To the Participants and Plan Administrator of
Reedy Industries, Inc. 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Reedy Industries, Inc. 401(k) Plan ("Plan"), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statement of changes in net assets available for benefits for the year ended December 31, 2019, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note B. This includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2019 and 2018 that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matters

The supplemental schedule of assets (held at end of year) for the year ended December 31, 2019 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer Opinion* paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America, and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

A. Description of Plan

The following description of the Reedy Industries, Inc. ("Company") 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Company adopted Fidelity's Volume Submitter Plan which is a defined contribution plan covering all employees who are eligible and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income and Security Act of 1974.

Contributions. Each year, participants may contribute up to 60 percent of their pretax annual compensation up to $19,000 in 2019 and $18,500 in 2018, as defined in the Plan. The Plan also provides that participants who are age 50 or older, and who are making contributions to the Plan may also make a catch-up contribution (not previously made) of up to $6,000 in 2019 and 2018. Participants may also contribute amounts representing rollovers from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers twenty-four mutual funds as investment options for participants. The Company may make contributions for a plan year designated as "qualified nonelective contributions" and allocate them to non-highly compensated employees to help the Plan pass one or more annually required Internal Revenue Code nondiscrimination tests. Participants will be 100 percent vested in these contributions and may not request a hardship withdrawal of these contributions. Contributions are subject to certain limitations.

Participant Accounts. Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, (b) Plan earnings, and (c) is charged with an allocation of administrative expenses. Allocations are based on participant earnings on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting. Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contributions portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credit service.

Notes Receivable from Participants. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of 50 percent of the vested portion of their account balance, not to exceed $50,000. The notes are secured by the balance in the participant's account and bear interest at a reasonable rate determined by the Plan Administrator. The note is required to be paid (principal and interest) in amortized level payments, not less frequently than quarterly, over a period not extending beyond five years from the date of the note; provided, however, that if the proceeds of the note will be used to purchase a principal residence of the participant, the loan does not need to be repaid in level payments.

Payments of Benefits. On termination of service due to death, disability or retirement, a participant or designated beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or installments. On termination of employment, participants can either receive a lump-sum payment or rollover to another plan. Alternatively, participants can choose to defer receipt of their distribution until required by law to receive minimum required distributions. However, if the participant's vested account balance is $5,000 or less, the balance will be distributed in a lump-sum payment.

A. Description of Plan (continued)

Forfeited Accounts. Forfeitures are retained in the Plan and can be used to pay administrative expenses or can be used to reduce future Company contributions payable under the Plan. For the years ended December 31, 2019 and 2018, forfeited non-vested accounts totaled $934 and $2,845, respectively. During 2019, $2,845 was used to reduce Company contributions payable to the Plan.

B. Summary of Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared under the modified cash basis of accounting. The modified cash basis of accounting is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Under the cash basis of accounting, income is recorded when received and expenses are recorded when paid. The modification is for the recording of investments at fair value rather than on a comprehensive cash basis of reporting as ascribed to in the auditor's report.

Investment Valuation and Income Recognition
Investments are reported at fair value or contract value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note G for discussion of fair value measurements.

The Plan holds an investment in a common collective trust fund (the "Fidelity Managed Income Portfolio Class I" or "MIP"). The investment in the MIP is presented at fair value, which reflects the NAV of the fund. The NAV of the MIP is based on the fair value of the underlying securities plus the contract value of the fully benefit-responsive wrapper contract. The MIP's NAV represents the Plan's fair value since this is the amount at which the Plan transacts with the fund. A participant's ownership of the MIP is represented by units. Units are issued and redeemed daily at the MIP's constant NAV of $1.00 per unit. Although it is the policy of the MIP to use its best efforts to maintain a stable NAV of $1.00 per unit, there is no guarantee that the MIP will be able to maintain that value. The MIP allows for daily liquidity with no additional notice required for redemption.

The MIP is unlikely to maintain a stable NAV if, for any reason, it cannot obtain or maintain wrap contracts covering all of its underlying assets that are not otherwise invested in money market funds. In the event that an issuer of a wrap contract fails to perform as intended, the MIP's NAV may decline if the market value of its assets declines. Plan management believes the occurrence of events and circumstances that would cause the MIP to transact at less than NAV is not probable.

