1 – DESCRIPTION OF PLAN

GENERAL

The Savcop, Ltd. 401(k) Plan (the "Plan") is a defined contribution plan, subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan was established and adopted effective January 1, 1996, for the benefit of eligible employees of Savcop, Ltd. and subsidiaries (the "Company" or "Plan Administrator"). AXA Equitable Life Insurance Company, as agent of Reliance Trust Company ("AXA" or "Trustee") holds the Plan's investments and executes investment transactions. AXA Equitable Life Insurance Company ("Recordkeeper" or "AXA") provides record-keeping services and maintains participant accounts for the Plan. The following description provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

ELIGIBILITY AND PARTICIPANT ACCOUNTS

The Plan covers all employees of the Company who are not covered by a collective bargaining agreement. Eligibility requirements are that employees complete one year of service and attain 21 years of age. Entry date into the Plan will begin the first day of the plan year quarter following the date on which eligibility requirements are satisfied. Each participant's account is credited with the participant's contributions, Company contributions and actual earnings thereon. Investment income or loss is allocated based on the ratio of each participant's account balance. Contributions and earnings are allocated among investment options as selected by the participant. Participants may change their investment allocation at any time.

CONTRIBUTIONS

The Plan is funded through employee elective deferrals and Company contributions. A participant may elect to contribute a portion of his or her pretax or post-tax Roth compensation, subject to certain maximum limitations imposed by the Internal Revenue Code ("IRC") ($19,000 for 2019). Employees who are eligible to make elective deferrals under the Plan and who have attained the age of fifty before the close of the Plan year are also eligible to make catch-up contributions subject to the maximum limitation imposed by the IRC ($6,000 for 2019).

The Company may make matching contributions to the account of each eligible participant on a uniform basis equal to a discretionary percentage, to be determined by the Company. Participants must complete 1,000 hours of service during the year, and be employed by the Company on the last day of the Plan year to be eligible for the discretionary matching contributions. The Company's matching contribution for the year ended December 31, 2019, totaled $64,472**.**

The Company is authorized to make Qualified Non-Elective Contributions ("QNECs") and Qualified Matching Contributions ("QMACs") all on a discretionary basis. In order to receive QMAC non-matching Company contributions, a participant must have completed 1,000 hours of service during the year and be employed with the Company on the last day of the Plan year. The aforementioned requirements do not apply to QNECs or if the participant died, became disabled, or terminated employment after normal retirement age. The Company made no discretionary contributions for the year ended December 31, 2019.

INVESTMENT OPTIONS

The Plan provides for participants to direct both their contributions and Company contributions into a variety of pooled separate accounts and an insurance company general investment account in accordance with participant investment elections and the provisions of the trust agreement. Participants should refer to the Plan website for additional fund information.

1 – DESCRIPTION OF PLAN, CONTINUED

DISTRIBUTIONS TO PARTICIPANTS

Upon normal retirement age, death, disability, or termination, a participant's benefits are payable in either installment payments or a lump-sum amount equal to 100% of the participant's vested account balance. Account balances of $1,000 or less at the time of distribution will be cashed out as either an involuntary lump-sum payment or by direct rollover into an individual retirement account.

FORFEITURES

Upon separation from service for any reason other than retirement, participants forfeit any unvested portion of their employer contributions. Forfeitures are used to reduce the Plan's expenses and then used to reduce any future employer contributions. As of December 31, 2019 and 2018, there were unallocated forfeitures of $963 and $861, respectively. Forfeitures are presented as a component of net assets available for benefits. During the year ended December 31, 2019, $322 of forfeitures were used to pay Plan expenses.

VESTING

Participants are immediately vested in elective deferrals and rollover contributions. Vesting in the Company's discretionary matching contributions plus actual earnings, thereon, is based on years of continuous service. Participants vest 20% per year beginning after one year of qualified service and are 100% vested after five years of qualified service or upon occurrence of the participant's retirement, death, or disability, as defined by the Plan document.

NOTES RECEIVABLE FROM PARTICIPANTS

Borrowings are available to all participants. Notes receivable from participants are limited to a minimum of $1,000 up to a maximum of the lesser of $50,000 or 50% of their vested account balance, subject to certain restrictions as defined by the Internal Revenue Service ("IRS"). A one-time origination fee is charged at inception of the note receivable. The notes receivable from participants are secured by the vested balance in the participant's account and bear interest determined by the Plan Administrator. All notes must be repaid within 5 years, unless for the purchase of a primary residence, in which case the repayment period may not exceed 10 years. Repayments are made through payroll deductions and are reinvested in the participant accounts according to individual investment elections. Notes receivable from participants as of December 31, 2019, have interest rates ranging from 4.25% to 6.50% with maturities of January 2020 through December 2034. Notes receivable from participants as of December 31, 2018, have interest rates from 4.25% to 6.25% with maturities of January 2019 through July 2023.

