**THE FIFTY/50 401(K) PLAN**

**NOTES TO FINANCIAL STATEMENTS**

## NOTE 1 - DESCRIPTION OF THE PLAN:

The following brief description of The Fifty/50 401(k) Plan ("the Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The plan is a qualified defined contribution plan covering all employees of the Company who are age 21 or older and completed one year of service. The plan is subject to the provisions of ERISA.

Contributions: Each year, participants may contribute up to 90% of pretax annual compensation, as defined by the plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the plan. Participants may also participate in self-directed brokerage arrangements under the Plan. The plan currently offers various mutual funds as investment options for participants. The Company may make a discretionary matching contribution to a uniform percentage of the participant salary deferrals determined annually after the participant completes one year with 1,000 hours of service. Contributions are subject to certain IRS limitations.

Participants Accounts: Each participant's account is credited with the participant's contributions and allocations of (a) the company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after 3 years of credited service.

Notes Receivable from Participants: Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest based on the local prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances. Principal and interest is paid ratably through monthly or bi-weekly payroll deductions. There were no loans at December 31, 2019 or 2018.

Payment of Benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installments under a systematic withdrawal plan. For termination of service or for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts: At December 31, 2019, there were no forfeited non-vested accounts.

## NOTE 2 - SUMMARY OF ACCOUNTING POLICIES:

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

**NOTE 2 - SUMMARY OF ACCOUNTING POLICIES:** (Continued)

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Excess Contributions Payable: Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction in contributions. For the year ending December 31, 2019, there were no excess contributions payable.

Payment of Benefits: Benefits are recorded when paid.

Administrative Expenses: Except for loan set up fees associated with notes receivable from participants and certain advisory fees, all administrative expenses of maintaining the plan are paid by the company. Investment related expenses are included in net appreciation of fair value investments.

Subsequent Events: The plan has evaluated subsequent events through October 14, 2020, the date the financial statements were available to be issued.

**NOTE 3 - FAIR VALUE MEASUREMENTS:**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the input to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

**NOTE 3 - FAIR VALUE MEASUREMENTS:** (Continued)

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;

- quoted prices for identical or similar assets or liabilities in inactive markets;

- inputs other than quoted prices that are observable for the asset or liability;

- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and December 31, 2018.

Pooled separate accounts: The fair values of participation units held in pooled separate accounts are based on their net asset values, as reported by the managers of the pooled separate accounts and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date. Each pooled separate account provides for daily redemptions by the Plan with no advance notice requirements and has redemption prices that are determined by the fund's net asset value per unit.

The following tables set forth by level, within the fair value hierarchy, the plan's assets at fair value at December 31, 2019 and December 31, 2018:

| | 2019 | 2018 |
|---|---|---|
| Level 1 | $ - | $ - |
| Level 2 | - | - |
| Level 3 | - | - |
| Pooled separate accounts * | 245,852 | 162,190 |
| | $ 245,852 | $ 162,190 |

## NOTE 4 - RELATED-PARTY TRANSACTIONS:

Securian Financial is the trustee and record keeper for the plan. Therefore, these investments and the transactions therein, qualify as party-in-interest transactions. The Plan paid for certain administrative and investment fees during the plan year. The Plan Sponsor pays for other fees related to the Plan.

## NOTE 5 - PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in the company contribution portion of their account.

## NOTE 6 - TAX STATUS:

The IRS has determined and informed the Plan administrator by a letter dated March 31, 2014, that the prototype plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the prototype plan has not been amended since receiving the determination letter, the plan administrator believes that the plan is designed, and is currently being operated in compliance with the applicable requirements of the IRC and therefore, believes that the plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

## NOTE 7 – CERTIFIED INVESTMENTS:

Certain information related to investments from participants disclosed in the accompanying financial statements and supplemental schedules , including investments from participants held at December 31, 2019 and 2018, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2019, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Securian Retirement (the trustee of the Plan).

