American Tire Distributors, Inc. Retirement Plan

Notes to Financial Statements

1. Description of Plan

The following description of the American Tire Distributors, Inc. Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by American Tire Distributors, Inc., and related employers, as follows: California Tire Company; The Speed Merchants, Inc.; ILCO Logistics Corporation; T.O. Haas Tire Co.; T.O. Haas Holding Co.; Target Tire, Inc.; Texas Market Tire; Wholesale Tire Distributors, Inc.; Wholesale Tire Distributors of Idaho, Inc.; Wholesale Tire Distributors of Wyoming, Inc.; Silver State Tire Company, Inc.; and Samaritan Tire. These companies are collectively referred to as "the Employer." The Plan was established under the provisions of Section 401(a) of the Internal Revenue Code ("IRC") which includes a qualified deferred arrangement as described in Section 401(k) of the IRC for the benefit of the employees of the Employer. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

An employee is eligible for participation in the Plan upon completion of three months of service and attainment of age 18. Employees who are leased or covered under a collective bargaining agreement are excluded from participating. Plan entry occurs on the first day of the month immediately following satisfaction of eligibility requirements.

Contributions

The amount of contributions for any Plan year will be equal to the sum of the following:

- a) Participants may contribute up to 100 percent of their eligible compensation in the form of pre-tax or Roth contributions. Participants may elect a separate contribution percentage on bonus compensation. Participants are automatically enrolled at 4 percent deferral contribution upon attainment of the eligibility requirements, unless the Plan Administrator receives signed written documentation from the participant before this date to do otherwise. Automatic enrollment deferral contributions are increased by 1 percent each year subsequent to enrollment up to 10 percent.

Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans.

- b) The Employer may contribute a discretionary matching contribution as a percent of eligible compensation deferred by participants. An employee is eligible to receive discretionary matching contributions upon completion of three months of service. Catch-up contributions are not eligible for discretionary matching contributions. During 2019, the Employer contributed 50 percent of the first 6 percent of eligible compensation contributed by participants.

American Tire Distributors, Inc. Retirement Plan

Notes to Financial Statements

- c) A profit sharing contribution may also be made at the discretion of the Board of Directors of American Tire Distributors, Inc. Participants must have performed one year of service (defined as 1,000 hours of service during the Plan year) and be employed on the last day of the plan year, except in the event of death, disability or retirement during the year, to be eligible for the profit sharing contribution. No profit sharing contribution was made for 2019.
- d) The Plan also allows in Plan Roth rollover conversions.

Contributions are subject to certain regulatory limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Employer contributions, and an allocation of plan earnings and fees thereon. Allocations are based upon participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Contributions may be invested in several investment options, as directed by the participant. The Plan currently offers a group annuity contract, common/collective trusts, and mutual funds as investment options.

Vesting

Effective January 3, 2017, participants are immediately vested in their contributions, plus all Employer contributions, plus actual earnings thereon.

Different vesting schedules may apply to certain participants as described in the Plan document due to prior plan provisions.

Notes Receivable from Participants

Participants may borrow from a minimum of \$1,000 up to a maximum of 50 percent of the participant's vested account balance, not to exceed \$50,000. Each participant is permitted to have a maximum of one loan outstanding at any time. The maximum term of repayment for loans, other than those utilized to purchase a primary residence, is five years. The loans are secured by the balance in the participant's vested account and bear interest at prime plus one percent. Principal and interest are paid ratably through payroll deductions. Participant loan interest rates ranged from 4.25 percent to 6.50 percent during 2019.

Payment of Benefits

Participants may receive benefits upon termination of service, retirement (age 59½), death, or disability. A participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or equal annual installments over a period of not more than the participant's assumed life expectancy. For participants who have account balances of less than \$1,000 as of the date of termination of service, the Employer may automatically distribute the participant's account with a lump-sum payment. Alternatively, for balances between \$1,000 and \$5,000, the Employer may automatically rollover the participant's account to a qualified retirement account.

American Tire Distributors, Inc. Retirement Plan

Notes to Financial Statements

Participants may receive in-service withdrawals in the form of hardship distributions from the participant's deferral contribution account only, subject to a \$500 minimum. Participants may also receive in-service withdrawals upon attainment of age 59½ from their vested account balance.