ADMINISTRATIVE EXPENSES

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants or fees paid related to benefits paid to participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

PLAN TERMINATION

Although the Company expects to continue the Plan, the Company may terminate the Plan at any time subject to the provisions of ERISA. In the event the Plan is terminated, each of the participants will have a non-forfeitable 100% vested interest in his or her account balance, including all Company contributions, subject to payment of liquidation costs and expenses.

2 – SUMMARY OF ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

ESTIMATES AND ASSUMPTIONS

The preparation of financial statements in conformity with U.S. GAAP requires the Plan's management to make estimates and assumptions that affect certain reported amounts of assets and liabilities, changes therein, and associated disclosures. Accordingly, actual results may vary from the estimates used in preparing the accompanying financial statements.

PAYMENT OF BENEFITS

Benefits are recorded when paid.

NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent notes receivables from participants are reclassified as distributions based upon terms of the Plan document or loan policy of the Plan.

INVESTMENT VALUATION AND INCOME RECOGNITION

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are stated at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis (see "Note 3 – Fair Value Measurements"). Contract value is the relevant measure attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the provision of the Plan (see "Note 5 – Investment Contract with Insurance Company"). Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The income or loss earned on participant accounts is allocated on a daily basis using the previous day's ending account balance. Net appreciation (depreciation) of fair value of investments includes the Plan's gains and losses on the investments bought and sold, as well as held during the year.

RECENT ACCOUNTING PRONOUNCEMENTS

In August 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2018-13, *Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement*. ASU No. 2018-13 modifies the disclosure requirements for fair value measurements in Topic 820, Fair Value Measurement. The amendments are based on the concepts in the FASB Concepts Statement, *Conceptual Framework for Financial Reporting—Chapter 8: Notes to Financial Statements*, which the Board finalized on August 28, 2018. ASU No. 2018-13 is effective for fiscal years beginning after December 15, 2019. Early adoption is permitted. Management is currently assessing the impact that ASU No. 2018-13 will have on the Plan's financial statements.

RECLASSIFICATIONS

Certain reclassifications have been made to prior period amounts to conform to current year presentation.

3 – FAIR VALUE MEASUREMENTS

INVESTMENT VALUATION AND LEVELING

FASB Accounting Standards Codification ("ASC") Topic 820 for Fair Value Measurements and Disclosures provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Significant observable inputs other than quoted prices in active markets for which inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

In establishing a fair value hierarchy for the Plan's investments in accordance with ASC 820, the following methodologies were used for each type of investment:

Pooled separate accounts: Valued at the net asset value ("NAV") of shares held by the Plan at year end, as determined by the Trustee. The NAV, as provided by the Trustee, is used to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This NAV is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the pooled separate accounts, the investment adviser reserves the right to temporarily delay withdrawals from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. There were no unfunded commitments on these accounts at December 31, 2019 or 2018.

3 – FAIR VALUE MEASUREMENTS, CONTINUED

INVESTMENT VALUATION AND LEVELING, CONTINUED

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 3,256,133	$ -	$ 3,256,133
Total investments, at fair value	$ -	$ 3,256,133	$ -	$ 3,256,133

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 2,639,426	$ -	$ 2,639,426
Total investments, at fair value	$ -	$ 2,639,426	$ -	$ 2,639,426

4 – FINANCIAL INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE (UNAUDITED)

The Company has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Company instructed the independent auditors not to perform any auditing procedures with respect to the following information certified as complete and accurate by AXA Equitable Life Insurance Company, as agent of Reliance Trust Company, the Trustee and party-in-interest as defined by ERISA, as of December 31, 2019 and 2018, and for the year ended December 31, 2019, except for comparing such information certified by the Trustee to information included in the Plan's financial statements and supplemental schedules. This information consists of the following:

	2019	**2018**
Investments:		
Pooled separate accounts, at fair value	$ 3,256,133	$ 2,639,426
Fully benefit-responsive investment contract, at contract value	867,580	917,942
Total investments	$ 4,123,713	$ 3,557,368
Notes receivable from participants	$ 190,828	$ 119,351
Interest on notes receivables from participants	$ 8,184	
Net appreciation of fair value of investments	$ 582,907	
Interest income	$ 26	

5 – INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan holds a fully benefit-responsive investment contract with AXA Equitable Life Insurance Company ("AXA Life"). AXA Life maintains the contributions in its general account. AXA Life's general account is credited with contributions and earnings, including interest and dividends, on the underlying investments and is charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. There are no reserves against contract value for credit risk of the issuer, AXA Life, or otherwise.

