FUJIFILM Group Pension Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of FUJIFILM Group Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Prudential Retirement Insurance and Annuity Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2019 and 2018, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules appearing on pages 14 and 15, as of and for the year ended December 31, 2019, are required by the Department of Labor (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis, and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

**FUJIFILM Group Pension Plan
Notes to Financial Statements
December 31, 2019 and 2018**

Note 1 – Description of Plan

The following description of the FUJIFILM Group Pension Plan (the "Plan") provides only general information. Participants should refer to the summary Plan description for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan under which substantially all salaried employees of Fujifilm Imaging Colorants Inc. (the "Company"), who meet certain service requirements, are eligible to participate. The Plan was frozen as of December 31, 2006 in that no individual hired (or, except as otherwise provided within the plan document, rehired) after December 31, 2006 shall be eligible to participate in the Plan. Effective December 31, 2007, the Plan was amended to transfer all of the plan net assets of the PrimeSource Corporation Pension Plan and the FUJIFILM Hunt Chemicals U.S.A., Inc. Defined Benefit Plan and include substantially all salaried employees of PrimeSource Corporation and FUJIFILM Hunt Chemicals U.S.A., Inc. The Plan was amended to freeze the accrual of benefits as of December 31, 2007 for the employees of PrimeSource Corporation and FUJIFILM Hunt Chemicals U.S.A., Inc. The Plan is subject to the provisions of ERISA. The Board of Trustees is responsible for oversight of the Plan. Management of the Company determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

Pension Benefits

Participants are entitled to pension benefits upon attaining the normal retirement age (65) or the fifth anniversary of the date participation in the Plan commenced. The benefits for the Company's participants are as follows:

Benefit Schedule A: For all eligible employees who elected this schedule as of May 1, 1998, the benefit equals the greater of

- (i) 1.2% of Final Average Compensation ("FAC"), as defined, times years of service.
- (ii) 1.6% of FAC, times years of service, up to a maximum of 50% of Average Compensation, as defined, minus 1.6% of Primary Insurance Amount ("PIM"), as defined, times years of service, up to a maximum of 50% of PIM. This benefit is not applicable to bargaining groups.

Benefit Schedule B: For all eligible employees who elected this schedule as of May 1, 1998, and for all eligible employees hired on or after March 1, 1998, the benefit equals the sum of (i) and (ii):

- (i) The benefit determined under Benefit Schedule A based on average compensation and years of service as of April 30, 1998.
- (ii) The accumulation for each plan year of the sum of 1.2% of compensation up to the breakpoint plus 1.6% of compensation in excess of the breakpoint, as defined in the Plan.

Early Retirement Eligibility

Participants who retire from active employment and who have completed at least five years of vesting and have attained age 50 and whose age plus years of vesting equals 70 or more are eligible for early retirement.

Benefits are reduced by appropriate early retirement tables. For Benefit Schedule A there is a separate schedule for benefit part (i) or benefit part (ii). In general:

Benefits are unreduced for age 62 with 10 years of service.
Benefits are unreduced for Rule of 80 if at least age 55.

**FUJIFILM Group Pension Plan
Notes to Financial Statements
December 31, 2019 and 2018**

Note 1 – Description of Plan (continued)

For Benefit Schedule B, in general:

Benefits are unreduced for age 62 with 10 years of service.
Benefits are unreduced for Rule of 80 if at least age 58.

For vesting participants who separate from service prior to age 50 or prior to meeting Rule of 70, benefits are available when age plus vesting service equals 70 or more, but not earlier than age 50. Effective September 1, 2014, vesting participants with an accrued benefit with a present value exceeding \$5,000 and less than \$35,000, may elect to have the benefit paid as a lump sum, direct rollover to an eligible retirement plan, a single life annuity, or a 50% or 75% spousal survivor annuity.

Benefits are actuarially reduced from age 65 according to the schedule provided in the Plan document.

The Plan agreement contains additional provisions for participants who were also participants of the plans that were merged into this Plan.

Death Benefits

If a participant dies after earning a non-forfeitable right to accrued benefits but prior to the election of retirement benefits, the participant's current spouse shall receive an amount equal to the annuity payable during the joint lives of the participant and his spouse. If a participant dies after the election of retirement benefits, his beneficiary shall be entitled to any amount which may be payable under the form of benefit that the participant elected.

Note 2 – Summary of Significant Accounting Policies

Accounting Standards Update ("ASU")

On August 28, 2018, FASB issued ASU 2018-13, Disclosure Framework-Changes to the Disclosure Requirement for Fair Value Measurement (Topic 820). The ASU, which applies to all entities (including defined benefit plans), removes, modifies and adds fair value and/or net asset value ("NAV") related disclosures. The ASU is effective for years beginning after December 15, 2019. Certain of these amendments are prospective changes with the balance to be applied retrospectively. Early adoption is permitted; however, certain components of this ASU can be early adopted without delay. The Board of Trustees has not determined what impact the adoption of ASU 2018-13 will have, if any, on its financial statements.

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of the assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Note 2 – Summary of Significant Accounting Policies (continued)

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company as provided by the Plan document. Certain administrative expenses of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net investment income.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Management of the Company determines the Plan's valuation policies utilizing information provided by the Plan's investment advisers, trustee and insurance company.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on the average of the employees' highest compensation for five consecutive years during their last ten years of service.

The accumulated plan benefits for active employees are based on the average of the employees' highest compensation for five consecutive years during their last ten years ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances (retirement, death, disability, or termination of employment) are included, to the extent that they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated plan benefits. The Plan's valuation date is the beginning of the year.

The actuarial present value of accumulated plan benefits is determined by an outside actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of January 1, 2020 and 2019, were (a) life expectancy of participants Pri-2012 Total Dataset Employee/Retiree with Scale MP-2019 (for 2019), and RP-2014 (adjusted to 2006) Total Dataset with Scale MP-2018 (for 2018) and (b) discount rates at 4.50% (for 2019) and 5.25% (for 2018).

The forgoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actual present value of accumulated plan benefits.

Notes to Financial Statements
December 31, 2019 and 2018**

Note 2 – Summary of Significant Accounting Policies (continued)

Payment of Benefits

Benefit payments are recorded when paid by the Plan.

Note 3 – Funding Policy

Contributions to the Plan by the Company are based on the Projected Unit Credit Actuarial cost method and meet the funding requirements of ERISA. Amounts related to prior service cost are being amortized in accordance with ERISA over periods consistent with Section 412 of the Internal Revenue Code ("IRC"). The Company contributed \$1,865,500 and \$1,500,000 for the years ended December 31, 2019 and 2018, respectively. The Plan met the minimum funding requirements of ERISA as of December 31, 2019 and 2018.

Note 4 – Plan Termination

Although it has not expressed intent to do so, the Company has the right under the Plan to discontinue its contributions or to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. Government Agency) up to the applicable limitations (discussed below).
- c. All other vested benefits (that is, vested benefits not insured by the PBGC).
- d. All non-vested benefits.

Benefits to be provided via contracts under which Prudential is obligated to pay the benefits would be excluded for allocation purposes.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Notes to Financial Statements
December 31, 2019 and 2018**

Note 4 – Plan Termination (continued)

There is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2019, that ceiling is \$5,608 per month. The ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination, whichever comes later. For younger annuitants or those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some further time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

Note 5 – Certified Investments

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2019 and 2018, and net appreciation in the fair value of investments and interest and dividends for the years then ended, was obtained and derived from information supplied to the Plan administrator and certified as complete and accurate by Prudential Retirement Insurance and Annuity Company ("PRIAC") (the trustee of the Plan), except for the guaranteed deposit account.

