NOTE 1 – DESCRIPTION OF PLAN

The following description of the BAL Retirement Plan (the "Plan") provides only general information. Participants should refer to the Summary Plan Description or Plan Document for a more complete description of the Plan's provisions.

General: Berry Appleman & Leiden LLP (the "Sponsor" or "Company") established the Plan effective January 1, 1996. The Plan is a defined contribution profit-sharing plan covering all eligible employees of the Company. The Administrative Committee is responsible for administration and management of the Plan. State Street Bank and Trust Company is the trustee for the Plan. Transamerica Retirement Solutions is the record keeper. The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC) and similar state tax laws and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility: Under the Plan, all employees of the Company are eligible to participate in the Plan on the first day of the month except for excludable employees. Excluded employees include non-common law employees, residents of Puerto Rico, independent contractors, non-resident aliens with no U.S. source income, leased employees, part-time/temporary/seasonal employee who works less than 1,000 hours and employees covered by a collective bargaining agreement.

Participant Contributions: Each year, participants may make salary deferral contributions up to 50% of their pretax annual compensation, as defined in the Plan, subject to certain IRC limitations. Once a participant meets eligibility requirements, participants were automatically enrolled at a 5% deferral rate, which is increased by 1% annually until the participant reaches 10%. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may elect to make Roth 401(k) contributions to the Plan. Participants may also contribute amounts representing distributions from other qualified plans.

Employer Contributions: Employer matching contributions are made at a rate determined annually by the Company. For 2019, the matching rate was 50% of the first 6% of eligible compensation contributed by the participants.

The Company may also elect to make discretionary profit-sharing contributions. For 2019, the Company did not make a discretionary profit-sharing contribution to the Plan.

Vesting: Participants are immediately vested in their voluntary contributions plus actual earnings thereon. All matching and discretionary employer contributions vest over a four-year period at the rate of 33% per year after the participant completes two years of service and are 100% vested after completion of four years of service. In case of retirement, disability or death, the participant becomes 100% vested.

Participant Accounts: Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution and allocations of Plan earnings and employer contributions and charged with withdrawals and allocations of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants' Investment Options: Participants direct the investment of their contributions into various investment options offered by the Plan. The investment options include various registered investment companies (mutual funds) and a money market fund. Participants may change their investment options at any time directly with the Plan's record keeper.

(Continued)

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Notes Receivable from Participants: Participants may borrow from their account, a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Notes receivable terms range from one to five years, except for loans used to purchase a primary residence, which have a maximum term of ten years. The loans are secured by the balance in the participant's account and bear interest at prevailing market rates at the time the funds are borrowed. Principal and interest is paid ratably through weekly payroll deductions. Participants may have one loan outstanding at any given time.

Payment of Benefits: Upon termination of service, due to death, disability, or retirement, a participant shall receive a lump sum distribution equal to the value of the participant's vested interest in his or her account. Upon termination of employment, participants with vested account balances of less than $1,000 will automatically receive a lump-sum distribution. Terminated participants with account balances between $1,000 and $5,000 who do not specify what they want done with their accounts, will have their accounts rolled into an individual retirement account (IRA). Participants may defer benefit payments when they reach age 70-1/2 if they are still actively employed. A participant may also request a distribution in the event of hardship. Active participants may also take distributions from the Plan upon attainment of age 59½. As of December 31, 2019, and 2018, there are no benefits payable to participants that have elected to withdraw from the Plan but have not yet been paid.

Forfeitures: Forfeitures from the nonvested portion of matching and discretionary employer contributions for terminated employees' account balances are used to reduce the employer contribution or to pay Plan expenses. Forfeitures in the amount of $329,190 were used to reduce employer contributions during 2019. At December 31, 2019 and 2018, forfeited nonvested accounts available to offset future employer contributions totaled $35,506 and $4,694, respectively.

Plan Termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

Administrative and Investment Management Expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Plan recordkeeping and trustee fees are paid by the Plan and are reflected in the financial statements as administrative expenses. Fees related to the administration of notes receivable from participants are charged directly to the participant’s account and are included in administrative expenses. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(Continued)

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition: Investments are reported at fair value. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes net unrealized market appreciation (depreciation) of investments and net realized gains and losses on the sale of investments during the period.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid balances plus any accrued but unpaid interest with no allowance for loan losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Document.

Risks and Uncertainties: The Plan utilizes various investments, including registered investment companies (mutual funds). Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the financial statements and participants' individual account balances.

Payment of Benefits: Benefit payments are recorded when paid.

Subsequent Events: Plan management has evaluated subsequent events for recognition and disclosure through October 14, 2020, which is the date the financial statements were available to be issued.

In March 2020, the World Health Organization categorized Coronavirus Disease 2019 ("COVID-19") as a pandemic, and the President of the United States declared the COVID-19 outbreak a national emergency. The COVID-19 pandemic has led to volatility in financial markets and has affected, and may continue to affect, the market price of Plan assets. The potential economic impact brought by, and the duration of, COVID-19 is difficult to assess or predict and will depend on future developments that are highly uncertain and cannot be predicted.

As a result of COVID-19, the United States government created the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act), which allows certain eligible individuals to receive coronavirus-related relief for withdrawals, loans and loan repayment suspensions. The Plan has implemented the provisions of the CARES Act. The CARES Act also suspended required minimum distributions, and delayed the commencement date for required minimum distributions, which Plan participants could utilize.

NOTE 3 – UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income (loss) and interest income from notes receivable from participants, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by State Street Bank and Trust Company, the trustee of the Plan. This information has not been audited by independent accountants.

(Continued)

NOTE 4 – FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls has been determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual Funds – The fair values of mutual funds are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Interest-Bearing Cash – The fair value of interest-bearing cash held in demand deposit accounts approximates its carrying value, as the amounts are payable on demand, and no discounts for credit quality or liquidity were determined to be applicable (Level 1 inputs).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 – FEDERAL INCOME TAX STATUS

The Plan uses a prototype plan sponsored by Transamerica Retirement Solutions (Transamerica). Transamerica has received an opinion letter from the Internal Revenue Service dated March 31, 2014, which states that the prototype document satisfies the applicable provisions of the Internal Revenue Code. The Plan has been subsequently amended; however, the Plan's oversight committee believes that the Plan is currently designed and being operated in compliance with applicable requirements of the Internal Revenue Code and the Plan continues to be tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019 and 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2016.

NOTE 6 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.

The Plan holds an interest-bearing demand deposit account at State Street Bank and Trust Company (SSBT). SSBT is the trustee for the Plan, therefore this investment qualifies as a party-in-interest transaction.

The Plan issues notes receivable to participants, which are secured by the balance in the participant's accounts. These transactions qualify as party-in-interest transactions.
