Infostretch 401(k) Profit Sharing Plan

Notes to Financial Statements

December 31, 2019

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Infostretch Corporation (the Company) 401(k) Profit Sharing Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan established on April 1, 2012, restated on January 1, 2016 and most recently restated on June 5, 2018. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan provides benefits for all eligible employees of the Company. The Company is the Plan Administrator and retains the services of third parties to assist in the administration of the Plan. The Plan's trustee and third-party administrator is Fidelity Management Trust Company (Fidelity).

Eligibility: All employees, excluding those who are covered by a collective bargaining agreement, leased employees, non-resident aliens with no U.S. source income, temporary employees and independent contractors, are eligible to participate in the Plan on the first day of the month following, or coincident with, the completion of one month of service. An employee
may elect not to participate in the Plan.

Participant contributions: Participants may elect to contribute up to 100% of their eligible compensation, as defined in the Plan, subject to the maximum allowed under section 401(k) of the Internal Revenue Code ("IRC"). Participants who have attained age 50 before the end of the Plan year are eligible to make "catch-up" contributions. Participants are also permitted to deposit into the Plan distributions received from other plans (rollovers). Deferrals consist of pretax and/or Roth 401(k) contributions. Participants direct the investment of their account balances into various investment options offered by the Plan.

Employer contributions: The Company may, at their sole discretion, make employer matching contributions at the option of the Company's Board of Directors. During 2019, the Company elected to make matching contributions equal to $0.40 on every dollar of the participant's deferred contributions up to a maximum of $2,000 for the year. For the year ended December 31, 2019, the Company made total discretionary employer matching contributions of $295,175.

Participant accounts: Each participant's account is credited with the participant's contribution, employer's contributions, and allocations of Plan earnings. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment options: The Plan provides for investments to be directed by participants into a number of investment options held by the custodian and trustee. Some Plan investments are units of funds managed by the custodian and trustee; therefore, those investments and all investment transactions are party-in-interest transactions. Earnings of each investment fund are allocated to participant's accounts in proportion to each participant's share of that fund. Participants may change their investment options at their own discretion and are responsible for their own investments.

NOTE 1 - DESCRIPTION OF THE PLAN (continued)

Vesting: Participants become immediately vested in their contributions, including rollovers of funds from other qualified retirement plans and earnings thereon. Participants become vested in the Company's discretionary employer matching contributions upon completed years of service over a four-year period at 25% per year from year one through four.

Forfeitures: Forfeitures are retained in the Plan and are used to pay expenses related to the Plan and to supplement employer contributions. Forfeitures remaining in the Plan as of December 31, 2019 and 2018 totaled $50,875 and $33,579, respectively. For the year ended December 31, 2019, no forfeitures were used to reduce employer contributions.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1%. Loan terms range from one to five years but may not exceed five years unless the loan is for a purchase of a participant's primary residence. Principal and interest are paid ratably through payroll deductions.

Payment of benefits: The Plan provides for the payment of benefits to the participants (or, if applicable the beneficiary) at retirement, disability, death, financial hardship (as defined in the Plan), or termination of employment. Participants may receive a lump sum payment equal to the value of the participant's vested interest in his or her account. In-service distributions of a participant's vested account balance are permitted providing the participant has attained age 59½. Unless otherwise instructed by the participant, participants with vested account balances of $1,000 or less upon separation will receive a lump sum cash payout and participants with vested account balances ranging from $1,000 to $5,000 will automatically be rolled over to an individual retirement account ("IRA").

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting: The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP"). Contributions from participants are recorded when withheld from the participant. Benefit payments to participants are recorded when paid.

Use of Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan's management to make estimates and assumptions that may affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment valuation and income recognition: The Plan's investments are stated at fair value. The shares of registered investment companies (mutual funds) are valued at quoted market prices, which represent the net asset values of shares held by the Plan at year-end. The common collective trust is composed primarily of fully benefit-responsive investment contracts that are valued at the net asset value of shares held by the Plan. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that the securities liquidations will be carried out in an orderly business manner. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair value measurements: The Plan performs fair value measurements in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*. Refer to Note 3 for the fair value measurement disclosures associated with the Plan's investments.

Net appreciation in fair value of investments: The earnings, expenses, realized gains or losses, and unrealized appreciation (depreciation) in registered investment companies and other investments are recorded in the accompanying financial statements as net appreciation in fair value of investments.

Investment management fees and operating expenses: Investment management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation in fair value of investments.

Administrative expenses: Substantially all administrative expenses of the Plan are paid by the Plan. Separate fees for loan processing and certain investments as specified in the service agreement, are charged to individual participant's accounts.

Notes receivable from participants: Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions upon the occurrence of a distributable event, based on the terms of the Plan Agreement. No allowance for credit losses has been recorded as of December 31, 2019 or 2018.

Payments of benefits: Benefits are recorded when paid.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (continued)

Subsequent events: Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through October 6, 2020, which is the date the financial statements were available to be issued.