Note 6 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
---------	---

Level 2	Inputs to the valuation methodology include:
---------	--

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.
---------	---

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 6 – Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Pooled separate accounts: Valued at fair value based on the current market values of the underlying assets of the fund.

Guaranteed deposit account: Underlying assets supporting the guaranteed deposit account are pooled under the general assets of PRIAC. The guaranteed deposit account is not available in an exchange and active market. The underlying investments are principally comprised of investment grade: mortgage pools, corporate bonds and U.S. and foreign government bonds. Values are determined by quoted prices, market indexes, and bid and asked criteria, and discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019 and 2018:

Note 7 – Investment Contract with Insurance Company

The Plan entered into a non-benefit-responsive investment contract with PRIAC which maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and certain administrative expenses.

The contract with PRIAC for the guaranteed deposit account was executed in 2011 and is cancelable by either party with proper notice. Based on options taken and other criteria at termination of the contract, there could be limitations on the amounts withdrawn each year. Participant accounts are credited with a fixed interest rate amount that is adjusted annually for results of the underlying assets of the guaranteed deposit account. The fair value of the guaranteed deposit account at December 31, 2019 and 2018 was \$4,715,936 and \$4,568,095, respectively. The crediting interest rate is based on a formula agreed upon with PRIAC. The credited rates to participant investments are adjusted, at times, for actual returns, prior year's credited rate, and more adjustments. However, credited rates are subject to certain minimum returns, which did not apply for 2019 and 2018. Such interest rates are reviewed annually for resetting. The guaranteed deposit account does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 8 – Accumulated Plan Benefits

The accumulated plan benefits of the Plan as of December 31, 2019 and 2018 are as follows:

Actuarial present value of accumulated plan benefits:

	<u>2019</u>	<u>2018</u>
Vested benefits:

Note 8 – Accumulated Plan Benefits (continued)

In October 2019, the Plan purchased an annuity contract for \$3,179,425 covering 76 participants.

In 2019, the changes in actuarial assumptions principally comprised of a change in the mortality table from the RP-2014 Total Dataset (adjusted to 2006) Mortality Table with Scale MP-2018 to the Pri-2012 Total Dataset Employee/Retiree with Scale MP-2019. In 2018, the changes in actuarial assumptions principally comprised of a change in the mortality table from the RP-2014 Total Dataset (adjusted to 2006) Mortality Table with Scale MP-2017 to the RP-2014 Total Dataset (adjusted to 2006) Mortality Table with Scale MP-2018.

Note 9 – Tax Status

The IRS has determined and informed the Company by a letter dated August 27, 2012, that the Plan, as then designed, was in accordance with the applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The trustees of the Plan have analyzed the tax positions taken by the Plan, and have concluded that as of December 31, 2019, no uncertain positions are taken or are expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 10 – Related Party Transactions

Certain Plan investments are managed by PRIAC, and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net investment income, as they are paid by revenue sharing, rather than direct payment. As described in Note 2, the Plan made direct payments to the third party administrator of \$98,784 and \$110,934 for the years ended December 31, 2019 and 2018, respectively; which were not covered by revenue sharing.

Note 11 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risks associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

**FUJIFILM Group Pension Plan
Notes to Financial Statements
December 31, 2019 and 2018**

Note 12 – Benefits Payable

As of the date the financial statements were available to be issued, the Company had not completed the discrimination testing for the Plan, nor the affiliated plans in the controlled group (as defined), for the years ended December 31, 2019, 2016, 2015 and 2014. Management believes any effects resulting from the above testing would not be material to the financial statements.

Note 13 – Subsequent Events

COVID-19 pandemic

The impact of the COVID-19 pandemic outbreak continues to evolve. Said pandemic has adversely affected net global economic activity and has greatly contributed to a significant deterioration and then recovery in financial markets as of the date of these financial statements were issued. The potential that such instability in the financial markets could continue is more than remote as the near-term election cycle could accelerate such instability. Because the values of the Plan's investments have and will fluctuate in response to these changing market conditions, the impact of this situation on the Plan (and the Company) and its future results and financial position is not presently determinable.

General

The Plan has evaluated subsequent events for potential recognition or disclosure in the financial statements through October 12, 2020, the date the financial statements were available to be issued.

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

SECTION I

CHANGES SINCE LAST YEAR'S VALUATION

Changes in Pension Plan Provisions

No changes in the pension plan provisions were recognized with this actuarial valuation.

Legislated Changes

There were no legislative changes recognized with this actuarial valuation.

Changes in Actuarial Assumptions

The investment return assumption has been updated to 5.25% from 5.50%. There are no other changes to non-prescribed assumptions.

For Accounting purposes, the mortality table was changed to the RP-2014 (adjusted to 2006) Total Dataset with Scale MP-2018 from the RP-2014 (adjusted to 2006) Total Dataset with Scale MP-2017.

The discount rate assumption for accounting purposes has been updated to 5.25% from 5.50%.

Changes in Actuarial Methods

No changes in actuarial methods were recognized with this actuarial valuation.

SECTION VII

ACTUARIAL METHODS

Under the Actuarial Methods described below, if all current assumptions remain constant and are realized, funding at least the Minimum Required Contribution each year will eventually accumulate sufficient plan assets to cover the Funding Target. Future widening of the interest rate stabilization corridor may extend the time period for the plan to become fully funded.

Cost Method

Costs have been computed in accordance with the Unit Credit Actuarial Cost Method and reflect the actuarial assumptions described under "Actuarial Assumptions" of this report as provided under the applicable regulations of the Pension Protection Act of 2006.

Target Normal Cost

The Target Normal Cost is the present value of benefits expected to accrue during the plan year plus an estimate of the expenses to be paid from plan assets during the plan year.

Funding Target and Funding Shortfall

The Funding Target is the present value of benefits accrued as of the beginning of the plan year and the Funding Shortfall is the excess of the Funding Target over the Actuarial Value of Assets (reduced by the Credit Balance). The initial Funding Shortfall is amortized over seven years.

In subsequent years, the Funding Shortfall less the present value of prior year amortization installments is amortized over seven years, and added to any prior year amortization installments.

Segment rates are adjusted as necessary to fall within the specified corridor of the corresponding 25-year average of segment rates for the period ending September 30 of the calendar year preceding the first day of the plan year. The specified corridor is:

<u>Plan Year</u>	<u>Corridor</u>
Through 2020	90% - 110%
2021	85% - 115%
2022	80% - 120%
2023	75% - 125%
2024 and later	70% - 130%

The adjustments to fall within the specified corridor of the 25-year average of segment rates apply for determining the minimum required contribution and related funded percentages. They do not apply for determining the maximum tax deductible contribution or certain other situations.

SECTION VII

ACTUARIAL METHODS

At-Risk Determination

The At-Risk Funding Target is determined by assuming that participants eligible to retire in the current plan year and next 10 plan years retire at the earliest possible date, but not before the end of the plan year. All participants are assumed to elect the optional form resulting in the highest possible present value.

A load is added to the At-Risk Funding Target and At-Risk Target Normal Cost when a plan is At-Risk in at least two years during the preceding four years. The load increases the At-Risk Funding Target by 4% of the Not At-Risk Funding Target plus \$700 per participant, and increases the At-Risk Target Normal Cost by 4% of the Not At-Risk Target Normal Cost.

The Funding Target and Target Normal Cost are calculated by multiplying the Not At-Risk values by 100% minus the Phase-In Percentage, plus the At-Risk values multiplied by the Phase-In Percentage.

