INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of the
KKW Holdings, Inc. Employee Stock Ownership Plan

We have audited the accompanying financial statements of KKW Holdings, Inc. Employee Stock Ownership Plan, which comprise the statement of net assets (deficit) available for benefits as of December 31, 2019, and the related statement of changes in net assets (deficit) available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets (deficit) available for benefits of KKW Holdings, Inc. Employee Stock Ownership Plan as of December 31, 2019, and the changes in net assets (deficit) available for benefits for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2019 referred to as "supplemental information," is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019

NOTE 1 - PLAN DESCRIPTION AND BASIS OF PRESENTATION

The following description of the KKW Holdings, Inc. Employee Stock Ownership Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

KKW Holdings, Inc. (Company) established the KKW Holdings, Inc. Employee Stock Ownership Plan (Plan) effective as of January 1, 2019. The Plan operates as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations there under of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by a Plan Committee appointed by the Company's board of directors. The Company's board of directors has appointed an independent third-party as the Plan's trustee.

On November 14, 2019, the Plan purchased 1,000,000 shares of the Company's common stock which is held in a trust established under the Plan. The stock was purchased at a price of $41.16 per share, for an aggregate purchase price of $41,161,638, which was paid with a loan from the Company.

The loan is collateralized by the unallocated shares of common stock. The Company has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of and for the year ended December 31, 2019 presents separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated common stock (allocated), and (b) common stock not yet allocated to employees (unallocated).

Eligibility

Employees of the Company and its participating subsidiaries are generally eligible to participate in the Plan after a year of service, providing they worked at least 250 hours during such Plan year, attained age 21 and are not leased employees, nonresident aliens, or members of a labor union. If employees were employed on September 30, 2019, the employee became eligible to participate in the Plan as of January 1, 2019, regardless of whether the employee performed 250 hours of service for the Company.

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its loan. Employee contributions are not permitted.

Allocations

Contributions for each plan year are allocated to eligible participants that: (a) have worked at least 1,000 hours for the Plan Year and are employed by the Company on the last day of the Plan Year; or (b) have terminated employment during the Plan Year on account of Death, permanent Disability, or after reaching the normal Retirement date ("DDR"). Each participant will receive a portion of the total contribution in the same ratio to the contribution as their eligible compensation for the plan year bears to the total eligible compensation of all participants who are eligible in receiving the contribution.

Payment of Benefits

The Plan provides for the distribution of the participant's account upon normal retirement, disability, death, or termination of employment. If the participant separates from service by reason of death, disability, or retirement, the Trustee will commence distribution of the participant's vested account balance not later than one year after the close of the Plan year in which the event occurs. For termination of employment, distribution of a participant's account balance will commence during the year following the year that includes the participant's fifth consecutive break in service years. Distributions shall be paid as a lump sum. The period over which distributions of a participant's account is to occur may be done in substantially equal, annual installments over a period not to exceed 5 years, plus 1 year for each $225,000 or fraction thereof by which the value of the account exceeds $1,130,000.

Administrative Expenses

As provided in the Plan Agreement, administrative expenses may be paid either by the Plan or by the Company. The Company did not pay any operating expenses for the Plan for the year ended December 31, 2019.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance after first reducing account balances for distributions.

Voting Rights

All Company stock held by the Trust is voted by the Trustee. In the event of any corporate matter which would constitute a merger, consolidation, recapitalization, reclassification, liquidation, dissolution, or sale of substantially all assets, each participant who has been allocated shares of stock may instruct the Trustee as to the voting of those shares. The Trustee shall vote any unallocated shares held by the Trust as well as any allocated shares for which a participant has failed to give timely voting direction.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Company.

A year of service is defined as a plan year during which a participant has worked 1,000 hours. A participant's account automatically becomes 100% vested if the participant terminates employment with the Company because of Death or permanently Disability, or after reaching normal Retirement age ("DDR"). The vesting schedule is as follows:

Years of Service	Vesting Percentage
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a 6-year period. In each of the first 5 years, a participant may diversify up to 25 percent of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution. The election to diversify must be made within 90 days after the close of the Plan year to which the direction applies.

Forfeited Accounts

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. There were no forfeitures allocated to participants during the year ended December 31, 2019. There were no forfeited non-vested accounts to be allocated to participant accounts in future years as of December 31, 2019.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

The shares of Company common stock are reported at fair value. See Note 4 for a discussion of the fair value measurements. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

New Pronouncements

In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to Disclosure Requirements for Fair Value Measurement,* which modifies the disclosure requirements for fair value measurements by removing, modifying, or adding certain disclosures. ASU 2018-13 is effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. An entity is permitted to early adopt any removed or modified disclosures and delay adoption of the additional disclosures until their effective date. Plan management is currently evaluating the impact of this new standard on its financial statements.

