Note 1: Description of Plan

The following description of the International Bay Clubs, LLC Savings and Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all nonunion employees of International Bay Clubs, LLC (the "Company"). The Plan, effective February 1, 1992, was established to provide a pretax savings plan for nonunion employees under Section 401(k) of the Internal Revenue Code of 1986 ("IRC"). Employees who have reached the age of 21 are eligible for elective deferral into the Plan and may enter the Plan on the first day of eligibility. There is a minimum service requirement of 60 days of service to be eligible for the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and the IRC, as amended.

Contributions

Participants may contribute 100% of their annual wages for up to a maximum amount as prescribed by law. In addition, participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. At the discretion of the Board of Directors, the Company may make matching contributions, additional discretionary contributions, and/or qualified nonelective contributions. For the year ended December 31, 2019, the Board of Directors elected to match 50% of the participant's eligible elective contribution of up to 6% of the participant's pay in a Company-matching account.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings (losses) and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1: Description of Plan (Continued)

Vesting

Participants are immediately vested in their voluntary contributions. The nonelective contributions made by the Company plus actual earnings thereon are based on years of vesting service and are vested as follows:

Years of Vesting Service	Percentage Vested
1	33%
2	66%
3	100%
4	100%
5 or more	100%

Company contributions and earnings shall also become 100% vested if the Plan is terminated or any of the following events should occur: a participant reaches normal retirement age under the Plan, death, or disability of the participant while employed.

Notes Receivable from Participants

Participants may borrow against their Plan account balance within Plan guidelines. Loan terms are at the discretion of the borrower but generally cannot exceed five years. The loan amount can be a minimum of $1,000 but cannot exceed the lesser of (a) one-half of the participant's nonforfeitable interest under the Plan or (b) $50,000. Interest is charged on the outstanding balance at rates determined by the plan administrator based on prevailing interest rates. Principal and interest are paid ratably through biweekly payroll deductions. The loans are secured by the vested account balance in the participant's account.

Benefit Payments

Upon termination of employment, a participant may be entitled to a distribution from the Plan in which the availability of the distribution will depend on the amount of the participant's vested account balance. The participant may elect to take the distribution in any of the following forms: lump-sum payment or transfer, installment payments, or annuity payments. In-service distributions may be permitted for participants who reach 59½ or that have eligible financial hardships.

Forfeitures

Forfeitures of the employee's nonvested portion of the Company's contributions are used to reduce future employer's contributions and administrative expenses. At December 31, 2019 and 2018, forfeited nonvested accounts totaled $18,964 and $47,753, respectively. The Plan used $44,029 of forfeited nonvested accounts to pay employer contributions.

Note 1: Description of Plan (Continued)

Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan. Some administrative expenses incurred by the Plan are absorbed by the Company.

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net realized and unrealized earnings (losses) on investments. Fees related to the administration of participant loans and benefit payments are deducted from the applicable participants' accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("US GAAP"). References to the "ASC" hereafter refer to the Accounting Standards Codification established by the Financial Accounting Standards Board ("FASB") as the source of authoritative US GAAP.

Investment Valuation and Income Recognition

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

At December 31, 2019 and 2018, the fair value of the Plan's investments in pooled separate accounts and common collective trusts is measured using net asset value per share ("NAV") as a practical expedient. Each unit in a pooled separate account invests directly in a unit of the mutual fund. Unit values are calculated based on the observable NAV of the underlying investment in the mutual funds. As further described in Note 12, fair value of the Plan's common/collective trust investments is measured using NAV as a practical expedient.

The Plan's mutual fund investments are stated at fair value at December 31, 2019 and 2018. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 11 for a discussion of fair value measurements.

Note 2: Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition (Continued)

At December 31, 2019 and 2018, the value of the Plan's guaranteed interest contract is measured at contract value, as more fully described in Note 5.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Capital gains and/or losses are reported the day after the trade date.

Net realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for benefits in net realized and unrealized gains on investments.

Brokerage fees are added to the acquisition costs of assets purchased and subtracted from the proceeds of assets sold.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. Delinquent participant loans are reclassified as distributions based upon terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The process of preparing financial statements in accordance with US GAAP requires the use of estimates and assumptions regarding certain types of assets and liabilities, revenues and gains, and expenses and losses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

Note 3: Concentrations, Risks, and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 4: Investments Prepared and Certified by the Trustee

Certain information disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2019 and 2018, and net realized and unrealized losses on investments and interest for the year ended December 31, 2019, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Reliance Trust Company, the trustee of the Plan.

Note 5: Guaranteed Interest Contract

The Plan entered into a guaranteed interest contract (the "Contract"), which is a traditional benefit-responsive investment contract, with Massachusetts Mutual Life Insurance Company ("MassMutual"). MassMutual maintains the contributions in a guaranteed interest account provided through a group annuity contract. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The Contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the Contract is fully benefit responsive, contract value is the relevant measurement attribute to the Contract. Contract value, as reported to the Plan by MassMutual, represents contributions made under the Contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The average yield earned by the Contract and the crediting interest rate paid to participants was 3.00% at December 31, 2019 and 2018.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the Contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with Contract issuers or that would limit the ability of the Plan to transact at contract value with the participants.