Payment of Benefits
Benefits are recorded when paid.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded for the year ended December 31, 2019. If a participant ceases to make loan repayments and the Plan Administrator deems the participant to be in default, the participant loan is reduced, and a benefit payment is recorded.

B. Summary of Accounting Policies (continued)

Risks and Uncertainties

The Plan provides for various investment options in a combination of mutual funds to the participants. The participants' investments in these securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risk in the near term could materially affect participants' account balances and the amounts reported in the future Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Estimates

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts and disclosures. Actual results could differ from those estimates.

C. Unaudited Information - Certified Investments and Notes Receivable from Participants

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2019 and 2018, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2019, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee of the plan.

D. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in the employer contributions in their account.

E. Tax Status

The Plan sponsor adopted the prototype Plan under a master trust. The IRS has determined and informed Fidelity Management Trust Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified, and the related trust is tax-exempt. The Plan Administrator has analyzed tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

F. Related Party Transactions

The Plan's investment portfolio includes shares of mutual funds managed by Fidelity Investments. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Additionally, in 2018, the Company hired Wintrust as a fiduciary and investment advisor for the Plan. Fees paid by the Plan for investment management services provided by Wintrust and Plan administrative services provided by Fidelity amounted to $49,007 for the year ended December 31, 2019.

G. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, if fair value focuses on the price that would be received to sell the asset or paid to transfer the liability regardless of whether an observable liquid market price existed (an exit price). An exit price valuation will include margins for risk even if they are not observable. As the Plan is released from risk, the margins for risk will also be released through net realized capital gains (losses) in changes in net assets. Refer to Note B for details on the procedures used to value investments in common collective trust funds measured at NAV.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1- Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. Inputs to the valuation methodology include quoted prices for similar assets or liabilities in inactive markets.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement. Level 3 assets and liabilities measured at fair value are based on one or more of the three valuation techniques:

- Market approach – Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.
- Cost approach – Amount that would be required to replace the service capacity of an asset (replacement cost).

G. Fair Value Measurements (continued)

- Income approach – Techniques that convert future amounts to a single present amount based on market expectations (including present value techniques, option pricing models, and lattice models).

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds: Valued at the net asset value of shares (NAV) held by the Plan at year end.

Interest bearing cash: Valued at quoted market prices.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019 and 2018:

	Assets at Fair Value as of December 31, 2019			
	Total	Level 1	Level 2	Level 3

such investments are intended to permit reconciliation of the fair value hierarchy to the investments at fair value line item presented in the statement of net assets available for benefits.

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

H. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available per the financial statements at December 31, 2019 and December 31, 2018 to Form 5500.

	2019	2018
Net assets available for benefits per the financial statements	$ 19,809,494	$ 18,154,816
Adjustment from NAV to fair value for fully benefit-responsive investment contracts	8,721	(13,791)
Net Assets per the Form 5500	$ 19,818,215	$ 18,141,025

Reconciliation of Net Income to Form 5500

The following is a reconciliation of net income per the financial statements at December 31, 2019 to Form 5500.

Net increase per the financial statements	$ 1,654,678
Plus: 2019 Adjustment from NAV to fair value for fully benefit-responsive investment contracts	8,721
Less: 2018 Adjustment from NAV to fair value for fully benefit-responsive investment contracts	(13,791)
Net income per Form 5500	$ 1,677,190

I. Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 9, 2020, which is the date the financial statements were available to be issued.

On January 30, 2020, the World Health Organization (“WHO”) announced a global health emergency stemming from a new strain of coronavirus that was spreading globally (the “COVID-19 outbreak”). On March 11, 2020, the WHO classified the COVID-19 outbreak as a pandemic, triggering volatility in financial markets and a significant negative impact on the global economy. As a result, there was initially a decline in fair value of the Plan’s investment portfolio subsequent to December 31, 2019. However, as of the date of this report, the Plan’s investment portfolio has rebounded and is showing a net increase in fair value since December 31, 2019. Because the values of the Plan’s individual investments have and will fluctuate in response to changing market conditions, the future impact of the COVID-19 outbreak, if any, continues to evolve as of the date of this report.

To the Participants and Plan Administrator of
Reedy Industries, Inc. 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Reedy Industries, Inc. 401(k) Plan ("Plan"), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statement of changes in net assets available for benefits for the year ended December 31, 2019, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note B. This includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2019 and 2018 that the information provided to the Plan administrator by the trustee is complete and accurate.