Subsequent Events

The Plan has evaluated subsequent events through October 9, 2020, the date the financial statements were available to be issued.

NOTE 3 - INVESTMENTS

The Plan's investments, at December 31, are presented in the following table:

	2019	
	Allocated	Unallocated
KKW Holdings, Inc. common stock:		
Number of shares	1,811	998,189
Cost	$ 74,539	$ 41,087,099
Estimated fair value	$ 11,589	$ 6,388,411

NOTE 4 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: (1) quoted prices for similar assets or liabilities, (2) quoted prices for identical or similar assets or liabilities in inactive markets, (3) inputs other than quoted prices that are observable for the asset or liability, (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2019	
	Level 3	Total
Investment in KKW Holdings, Inc. common stock	$ 6,400,000	$ 6,400,000
Total assets at fair value	$ 6,400,000	$ 6,400,000

Investment in KKW Holdings, Inc. common stock	
Balance, beginning of the year	$ -
Purchase of common stock	41,161,638
Unrealized depreciation in estimated fair value	(34,761,638)
Balance, end of the year	$ 6,400,000
The amount of total gains or losses for the period included in changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	$ (34,761,638)

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net depreciation in fair value of investments in the Statement of Changes in Net Assets (Deficit) Available for Benefits.

Following is a description of the valuation methodologies used for assets measured at fair value.

The KKW Holdings, Inc. common stock held by the Plan is reported at fair value based upon an appraisal. This appraisal was based upon a combination of the market and income valuation techniques as illustrated in the following table.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs
KKW Holdings, Inc. common stock	$ 6,400,000	Income	EBITDA
			Net income
			Weighted average cost of capital
			Discount rate
			Discount for lack of marketability
		Market	Public comparable
			Revenue multiples
			EBITDA multiples
			Discount for lack of marketability
		Merged and Acquired Company	EBITDA
			EBITDA multiples
			Revenue multiples
			Discount for lack of marketability

The valuation process involves the selection of an appraiser. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution. The trustee and plan management review the annual appraisal report. The trustee provides the final approval of the annual share value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 - LOAN PAYABLE

In 2019, the Plan entered into a $41,161,638 loan agreement with the Company. The proceeds of the loan were used to purchase Company common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 1,811 shares being released and allocated for the year ended December 31, 2019.

The agreement provides for the loan to be repaid over 35 years. The loan bears interest at a rate of 1.940% percent. The scheduled amortization of the loan for the next 5 years is as follows:

	Amortization
2020	$ 1,076,137
2021	872,871
2022	889,805
2023	907,067
2024	924,664
Thereafter	36,491,093
	$ 41,161,638

NOTE 6 - RELATED PARTIES AND PARTIES IN INTEREST TRANSACTIONS

The Plan invests in Company common stock and has a loan with the Company. These are related party and party in interest transactions. As described in Note 1, the Company may pay plan expenses. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

NOTE 7 - PLAN TERMINATION

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Plan Administrator directs the Trustee to pay all liabilities and expenses of the ESOP and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or their beneficiary at the time prescribed by the Plan terms and the IRC. Participants will become 100% vested if the Plan is terminated or partially terminated.

NOTE 8 - TAX STATUS

The Plan inception date is November 14, 2019. The Plan has applied for a determination letter from the Internal Revenue Service (IRS) and is awaiting a response from the IRS. Once qualified, the Plan is required to operate in conformity with the Internal Revenue Code (IRC) to maintain its qualification. The Plan Administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan is qualified, and the related trust is tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken a significant uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

On March 11, 2020, the World Health Organization characterized coronavirus (COVID-19) as a pandemic, and on March 13, the President of the United States declared a national emergency relating to the disease. In addition to the President's declaration, state and local authorities have recommended social distancing and have imposed quarantine and isolation measures on large portions of the population, including mandatory business closures. These measures are designed to protect the overall public health, however are expected to have material adverse impacts on domestic and foreign economies and may result in the United States entering a period of recession.

As a result of COVID-19, there has been heightened market risk and volatility associated with the pandemic, and this could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statements of changes in net assets available for plan benefits, as mentioned above. Because of the uncertainty of the markets during this time, Plan management is unable to estimate the total impact the pandemic will have.
