Each year, participants may contribute up to 20% of annual compensation, as defined in the Plan, as either pre-tax, Roth 401(k) or after-tax contributions. Each participant's account is credited with the participant's contributions, Company contributions, and allocations of plan earnings. Participant accounts are charged with an allocation of administrative expenses paid by the Plan. Allocations of Company contributions, investment income and administrative expenses are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested accounts.

Investment Options

Participants may direct their contributions into any of the funds offered by the Plan, which are held at T. Rowe Price Trust Company (T. Rowe Price). These funds include a variety of investment options with various objectives and degrees of financial risk. The Plan was amended effective May 16, 2019 to add Eversource Company stock as a Plan investment option.

1. Description of Plan (continued)

Vesting

Participants are immediately vested in their deferral and rollover contributions, including the earnings on those amounts. Vesting in the Company contributions portion of their accounts is based on years of continuous service. Employees hired prior to January 1, 2007 are immediately vested in employer contributions. Employees hired on or after January 1, 2007 are fully vested in employer contributions upon the completion of five years of service. Participants are also fully vested upon reaching normal retirement age, death or total disability.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or one-half of their vested account balance. Loan terms range from 1 to 5 years, except for loans to purchase a primary residence, which may be offered over a term of up to 15 years. The loans are secured by the balance in the participants' accounts and bear interest at a rate commensurate with local prevailing rates, as determined by the plan administrator. The notes currently bear interest from 4.25% to 10.50%. Participants may only have two loans outstanding at any given time. Generally, principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Upon retirement, disability, death or termination of employment, the participant shall become entitled to the total value of his or her vested account. Distributions will be paid in a lump sum or in installments over a number of years, based upon election of the participant or as defined in the Plan or the Code. If a participant terminates employment for any reason and his or her vested account balance does not exceed \$1,000, the plan administrator will automatically distribute such amount in a lump-sum payment to the participant without consent of the participant. If the participant's balance is between \$1,000 and \$5,000, the plan administrator may roll the amount into an individual retirement account on behalf of the participant without the consent of the participant.

The Plan also provides for in-service withdrawals by participants who have attained the age of 59½. Upon financial hardship, a participant is entitled to the value of his or her deferral accounts, but not the earnings thereon, which is payable immediately in a lump-sum distribution.

2. Summary of Significant Accounting Policies

Forfeitures

Forfeitures of employer nonvested contributions are used to reduce the Company's future matching contributions. Forfeited nonvested matching contributions totaled \$44,771 for the year ended December 31, 2019. Unallocated forfeitures at December 31, 2019 and 2018 were \$102,604 and \$60,670, respectively. For the year ended December 31, 2019, forfeitures of \$1,595 were used to reduce employer matching contributions and \$1,242 were used to fund missed contributions and earnings thereon. No forfeitures were used to reduce employer matching contributions or fund earnings on missed contributions for the year ended December 31, 2018.

Basis of Accounting

The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP).

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan's investment in a common collective trust is measured using the net asset value (NAV) per share of the investment as a practical expedient as permitted by Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement and Disclosures* (ASC 820) and ASC 946, *Financial Services – Investment Companies*.

2. Summary of Significant Accounting Policies (continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded on the accrual basis. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits to participants are recorded when paid.

Plan Expenses

Investment-related expenses are included in net appreciation (depreciation) in fair value of investments. Fees related to the administration of notes receivable from participants and distributions are charged directly to the participant's account and are included in administrative expenses. Certain expenses of maintaining the Plan are paid directly by the Company.

The Company, at its discretion, may choose to utilize available forfeiture and/or revenue credits (based on a revenue sharing agreement between the Company and T. Rowe Price) to pay for eligible expenses related to the administration of the Plan, including audit and legal fees. Credits received under this revenue sharing agreement are recognized as Other Income on the Statements of Changes in Net Assets Available for Benefits and may be used to pay certain eligible Plan expenses, or may be allocated to participant accounts at the discretion of the Administrator or the Plan fiduciaries. During 2019 and 2018, \$71,428 and \$70,493 in revenue credits were reallocated back to eligible participant accounts, respectively.

Reclassification

Certain items from the prior year financial statements have been reclassified to conform to the current year presentation.