Note 5: Guaranteed Interest Contract (Continued)

Under the Contract, a crediting rate is established for a six-month period of time ("rate period"); all assets invested in the Contract are credited with that rate. At the expiration of each rate period, a new crediting rate is declared. MassMutual assumes market, credit, and interest rate risk for the assets supporting the Contract.

MassMutual re-sets Contract rates semiannually, taking into consideration a number of factors, including the following: (1) investment year method experience of the Contract or pool, (2) projected levels of cash flows within the current interest rate environment, and (3) projected maturity of the underlying investments. Contract crediting rates will typically show less volatility than current market rates.

In addition, certain events allow the issuer to terminate the Contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the Contract, (3) a material misrepresentation, and (4) a material amendment to the agreement without the consent of the issuer.

Note 6: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all participants would become fully vested in their accounts.

Note 7: Excess Contributions Payable

ERISA requires the Plan to satisfy certain nondiscrimination provisions. At December 31, 2019 and 2018, the Plan is required to return some contributions in order to satisfy these provisions. As of December 31, 2019 and 2018, the excess contributions payable were $10,454 and $44,590, respectively.

Note 8: Tax Status

The Plan is based on the MassMutual Non-Standardized Prototype Profit Sharing/401(k) Plan, which received a determination letter from the Internal Revenue Service ("IRS"), dated March 31, 2014, stating that the prototype plan was designed in accordance with the provisions of the IRC. The Plan has not yet filed for its own determination letter from the IRS; however, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The related trust, therefore, is not subject to tax under present income tax law.

Note 8: Tax Status (Continued)

US GAAP requires Plan management to evaluate tax positions taken by the Plan and to recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan; it has concluded that as of December 31, 2019 and 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. Plan management believes that the Plan is no longer subject to examination for years prior to 2016.

Note 9: Withdrawn Participants

At December 31, 2019 and 2018, no amounts were allocated to accounts of persons who have elected to withdraw from the Plan but have not been paid.

Note 10: Parties in Interest

The investments in pooled separate accounts and the Contract are managed by MassMutual, the custodian; therefore, these investments qualify as party-in-interest transactions. Additionally, notes receivable from participants represent loans to employees and therefore qualify as party-in-interest transactions. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

Note 11: Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Note 11: Fair Value Measurements (Continued)

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liabilities; or
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There has been no change in the methodology used at December 31, 2019 and 2018.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding method may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 11: Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets, measured on a recurring basis, at fair value as of December 31, 2019:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 1,833,473	$ -	$ -	$ 1,833,473
Investments measured using NAV (Note 12)				7,093,022
Total Investments at Fair Value				$ 8,926,495

Note 12: Net Asset Value per Share

The following table for December 31, 2019, sets forth a summary of the Plan's investments whose fair value is estimated using NAV (or its equivalent) as a practical expedient:

	Fair Value	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Pooled separate accounts	$ 5,004,875	None	Daily	None	None
Common collective trusts	2,088,147	None	Daily	None	None
	$ 7,093,022				

The following table for December 31, 2018, sets forth a summary of the Plan's investments whose fair value is estimated using NAV (or its equivalent) as a practical expedient:

	Fair Value	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Pooled separate accounts	$ 6,721,243	None	Daily	None	None

Note 13: Differences on the Form 5500

The financial statements have been prepared on the accrual basis as required by US GAAP. However, at December 31, 2019 and 2018, the Form 5500 to be filed with the IRS has been prepared on the cash basis.

Note 13: Differences on the Form 5500 (Continued)

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2019 and 2018:

	2019	2018
Net assets available for benefits per the financial statements	$ 12,333,042	$ 9,744,300
Add: Excess contributions payable	10,454	44,590
Net Assets Available for Benefits per the Form 5500	$ 12,343,496	$ 9,788,890

The following is a reconciliation of total increase in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2019:

Total increase in net assets available for benefits per the financial statements	$ 2,588,742
Less: Prior-year excess contributions payable	(44,590)
Add: Current-year excess contributions payable	10,454
Total Increase in Net Assets Available for Benefits per the Form 5500	$ 2,554,606

Note 14: Subsequent Events

Events occurring after December 31, 2019, have been evaluated for possible adjustment to the financial statements or disclosure as of October 14, 2020, which is the date the financial statements were available to be issued.

On January 30, 2020, the World Health Organization ("WHO") announced a global health emergency because of an outbreak of a new strain of coronavirus ("COVID-19"). In March 2020, the WHO classified the COVID-19 outbreak as a pandemic based on the rapid increase of the virus and its global exposure.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. The pandemic has adversely affected global economic activity and greatly contributed to significant deterioration and its instability in financial markets. As a result, the Plan's investment portfolio has incurred a significant decline in fair value since December 31, 2019. Because the values of the Plan's individual investments have and will continue to fluctuate in response to changing market conditions, the amount of loss for subsequent periods, if any, and related impact on the Plan's liquidity cannot be determined at this time.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (the "CARES Act") was signed into law. The CARES Act, among other things, includes several relief provisions available to tax-qualified retirement plans and their participants.

Note 14: Subsequent Events (Continued)

Plan management has evaluated the relief provisions available to Plan participants under the CARES Act and has implemented the following provisions:

- Special COVID-19 distributions of up to $100,000
- An increase in the available loan amount as described in Note 1 to the lesser of $100,000 or 100% of the participant's vested account balance
- An extension period for loan repayments, if applicable, of up to one year