Credit Balance

The Credit Balance consists of the Carryover Balance from excess contributions prior to the Pension Protection Act (PPA) of 2006, plus the Prefunding Balance from elected excess contributions after the PPA. Balances accumulate with interest and are reduced for amounts applied towards the Minimum Required Contribution, voluntary waivers by the plan sponsor, and compelled waivers to avoid benefit restrictions. The Actuarial Value of Assets is reduced by the Credit Balance to determine certain funded percentages and to determine the Funding Shortfall.

Asset Valuation Method

The Actuarial Value of Assets is determined using an annual average of the adjusted Fair Market Value of Assets with the earliest determination 24 months prior to the valuation date. The Fair Market Value of Assets in prior years is adjusted for contributions, benefit payments, expenses and expected earnings (not to exceed the third segment rate).

This is equivalent to the Fair Market Value of Assets, plus two-thirds of the (gain)/loss from the prior year, plus one-third of the (gain)/loss from the second preceding year. The (gain)/loss in each year is the difference between the expected and actual returns on the Fair Market Value of Assets.

The Actuarial Value of Assets is adjusted to be no less than 90% or no more than 110% of the Fair Market Value of Assets, as required by IRC Section 430(g)(3)(B)(iii).

Since the expected earnings assumption cannot exceed the third segment rate, over time, the method may produce an Actuarial Value of Assets slightly below the Fair Market Value of Assets.

The Actuarial Value of Assets for determining the Maximum Tax Deductible Contribution reflects interest rate stabilization rates for discounting contributions and limiting expected earnings.

SECTION VII

ACTUARIAL ASSUMPTIONS

Assumptions have been chosen to anticipate the long range experience of the Plan. Consistency among assumptions is important as each interacts with the others; equally important is the recognition of inflationary trends in the economy.

As the Enrolled Actuary for the Plan, I will certify to the reasonableness of these assumptions, in aggregate, as required by ERISA.

The actuarial assumptions used to compute Plan costs are:

Discount Rate:	<u>With HATFA</u>	<u>Without HATFA</u>	<u>ASC 960</u>

This benefit is not applicable to bargaining groups. <p><u>Benefit Schedule B:</u> For all eligible employees who elected this schedule as of May 1, 1998, and for all eligible employees hired on or after March 1, 1998, the benefit equals the sum of (i) and (ii):</p> <ul style="list-style-type: none">(i) The benefit determined under Benefit Schedule A based on Average Compensation and Years of Service as of April 30, 1998.(ii) The accumulation for each plan year of the sum of 1.2% of Compensation up to the Breakpoint plus 1.6% of Compensation in excess of the Breakpoint. Breakpoint: \$73,600 for 2012, \$71,400 for 2011, \$71,400 for 2010, \$71,400 for 2009, \$68,200 for 2008, \$65,200 for 2007, \$63,000 for 2006, \$60,200 for 2005, \$58,800 for 2004, \$58,200 for 2003, \$56,800 for 2002, as adjusted for inflation as the Social Security Wage Base.

SECTION VII

PLAN PROVISIONS

Early Retirement:

Imaging Colorants

Eligibility

Participants retiring from active employment who have completed at least five Years of Vesting and have attained age 50 and whose age plus years of Vesting equals 70 or more.

Amount

Benefits are reduced by appropriate Early Retirement Tables. For Benefit Schedule A there is a separate schedule for benefit part (i) or benefit part (ii). In general:

Benefits are unreduced for age 62 with 10 years of service.
Benefits are unreduced for Rule of 80 if at least age 55.

For Benefit Schedule B, in general:

Benefits are unreduced for age 62 with 10 years of service.
Benefits are unreduced for Rule of 80 if at least age 58.

Eligibility

Vested participants who separate from service prior to age 50 or prior to meeting Rule of 70. Benefits are available when age plus vesting service equals 70 or more, but no earlier than age 50.

Amount

Benefits are actuarially reduced from age 65 according to schedule provided in Plan Document.

PrimeSource:

Eligibility

The later of 1) the attainment of age 55 or 2) the date on which the sum of the Participant's age and years of service equals or exceeds 70.

Amount

100% of the accrued pension benefit. Benefit determined under same formula as for normal retirement based on credited service to early retirement date. Benefit reduced in accordance with the following:

<u>Age</u>	<u>Adjustment Factor</u>	<u>Age</u>	<u>Adjustment Factor</u>
64	1.000	59	0.633

SECTION VII

PLAN PROVISIONS

Hunt:

Eligibility Age 55 and 10 years of service.

Amount Fuji Hunt: Monthly Accrued Benefit determined as of Early Retirement Date, reduced 1/3% for each month of payment before age 62.

Orange Park Salaried: Monthly Accrued Benefit determined as of Early Retirement Date, reduced 1/3% for each month of payment before age 65. For certain benefits, reduction is 1/2% for each month of payment before age 65 and if the participant is at least age 60 with 30 years of service, the benefit is unreduced.

Orange Park Hourly: Monthly Accrued Benefit determined as of Early Retirement Date, reduced 1/2% for each month of payment before age 65.

Vesting Schedule: Participants who have completed at least five Years of Vesting.

Preretirement Spouse Benefit

Eligibility Spouses of vested participants who die before the commencement of their pensions or of participants on disability retirement who die.

Benefit Formula 50% of the benefit the participant would have received had he terminated on the date of his death and elected a qualified joint and one-half spouse's annuity payable on the later of the date of death or the date the participant would have been eligible for early retirement.

Prior Plan Values

Amount The Normal Retirement Benefit shall be reduced by any benefit payable under a plan sponsored by Avecia or a plan of a previous employer attributable to service credited by this plan.

Late Retirement The retirement benefit for participants who work beyond age 65, are based on service and earnings at actual retirement date.

SECTION VII

ACTUARIAL METHODS

Under the Actuarial Methods described below, if all current assumptions remain constant and are realized, funding at least the Minimum Required Contribution each year will eventually accumulate sufficient plan assets to cover the Funding Target. Future widening of the interest rate stabilization corridor may extend the time period for the plan to become fully funded.

Cost Method

Costs have been computed in accordance with the Unit Credit Actuarial Cost Method and reflect the actuarial assumptions described under "Actuarial Assumptions" of this report as provided under the applicable regulations of the Pension Protection Act of 2006.

Target Normal Cost

The Target Normal Cost is the present value of benefits expected to accrue during the plan year plus an estimate of the expenses to be paid from plan assets during the plan year.

Funding Target and Funding Shortfall

The Funding Target is the present value of benefits accrued as of the beginning of the plan year and the Funding Shortfall is the excess of the Funding Target over the Actuarial Value of Assets (reduced by the Credit Balance). The initial Funding Shortfall is amortized over seven years.

In subsequent years, the Funding Shortfall less the present value of prior year amortization installments is amortized over seven years, and added to any prior year amortization installments.

Segment rates are adjusted as necessary to fall within the specified corridor of the corresponding 25-year average of segment rates for the period ending September 30 of the calendar year preceding the first day of the plan year. The specified corridor is:

<u>Plan Year</u>	<u>Corridor</u>
Through 2020	90% - 110%
2021	85% - 115%
2022	80% - 120%
2023	75% - 125%
2024 and later	70% - 130%

The adjustments to fall within the specified corridor of the 25-year average of segment rates apply for determining the minimum required contribution and related funded percentages. They do not apply for determining the maximum tax deductible contribution or certain other situations.

SECTION VII

ACTUARIAL METHODS

At-Risk Determination

The At-Risk Funding Target is determined by assuming that participants eligible to retire in the current plan year and next 10 plan years retire at the earliest possible date, but not before the end of the plan year. All participants are assumed to elect the optional form resulting in the highest possible present value.