Forfeitures

Forfeited nonvested amounts are first used to pay for plan administrative expenses and then used to reduce Employer contributions. At December 31, 2019 and 2018, forfeited nonvested accounts totaled \$28,878 and \$42,729, respectively. During 2019, approximately \$109,000 in forfeitures was used to reduce the Employer's matching contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment Valuation and Income Recognition

The investments of the Plan are reported at fair value with the exception of fully benefit responsive investment contracts. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisor and Fidelity Management Trust Company. See Note 4 for a discussion of fair value measurements.

The Plan's fully benefit responsive investment contract (Note 5) is valued at contract value. Contract value equals the accumulated cash contributions, interest credited to the contract, less disbursements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivables from participants are participant loans measured at the unpaid principal balance plus unpaid accrued interest. The Plan considers a loan as in default if any repayment remains unpaid as of the last business day of the calendar quarter following the calendar quarter in which a loan is initially considered past due. Defaulted notes receivable from participants are deemed distributed and recorded as benefits paid to participants in the statement of changes in net assets available for benefits. During 2019, approximately \$1,190,000 was recorded as deemed distributions. No allowance for credit losses has been recorded as of December 31, 2019 or 2018.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

American Tire Distributors, Inc. Retirement Plan

Notes to Financial Statements

Administrative Expenses

Administrative fees paid by the Plan consist of audit, investment, loan and other account maintenance fees. Investment management fees are recorded net of appreciation/depreciation in the fair value of investments in the statement of changes in net assets available for benefits. Administrative fees associated with participant-requested services are charged directly to the participant's account. During the year ended December 31, 2019, the Plan received credits from Fidelity Management Trust Company, the trustee, of approximately \$69,000 which was used to pay administrative expenses. Revenue credits are presented net of expenses in the statement of changes in net assets available for benefits. All other expenses of the Plan are paid by the Employer and excluded from the financial statements.

Payment of Benefits

Benefits are recorded when paid.

New Accounting Pronouncement

The Financial Accounting Standard Board ("FASB") issued Accounting Standard Update ("ASU") No. 2018-13, *Fair Value Measurements Topic (820), Disclosure Framework- Changes to the Disclosure Requirements for Fair Value Measurements*, in August 2018. ASU No. 2018-13 eliminates certain disclosures including the disclosure related to transfers between level 1 and 2 investments, the valuation policies for level 3 measurements, and for nonpublic entities, the change in the level 3 investment unrealized gains and losses included in earnings. ASU No. 2018-13 also amends certain disclosures including disclosing purchases, sales, and transfers for level 3 investments instead of the level 3 roll forward. ASU No. 2018-13 is effective for periods beginning after December 15, 2019. Early adoption is permitted. Management is currently evaluating the impact of this ASU on the Plan's financial statements.

3. Information Certified by the Plan's Trustee

The following is a summary of the Plan's financial information and data included in the Plan's financial statements and supplemental schedule which was certified by Fidelity Management Trust Company, the trustee, as of December 31, 2019 and 2018 and for the year ended December 31, 2019 as complete and accurate, in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. Fair Value Measurements

Accounting Standards Codification ("ASC") 820 provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

There have been no changes in the valuation methodologies used at December 31, 2019 and 2018. The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds: Mutual funds represent investments with various investment managers. The mutual funds are valued at the daily closing net asset value as reported by the fund. Mutual funds held by the Plan are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

American Tire Distributors, Inc. Retirement Plan

Notes to Financial Statements

Common/Collective Trusts: Common/collective trusts ("CCTs") represent investments with various investment managers. Units held in CCTs are valued at the net asset value ("NAV"). The NAV, as provided by the trustee, is used as a practical expedient to estimated fair value. The NAV is based on the fair value of the underlying investments held by the fund, that are traded in an active market, less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. The CCTs are direct filing entities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents the unfunded commitments, redemption frequencies, and redemption notice periods as of December 31, 2019 and 2018 for those assets, summarized by category, whose fair value is estimated using the NAV per share or its equivalent:

	Fair Value at December 31,		Unfunded	Redemption	Notice	Other
	2019	2018	Commitment	Frequency	Period	Restrictions
Equity	\$ 15,802,455	\$ 13,363,616	\$ -	Daily	None	None
Fixed income	1,631,102	1,172,227	-	Daily	None	None
Total	\$ 17,433,557	\$ 14,535,843	\$ -			

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The significance of transfers between levels was evaluated based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2019, there were no significant transfers in or out of levels 1, 2 or 3.

