NOTE 1: DESCRIPTION OF PLAN

The following description of the Langer Juice Company 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a participant directed defined contribution plan covering all eligible employees of the Langer Juice Company (the "Company") with retirement benefits in accordance with section 401(k) of the Internal Revenue Code (the IRC). To be eligible to participate in the Plan, employees must have completed one year of service and have worked one thousand hours with the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was established on December 1, 1997.

Contributions

Participants elect to have amounts withheld from their paychecks and contributed to the Plan by the Company. Participants who have attained age 50 before the end of the Plan year are eligible to make catch up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company may make a discretionary matching contribution to the Plan, which the Company's Board of Directors determines at its discretion. All Plan participants are eligible to receive an allocation of the discretionary matching contribution if they have worked at least 1,000 hours during the plan year. All of the foregoing contributions are subject to limits as set by federal law.

Participant Accounts

Each participant's account is credited with the participant's own contributions, an allocation of the Company's contributions, and an allocation of net earnings from investments and changes in investment values. Allocations are based on each participant's contributions, earnings, or account balances, as defined by the Plan agreement. The benefit to which a participant is entitled is limited to the benefit that can be provided from the participant's account. Participants select the investments into which their contributions are invested.

Vesting

Participants are always fully vested in their own contributions and all earnings thereon. Participants vest in Company contributions at the rate of 20% for each year of service until fully vested, beginning after two years of credited service. Participants are fully vested in Company contributions after six years of credited service.

NOTE 1: DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits

Upon termination of service due to death, a participant will receive an amount equal to the value of the participant's vested interest in his or her account in annual installments over a period of time. For termination of service due to other reasons, a participant will receive the value of the vested interest in his or her account as a lump-sum distribution.

Participant Loans

Loans to participants consist of promissory notes received from participants in exchange for the distribution of cash from the Plan. A participant is allowed to borrow a minimum of $1,000, up to one half of the vested balance of their Plan account, up to a maximum of $50,000. Loans must be repaid over no more than a five-year period with the exception of a loan for the participants' principal residence that may have a repayment period beyond five years. Principal and interest is paid ratably through payroll deductions. Loans to participants are stated at the principal amount outstanding, which approximates fair value.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions which affect the reported amounts of net assets available for benefits at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair Value is the price that would be received to sell an asset or paid to transfer liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by its investment advisors, custodians, and insurance company. See Note 4 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition (Continued)

Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 or 2018.

Payment of Benefits

Benefits are recorded when paid.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2019 excess contributions to the applicable participants after December 31, 2019.

NOTE 3: INFORMATION CERTIFIED BY THE CUSTODIAN (UNAUDITED)

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA. Accordingly, Voya Retirement Insurance and Annuity Company, the custodian of the Plan, has certified as being complete and accurate the following information as of December 31, 2019 and 2018 and for the year ended December 31, 2019.

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits
- Net appreciation in fair value of investments, interest, and interest income on notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits
- Investments reflected on the schedule of assets (held at end of year)

NOTE 4: FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Topic 820 are described as follows:

Level 1) Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2) Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3) Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Pooled separate accounts: These investments are public investment securities valued using the Net Asset Value (NAV) provided by the investment contract issuer. The NAV is quoted on a private market that is not active, however, the unit price is based on the underlying investments. A majority of the investments held by each fund are traded on an active market.

Fixed account: This account is available through an annuity contract issued by Voya Retirement Insurance and Annuity Company. It is not fully benefit responsive under SOP 94-4-1 requirements because there is a potential to restrict certain transfers and withdrawals. It is an obligation of Voya Retirement

NOTE 4: FAIR VALUE MEASUREMENTS (CONTINUED)

Insurance and Annuity Company's general account which supports all of the company's insurance and annuity commitments. The account is credited with declared rates of interest and is subject to a minimum rate of 1.0% as described in the contract. The credited rate is communicated to the Plan and credited daily. Any market value adjustment or contract surrender charge will be based on the formulas and schedules in the Plan's contract.

Net appreciation in fair value of investments includes net unrealized and net realized gains and losses on investments during the year and is presented net of investment expenses. Investment income is allocated to individual participant accounts based upon the participant's share of the investment fund.

As of December 31, 2019, assets in the plan, as defined by ASC Topic 820, were as follows:

	Assets at fair value as of December 31, 2019				
	Level 1	Level 2	Level 3	Total	
Pooled separate accounts	$ -	$ -	$ -	$ 1,392,119	*
Fixed account fund	$ -	$ 270,801	$ -	$ 270,801	
Total investments, at fair value	$ -	$ 270,801	$ -	$ 1,662,920	

As of December 31, 2018, assets in the plan, as defined by ASC Topic 820, were as follows:

	Assets at fair value as of December 31, 2018				
	Level 1	Level 2	Level 3	Total	
Pooled separate accounts	$ -	$ -	$ -	$ 1,158,046	*
Fixed account fund	$ -	$ 288,226	$ -	$ 288,226	
Total investments, at fair value	$ -	$ 288,226	$ -	$ 1,446,272	

* In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits. Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the years ended December 31, 2019 and 2018 are reported in the net change in fair value of investments.

NOTE 5: PLAN TERMINATION

Although the Company expects to continue the Plan indefinitely, it has the right under the Plan to suspend its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all accounts become fully vested and non-forfeitable. Plan assets would first be used to pay any expenses properly charged to the Plan. The remaining Plan assets would then be distributed to participants.

NOTE 6: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 7: TAX STATUS

On March 31, 2014, the IRS stated that the prototype adopted by the Plan, as then designed, qualifies under Internal Revenue Code (IRC) Section 401(a). The Plan has not received a determination letter specific to the Plan itself; however, the Plan administrator and the Plan's tax counsel believe that the Plan was designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognizes tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examination for years prior to 2016.

NOTE 8: PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments include pooled separate accounts and fixed accounts managed by Voya Retirement Insurance and Annuity Company. Voya Retirement Insurance and Annuity Company is the custodian, as defined by the Plan, and therefore, these transactions qualify as party-in-interest. Any purchase and sales of investments in the custodian are open market transactions at fair market value. Fees incurred by the Plan for investment management services included in net depreciation in fair value of investments. These fees are paid to the investment fund manager and may include certain revenue sharing fees that are paid to Voya Retirement Insurance and Annuity Company, other investment trustees and investment advisors. The Plan also allows for the issuance of notes receivable to participants in accordance with the related regulations. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

NOTE 9: EXCESS PARTICIPANT CONTRIBUTIONS PAYABLE

The Plan failed the discrimination testing for the year ended December 31, 2019. Excess contributions amounting to $19,987 are recorded as a liability on the accompanying statements of net assets available for benefits and as a reduction of participant contributions for the year. The Plan has reimbursed these excess contributions to its participants after December 31, 2019.

NOTE 10: SUBSEQUENT EVENTS

Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan’s financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

The plan has evaluated subsequent events through October 14, 2020, the date the financial statements were available to be issued. As a result of the spread of the COVID19 coronavirus, economic uncertainties have arisen which can impact Plan’s performance. Other financial impact could occur though such potential impact is unknown at this time.
