthly temporary amount is determined as described in the Hourly Plan summary. If the Participant has at least 30 years of credited service and was hired by GM before 1988, an early retirement supplement is also payable. The unreduced accrued pension and the temporary benefit are both subtracted in calculating the early retirement supplement for a special early retirement. American Axle assumes the individual has been approved for SSDI unless the participant provides proof otherwise, and then receives the temporary benefit.

Benefits at Retirement (cont.)

(d) Deferred Vested Retirement:

- Eligibility: Termination of employment before eligibility for retirement and for Part A and Part B supplemental pensions, after completing at least five years of service.
- Benefit: The full accrued pension is payable at age 65. A reduced pension is available as early as age 55. Sample reduction factors are as follows:

Age	Factor
65	100.0%
62	78.4%
60	64.0%
55	42.8%

(e) Early Retirement Window Retirement:

- An Early Retirement Window called the VSRIP (Voluntary Salaried Retirement Incentive Program) was offered in 2008 and 2009. Participants received up to three years (two in 2009) of age and/or service to attain retirement eligibility. The additional years of age and service are also reflected in the calculation of benefits and early retirement reduction factors.
- A cash balance account was also established under the plan and participants who did not need additional age or service to attain retirement eligibility received a \$50,000 account addition. Participants who did need additional age or service to attain retirement eligibility received a \$35,000 account addition.

Pre-retirement Death Benefits

(a) Eligibility: Death while a Participant

(b) Benefits:

- Unmarried: Lump sum payment of the Participant's contributions plus interest.
- Participant who is married (for at least one year on the date of death) but not eligible to retire: Deferred pension equal to 50% of the Participant's accrued Part B (primary plus supplemental) benefit plus, if the Participant is vested, a deferred pension equal to 50% of the Participant's accrued Part A pension, both payable at the Participant's normal retirement age.
- Participant who is married (for at least one year on the date of death) and eligible to retire: An immediate pension of 65% of the Participant's accrued Part B (primary plus supplemental) pension plus 65% of the Participant's immediate Part A benefit under the automatic 65% joint and survivor form.

Forms of Payment

- (a) Pre-retirement Spouse's Pensions: Payable for the life of the spouse.
- (b) Supplements and Temporary Pensions: Payable for the life of the Participant, but not beyond age 62 (extended beyond 62 for participants born between 1938 and 1945 to the Social Security retirement age at which 80% of the normal benefit is payable).
- (c) Regular Pensions:
 - Normal form: Single life annuity.
 - Automatic option for married Participants: A reduced 65% joint and survivor annuity with the spouse as beneficiary. The reduction is 5% plus/minus 0.5% for each year above five that the spouse is younger/older than the Participant, respectively (reduction not less than zero). The reduction is restored if the spouse dies before the participant. For participants whose Part A early retirement reduction is restored at age 62, the joint & survivor reduction is based on the post 62 benefit. For disability retirements before 55, the continuation percentage is 50% (instead of 65%), the reduction is actuarial equivalent (instead of 0.5% per year) and the benefit payable to the surviving spouse is deferred until the date in which the participant would have attained age 55. The standard automatic spouse provisions apply once the disability pensioner attains age 55.
 - Other options: The Plan offers optional joint and survivor annuities.
- (d) Contribution Withdrawals: Terminated Participants may elect to withdraw their contributions plus interest in a lump sum. Participants with less than five years of service who elect these options receive no other benefits. Participants who elect this option and have more than five years of service forfeit the employee-provided and supplementary portion of the Part B pension.
- (e) Lump Sums: Lump sums are paid automatically to Participants whose employer-provided pensions have lump sum values of less than \$1,000 to the participant or \$5,000 to the beneficiary of a pre-retirement death benefit or an alternate payee. Lump sum values are based on the applicable interest rates which are the 3-segment corporate-bond rate basis under PPA with a look-back month of November and the applicable mortality table which is the IRS Prescribed Mortality for the Plan Year during which the participants' annuity starting date occurs. The cash balance account added as part of the 2008 and 2009 Early Retirement Windows may be paid as a single lump sum. (This applied only to the retirement incentive payments in the 2008 and 2009 VSRIP programs.)

Maximum Benefit and Pay No benefit payable to a Participant can exceed the IRC Section 415 limit for the plan year. The amount of pay considered in figuring contributions of benefits for a year is limited by IRC Section 401(a)(17).

Coordination with GM Salaried Retirement Program For GM employees who became AAM employees on March 1, 1994:

- GM will count AAM service towards eligibility for GM pensions.
- The early retirement supplement will be prorated between the GM and AAM plans based on service.

The GM plan will credit 3% annual base salary increases in calculating GM Part B supplemental pensions provided the Participant leaves his contributions in the GM Plan until he/she terminates employment with AAM.

Cash Balance Benefits

Late Retirement Date The first day of the month coincident with or next following termination of employment after Normal Retirement Date.

Benefit Formula The accrued benefit is a monthly single life annuity at Normal Retirement Date, equal to the greater of (A) the Actuarial Equivalent of the Participant's projected Cash Balance Account at Normal Retirement Date or (B) the Participant's Minimum Benefit.