## NOTE 8 - RISKS AND UNCERTAINTIES:

The Plan invests in various mutual funds and investment securities. The underlying investment securities are exposed to various risks, such as interest rate, market, and credit risks. Because of the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.

**THE FIFTY/50 401(K) PLAN**

**NOTES TO FINANCIAL STATEMENTS**

## NOTE 1 - DESCRIPTION OF THE PLAN:

The following brief description of The Fifty/50 401(k) Plan ("the Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The plan is a qualified defined contribution plan covering all employees of the Company who are age 21 or older and completed one year of service. The plan is subject to the provisions of ERISA.

Contributions: Each year, participants may contribute up to 90% of pretax annual compensation, as defined by the plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the plan. Participants may also participate in self-directed brokerage arrangements under the Plan. The plan currently offers various mutual funds as investment options for participants. The Company may make a discretionary matching contribution to a uniform percentage of the participant salary deferrals determined annually after the participant completes one year with 1,000 hours of service. Contributions are subject to certain IRS limitations.

Participants Accounts: Each participant's account is credited with the participant's contributions and allocations of (a) the company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after 3 years of credited service.

Notes Receivable from Participants: Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest based on the local prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances. Principal and interest is paid ratably through monthly or bi-weekly payroll deductions. There were no loans at December 31, 2019 or 2018.

Payment of Benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installments under a systematic withdrawal plan. For termination of service or for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts: At December 31, 2019, there were no forfeited non-vested accounts.

## NOTE 2 - SUMMARY OF ACCOUNTING POLICIES:

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

**NOTE 2 - SUMMARY OF ACCOUNTING POLICIES:** (Continued)

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Excess Contributions Payable: Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction in contributions. For the year ending December 31, 2019, there were no excess contributions payable.

Payment of Benefits: Benefits are recorded when paid.

Administrative Expenses: Except for loan set up fees associated with notes receivable from participants and certain advisory fees, all administrative expenses of maintaining the plan are paid by the company. Investment related expenses are included in net appreciation of fair value investments.

Subsequent Events: The plan has evaluated subsequent events through October 14, 2020, the date the financial statements were available to be issued.

**NOTE 3 - FAIR VALUE MEASUREMENTS:**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the input to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

**NOTE 3 - FAIR VALUE MEASUREMENTS:** (Continued)

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;

- quoted prices for identical or similar assets or liabilities in inactive markets;

- inputs other than quoted prices that are observable for the asset or liability;

- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and December 31, 2018.

Pooled separate accounts: The fair values of participation units held in pooled separate accounts are based on their net asset values, as reported by the managers of the pooled separate accounts and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date. Each pooled separate account provides for daily redemptions by the Plan with no advance notice requirements and has redemption prices that are determined by the fund's net asset value per unit.

The following tables set forth by level, within the fair value hierarchy, the plan's assets at fair value at December 31, 2019 and December 31, 2018:

| | 2019 | 2018 |
|---|---|---|
| Level 1 | $ - | $ - |
| Level 2 | - | - |
| Level 3 | - | - |
| Pooled separate accounts * | 245,852 | 162,190 |
| | $ 245,852 | $ 162,190 |

## NOTE 4 - RELATED-PARTY TRANSACTIONS:

Securian Financial is the trustee and record keeper for the plan. Therefore, these investments and the transactions therein, qualify as party-in-interest transactions. The Plan paid for certain administrative and investment fees during the plan year. The Plan Sponsor pays for other fees related to the Plan.

## NOTE 5 - PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in the company contribution portion of their account.

## NOTE 6 - TAX STATUS:

The IRS has determined and informed the Plan administrator by a letter dated March 31, 2014, that the prototype plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the prototype plan has not been amended since receiving the determination letter, the plan administrator believes that the plan is designed, and is currently being operated in compliance with the applicable requirements of the IRC and therefore, believes that the plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

## NOTE 7 – CERTIFIED INVESTMENTS:

Certain information related to investments from participants disclosed in the accompanying financial statements and supplemental schedules , including investments from participants held at December 31, 2019 and 2018, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2019, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Securian Retirement (the trustee of the Plan).