Risks and Uncertainties

The Plan provides for various investment options. These investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain securities, it is at least reasonably possible that changes in the values of investments will occur in the near term and those changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

3. Certification by the Investment Trustee

Information presented in the accompanying statements and schedule as of and for the years ended December 31, 2019 and 2018 for investments, notes receivable from participants, investment income (loss) and interest income on notes receivable from participants was derived, without audit, from information certified to be complete and accurate by T. Rowe Price, the trustee, as permitted by the election made by the plan administrator under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

4. Fair Value Measurements

Accounting principles generally accepted in the United States of America establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Assets valued using the net asset value practical expedient are not required to be reported within the hierarchy.

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

The following is a description of the valuation methodology used for assets measured at fair value:

Mutual Funds and Common Stock

Mutual funds and common stock are valued at the value of such shares as of the close of business at the end of the year based on quoted active market prices of the underlying investments, and as such, are classified as Level 1 investments.

Common and Collective Trust

The common and collective trust is valued at the net asset value of the units held of the collective trust. The net asset value is used as a practical expedient to estimate fair value.

There have been no changes in the methodologies used at December 31, 2019 and 2018.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

Description	Level 1	Level 2	Level 3	Total
2019				
Investments:				
Mutual funds and money				
market funds	\$67,305,749	-	-	\$67,305,749
Eversource common stock	411,232	-	-	411,232
Common and collective				
trusts*				17,901,450
Total investments at fair value				<u>\$85,618,431</u>

4. Fair Value Measurements (continued)]

2018

Investments:

Mutual funds and money				
market funds	\$52,283,191	-	-	\$52,283,191
Common and collective				
trusts*				17,111,148
Total investments at fair value				<u>\$69,394,339</u>

* Investments measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the hierarchy tables for such investments are intended to permit reconciliation of the fair value hierarchy to the investments at fair value line item presented in the Statement of Net Assets Available for Benefits.

There were no transfers between levels of investments during the years ended December 31, 2019 and 2018.

Investments in common and collective trusts provide for daily liquidity and have no redemption features or other restrictions.

5. Party-in-Interest and Related Party Transactions

Certain plan investments are shares of mutual funds managed by T. Rowe Price or its affiliates. T. Rowe Price is a trustee as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Other parties-in-interest include professional service firms who provide services to the Plan. Certain employees of the Company who participate in the Plan perform administrative services to the Plan at no cost to the Plan. Notes receivable from participants are also party-in-interest transactions.

During 2019 and early 2020, the Plan offered Eversource common shares (Shares) as an investment alternative for participants. The Company is a wholly owned subsidiary of Eversource Energy. The Plan trustee purchased Shares in the open market and allocated the Shares to participants' Plan accounts at the election of participants. As of December 31, 2019, the Plan had investments in 4,834 common shares of Eversource with a cost basis of \$381,542. For the year ended December 31, 2019, the Plan recorded dividend income on common shares of Eversource of \$4,770.

Notes to Financial Statements (continued)

6. Income Tax Status

The Plan obtained its latest determination letter on December 12, 2012 in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Code. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, the plan administrator believes the Plan was qualified and the related trust was tax exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their accounts.

8. Subsequent Events

Subsequent events were evaluated through October 14, 2020, the date the financial statements were available to be issued.

Effective January 1, 2020, the Plan was amended. The amendment increased the participant compensation limit for nonunion employees to 100% of participant compensation, and updated general rules pertaining to hardship withdrawals.

Effective January 31, 2020, the Plan suspended participant contributions to Eversource common shares.

In early March 2020, there was a global outbreak of COVID-19 that has resulted in significant disruptions in the global economy. The COVID-19 pandemic and resulting global disruptions have caused significant economic uncertainty and volatility in financial markets. The impact of COVID-19 continues to evolve rapidly and the Company is not able at this time to estimate its full impact on the Plan's financial statements.

Notes to Financial Statements (continued)

8. Subsequent Events (continued)

On March 27, 2020, the Coronavirus Aid, Relief and Economic Security (CARES) Act was signed into law. The CARES Act contains several provisions that temporarily impact the Plan such as suspending minimum required distributions, increased loan limits and coronavirus-related hardship withdrawal options. The Company has not adopted these provisions and does not expect to adopt them, however is reviewing the provisions currently.