NOTE 3 - FAIR VALUE MEASUREMENTS

FASB ASC Topic 820, *Fair Value Measurements and Disclosures* (ASC 820) provides a framework for measuring fair value under U.S. generally accepted accounting principles. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The following provides a general description of the three levels of inputs that may be used to measure fair value under ASC 820:

> Level 1 - Inputs to the valuation methodology are based on quoted prices available in active markets for identical assets or liabilities on the reporting date.
>
> Level 2 - Inputs to the valuation methodology are other than quoted market prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
>
> Level 3 - Inputs to the valuation methodology include significant inputs that are generally unobservable from objective sources. These inputs may be used with internally developed methodologies that result in management's best estimate of fair value including assumptions regarding risk. Level 3 instruments include those that may be more structured or otherwise tailored to the Plan's needs.

NOTE 3 - FAIR VALUE MEASUREMENTS (continued)

As required by ASC 820, financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

Following is a description of the valuation methodologies used for assets measured at fair value.

Registered investment companies (mutual funds) – Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value and to transact at that price. The funds held by the Plan are deemed to be actively traded. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method are appropriate and consistent with other market participants, the use of different methodologies for assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets measured at fair value as of December 31, 2019 and 2018 are as follows:

2019				
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 9,023,654	$ -	$ -	$ 9,023,654
Total investments at fair value	$ 9,023,654	$ -	$ -	$ 9,023,654

2018				
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 5,745,400	$ -	$ -	$ 5,745,400
Total investments at fair value	$ 5,745,400	$ -	$ -	$ 5,745,400

In accordance with Subtopic 820-10, certain investments that are measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy.

NOTE 4 - INCOME TAX STATUS

The prototype plan adopted by the Plan sponsor obtained its latest opinion letter on March 31, 2014, in which the Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Subsequent to receiving this determination letter, the prototype plan was amended. The Plan has not received a separate determination letter however the Plan Administrator believes that the prototype plan, as adopted by the sponsor, is operating in compliance with the requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

In accordance with guidance on accounting for uncertainty in income taxes, the plan administrator has evaluated the Plan’s tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 5 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 6 - INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, all investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2019 and 2018, net appreciation or depreciation in fair value of investments, and interest and dividend income for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity, the trustee/custodian of the Plan.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

Plan investments include a common collective trust and registered investment company accounts managed by Fidelity. As Fidelity is the custodian of the Plan, transactions between the Plan and Fidelity qualify as exempt party-in-interest transactions.

NOTE 9 – PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time, subject to the provisions of ERISA. If the Plan is terminated, the net assets will be distributed among the participants and beneficiaries of the Plan in accordance with the amount allocated to the account of each participating employee. Upon termination or partial termination of the Plan, all funds in each affected participant's account will be fully vested.

Notes to Financial Statements

December 31, 2019

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Infostretch Corporation (the Company) 401(k) Profit Sharing Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan established on April 1, 2012, restated on January 1, 2016 and most recently restated on June 5, 2018. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan provides benefits for all eligible employees of the Company. The Company is the Plan Administrator and retains the services of third parties to assist in the administration of the Plan. The Plan's trustee and third-party administrator is Fidelity Management Trust Company (Fidelity).

Eligibility: All employees, excluding those who are covered by a collective bargaining agreement, leased employees, non-resident aliens with no U.S. source income, temporary employees and independent contractors, are eligible to participate in the Plan on the first day of the month following, or coincident with, the completion of one month of service. An employee
may elect not to participate in the Plan.

Participant contributions: Participants may elect to contribute up to 100% of their eligible compensation, as defined in the Plan, subject to the maximum allowed under section 401(k) of the Internal Revenue Code ("IRC"). Participants who have attained age 50 before the end of the Plan year are eligible to make "catch-up" contributions. Participants are also permitted to deposit into the Plan distributions received from other plans (rollovers). Deferrals consist of pretax and/or Roth 401(k) contributions. Participants direct the investment of their account balances into various investment options offered by the Plan.

Employer contributions: The Company may, at their sole discretion, make employer matching contributions at the option of the Company's Board of Directors. During 2019, the Company elected to make matching contributions equal to $0.40 on every dollar of the participant's deferred contributions up to a maximum of $2,000 for the year. For the year ended December 31, 2019, the Company made total discretionary employer matching contributions of $295,175.

Participant accounts: Each participant's account is credited with the participant's contribution, employer's contributions, and allocations of Plan earnings. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment options: The Plan provides for investments to be directed by participants into a number of investment options held by the custodian and trustee. Some Plan investments are units of funds managed by the custodian and trustee; therefore, those investments and all investment transactions are party-in-interest transactions. Earnings of each investment fund are allocated to participant's accounts in proportion to each participant's share of that fund. Participants may change their investment options at their own discretion and are responsible for their own investments.

NOTE 1 - DESCRIPTION OF THE PLAN (continued)

Vesting: Participants become immediately vested in their contributions, including rollovers of funds from other qualified retirement plans and earnings thereon. Participants become vested in the Company's discretionary employer matching contributions upon completed years of service over a four-year period at 25% per year from year one through four.