The Plan or AXA Life can terminate the contract by providing written notice to the other party 30 days prior to the termination date. If the contract were to terminate by the Plan or AXA Life, interest would not be less than the minimum interest rate established in the investment contract. AXA Life may make a market value adjustment upon the Plan's election to terminate the contract with a lump sum distribution, which may result in a distribution that is less than or in excess of contract value.

The crediting interest rate of the contract is based on an agreed-upon formula with AXA Life, as defined in the contract agreement, but cannot be less than 1%. Such interest rates are reviewed on a semi-annual basis for resetting. The key factors that influence future interest crediting rates could include the following: the level of market interest rates; the amount and timing of participant contributions, transfers and withdrawals into/out of the contracts; and the duration of the underlying investments backing the contract.

Certain events might limit the ability of the Plan to transact at contract value with AXA Life. These events may be different under each contract. Examples of such events include the following:

- The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code;
- Employer-initiated events such as early retirement incentives, Plan termination, spin-offs, or mergers;
- Premature termination of the contract;
- Changes to the Plan's prohibition or competing investment options;
- Bankruptcy of the Plan sponsor or other Plan sponsor event (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with AXA Life or that also limited the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow AXA Life to terminate the contract with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

- A Plan change that materially alters the amount of contributions or withdrawals to be directed in or out of the contract;
- A change in the Plan's investment options; or
- A change in the investment philosophy for the Plan's stable value option (or comparable investment option).

6 – TAX STATUS OF THE PLAN

The Plan is based on a volume submitter profit sharing plan with CODA developed by AXA Equitable Life Insurance Company, which received a favorable opinion letter dated March 31, 2014, from the IRS stating that the volume submitter plan constitutes a qualified plan under Section 401 of the IRC. The Plan Administrator believes the Plan, as adopted and amended, is operating within the guidelines of the IRC, and continues to be tax exempt. Accordingly, no provision for federal income taxes has been provided in the accompanying financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the DOL or IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7 – PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by the Trustee; therefore, these transactions qualify as party-in-interest transactions. The Plan issues notes receivable to participants, which are secured by the participant's account balances. These transactions also qualify as party-in-interest transactions. Certain administrative functions of the Plan are performed by an officer or employees of the Company. No such officer or employee receives compensation from the Plan.

8 – RISKS AND UNCERTAINTIES

The Plan provides for various options of investments. Such investments are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities in the near term could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

9 – RECONCILIATION TO THE FORM 5500

There are no reconciling items between the net assets reported in the audited financial statements and the Schedule H of the Form 5500 for the year ended December 31, 2019.

10 – DELINQUENT PARTICIPANT CONTRIBUTIONS

For the year ended December 31, 2018, employee withholdings of $1,267 were late being remitted to the Plan due to unintentional delays.

11 – EXCESS PARTICIPANT CONTRIBUTIONS REFUNDABLE

The Plan failed discrimination testing for the year ended December 31, 2019. As a result, excess contributions payable of $7,892, is recorded as a liability in the accompanying Statement of Net Assets Available for Benefits, and as a reduction to contributions in the related Statement of Changes in Net Assets Available for Benefits.

12 – SUBSEQUENT EVENTS

In accordance with FASB ASC 855, "Subsequent Events," the Plan has evaluated events or transactions occurring after December 31, 2019, the Statement of Net Assets Available for Benefits date, through October 14, 2020, the date the financial statements were ready to be issued, and determined there were no events or transactions that would impact our financial statements as of and for the year ended December 31, 2019, except as follows:

In March 2020, the World Health Organization categorized the outbreak of the SARS-CoV-2 coronavirus ("COVID-19") as a pandemic. The COVID-19 outbreak occurred globally causing significant fluctuations in financial markets in the U.S. and internationally. The extent of the impact on the Plan's net assets, including the fair value of investment securities and related investment income or loss, as well as future contributions, will depend on the duration and continued spread of the COVID-19 outbreak and any other further economic developments. Plan management in unable at this time to estimate the full impact on the Plan's financial statements.