(A) Cash Balance Account

As of the date an employee becomes a Participant, a hypothetical account is established. On January 1 of each year, an amount is credited to a Participant's account equal to a percentage of the Participant's Base Salary for the prior Plan Year. Contribution credits cease for AAM participants effective January 1, 2007 and for Colfor and MSP participants effective January 1, 2010. The applicable percentage is based on Contribution Points, as follows:

Colfor and MSP Participants – Pre January 1, 2010 (Post January 1, 2010 is 0%)

Participant's Contribution Points	Percent of Base Salary Allocated
Less than 50 points	1.5%
50 to 69 points	2.0%

40 to 59 points	3.0%
60 to 79 points	4.0%
80 points or more	5.0%

A Participant receives one age point for each year of age he or she has attained on the date of calculation, one service point for each year of benefit service attained at the date of calculation, and for Colfor and MSP participants, one service point for each year of benefit service prior to April 1, 1999. The Participant's contribution points are the sum of their age and service points on that date.

At the end of each calendar quarter, the Participant's account is credited with one quarter of the average Ten Year Treasury Constant Maturity rate effective for the November lookback month. For the 2017 plan year, a transition comparison will be used to set the interest crediting rate to be the greater of the old and the new interest crediting rate method. The prior interest crediting rate method was based on the Ten Year Constant Treasury Maturity rate effective at the beginning of the plan year. Interest credits continue after January 1, 2007 for AAM participants and after January 1, 2010 for Colfor and MSP participants.

Upon termination of employment, pay-based credits cease, but interest-based credits continue to be earned. Upon benefit commencement, interest based credits also cease.

Opening account balances for Participants as of January 1, 2001, were set equal to the product of:

- (i) Participant's Base Salary for December 2000
- (ii) Participants Benefit Service as of January 1, 2001
- (iii) Participant's Contribution Percentage based on his or her Contribution Points on January 1, 2001

Preretirement Surviving Spouse's Benefit

- Eligibility: Married Participants who die after having completed three Years of Service and before having commenced benefits.
- Benefit: The Preretirement Death Benefit shall be the Actuarial Equivalent of the Participant's Cash Balance Account; provided, the Participant's spouse is his or her Beneficiary. The benefit payable to the spouse shall not be less than:
 - (i) If the Participant dies after age 55, the spouse's interest under a 50% Qualified J&S Annuity.
 - (ii) If the Participant dies before age 55, the spouse's interest as though the Participant terminated on date of death (if actively employed when died), survived to age 55, retired electing a 50% Qualified J&S Annuity, then died the next day.

Normal Form of Payment

Single Participants and Participants Married less than 1 year: Straight Life Annuity.

All other: 50% Joint and Survivor Annuity. The benefit payable to the Participant is 93% of the Accrued Benefit otherwise payable, if the Participant and spouse are within 5 years of age. If the age difference is greater than 5 years, the reduction shall be the actuarial equivalent of the Straight Life Annuity form of payment, computed using the Uninsured Pensioner's Mortality Table of 1994 and an interest rate assumption of 8%.

Alternate Forms of Payment

- Lump Sum: as an alternative to the normal payment forms, participants are permitted to receive the actuarial equivalent of their accrued benefits as a lump sum distribution.
- 75% Joint and Survivor Annuity. The benefit payable to the Participant is 90% of the Accrued Benefit otherwise payable, if the participant and spouse are within five years of age. If the age difference is greater than five years, the reduction shall be the actuarial equivalent of the Straight Life Annuity form of payment, computed using the Uninsured Pensioner's Mortality Table of 1994 and an interest rate assumption of 8%.

Actuarial value of assets Smoothed Value of Assets: Average of market values (adjusted for contributions, benefit/expense payments, and expected investment returns) as of valuation date and prior two valuation dates.

Benefits not valued Except as noted here, all benefits described in the summary of plan provisions section were valued. Willis Towers Watson has reviewed the plan provisions with the plan sponsor and, based on that review, is not aware of any other significant benefits required to be valued that were not. The plan pays small benefits (with a present value up to \$1,000) in a single lump sum payment. Such lump sums are not explicitly valued; rather, such participants' benefits are valued using the benefit choice assumptions described above.

Change in Assumptions and Methods since Prior Valuation

Interest Rates The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.

Mortality The mortality projection scale used to calculate the funding target and the target normal cost was updated from Scale MP-2016 to Scale MP-2017, as required by IRC §430.

Cash Balance Interest Crediting Rate The long term cash balance crediting rate was changed from 2.20% to 2.85% for the calculation of the funding target.

Sources of Data and Other Information

Willis Towers Watson used asset data supplied by the trustee. AAM through its third party administrator, furnished participant data as of January 1, 2019. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with AAM, assumptions or estimates were made by the Willis Towers Watson actuaries when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. Additional information about the data review and assumptions is outlined in our May 7, 2019 email, "AAM 2019 Valuation - Pension & OPEB Data Questions, Assumptions, and Documentation" and the accompanying Excel file. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Administrative expenses	Plan-related expenses expected to be paid from the trust during the plan year are determined by taking the previous year's actual administrative expenses adjusted for changes in the PBGC premium.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).

The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

SCHEDULE SB ATTACHMENTS

Schedule SB, Line 22
Description of Weighted Average Retirement Age
as of January 1, 2019

A fixed population and the retirement rates described in the attached Actuarial Assumptions and Methods were used to project the number of retirements per year. Retirement age was calculated by taking the weighted average of retirements by age and service. The average expected retirement age is 63 as of the valuation date. Sample rates are as follows:

Age	Rates	
	Pre-88 Hires	Post-88 Hires
50	0.03	0.00
55	0.05	0.02
60	0.35	0.10
62	0.40	0.30
65	1.00	1.00
