Contributions

The Plan permits eligible employees through a salary deferral election to have the Company make annual contributions of eligible pre-tax annual compensation allowable, not to exceed the limits set by law, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Employee rollover and after-tax (Roth) contributions are also permitted.

The Company contributes a matching Safe Harbor contribution of 100% of the employee's elective contributions up to 3% of compensation and 50% of the employee's elective contributions from 3% to 5% of compensation. The Plan also allows for discretionary profit-sharing contributions.

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing his contributions into any of the separate investment accounts and may change the allocation daily. The plan accounts of participants not electing to direct the investment of their plan accounts will be invested with the default investment alternatives established under the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution and plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon, their rollover contributions and the Company's matching Safe Harbor contributions, plus actual earnings thereon. For the Company's discretionary profit-sharing contributions, participants are vested ratably over a four-year period.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. They are allowed to have up to two loans outstanding at once. The loans are secured by the balance in the participant's account. The loan interest rate is set at 1% above the prime rate, as defined. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits

Upon severance from employment with the employer, or death, an employee or their beneficiary may elect to receive either a lump-sum amount equal to the vested value of his or her account or receive partial payments. In-service distributions are also available to participants who have reached age 59-1/2. Hardship distributions of vested amounts may be made in the event of hardship, defined as an immediate and heavy financial need where the participant lacks other available resources.

Forfeited Accounts

Forfeited accounts are to be used to reduce future employer contributions. Total forfeited non-vested accounts totaled $64,720 and $65,993 as of December 31, 2019 and 2018, respectively.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes in net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Quoted market prices, if available, are used to value investments. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Transfers Between Fair Value Hierarchy Levels

Transfers in and out of Level 1 (quoted market prices), Level 2 (other significant observable inputs) and Level 3 (significant unobservable inputs) are recognized on the period beginning date.

Note 3: Certification of the Trustee's Agent

The Company has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Ascensus Trust Company, as agent for the trustee of the Plan from January 1, 2018 to November 15, 2018, and Principal Life Insurance Company, as agent for the trustee of the Plan from November 16, 2018 to December 31, 2019, has certified the following information included in the accompanying financial statements and supplemental schedules is complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits and related disclosures as of December 31, 2019 and 2018
- Investment income and interest income from notes receivable from participants as shown in the statements of changes in net assets available for benefits and related disclosures for the years ended December 31, 2019 and 2018
- Investment information and notes receivable from participants included in the accompanying schedule of assets (held at year-end) as of December 31, 2019

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

Note 4: Related-party and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee company whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

Fees paid by the Plan for investment management and administration services amounted to approximately $131,012 and $10,674 for the years ended December 31, 2019 and 2018, respectively.

The Company provides certain administrative services at no cost to the Plan and pays directly any other fees related to the Plan's operations.

Note 5: Disclosures About Fair Value of Plan Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Recurring Measurements

The following tables present the fair value measurements of assets and liabilities recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2019 and 2018:

	2019			
		Fair Value Measurements Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$ 32,549,770	$ 32,549,770	$ -	$ -
Investments at fair value	$ 32,549,770	$ 32,549,770	$ -	$ -

	2018			
		Fair Value Measurements Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$ 26,804,712	$ 26,804,712	$ -	$ -
Investments at fair value	$ 26,804,712	$ 26,804,712	$ -	$ -

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2019. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. The Plan holds no Level 2 or Level 3 securities.

Note 6: Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

Note 7: Tax Status

The Plan operates under a nonstandardized adoption agreement in connection with a prototype 401(k) profit-sharing plan and trust sponsored by Principal. This prototype plan document has been filed with the appropriate agency. The Plan has not obtained or requested a determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Note 8: Nonexempt Transactions

Defined contribution plans are required to remit employee contributions, including repayments on notes receivable from participants to the Plan as soon as they can be reasonably segregated from the employer's general assets, but no later than the 15th business day of the month following the month in which the participant contributions are withheld by the employer. While the Company remitted all employee contributions, including repayments on notes receivable from participants, to the Plan during 2019, participant contributions, including payments on notes receivable from participants, totaling $4,678 were not remitted within the required time period for the year ended December 31, 2019.

Note 9: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10: Subsequent Events

Subsequent events have been evaluated through October 12, 2020, which is the date the financial statements were available to be issued.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the accompanying statements of net assets available for benefits.

As a result of the spread of the COVID-19 coronavirus, economic uncertainties have arisen which may negatively affect the financial position and results of operations of the Plan. The duration of these uncertainties and the ultimate financial effects cannot be reasonably estimated at this time.