1 – DESCRIPTION OF PLAN

GENERAL

The Savcop, Ltd. 401(k) Plan (the "Plan") is a defined contribution plan, subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan was established and adopted effective January 1, 1996, for the benefit of eligible employees of Savcop, Ltd. and subsidiaries (the "Company" or "Plan Administrator"). AXA Equitable Life Insurance Company, as agent of Reliance Trust Company ("AXA" or "Trustee") holds the Plan's investments and executes investment transactions. AXA Equitable Life Insurance Company ("Recordkeeper" or "AXA") provides record-keeping services and maintains participant accounts for the Plan. The following description provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

ELIGIBILITY AND PARTICIPANT ACCOUNTS

The Plan covers all employees of the Company who are not covered by a collective bargaining agreement. Eligibility requirements are that employees complete one year of service and attain 21 years of age. Entry date into the Plan will begin the first day of the plan year quarter following the date on which eligibility requirements are satisfied. Each participant's account is credited with the participant's contributions, Company contributions and actual earnings thereon. Investment income or loss is allocated based on the ratio of each participant's account balance. Contributions and earnings are allocated among investment options as selected by the participant. Participants may change their investment allocation at any time.

CONTRIBUTIONS

The Plan is funded through employee elective deferrals and Company contributions. A participant may elect to contribute a portion of his or her pretax or post-tax Roth compensation, subject to certain maximum limitations imposed by the Internal Revenue Code ("IRC") ($19,000 for 2019). Employees who are eligible to make elective deferrals under the Plan and who have attained the age of fifty before the close of the Plan year are also eligible to make catch-up contributions subject to the maximum limitation imposed by the IRC ($6,000 for 2019).

The Company may make matching contributions to the account of each eligible participant on a uniform basis equal to a discretionary percentage, to be determined by the Company. Participants must complete 1,000 hours of service during the year, and be employed by the Company on the last day of the Plan year to be eligible for the discretionary matching contributions. The Company's matching contribution for the year ended December 31, 2019, totaled $64,472**.**

The Company is authorized to make Qualified Non-Elective Contributions ("QNECs") and Qualified Matching Contributions ("QMACs") all on a discretionary basis. In order to receive QMAC non-matching Company contributions, a participant must have completed 1,000 hours of service during the year and be employed with the Company on the last day of the Plan year. The aforementioned requirements do not apply to QNECs or if the participant died, became disabled, or terminated employment after normal retirement age. The Company made no discretionary contributions for the year ended December 31, 2019.

INVESTMENT OPTIONS

The Plan provides for participants to direct both their contributions and Company contributions into a variety of pooled separate accounts and an insurance company general investment account in accordance with participant investment elections and the provisions of the trust agreement. Participants should refer to the Plan website for additional fund information.

1 – DESCRIPTION OF PLAN, CONTINUED

DISTRIBUTIONS TO PARTICIPANTS

Upon normal retirement age, death, disability, or termination, a participant's benefits are payable in either installment payments or a lump-sum amount equal to 100% of the participant's vested account balance. Account balances of $1,000 or less at the time of distribution will be cashed out as either an involuntary lump-sum payment or by direct rollover into an individual retirement account.

FORFEITURES

Upon separation from service for any reason other than retirement, participants forfeit any unvested portion of their employer contributions. Forfeitures are used to reduce the Plan's expenses and then used to reduce any future employer contributions. As of December 31, 2019 and 2018, there were unallocated forfeitures of $963 and $861, respectively. Forfeitures are presented as a component of net assets available for benefits. During the year ended December 31, 2019, $322 of forfeitures were used to pay Plan expenses.

VESTING

Participants are immediately vested in elective deferrals and rollover contributions. Vesting in the Company's discretionary matching contributions plus actual earnings, thereon, is based on years of continuous service. Participants vest 20% per year beginning after one year of qualified service and are 100% vested after five years of qualified service or upon occurrence of the participant's retirement, death, or disability, as defined by the Plan document.

NOTES RECEIVABLE FROM PARTICIPANTS

Borrowings are available to all participants. Notes receivable from participants are limited to a minimum of $1,000 up to a maximum of the lesser of $50,000 or 50% of their vested account balance, subject to certain restrictions as defined by the Internal Revenue Service ("IRS"). A one-time origination fee is charged at inception of the note receivable. The notes receivable from participants are secured by the vested balance in the participant's account and bear interest determined by the Plan Administrator. All notes must be repaid within 5 years, unless for the purchase of a primary residence, in which case the repayment period may not exceed 10 years. Repayments are made through payroll deductions and are reinvested in the participant accounts according to individual investment elections. Notes receivable from participants as of December 31, 2019, have interest rates ranging from 4.25% to 6.50% with maturities of January 2020 through December 2034. Notes receivable from participants as of December 31, 2018, have interest rates from 4.25% to 6.25% with maturities of January 2019 through July 2023.