A load is added to the At-Risk Funding Target and At-Risk Target Normal Cost when a plan is At-Risk in at least two years during the preceding four years. The load increases the At-Risk Funding Target by 4% of the Not At-Risk Funding Target plus \$700 per participant, and increases the At-Risk Target Normal Cost by 4% of the Not At-Risk Target Normal Cost.

The Funding Target and Target Normal Cost are calculated by multiplying the Not At-Risk values by 100% minus the Phase-In Percentage, plus the At-Risk values multiplied by the Phase-In Percentage.

Credit Balance

The Credit Balance consists of the Carryover Balance from excess contributions prior to the Pension Protection Act (PPA) of 2006, plus the Prefunding Balance from elected excess contributions after the PPA. Balances accumulate with interest and are reduced for amounts applied towards the Minimum Required Contribution, voluntary waivers by the plan sponsor, and compelled waivers to avoid benefit restrictions. The Actuarial Value of Assets is reduced by the Credit Balance to determine certain funded percentages and to determine the Funding Shortfall.

Asset Valuation Method

The Actuarial Value of Assets is determined using an annual average of the adjusted Fair Market Value of Assets with the earliest determination 24 months prior to the valuation date. The Fair Market Value of Assets in prior years is adjusted for contributions, benefit payments, expenses and expected earnings (not to exceed the third segment rate).

This is equivalent to the Fair Market Value of Assets, plus two-thirds of the (gain)/loss from the prior year, plus one-third of the (gain)/loss from the second preceding year. The (gain)/loss in each year is the difference between the expected and actual returns on the Fair Market Value of Assets.

The Actuarial Value of Assets is adjusted to be no less than 90% or no more than 110% of the Fair Market Value of Assets, as required by IRC Section 430(g)(3)(B)(iii).

Since the expected earnings assumption cannot exceed the third segment rate, over time, the method may produce an Actuarial Value of Assets slightly below the Fair Market Value of Assets.

The Actuarial Value of Assets for determining the Maximum Tax Deductible Contribution reflects interest rate stabilization rates for discounting contributions and limiting expected earnings.

SECTION VII

ACTUARIAL ASSUMPTIONS

Assumptions have been chosen to anticipate the long range experience of the Plan. Consistency among assumptions is important as each interacts with the others; equally important is the recognition of inflationary trends in the economy.

As the Enrolled Actuary for the Plan, I will certify to the reasonableness of these assumptions, in aggregate, as required by ERISA.

The actuarial assumptions used to compute Plan costs are:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of FUJIFILM Group Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Prudential Retirement Insurance and Annuity Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2019 and 2018, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules appearing on pages 14 and 15, as of and for the year ended December 31, 2019, are required by the Department of Labor (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis, and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements
December 31, 2019 and 2018**

Note 1 – Description of Plan

The following description of the FUJIFILM Group Pension Plan (the "Plan") provides only general information. Participants should refer to the summary Plan description for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan under which substantially all salaried employees of Fujifilm Imaging Colorants Inc. (the "Company"), who meet certain service requirements, are eligible to participate. The Plan was frozen as of December 31, 2006 in that no individual hired (or, except as otherwise provided within the plan document, rehired) after December 31, 2006 shall be eligible to participate in the Plan. Effective December 31, 2007, the Plan was amended to transfer all of the plan net assets of the PrimeSource Corporation Pension Plan and the FUJIFILM Hunt Chemicals U.S.A., Inc. Defined Benefit Plan and include substantially all salaried employees of PrimeSource Corporation and FUJIFILM Hunt Chemicals U.S.A., Inc. The Plan was amended to freeze the accrual of benefits as of December 31, 2007 for the employees of PrimeSource Corporation and FUJIFILM Hunt Chemicals U.S.A., Inc. The Plan is subject to the provisions of ERISA. The Board of Trustees is responsible for oversight of the Plan. Management of the Company determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

Pension Benefits

Participants are entitled to pension benefits upon attaining the normal retirement age (65) or the fifth anniversary of the date participation in the Plan commenced. The benefits for the Company's participants are as follows:

Benefit Schedule A: For all eligible employees who elected this schedule as of May 1, 1998, the benefit equals the greater of

- (i) 1.2% of Final Average Compensation ("FAC"), as defined, times years of service.
- (ii) 1.6% of FAC, times years of service, up to a maximum of 50% of Average Compensation, as defined, minus 1.6% of Primary Insurance Amount ("PIM"), as defined, times years of service, up to a maximum of 50% of PIM. This benefit is not applicable to bargaining groups.

Benefit Schedule B: For all eligible employees who elected this schedule as of May 1, 1998, and for all eligible employees hired on or after March 1, 1998, the benefit equals the sum of (i) and (ii):

- (i) The benefit determined under Benefit Schedule A based on average compensation and years of service as of April 30, 1998.
- (ii) The accumulation for each plan year of the sum of 1.2% of compensation up to the breakpoint plus 1.6% of compensation in excess of the breakpoint, as defined in the Plan.

Early Retirement Eligibility

Participants who retire from active employment and who have completed at least five years of vesting and have attained age 50 and whose age plus years of vesting equals 70 or more are eligible for early retirement.

Benefits are reduced by appropriate early retirement tables. For Benefit Schedule A there is a separate schedule for benefit part (i) or benefit part (ii). In general:

Benefits are unreduced for age 62 with 10 years of service.
Benefits are unreduced for Rule of 80 if at least age 55.

**FUJIFILM Group Pension Plan
Notes to Financial Statements
December 31, 2019 and 2018**

Note 1 – Description of Plan (continued)

For Benefit Schedule B, in general:

Benefits are unreduced for age 62 with 10 years of service.
Benefits are unreduced for Rule of 80 if at least age 58.

For vesting participants who separate from service prior to age 50 or prior to meeting Rule of 70, benefits are available when age plus vesting service equals 70 or more, but not earlier than age 50. Effective September 1, 2014, vesting participants with an accrued benefit with a present value exceeding \$5,000 and less than \$35,000, may elect to have the benefit paid as a lump sum, direct rollover to an eligible retirement plan, a single life annuity, or a 50% or 75% spousal survivor annuity.

Benefits are actuarially reduced from age 65 according to the schedule provided in the Plan document.

The Plan agreement contains additional provisions for participants who were also participants of the plans that were merged into this Plan.

Death Benefits

If a participant dies after earning a non-forfeitable right to accrued benefits but prior to the election of retirement benefits, the participant's current spouse shall receive an amount equal to the annuity payable during the joint lives of the participant and his spouse. If a participant dies after the election of retirement benefits, his beneficiary shall be entitled to any amount which may be payable under the form of benefit that the participant elected.

Note 2 – Summary of Significant Accounting Policies

Accounting Standards Update ("ASU")

On August 28, 2018, FASB issued ASU 2018-13, Disclosure Framework-Changes to the Disclosure Requirement for Fair Value Measurement (Topic 820). The ASU, which applies to all entities (including defined benefit plans), removes, modifies and adds fair value and/or net asset value ("NAV") related disclosures. The ASU is effective for years beginning after December 15, 2019. Certain of these amendments are prospective changes with the balance to be applied retrospectively. Early adoption is permitted; however, certain components of this ASU can be early adopted without delay. The Board of Trustees has not determined what impact the adoption of ASU 2018-13 will have, if any, on its financial statements.

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of the assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

**FUJIFILM Group Pension Plan
Notes to Financial Statements
December 31, 2019 and 2018**

Note 2 – Summary of Significant Accounting Policies (continued)

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company as provided by the Plan document. Certain administrative expenses of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net investment income.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Management of the Company determines the Plan's valuation policies utilizing information provided by the Plan's investment advisers, trustee and insurance company.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on the average of the employees' highest compensation for five consecutive years during their last ten years of service.