## NOTE 8 - RISKS AND UNCERTAINTIES:

The Plan invests in various mutual funds and investment securities. The underlying investment securities are exposed to various risks, such as interest rate, market, and credit risks. Because of the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.

Participants direct the investment of their contributions into various investment options offered by the plan. Participants may also participate in self-directed brokerage arrangements under the Plan. The plan currently offers various mutual funds as investment options for participants. The Company may make a discretionary matching contribution to a uniform percentage of the participant salary deferrals determined annually after the participant completes one year with 1,000 hours of service. Contributions are subject to certain IRS limitations.

Participants Accounts: Each participant's account is credited with the participant's contributions and allocations of (a) the company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. Payment of Benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installments under a systematic withdrawal plan. For termination of service or for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts: At December 31, 2019, there were no forfeited non-vested accounts.

## NOTE 2 - SUMMARY OF ACCOUNTING POLICIES:

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

**NOTE 2 - SUMMARY OF ACCOUNTING POLICIES:** (Continued)

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Excess Contributions Payable: Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction in contributions. For the year ending December 31, 2019, there were no excess contributions payable.

Payment of Benefits: Benefits are recorded when paid.

Administrative Expenses: Except for loan set up fees associated with notes receivable from participants and certain advisory fees, all administrative expenses of maintaining the plan are paid by the company. Investment related expenses are included in net appreciation of fair value investments.

Subsequent Events: The plan has evaluated subsequent events through October 14, 2020, the date the financial statements were available to be issued.

**NOTE 3 - FAIR VALUE MEASUREMENTS:**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the input to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

**NOTE 3 - FAIR VALUE MEASUREMENTS:** (Continued)

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;

- quoted prices for identical or similar assets or liabilities in inactive markets;

- inputs other than quoted prices that are observable for the asset or liability;

- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and December 31, 2018.

Pooled separate accounts: The fair values of participation units held in pooled separate accounts are based on their net asset values, as reported by the managers of the pooled separate accounts and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date. Each pooled separate account provides for daily redemptions by the Plan with no advance notice requirements and has redemption prices that are determined by the fund's net asset value per unit.

The following tables set forth by level, within the fair value hierarchy, the plan's assets at fair value at December 31, 2019 and December 31, 2018:

| | 2019 | 2018 |
|---|---|---|
| Level 1 | $ - | $ - |
| Level 2 | - | - |
| Level 3 | - | - |
| Pooled separate accounts * | 245,852 | 162,190 |
| | $ 245,852 | $ 162,190 |

## NOTE 4 - RELATED-PARTY TRANSACTIONS:

Securian Financial is the trustee and record keeper for the plan. Therefore, these investments and the transactions therein, qualify as party-in-interest transactions. The Plan paid for certain administrative and investment fees during the plan year. The Plan Sponsor pays for other fees related to the Plan.

## NOTE 5 - PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in the company contribution portion of their account.

## NOTE 6 - TAX STATUS:

The IRS has determined and informed the Plan administrator by a letter dated March 31, 2014, that the prototype plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the prototype plan has not been amended since receiving the determination letter, the plan administrator believes that the plan is designed, and is currently being operated in compliance with the applicable requirements of the IRC and therefore, believes that the plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

## NOTE 7 – CERTIFIED INVESTMENTS:

Certain information related to investments from participants disclosed in the accompanying financial statements and supplemental schedules , including investments from participants held at December 31, 2019 and 2018, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2019, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Securian Retirement (the trustee of the Plan).

## NOTE 8 - RISKS AND UNCERTAINTIES:

The Plan invests in various mutual funds and investment securities. The underlying investment securities are exposed to various risks, such as interest rate, market, and credit risks. Because of the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.