ADMINISTRATIVE EXPENSES

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants or fees paid related to benefits paid to participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

PLAN TERMINATION

Although the Company expects to continue the Plan, the Company may terminate the Plan at any time subject to the provisions of ERISA. In the event the Plan is terminated, each of the participants will have a non-forfeitable 100% vested interest in his or her account balance, including all Company contributions, subject to payment of liquidation costs and expenses.

2 – SUMMARY OF ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

ESTIMATES AND ASSUMPTIONS

The preparation of financial statements in conformity with U.S. GAAP requires the Plan's management to make estimates and assumptions that affect certain reported amounts of assets and liabilities, changes therein, and associated disclosures. Accordingly, actual results may vary from the estimates used in preparing the accompanying financial statements.

PAYMENT OF BENEFITS

Benefits are recorded when paid.

NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent notes receivables from participants are reclassified as distributions based upon terms of the Plan document or loan policy of the Plan.

INVESTMENT VALUATION AND INCOME RECOGNITION

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are stated at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis (see "Note 3 – Fair Value Measurements"). Contract value is the relevant measure attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the provision of the Plan (see "Note 5 – Investment Contract with Insurance Company"). Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The income or loss earned on participant accounts is allocated on a daily basis using the previous day's ending account balance. Net appreciation (depreciation) of fair value of investments includes the Plan's gains and losses on the investments bought and sold, as well as held during the year.

RECENT ACCOUNTING PRONOUNCEMENTS

In August 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2018-13, *Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement*. ASU No. 2018-13 modifies the disclosure requirements for fair value measurements in Topic 820, Fair Value Measurement. The amendments are based on the concepts in the FASB Concepts Statement, *Conceptual Framework for Financial Reporting—Chapter 8: Notes to Financial Statements*, which the Board finalized on August 28, 2018. ASU No. 2018-13 is effective for fiscal years beginning after December 15, 2019. Early adoption is permitted. Management is currently assessing the impact that ASU No. 2018-13 will have on the Plan's financial statements.

RECLASSIFICATIONS

Certain reclassifications have been made to prior period amounts to conform to current year presentation.

3 – FAIR VALUE MEASUREMENTS

INVESTMENT VALUATION AND LEVELING

FASB Accounting Standards Codification ("ASC") Topic 820 for Fair Value Measurements and Disclosures provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Significant observable inputs other than quoted prices in active markets for which inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

In establishing a fair value hierarchy for the Plan's investments in accordance with ASC 820, the following methodologies were used for each type of investment:

Pooled separate accounts: Valued at the net asset value ("NAV") of shares held by the Plan at year end, as determined by the Trustee. The NAV, as provided by the Trustee, is used to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This NAV is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the pooled separate accounts, the investment adviser reserves the right to temporarily delay withdrawals from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. There were no unfunded commitments on these accounts at December 31, 2019 or 2018.

3 – FAIR VALUE MEASUREMENTS, CONTINUED

INVESTMENT VALUATION AND LEVELING, CONTINUED

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 3,256,133	$ -	$ 3,256,133
Total investments, at fair value	$ -	$ 3,256,133	$ -	$ 3,256,133

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 2,639,426	$ -	$ 2,639,426
Total investments, at fair value	$ -	$ 2,639,426	$ -	$ 2,639,426

4 – FINANCIAL INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE (UNAUDITED)

The Company has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Company instructed the independent auditors not to perform any auditing procedures with respect to the following information certified as complete and accurate by AXA Equitable Life Insurance Company, as agent of Reliance Trust Company, the Trustee and party-in-interest as defined by ERISA, as of December 31, 2019 and 2018, and for the year ended December 31, 2019, except for comparing such information certified by the Trustee to information included in the Plan's financial statements and supplemental schedules. This information consists of the following:

	2019	**2018**
Investments:		
Pooled separate accounts, at fair value	$ 3,256,133	$ 2,639,426
Fully benefit-responsive investment contract, at contract value	867,580	917,942
Total investments	$ 4,123,713	$ 3,557,368
Notes receivable from participants	$ 190,828	$ 119,351
Interest on notes receivables from participants	$ 8,184	
Net appreciation of fair value of investments	$ 582,907	
Interest income	$ 26	

5 – INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan holds a fully benefit-responsive investment contract with AXA Equitable Life Insurance Company ("AXA Life"). AXA Life maintains the contributions in its general account. AXA Life's general account is credited with contributions and earnings, including interest and dividends, on the underlying investments and is charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. There are no reserves against contract value for credit risk of the issuer, AXA Life, or otherwise.