The accumulated plan benefits for active employees are based on the average of the employees' highest compensation for five consecutive years during their last ten years ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances (retirement, death, disability, or termination of employment) are included, to the extent that they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated plan benefits. The Plan's valuation date is the beginning of the year.

The actuarial present value of accumulated plan benefits is determined by an outside actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of January 1, 2020 and 2019, were (a) life expectancy of participants Pri-2012 Total Dataset Employee/Retiree with Scale MP-2019 (for 2019), and RP-2014 (adjusted to 2006) Total Dataset with Scale MP-2018 (for 2018) and (b) discount rates at 4.50% (for 2019) and 5.25% (for 2018).

The forgoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actual present value of accumulated plan benefits.

**FUJIFILM Group Pension Plan
Notes to Financial Statements
December 31, 2019 and 2018**

Note 2 – Summary of Significant Accounting Policies (continued)

Payment of Benefits

Benefit payments are recorded when paid by the Plan.

Note 3 – Funding Policy

Contributions to the Plan by the Company are based on the Projected Unit Credit Actuarial cost method and meet the funding requirements of ERISA. Amounts related to prior service cost are being amortized in accordance with ERISA over periods consistent with Section 412 of the Internal Revenue Code ("IRC"). The Company contributed \$1,865,500 and \$1,500,000 for the years ended December 31, 2019 and 2018, respectively. The Plan met the minimum funding requirements of ERISA as of December 31, 2019 and 2018.

Note 4 – Plan Termination

Although it has not expressed intent to do so, the Company has the right under the Plan to discontinue its contributions or to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. Government Agency) up to the applicable limitations (discussed below).
- c. All other vested benefits (that is, vested benefits not insured by the PBGC).
- d. All non-vested benefits.

Benefits to be provided via contracts under which Prudential is obligated to pay the benefits would be excluded for allocation purposes.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

**FUJIFILM Group Pension Plan
Notes to Financial Statements
December 31, 2019 and 2018**

Note 4 – Plan Termination (continued)

There is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2019, that ceiling is \$5,608 per month. The ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination, whichever comes later. For younger annuitants or those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some further time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

Note 5 – Certified Investments

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2019 and 2018, and net appreciation in the fair value of investments and interest and dividends for the years then ended, was obtained and derived from information supplied to the Plan administrator and certified as complete and accurate by Prudential Retirement Insurance and Annuity Company ("PRIAC") (the trustee of the Plan), except for the guaranteed deposit account.

Note 6 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
---------	---

Level 2	Inputs to the valuation methodology include:
---------	--

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.
---------	---

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

FUJIFILM Group Pension Plan
Notes to Financial Statements
December 31, 2019 and 2018

Note 6 – Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Pooled separate accounts: Valued at fair value based on the current market values of the underlying assets of the fund.

Guaranteed deposit account: Underlying assets supporting the guaranteed deposit account are pooled under the general assets of PRIAC. The guaranteed deposit account is not available in an exchange and active market. The underlying investments are principally comprised of investment grade: mortgage pools, corporate bonds and U.S. and foreign government bonds. Values are determined by quoted prices, market indexes, and bid and asked criteria, and discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019 and 2018:

Investments at Fair Value as of December 31, 2019

Note 7 – Investment Contract with Insurance Company

The Plan entered into a non-benefit-responsive investment contract with PRIAC which maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and certain administrative expenses.

The contract with PRIAC for the guaranteed deposit account was executed in 2011 and is cancelable by either party with proper notice. Based on options taken and other criteria at termination of the contract, there could be limitations on the amounts withdrawn each year. Participant accounts are credited with a fixed interest rate amount that is adjusted annually for results of the underlying assets of the guaranteed deposit account. The fair value of the guaranteed deposit account at December 31, 2019 and 2018 was \$4,715,936 and \$4,568,095, respectively. The crediting interest rate is based on a formula agreed upon with PRIAC. The credited rates to participant investments are adjusted, at times, for actual returns, prior year's credited rate, and more adjustments. However, credited rates are subject to certain minimum returns, which did not apply for 2019 and 2018. Such interest rates are reviewed annually for resetting. The guaranteed deposit account does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 8 – Accumulated Plan Benefits

The accumulated plan benefits of the Plan as of December 31, 2019 and 2018 are as follows:

Actuarial present value of accumulated plan benefits:

	<u>2019</u>	<u>2018</u>

Note 8 – Accumulated Plan Benefits (continued)

In October 2019, the Plan purchased an annuity contract for \$3,179,425 covering 76 participants.

In 2019, the changes in actuarial assumptions principally comprised of a change in the mortality table from the RP-2014 Total Dataset (adjusted to 2006) Mortality Table with Scale MP-2018 to the Pri-2012 Total Dataset Employee/Retiree with Scale MP-2019. In 2018, the changes in actuarial assumptions principally comprised of a change in the mortality table from the RP-2014 Total Dataset (adjusted to 2006) Mortality Table with Scale MP-2017 to the RP-2014 Total Dataset (adjusted to 2006) Mortality Table with Scale MP-2018.

Note 9 – Tax Status

The IRS has determined and informed the Company by a letter dated August 27, 2012, that the Plan, as then designed, was in accordance with the applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The trustees of the Plan have analyzed the tax positions taken by the Plan, and have concluded that as of December 31, 2019, no uncertain positions are taken or are expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 10 – Related Party Transactions

Certain Plan investments are managed by PRIAC, and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net investment income, as they are paid by revenue sharing, rather than direct payment. As described in Note 2, the Plan made direct payments to the third party administrator of \$98,784 and \$110,934 for the years ended December 31, 2019 and 2018, respectively; which were not covered by revenue sharing.

Note 11 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risks associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

**FUJIFILM Group Pension Plan
Notes to Financial Statements
December 31, 2019 and 2018**

Note 12 – Benefits Payable

As of the date the financial statements were available to be issued, the Company had not completed the discrimination testing for the Plan, nor the affiliated plans in the controlled group (as defined), for the years ended December 31, 2019, 2016, 2015 and 2014. Management believes any effects resulting from the above testing would not be material to the financial statements.

Note 13 – Subsequent Events

COVID-19 pandemic

The impact of the COVID-19 pandemic outbreak continues to evolve. Said pandemic has adversely affected net global economic activity and has greatly contributed to a significant deterioration and then recovery in financial markets as of the date of these financial statements were issued. The potential that such instability in the financial markets could continue is more than remote as the near-term election cycle could accelerate such instability. Because the values of the Plan's investments have and will fluctuate in response to these changing market conditions, the impact of this situation on the Plan (and the Company) and its future results and financial position is not presently determinable.

General

The Plan has evaluated subsequent events for potential recognition or disclosure in the financial statements through October 12, 2020, the date the financial statements were available to be issued.

