Note 1. Plan Description

The following description of MTE Employee Savings and Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of Mechanical Tool and Engineering, Inc., Rapid-Air Corporation, and Delta Power Company (collectively the Companies) who have completed 3 months of service. Employees are eligible to participate in the Company discretionary matching contribution and discretionary profit sharing contribution portions of the Plan after having completed one year of service and 1,000 hours. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is administered by management and the plan administrator. They have overall responsibility for the operation and administration of the Plan. Management and the plan administrator determine the appropriateness of the Plan's investment offerings and monitor investment performance.

Contributions: The Plan includes a salary deferral arrangement allowed under Section 401(k) of the Internal Revenue Code (IRC). Eligible participants may contribute a percentage or specified dollar amount, limited by Plan provisions, of their eligible compensation contributed as pre-tax 401(k) or Roth contributions to the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Companies may contribute a discretionary matching amount on behalf of each participant who is employed on December 31 of the Plan year and has a year of service (1,000 hours). The matching contribution for all eligible participants of Delta Power Company was $48,311 for the year ended December 31, 2019, The Companies may also contribute a profit sharing amount, at the discretion of each of the Company's board of directors, to eligible employees who are employed on December 31 of the Plan year and have a year of service (1,000 hours). The profit sharing contribution for all eligible participants of Delta Power Company was $105,862 for the year ended December 31, 2019. There were no matching contributions or profit sharing contributions approved for Mechanical Tool and Engineering, Inc. or Rapid Air Corporation in 2019. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contribution, the participant's Company matching contribution, and an allocation of: (a) the Company' profit sharing contributions, (b) the Plan's earnings, and (c) forfeitures on terminated participants of the same employer's nonvested accounts. Allocations are based on participant eligible employer-specific compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1. Plan Description (Continued)

Vesting: Participants are immediately vested in the amount of their elective contributions and the allocated earnings thereon. Participants' vesting in the Companies' contributions and earnings thereon is based on years of service. A participant is fully vested in the Companies' matching and profit sharing contributions after six years of service. A participant must work at least 1,000 hours during a Plan year to increase the vested portion of the Companies' contributions. A participant is also 100% vested if termination is a result of death, disability, or retirement. The interest of an employee shall vest and become non-forfeitable with the following vesting schedule:

Years of Service	Vested Percentage
Less than 2	0
2	20
3	40
4	60
5	80
6 or more	100

Investment options: Upon enrollment in the Plan, a participant must direct all contributions to selected investments as made available and determined by the Plan administrator. Participants have the option to transfer monies between funds and change the allocation of their investment elections daily.

Notes receivable from participants: Participants may borrow from their fund accounts an amount not to exceed the lesser of $50,000 or 50% of their vested interest in the Plan. The minimum loan amount is $1,000. Loan terms range from one to five years or over a reasonable period of time that may exceed five years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and will bear a reasonable rate of interest. Interest is based on the current prime rate at the time the loan is initiated. Principal and interest are paid through payroll deductions.

Payment of benefits: On termination of service for any reason, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested account balance or regular installments over a period not to exceed their life expectancy. In addition, in-service distributions are allowed at age 59½ and hardship distributions are permitted if certain criteria are met. If a participant terminates employment and the participant's account balance does not exceed $1,000, the Plan administrator will authorize the benefit payment without the participant's consent to be distributed in cash to the participant. If the balance is more than $1,000, an election to receive the benefit must be made.

Forfeited accounts: According to the Plan's provisions, forfeited nonvested accounts may first be used to pay administrative expenses and reinstate prior account balances. Any remaining amount will reduce employer contributions. At December 31, 2019 and 2018, forfeited nonvested accounts were approximately $1,300 and $770, respectively. No forfeitures were used to pay plan expenses or reduce the employer contribution as stated in the plan document during 2019. Accumulated forfeitures will be applied to pay expenses or reduce the employer contribution, if any, in 2020.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Management and the Plan administrator determine the Plan's valuation policies utilizing information provided by the investment custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded for on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based upon terms of the plan document.

Payment of benefits: Benefits paid directly to participants are recorded when paid.

Administrative expenses: Administrative expenses can be paid by either the Company or the Plan. The expenses of maintaining the Plan that are paid directly by the Company are excluded from these financial statements.

Subsequent events: The Plan's management has evaluated subsequent events through October 13, 2020, the date on which the financial statements were available to be issued.