A. Description of Plan

The following description of the Reedy Industries, Inc. ("Company") 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Company adopted Fidelity's Volume Submitter Plan which is a defined contribution plan covering all employees who are eligible and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income and Security Act of 1974.

Contributions. Each year, participants may contribute up to 60 percent of their pretax annual compensation up to $19,000 in 2019 and $18,500 in 2018, as defined in the Plan. The Plan also provides that participants who are age 50 or older, and who are making contributions to the Plan may also make a catch-up contribution (not previously made) of up to $6,000 in 2019 and 2018. Participants may also contribute amounts representing rollovers from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers twenty-four mutual funds as investment options for participants. The Company may make contributions for a plan year designated as "qualified nonelective contributions" and allocate them to non-highly compensated employees to help the Plan pass one or more annually required Internal Revenue Code nondiscrimination tests. Participants will be 100 percent vested in these contributions and may not request a hardship withdrawal of these contributions. Contributions are subject to certain limitations.

Participant Accounts. Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, (b) Plan earnings, and (c) is charged with an allocation of administrative expenses. Allocations are based on participant earnings on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting. Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contributions portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credit service.

Notes Receivable from Participants. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of 50 percent of the vested portion of their account balance, not to exceed $50,000. The notes are secured by the balance in the participant's account and bear interest at a reasonable rate determined by the Plan Administrator. The note is required to be paid (principal and interest) in amortized level payments, not less frequently than quarterly, over a period not extending beyond five years from the date of the note; provided, however, that if the proceeds of the note will be used to purchase a principal residence of the participant, the loan does not need to be repaid in level payments.

Payments of Benefits. On termination of service due to death, disability or retirement, a participant or designated beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or installments. On termination of employment, participants can either receive a lump-sum payment or rollover to another plan. Alternatively, participants can choose to defer receipt of their distribution until required by law to receive minimum required distributions. However, if the participant's vested account balance is $5,000 or less, the balance will be distributed in a lump-sum payment.

A. Description of Plan (continued)

Forfeited Accounts. Forfeitures are retained in the Plan and can be used to pay administrative expenses or can be used to reduce future Company contributions payable under the Plan. For the years ended December 31, 2019 and 2018, forfeited non-vested accounts totaled $934 and $2,845, respectively. During 2019, $2,845 was used to reduce Company contributions payable to the Plan.

B. Summary of Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared under the modified cash basis of accounting. The modified cash basis of accounting is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Under the cash basis of accounting, income is recorded when received and expenses are recorded when paid. The modification is for the recording of investments at fair value rather than on a comprehensive cash basis of reporting as ascribed to in the auditor's report.

Investment Valuation and Income Recognition
Investments are reported at fair value or contract value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note G for discussion of fair value measurements.

The Plan holds an investment in a common collective trust fund (the "Fidelity Managed Income Portfolio Class I" or "MIP"). The investment in the MIP is presented at fair value, which reflects the NAV of the fund. The NAV of the MIP is based on the fair value of the underlying securities plus the contract value of the fully benefit-responsive wrapper contract. The MIP's NAV represents the Plan's fair value since this is the amount at which the Plan transacts with the fund. A participant's ownership of the MIP is represented by units. Units are issued and redeemed daily at the MIP's constant NAV of $1.00 per unit. Although it is the policy of the MIP to use its best efforts to maintain a stable NAV of $1.00 per unit, there is no guarantee that the MIP will be able to maintain that value. The MIP allows for daily liquidity with no additional notice required for redemption.

The MIP is unlikely to maintain a stable NAV if, for any reason, it cannot obtain or maintain wrap contracts covering all of its underlying assets that are not otherwise invested in money market funds. In the event that an issuer of a wrap contract fails to perform as intended, the MIP's NAV may decline if the market value of its assets declines. Plan management believes the occurrence of events and circumstances that would cause the MIP to transact at less than NAV is not probable.

Payment of Benefits
Benefits are recorded when paid.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded for the year ended December 31, 2019. If a participant ceases to make loan repayments and the Plan Administrator deems the participant to be in default, the participant loan is reduced, and a benefit payment is recorded.