Independent Auditor's Report

To the Board of Trustees
FUJIFILM Group Pension Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of FUJIFILM Group Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Prudential Retirement Insurance and Annuity Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2019 and 2018, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules appearing on pages 14 and 15, as of and for the year ended December 31, 2019, are required by the Department of Labor (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis, and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

Note 1 – Description of Plan

The following description of the FUJIFILM Group Pension Plan (the "Plan") provides only general information. Participants should refer to the summary Plan description for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan under which substantially all salaried employees of Fujifilm Imaging Colorants Inc. (the "Company"), who meet certain service requirements, are eligible to participate. The Plan was frozen as of December 31, 2006 in that no individual hired (or, except as otherwise provided within the plan document, rehired) after December 31, 2006 shall be eligible to participate in the Plan. Effective December 31, 2007, the Plan was amended to transfer all of the plan net assets of the PrimeSource Corporation Pension Plan and the FUJIFILM Hunt Chemicals U.S.A., Inc. Defined Benefit Plan and include substantially all salaried employees of PrimeSource Corporation and FUJIFILM Hunt Chemicals U.S.A., Inc. The Plan was amended to freeze the accrual of benefits as of December 31, 2007 for the employees of PrimeSource Corporation and FUJIFILM Hunt Chemicals U.S.A., Inc. The Plan is subject to the provisions of ERISA. The Board of Trustees is responsible for oversight of the Plan. Management of the Company determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

Pension Benefits

Participants are entitled to pension benefits upon attaining the normal retirement age (65) or the fifth anniversary of the date participation in the Plan commenced. The benefits for the Company's participants are as follows:

Benefit Schedule A: For all eligible employees who elected this schedule as of May 1, 1998, the benefit equals the greater of

- (i) 1.2% of Final Average Compensation ("FAC"), as defined, times years of service.
- (ii) 1.6% of FAC, times years of service, up to a maximum of 50% of Average Compensation, as defined, minus 1.6% of Primary Insurance Amount ("PIM"), as defined, times years of service, up to a maximum of 50% of PIM. This benefit is not applicable to bargaining groups.

Benefit Schedule B: For all eligible employees who elected this schedule as of May 1, 1998, and for all eligible employees hired on or after March 1, 1998, the benefit equals the sum of (i) and (ii):

- (i) The benefit determined under Benefit Schedule A based on average compensation and years of service as of April 30, 1998.
- (ii) The accumulation for each plan year of the sum of 1.2% of compensation up to the breakpoint plus 1.6% of compensation in excess of the breakpoint, as defined in the Plan.

Early Retirement Eligibility

Participants who retire from active employment and who have completed at least five years of vesting and have attained age 50 and whose age plus years of vesting equals 70 or more are eligible for early retirement.

Benefits are reduced by appropriate early retirement tables. For Benefit Schedule A there is a separate schedule for benefit part (i) or benefit part (ii). In general:

Benefits are unreduced for age 62 with 10 years of service.
Benefits are unreduced for Rule of 80 if at least age 55.

**FUJIFILM Group Pension Plan
Notes to Financial Statements
December 31, 2019 and 2018**

Note 1 – Description of Plan (continued)

For Benefit Schedule B, in general:

Benefits are unreduced for age 62 with 10 years of service.
Benefits are unreduced for Rule of 80 if at least age 58.

For vesting participants who separate from service prior to age 50 or prior to meeting Rule of 70, benefits are available when age plus vesting service equals 70 or more, but not earlier than age 50. Effective September 1, 2014, vesting participants with an accrued benefit with a present value exceeding \$5,000 and less than \$35,000, may elect to have the benefit paid as a lump sum, direct rollover to an eligible retirement plan, a single life annuity, or a 50% or 75% spousal survivor annuity.

Benefits are actuarially reduced from age 65 according to the schedule provided in the Plan document.

The Plan agreement contains additional provisions for participants who were also participants of the plans that were merged into this Plan.

Death Benefits

If a participant dies after earning a non-forfeitable right to accrued benefits but prior to the election of retirement benefits, the participant's current spouse shall receive an amount equal to the annuity payable during the joint lives of the participant and his spouse. If a participant dies after the election of retirement benefits, his beneficiary shall be entitled to any amount which may be payable under the form of benefit that the participant elected.

Note 2 – Summary of Significant Accounting Policies

Accounting Standards Update ("ASU")

On August 28, 2018, FASB issued ASU 2018-13, Disclosure Framework-Changes to the Disclosure Requirement for Fair Value Measurement (Topic 820). The ASU, which applies to all entities (including defined benefit plans), removes, modifies and adds fair value and/or net asset value ("NAV") related disclosures. The ASU is effective for years beginning after December 15, 2019. Certain of these amendments are prospective changes with the balance to be applied retrospectively. Early adoption is permitted; however, certain components of this ASU can be early adopted without delay. The Board of Trustees has not determined what impact the adoption of ASU 2018-13 will have, if any, on its financial statements.

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of the assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

**FUJIFILM Group Pension Plan
Notes to Financial Statements
December 31, 2019 and 2018**

Note 2 – Summary of Significant Accounting Policies (continued)

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company as provided by the Plan document. Certain administrative expenses of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net investment income.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Management of the Company determines the Plan's valuation policies utilizing information provided by the Plan's investment advisers, trustee and insurance company.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on the average of the employees' highest compensation for five consecutive years during their last ten years of service.

The accumulated plan benefits for active employees are based on the average of the employees' highest compensation for five consecutive years during their last ten years ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances (retirement, death, disability, or termination of employment) are included, to the extent that they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated plan benefits. The Plan's valuation date is the beginning of the year.

The actuarial present value of accumulated plan benefits is determined by an outside actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of January 1, 2020 and 2019, were (a) life expectancy of participants Pri-2012 Total Dataset Employee/Retiree with Scale MP-2019 (for 2019), and RP-2014 (adjusted to 2006) Total Dataset with Scale MP-2018 (for 2018) and (b) discount rates at 4.50% (for 2019) and 5.25% (for 2018).

The forgoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actual present value of accumulated plan benefits.

**FUJIFILM Group Pension Plan
Notes to Financial Statements
December 31, 2019 and 2018**

Note 2 – Summary of Significant Accounting Policies (continued)

Payment of Benefits

Benefit payments are recorded when paid by the Plan.

Note 3 – Funding Policy

Contributions to the Plan by the Company are based on the Projected Unit Credit Actuarial cost method and meet the funding requirements of ERISA. Amounts related to prior service cost are being amortized in accordance with ERISA over periods consistent with Section 412 of the Internal Revenue Code ("IRC"). The Company contributed \$1,865,500 and \$1,500,000 for the years ended December 31, 2019 and 2018, respectively. The Plan met the minimum funding requirements of ERISA as of December 31, 2019 and 2018.

Note 4 – Plan Termination

Although it has not expressed intent to do so, the Company has the right under the Plan to discontinue its contributions or to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. Government Agency) up to the applicable limitations (discussed below).
- c. All other vested benefits (that is, vested benefits not insured by the PBGC).
- d. All non-vested benefits.

Benefits to be provided via contracts under which Prudential is obligated to pay the benefits would be excluded for allocation purposes.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

**FUJIFILM Group Pension Plan
Notes to Financial Statements
December 31, 2019 and 2018**

Note 4 – Plan Termination (continued)

There is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2019, that ceiling is \$5,608 per month. The ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination, whichever comes later. For younger annuitants or those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some further time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

Note 5 – Certified Investments

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2019 and 2018, and net appreciation in the fair value of investments and interest and dividends for the years then ended, was obtained and derived from information supplied to the Plan administrator and certified as complete and accurate by Prudential Retirement Insurance and Annuity Company ("PRIAC") (the trustee of the Plan), except for the guaranteed deposit account.

Note 6 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
---------	---

Level 2	Inputs to the valuation methodology include:
---------	--

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.
---------	---

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 6 – Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Pooled separate accounts: Valued at fair value based on the current market values of the underlying assets of the fund.

Guaranteed deposit account: Underlying assets supporting the guaranteed deposit account are pooled under the general assets of PRIAC. The guaranteed deposit account is not available in an exchange and active market. The underlying investments are principally comprised of investment grade: mortgage pools, corporate bonds and U.S. and foreign government bonds. Values are determined by quoted prices, market indexes, and bid and asked criteria, and discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019 and 2018:

Note 7 – Investment Contract with Insurance Company

The Plan entered into a non-benefit-responsive investment contract with PRIAC which maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and certain administrative expenses.