Note 3. Information Certified or Provided by the Trustee, Midland

The following is a summary of the Plan's asset information as of December 31, 2019 and 2018, and for the year ended December 31, 2019, included throughout the Plans' financial statements and supplemental schedule, that was prepared by or derived from information provided by the Plan trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets and income is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	2019	2018
Investments, at fair value:		
Shares of registered investment companies	$ 26,519,609	$ 21,920,146
Notes receivable from participants	687,884	529,949
Accrued dividends and interest	4,059	7,418

Note 3. Information Certified or Provided by the Trustee, Midland (Continued)

The Plan trustee also certified to the completeness and accuracy of $3,432,061 of net appreciation in fair value of investments, $1,169,985 of dividends and interest and $26,454 of interest income on notes receivable from participants related to the aforementioned Plan assets for the year ended December 31, 2019.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Shares of registered investment companies: Shares of registered investment Companies are valued at the daily closing price as reported by the fund. Funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2019 and 2018. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	2019			
	Total	Level 1	Level 2	Level 3
Shares of registered investment companies	$ 26,519,609	$ 26,519,609	$ -	$ -

	2018			
	Total	Level 1	Level 2	Level 3
Shares of registered investment companies	$ 21,920,146	$ 21,920,146	$ -	$ -

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. Plan management evaluates the significance of the transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2019, there were no transfers in or out of Level 3.

Note 5. Related-Party and Party-In Interest Transactions

The trustee provides investment advisory services to the Plan and, therefore, these transactions qualify as party-in-interest. There was approximately $102,000 of fees paid by the Plan participants to the trustee for investment management and distribution and loan fees for the year ended December 31, 2019. The Plan Sponsor paid the remaining administrative expenses to the trustee on behalf of the Plan for the year ended December 31, 2019.

Certain administrative functions are performed by officers or employees of the Companies for which they receive no compensation from the Plan. Certain other administrative expenses are paid by the Company on behalf of the Plan and are excluded from these financial statements.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Companies may discontinue contributions at any time and terminate the Plan subject to the provisions of ERISA and IRC. In the event of Plan termination, the net assets of the Plan are to be allocated to the participants on the basis of their individual account balances.

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of the risk associated with certain investment securities it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8. Income Tax Status

The Plan has adopted a volume submitter profit sharing plan sponsored by Professional Capital Services LLC. The volume submitter plan has received an opinion letter from the IRS as to the volume submitter plan's qualified status. The volume submitter plan opinion letter has been relied upon by the Plan. The Plan has been amended since the volume submitter plan received its opinion letter. However, The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan had taken an uncertain tax position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2019 and 2018:

	2019	2018

Net assets available for benefits per the Form 5500	$ 27,366,282	$ 22,701,019

The following is a reconciliation of the changes in net assets available for benefits per the financial statement to the Form 5500 for the year ended December 31, 2019:

Net increase in net assets available for benefits per the Form 5500	$ 4,665,263

Note 10. Subsequent Events

On January 30, 2020, the World Health Organization declared the coronavirus outbreak a “Public Health Emergency of International Concern” and on March 11, 2020, declared it to be a pandemic. Actions taken around the world to help mitigate the spread of the coronavirus include restrictions on travel, and quarantines in certain areas, and forced closures for certain types of public places and businesses. The coronavirus and actions taken to mitigate the spread of it have had and are expected to continue to have an adverse impact on the economies and financial markets of many countries, including the geographical area in which the Plan sponsor operates.

It is unknown how long the adverse conditions associated with the coronavirus will last and what the complete financial effect will be to the Plan. The Plan’s investments have experienced significant changes in fair values because of volatility in the market in 2020 due to the uncertainty caused by the pandemic.

Additionally, it is reasonably possible that estimates made in the financial statements have been, or will be, materially and adversely impacted in the near term as a result of these conditions, including those related to investment valuations.

On March 27, 2020, the *Coronavirus Aid, Relief, and Economic Security Act* (CARES Act) was enacted to amongst other provisions, provide emergency assistance for individuals, families and businesses affected by the coronavirus pandemic. The CARES Act also provides for certain optional relief measures that can be adopted by qualified retirement plans including increased levels of participant loans for affected individuals for a limited time, and distributions with special tax treatment for affected individuals. Plans must also allow participants who are affected by the coronavirus to suspend loan payments through December 31, 2020, and required minimum distributions for participants over 70 ½ can be omitted for 2020.