The Plan or AXA Life can terminate the contract by providing written notice to the other party 30 days prior to the termination date. If the contract were to terminate by the Plan or AXA Life, interest would not be less than the minimum interest rate established in the investment contract. AXA Life may make a market value adjustment upon the Plan's election to terminate the contract with a lump sum distribution, which may result in a distribution that is less than or in excess of contract value.

The crediting interest rate of the contract is based on an agreed-upon formula with AXA Life, as defined in the contract agreement, but cannot be less than 1%. Such interest rates are reviewed on a semi-annual basis for resetting. The key factors that influence future interest crediting rates could include the following: the level of market interest rates; the amount and timing of participant contributions, transfers and withdrawals into/out of the contracts; and the duration of the underlying investments backing the contract.

Certain events might limit the ability of the Plan to transact at contract value with AXA Life. These events may be different under each contract. Examples of such events include the following:

- The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code;
- Employer-initiated events such as early retirement incentives, Plan termination, spin-offs, or mergers;
- Premature termination of the contract;
- Changes to the Plan's prohibition or competing investment options;
- Bankruptcy of the Plan sponsor or other Plan sponsor event (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with AXA Life or that also limited the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow AXA Life to terminate the contract with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

- A Plan change that materially alters the amount of contributions or withdrawals to be directed in or out of the contract;
- A change in the Plan's investment options; or
- A change in the investment philosophy for the Plan's stable value option (or comparable investment option).

6 – TAX STATUS OF THE PLAN

The Plan is based on a volume submitter profit sharing plan with CODA developed by AXA Equitable Life Insurance Company, which received a favorable opinion letter dated March 31, 2014, from the IRS stating that the volume submitter plan constitutes a qualified plan under Section 401 of the IRC. The Plan Administrator believes the Plan, as adopted and amended, is operating within the guidelines of the IRC, and continues to be tax exempt. Accordingly, no provision for federal income taxes has been provided in the accompanying financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the DOL or IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7 – PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by the Trustee; therefore, these transactions qualify as party-in-interest transactions. The Plan issues notes receivable to participants, which are secured by the participant's account balances. These transactions also qualify as party-in-interest transactions. Certain administrative functions of the Plan are performed by an officer or employees of the Company. No such officer or employee receives compensation from the Plan.

8 – RISKS AND UNCERTAINTIES

The Plan provides for various options of investments. Such investments are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities in the near term could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

9 – RECONCILIATION TO THE FORM 5500

There are no reconciling items between the net assets reported in the audited financial statements and the Schedule H of the Form 5500 for the year ended December 31, 2019.

10 – DELINQUENT PARTICIPANT CONTRIBUTIONS

For the year ended December 31, 2018, employee withholdings of $1,267 were late being remitted to the Plan due to unintentional delays.

11 – EXCESS PARTICIPANT CONTRIBUTIONS REFUNDABLE

The Plan failed discrimination testing for the year ended December 31, 2019. As a result, excess contributions payable of $7,892, is recorded as a liability in the accompanying Statement of Net Assets Available for Benefits, and as a reduction to contributions in the related Statement of Changes in Net Assets Available for Benefits.

12 – SUBSEQUENT EVENTS

In accordance with FASB ASC 855, "Subsequent Events," the Plan has evaluated events or transactions occurring after December 31, 2019, the Statement of Net Assets Available for Benefits date, through October 14, 2020, the date the financial statements were ready to be issued, and determined there were no events or transactions that would impact our financial statements as of and for the year ended December 31, 2019, except as follows:

In March 2020, the World Health Organization categorized the outbreak of the SARS-CoV-2 coronavirus ("COVID-19") as a pandemic. The COVID-19 outbreak occurred globally causing significant fluctuations in financial markets in the U.S. and internationally. The extent of the impact on the Plan's net assets, including the fair value of investment securities and related investment income or loss, as well as future contributions, will depend on the duration and continued spread of the COVID-19 outbreak and any other further economic developments. Plan management in unable at this time to estimate the full impact on the Plan's financial statements.