B. Summary of Accounting Policies (continued)

Risks and Uncertainties

The Plan provides for various investment options in a combination of mutual funds to the participants. The participants' investments in these securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risk in the near term could materially affect participants' account balances and the amounts reported in the future Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Estimates

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts and disclosures. Actual results could differ from those estimates.

C. Unaudited Information - Certified Investments and Notes Receivable from Participants

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2019 and 2018, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2019, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee of the plan.

D. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in the employer contributions in their account.

E. Tax Status

The Plan sponsor adopted the prototype Plan under a master trust. The IRS has determined and informed Fidelity Management Trust Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified, and the related trust is tax-exempt. The Plan Administrator has analyzed tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

F. Related Party Transactions

The Plan's investment portfolio includes shares of mutual funds managed by Fidelity Investments. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Additionally, in 2018, the Company hired Wintrust as a fiduciary and investment advisor for the Plan. Fees paid by the Plan for investment management services provided by Wintrust and Plan administrative services provided by Fidelity amounted to $49,007 for the year ended December 31, 2019.

G. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, if fair value focuses on the price that would be received to sell the asset or paid to transfer the liability regardless of whether an observable liquid market price existed (an exit price). An exit price valuation will include margins for risk even if they are not observable. As the Plan is released from risk, the margins for risk will also be released through net realized capital gains (losses) in changes in net assets. Refer to Note B for details on the procedures used to value investments in common collective trust funds measured at NAV.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1- Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. Inputs to the valuation methodology include quoted prices for similar assets or liabilities in inactive markets.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement. Level 3 assets and liabilities measured at fair value are based on one or more of the three valuation techniques:

- Market approach – Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.
- Cost approach – Amount that would be required to replace the service capacity of an asset (replacement cost).

G. Fair Value Measurements (continued)

- Income approach – Techniques that convert future amounts to a single present amount based on market expectations (including present value techniques, option pricing models, and lattice models).

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds: Valued at the net asset value of shares (NAV) held by the Plan at year end.

Interest bearing cash: Valued at quoted market prices.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019 and 2018:

	Assets at Fair Value as of December 31, 2019			
	Total	Level 1	Level 2	Level 3
Mutual funds	$ 19,096,825	$ 19,096,825	$ 0	$ 0
Interest Bearing Cash	710	710	0	0
Total investments subject to leveling	19,097,535	$ 19,097,535	$ 0	$ 0
Total investments measured at NAV common collective trusts*	646,886			
Total investments at fair value	$ 19,744,421			

	Assets at Fair Value as of December 31, 2018

such investments are intended to permit reconciliation of the fair value hierarchy to the investments at fair value line item presented in the statement of net assets available for benefits.

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

H. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available per the financial statements at December 31, 2019 and December 31, 2018 to Form 5500.

	2019	2018
Net assets available for benefits per the financial statements	$ 19,809,494	$ 18,154,816
Adjustment from NAV to fair value for fully benefit-responsive investment contracts	8,721	(13,791)
Net Assets per the Form 5500	$ 19,818,215	$ 18,141,025

Reconciliation of Net Income to Form 5500

The following is a reconciliation of net income per the financial statements at December 31, 2019 to Form 5500.

Net increase per the financial statements	$ 1,654,678
Plus: 2019 Adjustment from NAV to fair value for fully benefit-responsive investment contracts	8,721
Less: 2018 Adjustment from NAV to fair value for fully benefit-responsive investment contracts	(13,791)
Net income per Form 5500	$ 1,677,190

I. Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 9, 2020, which is the date the financial statements were available to be issued.

On January 30, 2020, the World Health Organization (“WHO”) announced a global health emergency stemming from a new strain of coronavirus that was spreading globally (the “COVID-19 outbreak”). On March 11, 2020, the WHO classified the COVID-19 outbreak as a pandemic, triggering volatility in financial markets and a significant negative impact on the global economy. As a result, there was initially a decline in fair value of the Plan’s investment portfolio subsequent to December 31, 2019. However, as of the date of this report, the Plan’s investment portfolio has rebounded and is showing a net increase in fair value since December 31, 2019. Because the values of the Plan’s individual investments have and will fluctuate in response to changing market conditions, the future impact of the COVID-19 outbreak, if any, continues to evolve as of the date of this report.