The contract with PRIAC for the guaranteed deposit account was executed in 2011 and is cancelable by either party with proper notice. Based on options taken and other criteria at termination of the contract, there could be limitations on the amounts withdrawn each year. Participant accounts are credited with a fixed interest rate amount that is adjusted annually for results of the underlying assets of the guaranteed deposit account. The fair value of the guaranteed deposit account at December 31, 2019 and 2018 was \$4,715,936 and \$4,568,095, respectively. The crediting interest rate is based on a formula agreed upon with PRIAC. The credited rates to participant investments are adjusted, at times, for actual returns, prior year's credited rate, and more adjustments. However, credited rates are subject to certain minimum returns, which did not apply for 2019 and 2018. Such interest rates are reviewed annually for resetting. The guaranteed deposit account does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 8 – Accumulated Plan Benefits

The accumulated plan benefits of the Plan as of December 31, 2019 and 2018 are as follows:

Actuarial present value of accumulated plan benefits:

Note 8 – Accumulated Plan Benefits (continued)

In October 2019, the Plan purchased an annuity contract for \$3,179,425 covering 76 participants.

In 2019, the changes in actuarial assumptions principally comprised of a change in the mortality table from the RP-2014 Total Dataset (adjusted to 2006) Mortality Table with Scale MP-2018 to the Pri-2012 Total Dataset Employee/Retiree with Scale MP-2019. In 2018, the changes in actuarial assumptions principally comprised of a change in the mortality table from the RP-2014 Total Dataset (adjusted to 2006) Mortality Table with Scale MP-2017 to the RP-2014 Total Dataset (adjusted to 2006) Mortality Table with Scale MP-2018.

Note 9 – Tax Status

The IRS has determined and informed the Company by a letter dated August 27, 2012, that the Plan, as then designed, was in accordance with the applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The trustees of the Plan have analyzed the tax positions taken by the Plan, and have concluded that as of December 31, 2019, no uncertain positions are taken or are expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 10 – Related Party Transactions

Certain Plan investments are managed by PRIAC, and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net investment income, as they are paid by revenue sharing, rather than direct payment. As described in Note 2, the Plan made direct payments to the third party administrator of \$98,784 and \$110,934 for the years ended December 31, 2019 and 2018, respectively; which were not covered by revenue sharing.

Note 11 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risks associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

**FUJIFILM Group Pension Plan
Notes to Financial Statements
December 31, 2019 and 2018**

Note 12 – Benefits Payable

As of the date the financial statements were available to be issued, the Company had not completed the discrimination testing for the Plan, nor the affiliated plans in the controlled group (as defined), for the years ended December 31, 2019, 2016, 2015 and 2014. Management believes any effects resulting from the above testing would not be material to the financial statements.

Note 13 – Subsequent Events

COVID-19 pandemic

The impact of the COVID-19 pandemic outbreak continues to evolve. Said pandemic has adversely affected net global economic activity and has greatly contributed to a significant deterioration and then recovery in financial markets as of the date of these financial statements were issued. The potential that such instability in the financial markets could continue is more than remote as the near-term election cycle could accelerate such instability. Because the values of the Plan's investments have and will fluctuate in response to these changing market conditions, the impact of this situation on the Plan (and the Company) and its future results and financial position is not presently determinable.

General

The Plan has evaluated subsequent events for potential recognition or disclosure in the financial statements through October 12, 2020, the date the financial statements were available to be issued.

Independent Auditor's Report

To the Board of Trustees
FUJIFILM Group Pension Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of FUJIFILM Group Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Prudential Retirement Insurance and Annuity Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2019 and 2018, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules appearing on pages 14 and 15, as of and for the year ended December 31, 2019, are required by the Department of Labor (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis, and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 – Description of Plan

The following description of the FUJIFILM Group Pension Plan (the "Plan") provides only general information. Participants should refer to the summary Plan description for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan under which substantially all salaried employees of Fujifilm Imaging Colorants Inc. (the "Company"), who meet certain service requirements, are eligible to participate. The Plan was frozen as of December 31, 2006 in that no individual hired (or, except as otherwise provided within the plan document, rehired) after December 31, 2006 shall be eligible to participate in the Plan. Effective December 31, 2007, the Plan was amended to transfer all of the plan net assets of the PrimeSource Corporation Pension Plan and the FUJIFILM Hunt Chemicals U.S.A., Inc. Defined Benefit Plan and include substantially all salaried employees of PrimeSource Corporation and FUJIFILM Hunt Chemicals U.S.A., Inc. The Plan was amended to freeze the accrual of benefits as of December 31, 2007 for the employees of PrimeSource Corporation and FUJIFILM Hunt Chemicals U.S.A., Inc. The Plan is subject to the provisions of ERISA. The Board of Trustees is responsible for oversight of the Plan. Management of the Company determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

Pension Benefits

Participants are entitled to pension benefits upon attaining the normal retirement age (65) or the fifth anniversary of the date participation in the Plan commenced. The benefits for the Company's participants are as follows:

Benefit Schedule A: For all eligible employees who elected this schedule as of May 1, 1998, the benefit equals the greater of

- (i) 1.2% of Final Average Compensation ("FAC"), as defined, times years of service.
- (ii) 1.6% of FAC, times years of service, up to a maximum of 50% of Average Compensation, as defined, minus 1.6% of Primary Insurance Amount ("PIM"), as defined, times years of service, up to a maximum of 50% of PIM. This benefit is not applicable to bargaining groups.

Benefit Schedule B: For all eligible employees who elected this schedule as of May 1, 1998, and for all eligible employees hired on or after March 1, 1998, the benefit equals the sum of (i) and (ii):

- (i) The benefit determined under Benefit Schedule A based on average compensation and years of service as of April 30, 1998.
- (ii) The accumulation for each plan year of the sum of 1.2% of compensation up to the breakpoint plus 1.6% of compensation in excess of the breakpoint, as defined in the Plan.

Early Retirement Eligibility

Participants who retire from active employment and who have completed at least five years of vesting and have attained age 50 and whose age plus years of vesting equals 70 or more are eligible for early retirement.

Benefits are reduced by appropriate early retirement tables. For Benefit Schedule A there is a separate schedule for benefit part (i) or benefit part (ii). In general:

Benefits are unreduced for age 62 with 10 years of service.
Benefits are unreduced for Rule of 80 if at least age 55.

**FUJIFILM Group Pension Plan
Notes to Financial Statements
December 31, 2019 and 2018**

Note 1 – Description of Plan (continued)

For Benefit Schedule B, in general:

Benefits are unreduced for age 62 with 10 years of service.
Benefits are unreduced for Rule of 80 if at least age 58.

For vesting participants who separate from service prior to age 50 or prior to meeting Rule of 70, benefits are available when age plus vesting service equals 70 or more, but not earlier than age 50. Effective September 1, 2014, vesting participants with an accrued benefit with a present value exceeding \$5,000 and less than \$35,000, may elect to have the benefit paid as a lump sum, direct rollover to an eligible retirement plan, a single life annuity, or a 50% or 75% spousal survivor annuity.

Benefits are actuarially reduced from age 65 according to the schedule provided in the Plan document.

The Plan agreement contains additional provisions for participants who were also participants of the plans that were merged into this Plan.

Death Benefits

If a participant dies after earning a non-forfeitable right to accrued benefits but prior to the election of retirement benefits, the participant's current spouse shall receive an amount equal to the annuity payable during the joint lives of the participant and his spouse. If a participant dies after the election of retirement benefits, his beneficiary shall be entitled to any amount which may be payable under the form of benefit that the participant elected.