The following tables set forth by level within the fair value hierarchy the Plan's investment assets measured at fair value:

5. Group Annuity Contract

In October 2012, the Plan entered into a group annuity contract ("GAC") with New York Life Insurance Company ("NYLIC"). NYLIC guarantees the principal and accumulated interest on the GAC, which is supported by the assets in a pooled separate account, specifically NYLIC's Pooled Separate Account No. 25. The GAC is designed to be a stable value investment contract that trades at a static net asset value of \$1. The GAC accrues interest daily based on interest rates that are determined quarterly. The GAC is reported at contract value. Participants may trade daily at contract value. Contract value equals contributions and credited interest less withdrawals from the GAC. Participants are subject to a 90 day limitation on transfers to competing funds. The Plan may be subject to a 12 month advance notice and market value adjustment in the case of termination of the contract. As of December 31, 2019, there are no intentions to terminate the GAC. The GAC is considered fully benefit responsive as defined by ASC 962, *Plan Accounting- Defined Contribution Pension Plans*. During 2019, the net crediting interest of the GAC was 2.35 percent after expense charge of .45 percent.

6. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Employer contributions.

7. Tax Status

The Internal Revenue Service has determined and informed the record-keeper in an opinion letter dated March 31, 2014, that the Plan prototype and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has since been amended. However, the Plan administrator believes the Plan is currently designed and being operated in compliance with applicable requirements of the IRC and accordingly was tax exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Related Party and Party-In-Interest Transactions

Certain plan investments consist of shares of mutual funds managed by Fidelity Management Trust Company, the trustee. Administrative fees are paid by the Plan to Fidelity Management Trust Company. Fees paid by the Plan for the investment management are included in net appreciation/depreciation in fair value of the investments. The Plan also paid for audit fees and investment advisory fees during 2019. These transactions qualify as exempt party-in-interest transactions. Notes receivable from participants also qualify as exempt party-in-interest transactions.

9. Risks and Uncertainties

The Plan invests in various investments including mutual funds, common/collective trusts and a group annuity contract. Investments, in general, are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. As of December 31, 2019 and 2018, no one investment comprised more than 10 percent of net assets available for benefits.

10. Subsequent Events

The Plan has evaluated subsequent events from the date of the statement of net assets available for benefits through October 14, 2020, the date the financial statements were available to be issued. During this period, no material subsequent events were identified, except as follows:

On January 30, 2020, the World Health Organization ("WHO") announced a global health emergency because of a new strain of coronavirus originating in Wuhan, China (the "COVID-19 outbreak") and the risks to the international community as the virus spreads globally beyond its point of origin. In March 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. This pandemic has adversely affected global economic activity and greatly contributed to volatility and instability in financial markets. Because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, and related impact on the Plan's liquidity cannot be determined at this time.

Notes to Financial Statements

On March 27, 2020, the "Coronavirus Aid, Relief, and Economic Security (CARES) Act" was signed into law. The CARES Act, among other things, includes several relief provisions available to tax qualified retirement plans and their participants. Plan management has evaluated the relief provisions available to Plan participants under the CARES Act and has implemented the following provisions:

- Special coronavirus distributions up to \$100,000
- Extend the period for loan repayments, if applicable, up to one year
- Increase of the available loan amount to the lesser of \$100,000 or 100% for the participant's vested account balance

In April 2020, the Plan suspended the Employer discretionary match.

Effective June 15, 2020, the trustee for the Plan changed from Fidelity Management Trust Company ("Fidelity") to John Hancock Trust Company ("John Hancock"). The investment management services and custodial services were transferred to John Hancock. Accordingly, investments totaling \$171,976,776 were transferred from Fidelity to John Hancock in June 2020. There were no significant changes in plan provisions associated with this transition.