Forfeitures: Forfeitures are retained in the Plan and are used to pay expenses related to the Plan and to supplement employer contributions. Forfeitures remaining in the Plan as of December 31, 2019 and 2018 totaled $50,875 and $33,579, respectively. For the year ended December 31, 2019, no forfeitures were used to reduce employer contributions.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1%. Loan terms range from one to five years but may not exceed five years unless the loan is for a purchase of a participant's primary residence. Principal and interest are paid ratably through payroll deductions.

Payment of benefits: The Plan provides for the payment of benefits to the participants (or, if applicable the beneficiary) at retirement, disability, death, financial hardship (as defined in the Plan), or termination of employment. Participants may receive a lump sum payment equal to the value of the participant's vested interest in his or her account. In-service distributions of a participant's vested account balance are permitted providing the participant has attained age 59½. Unless otherwise instructed by the participant, participants with vested account balances of $1,000 or less upon separation will receive a lump sum cash payout and participants with vested account balances ranging from $1,000 to $5,000 will automatically be rolled over to an individual retirement account ("IRA").

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting: The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP"). Contributions from participants are recorded when withheld from the participant. Benefit payments to participants are recorded when paid.

Use of Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan's management to make estimates and assumptions that may affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment valuation and income recognition: The Plan's investments are stated at fair value. The shares of registered investment companies (mutual funds) are valued at quoted market prices, which represent the net asset values of shares held by the Plan at year-end. The common collective trust is composed primarily of fully benefit-responsive investment contracts that are valued at the net asset value of shares held by the Plan. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that the securities liquidations will be carried out in an orderly business manner. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair value measurements: The Plan performs fair value measurements in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*. Refer to Note 3 for the fair value measurement disclosures associated with the Plan's investments.

Net appreciation in fair value of investments: The earnings, expenses, realized gains or losses, and unrealized appreciation (depreciation) in registered investment companies and other investments are recorded in the accompanying financial statements as net appreciation in fair value of investments.

Investment management fees and operating expenses: Investment management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation in fair value of investments.

Administrative expenses: Substantially all administrative expenses of the Plan are paid by the Plan. Separate fees for loan processing and certain investments as specified in the service agreement, are charged to individual participant's accounts.

Notes receivable from participants: Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions upon the occurrence of a distributable event, based on the terms of the Plan Agreement. No allowance for credit losses has been recorded as of December 31, 2019 or 2018.

Payments of benefits: Benefits are recorded when paid.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (continued)

Subsequent events: Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through October 6, 2020, which is the date the financial statements were available to be issued.

NOTE 3 - FAIR VALUE MEASUREMENTS

FASB ASC Topic 820, *Fair Value Measurements and Disclosures* (ASC 820) provides a framework for measuring fair value under U.S. generally accepted accounting principles. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The following provides a general description of the three levels of inputs that may be used to measure fair value under ASC 820:

> Level 1 - Inputs to the valuation methodology are based on quoted prices available in active markets for identical assets or liabilities on the reporting date.
>
> Level 2 - Inputs to the valuation methodology are other than quoted market prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
>
> Level 3 - Inputs to the valuation methodology include significant inputs that are generally unobservable from objective sources. These inputs may be used with internally developed methodologies that result in management's best estimate of fair value including assumptions regarding risk. Level 3 instruments include those that may be more structured or otherwise tailored to the Plan's needs.

NOTE 3 - FAIR VALUE MEASUREMENTS (continued)

As required by ASC 820, financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

Following is a description of the valuation methodologies used for assets measured at fair value.

Registered investment companies (mutual funds) – Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value and to transact at that price. The funds held by the Plan are deemed to be actively traded. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method are appropriate and consistent with other market participants, the use of different methodologies for assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets measured at fair value as of December 31, 2019 and 2018 are as follows:

2019				
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 9,023,654	$ -	$ -	$ 9,023,654
Total investments at fair value	$ 9,023,654	$ -	$ -	$ 9,023,654

2018				
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 5,745,400	$ -	$ -	$ 5,745,400
Total investments at fair value	$ 5,745,400	$ -	$ -	$ 5,745,400

In accordance with Subtopic 820-10, certain investments that are measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy.

NOTE 4 - INCOME TAX STATUS

The prototype plan adopted by the Plan sponsor obtained its latest opinion letter on March 31, 2014, in which the Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Subsequent to receiving this determination letter, the prototype plan was amended. The Plan has not received a separate determination letter however the Plan Administrator believes that the prototype plan, as adopted by the sponsor, is operating in compliance with the requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

In accordance with guidance on accounting for uncertainty in income taxes, the plan administrator has evaluated the Plan’s tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 5 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 6 - INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, all investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2019 and 2018, net appreciation or depreciation in fair value of investments, and interest and dividend income for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity, the trustee/custodian of the Plan.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

Plan investments include a common collective trust and registered investment company accounts managed by Fidelity. As Fidelity is the custodian of the Plan, transactions between the Plan and Fidelity qualify as exempt party-in-interest transactions.

NOTE 9 – PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time, subject to the provisions of ERISA. If the Plan is terminated, the net assets will be distributed among the participants and beneficiaries of the Plan in accordance with the amount allocated to the account of each participating employee. Upon termination or partial termination of the Plan, all funds in each affected participant's account will be fully vested.