Note 2 – Summary of Significant Accounting Policies

Accounting Standards Update ("ASU")

On August 28, 2018, FASB issued ASU 2018-13, Disclosure Framework-Changes to the Disclosure Requirement for Fair Value Measurement (Topic 820). The ASU, which applies to all entities (including defined benefit plans), removes, modifies and adds fair value and/or net asset value ("NAV") related disclosures. The ASU is effective for years beginning after December 15, 2019. Certain of these amendments are prospective changes with the balance to be applied retrospectively. Early adoption is permitted; however, certain components of this ASU can be early adopted without delay. The Board of Trustees has not determined what impact the adoption of ASU 2018-13 will have, if any, on its financial statements.

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of the assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

FUJIFILM Group Pension Plan
Notes to Financial Statements
December 31, 2019 and 2018

Note 2 – Summary of Significant Accounting Policies (continued)

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company as provided by the Plan document. Certain administrative expenses of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net investment income.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Management of the Company determines the Plan's valuation policies utilizing information provided by the Plan's investment advisers, trustee and insurance company.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on the average of the employees' highest compensation for five consecutive years during their last ten years of service.

The accumulated plan benefits for active employees are based on the average of the employees' highest compensation for five consecutive years during their last ten years ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances (retirement, death, disability, or termination of employment) are included, to the extent that they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated plan benefits. The Plan's valuation date is the beginning of the year.

The actuarial present value of accumulated plan benefits is determined by an outside actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of January 1, 2020 and 2019, were (a) life expectancy of participants Pri-2012 Total Dataset Employee/Retiree with Scale MP-2019 (for 2019), and RP-2014 (adjusted to 2006) Total Dataset with Scale MP-2018 (for 2018) and (b) discount rates at 4.50% (for 2019) and 5.25% (for 2018).

The forgoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actual present value of accumulated plan benefits.

Note 2 – Summary of Significant Accounting Policies (continued)

Payment of Benefits

Benefit payments are recorded when paid by the Plan.

Note 3 – Funding Policy

Contributions to the Plan by the Company are based on the Projected Unit Credit Actuarial cost method and meet the funding requirements of ERISA. Amounts related to prior service cost are being amortized in accordance with ERISA over periods consistent with Section 412 of the Internal Revenue Code ("IRC"). The Company contributed \$1,865,500 and \$1,500,000 for the years ended December 31, 2019 and 2018, respectively. The Plan met the minimum funding requirements of ERISA as of December 31, 2019 and 2018.

Note 4 – Plan Termination

Although it has not expressed intent to do so, the Company has the right under the Plan to discontinue its contributions or to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. Government Agency) up to the applicable limitations (discussed below).
- c. All other vested benefits (that is, vested benefits not insured by the PBGC).
- d. All non-vested benefits.

Benefits to be provided via contracts under which Prudential is obligated to pay the benefits would be excluded for allocation purposes.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Note 4 – Plan Termination (continued)

There is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2019, that ceiling is \$5,608 per month. The ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination, whichever comes later. For younger annuitants or those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some further time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

Note 5 – Certified Investments

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2019 and 2018, and net appreciation in the fair value of investments and interest and dividends for the years then ended, was obtained and derived from information supplied to the Plan administrator and certified as complete and accurate by Prudential Retirement Insurance and Annuity Company ("PRIAC") (the trustee of the Plan), except for the guaranteed deposit account.

Note 6 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
---------	---

Level 2	Inputs to the valuation methodology include:
---------	--

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.
---------	---

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 6 – Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Pooled separate accounts: Valued at fair value based on the current market values of the underlying assets of the fund.

Guaranteed deposit account: Underlying assets supporting the guaranteed deposit account are pooled under the general assets of PRIAC. The guaranteed deposit account is not available in an exchange and active market. The underlying investments are principally comprised of investment grade: mortgage pools, corporate bonds and U.S. and foreign government bonds. Values are determined by quoted prices, market indexes, and bid and asked criteria, and discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019 and 2018:

Note 7 – Investment Contract with Insurance Company

The Plan entered into a non-benefit-responsive investment contract with PRIAC which maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and certain administrative expenses.

The contract with PRIAC for the guaranteed deposit account was executed in 2011 and is cancelable by either party with proper notice. Based on options taken and other criteria at termination of the contract, there could be limitations on the amounts withdrawn each year. Participant accounts are credited with a fixed interest rate amount that is adjusted annually for results of the underlying assets of the guaranteed deposit account. The fair value of the guaranteed deposit account at December 31, 2019 and 2018 was \$4,715,936 and \$4,568,095, respectively. The crediting interest rate is based on a formula agreed upon with PRIAC. The credited rates to participant investments are adjusted, at times, for actual returns, prior year's credited rate, and more adjustments. However, credited rates are subject to certain minimum returns, which did not apply for 2019 and 2018. Such interest rates are reviewed annually for resetting. The guaranteed deposit account does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 8 – Accumulated Plan Benefits

The accumulated plan benefits of the Plan as of December 31, 2019 and 2018 are as follows:

Actuarial present value of accumulated plan benefits:

	<u>2019</u>	<u>2018</u>
Vested benefits:		
Participants receiving benefits	\$ 57,667,362	\$ 57,648,583

Note 8 – Accumulated Plan Benefits (continued)

In October 2019, the Plan purchased an annuity contract for \$3,179,425 covering 76 participants.

In 2019, the changes in actuarial assumptions principally comprised of a change in the mortality table from the RP-2014 Total Dataset (adjusted to 2006) Mortality Table with Scale MP-2018 to the Pri-2012 Total Dataset Employee/Retiree with Scale MP-2019. In 2018, the changes in actuarial assumptions principally comprised of a change in the mortality table from the RP-2014 Total Dataset (adjusted to 2006) Mortality Table with Scale MP-2017 to the RP-2014 Total Dataset (adjusted to 2006) Mortality Table with Scale MP-2018.

Note 9 – Tax Status

The IRS has determined and informed the Company by a letter dated August 27, 2012, that the Plan, as then designed, was in accordance with the applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The trustees of the Plan have analyzed the tax positions taken by the Plan, and have concluded that as of December 31, 2019, no uncertain positions are taken or are expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 10 – Related Party Transactions

Certain Plan investments are managed by PRIAC, and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net investment income, as they are paid by revenue sharing, rather than direct payment. As described in Note 2, the Plan made direct payments to the third party administrator of \$98,784 and \$110,934 for the years ended December 31, 2019 and 2018, respectively; which were not covered by revenue sharing.

Note 11 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risks associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

**FUJIFILM Group Pension Plan
Notes to Financial Statements

Note 12 – Benefits Payable

As of the date the financial statements were available to be issued, the Company had not completed the discrimination testing for the Plan, nor the affiliated plans in the controlled group (as defined), for the years ended December 31, 2019, 2016, 2015 and 2014. Management believes any effects resulting from the above testing would not be material to the financial statements.

Note 13 – Subsequent Events

COVID-19 pandemic

The impact of the COVID-19 pandemic outbreak continues to evolve. Said pandemic has adversely affected net global economic activity and has greatly contributed to a significant deterioration and then recovery in financial markets as of the date of these financial statements were issued. The potential that such instability in the financial markets could continue is more than remote as the near-term election cycle could accelerate such instability. Because the values of the Plan's investments have and will fluctuate in response to these changing market conditions, the impact of this situation on the Plan (and the Company) and its future results and financial position is not presently determinable.

General

The Plan has evaluated subsequent events for potential recognition or disclosure in the financial statements through October 12, 2020, the date the financial statements were available to be issued.
